CLASS RANK AND GPA

CLASS RANK

Individual class rank is based on student grade point average, which is calculated using only numerical grades. The class rank is interpreted on a standard GPA scale where each percentage grade is converted, point-by-point, to an equivalent conventional GPA. Although students and parents can calculate the GPA, class rank cannot be calculated because this is where the students stand in comparison to their peers in their respective grade level. All courses taken for credit are incorporated into the class rank calculation at BHS, except for the following: Medical.

VALEDICTORIAN AND SALUTATORIAN

The Valedictorian and Salutatorian of the senior class at BHS will be determined after final exams are graded in June of the senior year. The Valedictorian and Salutatorian positions are based on the grade point average that determines the 1st and 2nd position in rank in class, respectively. If students tie for first position in rank (based on their GPAs taken out to three decimal places), there will be two (2) Valedictorians (Co-Valedictorians) and NO Salutatorian.

GRADE POINT AVERAGE & WEIGHTING CALCULATION

At Barnegat High School, student GPA will be calculated using only numerical grades on a weighted 4.0 point scale. For GPA, grades are converted to a 4.0 grading scale. Every course, whether passed or failed, that receives a numerical grade at BHS counts toward GPA. The highest attainable grade in a course at BHS is a 100. The following weighted factor index will be used for computing the numerical averages:

HONORS	Add .5 to grade point average
ADVANCED PLACEMENT (AP)	Add 1.0 to grade point average
