December 17, 2021

To the Board of Education and the Citizens of Unified School District No. 259

Wichita Public Schools, Unified School District No. 259 (District) is pleased to present the Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2021. The District's Financial Services Department prepared this report, which includes the audited financial statements. Responsibility for the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the District's administrative team and ultimately, the Board of Education.

To the best of our knowledge and belief, the enclosed data is accurate in all material aspects, presents fairly the financial position and results of operations as measured by the financial activity of the various funds, and includes all footnotes and disclosures necessary to gain an understanding of the District's financial activity.

This report conforms to the Governmental Accounting Standards Board's (GASB) financial reporting principles. All disclosures necessary to enable the reader to gain maximum understanding of the District's financial activity have been included. The notes to the financial statements are an integral part of the financial statements and contain certain information not shown on the face of the financial statements that is required to be disclosed under Generally Accepted Accounting Principles. Readers of the financial statements are encouraged to thoroughly review the information contained in the notes in connection with their overall review of the financial statements.

The District is required to undergo an annual single audit in conformity with the provisions of Subpart F of 2 CFR Part 200 "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards." Information related to this single audit is included in a separately issued single audit report.

This report consists of three major sections:

1. Introductory Section – which contains a Table of Contents, Letter of Transmittal, the District's Organizational Chart, List of the Board of Education members, the Shared Beliefs/Objectives, the Governmental Finance Officers Association (GFOA) Certificate of Achievement, and the Association of School Business Officials (ASBO) Certificate of Excellence.
2. Financial Section – which begins with the Independent Auditor's Report and includes Management's Discussion and Analysis (MD&A), the Basic Financial Statements and footnotes that provide an overview of the District's financial position and operating results, the combining statements for nonmajor funds, and other schedules that provide detailed information relative to the Basic Financial Statements.

3. Statistical Section – presents social and economic data, financial trends, and demographic data about the District for the last ten years.

The MD&A immediately follows the Independent Auditors' Report and provides a narrative introduction, overview, and analysis of the Basic Financial Statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

### **Profile of the District**

The District is in Sedgwick County located in south central Kansas. The major city within the District is Wichita with a population of more than 389,000, where approximately 96% of the students reside. The District covers 152 square miles and serves approximately 47,200 students. The District consists of more than 100 schools and other centers.

The District is the largest school District in Kansas. The District provides a full range of school programs and services authorized by state statutes. For the 2021 fiscal year, these services include educational programs for grades K-12, special education, Federal Title programs, pre-kindergarten, career and technical education, bilingual education, virtual education and other educational programs, transportation, nutrition services, health services, support services, and professional development activities for educators. Also, under supervision of the District, individuals and groups may utilize District facilities for community functions.

The District enjoys a richly diverse student population. The student community comes from 100 countries and more than 100 languages are spoken in the homes of District students. Over 76% of students come from homes of poverty, presenting additional challenges for the District to overcome.

The District was established on July 1, 1965. A seven-member elected Board of Education governs the District. The District receives funding from local, state, and federal government sources appropriated annually and must comply with the requirements of these funding source entities. However, the District is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board. The Board of Education members are elected by the public and have policy setting authority, the ability to significantly influence operations, and primary responsibility for fiscal matters.

The District is organized under the laws of the State of Kansas (State). Generally Accepted Accounting principles (GAAP) require that these financial statements present the District (the primary government) and its component units. There are no component units for which the District is financially accountable.

### **Major Initiatives**

Important educational initiatives continued or implemented were:

- The District celebrated its 150<sup>th</sup> anniversary of providing educational services to the students of Wichita by successfully implementing an entirely new learning model called My School Remote (MSR) in response to the COVID-19 pandemic. This learning model had teachers providing online instruction live to students logging in from home via Microsoft Teams. MSR, in addition to the revised Education Imagine Academy Virtual program and the traditional classroom attendance model, offered parents educational choices for their student and allowed the District to pivot between education models as the pandemic risks rose and fell over the course of the year.

## ***Introductory Section***

---

- In a year truly like no other, teachers, administrators and staff discovered innovative ways to serve students safely. As all District students were eligible for free meals for the 2020-2021 school year, Nutrition Services served 4.2 million meals both onsite and remotely. Over 552,500 masks were distributed over the course of the school year, as well as 29,000 containers of anti-bacterial wipes and 24,000 jugs of hand sanitizer. The District installed 425 bottle fillers and changed out 65,000 HVAC filters. Over 49,000 technology devices were distributed to students to allow for remote learning. Internet was provided to over 14,000 families and technology support was made available to students and families either in person or via telephone. Over 40 million Microsoft Teams activities were attended by students and staff as learning in Wichita Public Schools bridged the digital divide.
- The District completed year three of its strategic plan and supported District-wide initiatives for each building and department to align with the District's vision, mission, and long-term goals. The five-year plan focuses on third grade reading proficiency, increasing graduation rates, increasing college and career readiness, and ensuring schools are safe places. As part of its strategic plan, the District completed the second year of transition to a Standards-Referenced Grading (SRG) system. Sixth grade students transitioned to the new grading system during the 2020-21 school year joining Kindergarten through fifth grade. Seventh and eighth grade students will transition in the 2021-22 school year.
- Through the Coronavirus Aid, Relief and Economic Security Act (CARES), the District was allocated over \$17 million in direct federal pandemic relief aid. These funds were primarily focused on technology for staff and students, masks, cleaning supplies, expanded online curriculum licenses and COVID testing. Additionally, Sedgwick County granted the District almost \$2.2 million in federal relief aid for additional technology, and the Kansas Department of Commerce granted the District over \$1.5 million in federal relief aid for student and family internet access.
- The District launched EdVentures, a unique student engagement opportunity offering age-appropriate virtual field trips for pre-K thru 12th grade learners. Over 330 virtual experiences were hosted and 130,000 unique logins were recorded, covering topics ranging from art to science to history and more.
- Twelve North High School students took part in the first year of a new partnership with Airbus, in which the students gained real-world experience in aviation manufacturing by building a plane with the help of Airbus mentors. This is the first program in the newly renovated Future Ready Center just east of the school. The program will expand to reach more students next year.
- In March 2021, twelve of the District's middle schools were invited to participate in the Verizon Innovate Learning (VIL) grant for the 2021-2022 school year. This grant will provide devices, internet access and coaches for each school. VIL schools will receive extensive teacher training, support, and the opportunity to engage in a unique, immersive curriculum to leverage technology in their classrooms.
- The 2020-2021 inaugural year of the District's new eSports program was a great success. The program was offered to middle and high school students at Education Imagine Academy, West, South, Southeast and Northwest High Schools and Marshall,

Coleman, and Hamilton Middle Schools. The eSports program teaches student problem-solving skills, digital literacy, and digital collaboration skills. Southeast High School took two first place finishes and one third place finish in national competitions. Additional schools will be added to the program for the 2021-2022 school year.

- Using additional federal funds, the District offered robust summer learning opportunities for students needing additional support following the end of the 2020-2021 school year. Over 5,000 students were served, with students completing 727.5 credits and over 60 students earning diplomas after completing summer programs. In middle school programs, post-test math scores improved by an average of 19.57%.
- Over the past eleven years, District programs and initiatives have resulted in a 27.6% increase in graduation rates.

### **Financial Information, Management, and Control**

The accounts of the District are reported using fund accounting. A fund is a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances. These funds are segregated according to their intended purpose and is used to aid management in demonstrating compliance with special regulations, restrictions, or limitations. The minimum number of funds is maintained consistent with legal and managerial requirements. Fund descriptions have been provided where applicable.

#### **Management Responsibility**

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. The management of the District is also responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that the assets of the government are safeguarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with Generally Accepted Accounting Principles, and that federal and state financial assistance programs are managed in compliance with applicable laws and regulations. Because of inherent limitations in any internal control structure, errors, irregularities, or instances of noncompliance may nevertheless occur and not be detected.

#### **Legislation**

Below is a brief description of the most significant school finance legislation:

1. Since 1992, school Districts have not had control over the level of ad valorem taxes levied for their General fund. The State sets the General fund tax levy for all Kansas public school Districts. That levy peaked at 37 mills in 1995 and is currently set at 20 mills. However, the first \$20,000 of appraised value for residential property under one ownership is exempt from the General fund tax levy. Prior to FY'15, the revenue from the General fund levy was remitted directly to the school Districts. Legislation now

## ***Introductory Section***

---

requires that the revenue be sent to the State and returned to Districts as State Foundation Aid.

2. School Districts are authorized to create a Supplemental General fund which enables them to spend above the level dictated by the State for the General fund. The District is currently maximizing its Supplemental General fund authority at 33% of the General fund.
3. In 2017 legislative session, the Kansas Legislature passed Senate Bill 19 (SB19) to create a new school finance formula. The new formula structure increased the Base Aid for Student Excellence (BASE) to \$4,006 per full-time equivalent student and included targeted funding for high need student populations (poverty, non-English speaking, at-risk). Given time constraints, the Court allowed SB19 to become law effective July 1, 2017 so that Districts across Kansas could operate and submit budgets under the new formula for FY'18.
4. On October 2, 2017, the Kansas Supreme Court found SB19 to be unconstitutional and gave the Kansas legislature until June 30, 2018 to fix both the funding adequacy and the equity issues that arose in SB19. During the 2018 legislative session, the Kansas legislature added approximately \$522 million to the funding formula phased in over the next five years and fixed the equity violations. On June 25, 2018, the Court found the funding in the formula to still be inadequate but allowed the revised formula to go into effect July 1, 2018. The Court indicated if the legislature addressed inflation within the formula in the 2019 legislative session, lawmakers could bring the K-12 public education financing system into constitutional compliance.
5. During the 2019 legislative session, the Kansas legislature added approximately \$90 million to the funding formula for FY'20 for inflation. On June 15, 2019, the Kansas Supreme Court held that the State's adjustment to the formula substantially complied with the Court's mandate in to address inflation-related issues. The Court retained jurisdiction of the case to ensure continued implementation of scheduled funding.
6. As the focus of the State turned to the COVID-19 pandemic response, very little legislatively occurred during the 2020 legislative session related to school funding. The District lost the Safe and Secure Schools grant and did not receive transportation aid for Career and Technical Education programming for the 2020-21 school year.
7. The 2021 legislative session brought two major changes to school Districts in Kansas. The Kansas legislature placed significant limits on the ability of K-12 schools to provide remote instruction to students, effectively compelling in-person instruction across the State for the 2021-22 school year. The Kansas legislature also passed Senate Bill 13 requiring additional notices and public hearing requirements for school Districts seeking to collect more property tax revenue than the prior year occurring due to increases in assessed valuation.

### **Budgetary Control**

In developing and evaluating the District's accounting control system, consideration is given to the adequacy of internal accounting controls. Accounting control comprises the plan of organization and the procedures and records that are concerned with the safeguarding of assets and the reliability of financial records.

## ***Introductory Section***

---

State statutes require that budgets be legally adopted annually for all funds, unless exempted by a specific statute. All legal operating budgets are prepared using the modified accrual basis of accounting, modified further by the encumbrance method of accounting. Revenues are recognized when cash is received. Expenditures include disbursements, accounts payable, and encumbrances. Encumbrances are commitments for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. All unencumbered appropriations (legal budget expenditure authority) lapse at year-end. Encumbered appropriations are not re-appropriated in the ensuing year's budget but are carried forward until liquidated or canceled. Accordingly, the data presented in the budgetary comparison statements differ from the data presented in the financial statements prepared in accordance with GAAP.

The budget is prepared by fund, function, object, and program. Once the Board adopts the budget, budgetary control is maintained through an online accounting system that includes encumbering estimated expenditures prior to the release of purchase orders to vendors. Purchase orders that exceed available budgeted funds are not released until additional appropriations are made. Monthly budget reports showing orders outstanding and funds available are provided to each manager of a specific location, function, or program.

### **Financial Condition**

In accordance with Governmental Accounting Standards Board (GASB) Statement 34, management is responsible for preparing an MD&A, providing an assessment of the District's finances for 2021. As previously mentioned, the MD&A follows the Independent Auditor's Report.

### **Operating Budget Policy**

For FY'21 the District continued to follow the policy of confirming that current annual revenues were sufficient to support the current annual operating expenditures. The Financial Services department estimated annual revenues by an objective, analytical process. Fees and user charges were reviewed to ensure they were set at a level that fully supported the total direct and indirect costs of the related activities. The District utilized non-recurring revenues for non-recurring purposes rather than for support of on-going operating expenditures. As federal COVID relief funds were granted to support pandemic response expenditures and due to many normal school activities curtailed or suspended completely due to COVID safety concerns, the District was able to add funds to its Contingency Reserve for the second year in a row, increasing the reserve by \$4.9 million.

### **Capital Improvement Budget Policy**

The District's 5-Year Capital Improvement Plan (CIP) is designed to provide District facility improvements now that the District has completed bond work under the Bond Issue Master Plan. FY'21 initiatives focused primarily on deferred maintenance projects, including upgrades to heating, lighting, ventilation and cooling systems, plumbing upgrades, flooring replacement, playground projects, exterior restoration, roofing repairs and window, door and lock replacements in buildings across the District. The District also made capital improvements at the Joyce Focht Instructional Support Center for eSports competitions.

For each of the five fiscal years from FY'17 to FY'21 the Capital Outlay fund has benefited from increases in state aid and additional tax revenues from higher assessed property valuations. The more robust fund balance, combined with air quality projects funded with federal COVID

relief grants, will allow for ongoing vigorous efforts during FY'22 to address deferred maintenance and safety issues.

### **Economic Outlook and Conditions**

#### **District Enrollment**

- The District's enrollment was negatively impacted by COVID-19. As the District started the 2020-21 school year, overall official enrollment declined by 5%, including 22% in Pre-Kindergarten and 9% in Kindergarten. This decline significantly reduced expected new funding for FY'21. New initiatives were put on hold and planned compensation package increases were reduced in response to funding losses in At Risk, High Density At Risk, Career and Technical Education, Bilingual, and Preschool Aged At Risk weightings.
- Enrollment did not rebound as the start of 2021-22 school year, remaining essentially at the same level as FY'21. The District will have to support some expenditures in the FY'22 budget with federal pandemic relief funds.

#### **District Outlook**

Budget reduction measures, stagnant population growth, increase of private and virtual school choices, suburban housing growth coupled with low interest rates and changes to Kindergarten funding at the state level have all contributed to a decreasing enrollment trend which began in FY'16. Enrollment losses have primarily been at the elementary level. Those losses had been somewhat offset by increases in secondary enrollment, virtual and alternative programs. COVID-19 intensified the downward trend, with a loss in FY'21 of 2,621 students. With fear of COVID-19 causing parents to seek other educational alternatives, the District's efforts to attract students have become even more challenging. As the District continues several promotion and program initiatives to attract students to the District, it remains unclear if the District's enrollment will stabilize or if the District will continue to decline in the coming years.

Demographics are also changing. The number of Hispanic students has exceeded the number of non-Hispanic whites to become the largest ethnic group in the District, and this trend is expected to continue in future years. These changing demographics are one of the District's greatest strengths but also present some challenges. The District will continue its focus on improving academic rigor in classrooms to improve student achievement within all demographic groups.

The ability to recruit and retain staff is the most critical need the District currently faces. The District has over 100 paraprofessional vacancies during the 2020-21 school year with no improvement as the 2021-22 school year started. The District is also short of bus drivers, special education teachers, substitutes, and nutrition services workers. Even with higher wages and competitive benefits, qualified candidates are scarce. The District is attacking the problem through several initiatives, including working with the State on licensure relief, hosting job fairs, expanding Para to Teacher programs with local colleges and universities, and increasing referral bonus programs.

Social-emotional trauma impacting student behavior continues to be a barrier to improving student achievement. Pandemic stress, isolation, fear, multiple pivots in and out of remote learning only exacerbated the problem. Some students had not been in-person in more than eighteen months and many students returning to the normal classroom structure have struggled. Staff social-emotional trauma has also been evident, with few substitutes available to support growing teacher absences. The District is using federal pandemic relief funding to add

## ***Introductory Section***

---

behavior health liaisons, counselors, social workers, and school psychologists for students and expanded its employee assistance program for staff. While these resources will hopefully provide some short-term relief, the long-term implications of this trauma have yet to be determined.

The oldest District facility was originally built in 1919, and the average age of all facilities is 57 years. Twenty percent of the District's school buildings have been constructed since 2000. Through the bond elections in 2000 and 2008, the community voiced support of the District's plans for major maintenance, additional class space, and new facilities. Through these bond projects, the District made great strides to bring the facilities up to high standards. Even though the District has some old buildings, all of them have been updated. After nine years of budget cuts, the District was unable to fully support all bond initiatives. Additionally, the District looked to its Capital Outlay fund to support Information Technology needs as monies in other funds were cut. Even with Capital funds being stretched thin, the District is now focused on deferred maintenance needs at all facilities.

### **For the Future**

During the 2021 Economic Outlook Conference, the Wichita State University Center for Economic Development and Business Research projected:

*"With the onset of the novel coronavirus pandemic in the second quarter of 2020, employment declined by 37,600 workers before recovering by 15,000 workers in the third quarter. From the fourth quarter of 2020 to the second quarter of 2021, the area added an additional 2,800 jobs as the recovery continued at a slower rate. As a result, the unemployment rate rose to 19.2 percent in April 2020 and then declined throughout the rest of the year and into 2021, reaching a low of 5.1 percent in June 2021.*

*"The recovery is expected to continue at a modest pace in 2022 as employment is forecast to increase by more than 3,100 workers, an expansion of 1.1 percent. Growth is projected to be relatively consistent throughout the year, adding 300 or more jobs every quarter. The recovery remains somewhat fragile due to supply chain disruptions, tight labor markets, and potential resurgences of the novel coronavirus. Given the weakness in the aerospace manufacturing market in 2020, Wichita will likely continue to have outsized downside risk for the local economy compared to the statewide or national economy.*

*Production sector employment expected to increase 1.1 percent with natural resources and construction leading the growth. The manufacturing sector will also resume growth in 2022. The trade sector is expected to grow .9 percent with transportation and utilities projected to grow 1.8%. Retail trade is forecast to expand .7 percent, but the industry is expected to remain below pre-recession peak for a number of years. The service sectors are forecast to grow 1.3 percent and are projected to represent 58.6 percent of all area employment growth. The leisure and hospitality sector is expected to add 1200 jobs, and the professional and business sector is forecast to have the second-fastest growth among service sectors at 1.1 percent. The governmental sector is projected to add fewer than 200 jobs for growth of .4 percent."*

In its seventh *Gannon vs. the State of Kansas* decision in 2019, the Kansas Supreme Court ruled that with additional funding for inflation, the school finance formula was now reasonably calculated to meet the minimum standards under the Kansas Constitution to provide adequate

## ***Introductory Section***

---

education for K-12 students. The Kansas legislature has continued to fund the formula as stipulated in Gannon. While these actions would seem to have brought an end to the litigation cycle, threats to school funding still exist. Future legislative action to revise the formula, recessionary pressures that put the overall state budget at risk, and a possible constitutional amendment to strip or water down Article VI could threaten the current stability in the District's long-term financial outlook.

### **Independent Audit**

The District is required under state law to have an annual audit of the books of accounts, financial records, and transactions by an independent certified public accounting firm. This requirement has been complied with, and the auditors' report is presented in the financial section of this report. The auditors' report related specifically to the single audit of federal financial assistance programs is available by separate cover.

### **Awards**

The GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2020. This certificate of achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. The same ACFR also earned the ASBO Certificate of Excellence Award. Both certificates are awarded only to governmental units that publish an easily readable and efficiently organized ACFR. Such an ACFR must comply with both Generally Accepted Accounting Principles and applicable legal requirements.

Both a Certificate of Achievement and a Certificate of Excellence are valid for a period of one year only. We believe our current report continues to conform to the requirements of both certificate programs, and we will again submit it for recognition.

### **Acknowledgments**

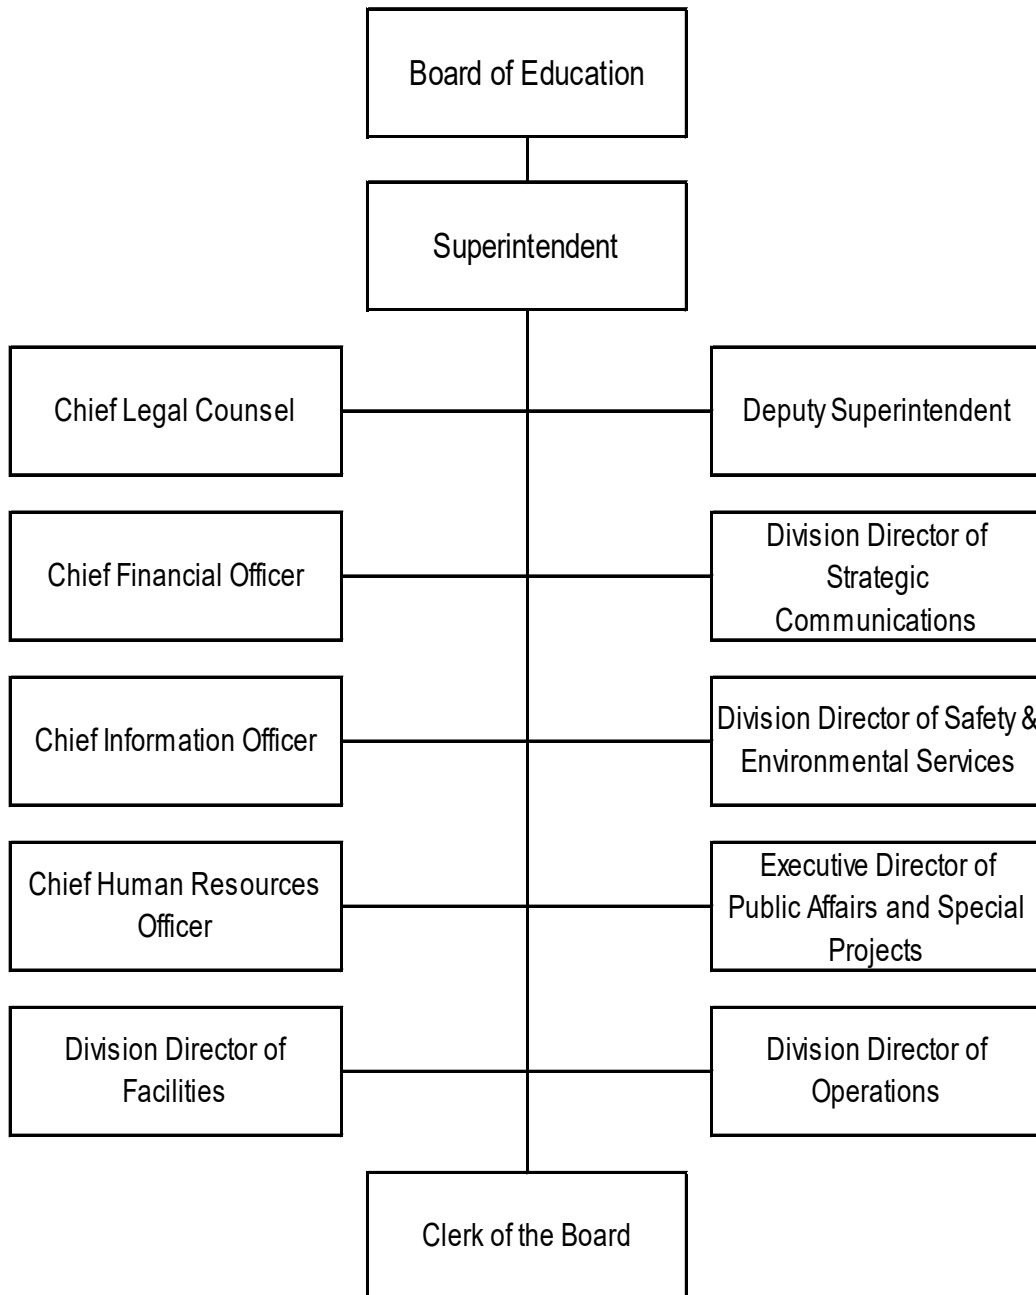

The timely preparation of this ACFR could not have been completed without the dedicated efforts of the Financial Services department. We would like to express our gratitude to everyone who assisted in its preparation. We also extend our appreciation to our independent auditors, Allen, Gibbs & Houlik, L.C., for their assistance, expertise, and professionalism. We also commend the Board for their interest and support in planning and conducting the financial operations of the District in a responsible and progressive manner.

Respectfully submitted,

### **SUPERINTENDENT OF SCHOOLS**

Dr. Alicia Thompson

EVERY  
STUDENT

**FUTURE READY**

THE WPS STRATEGIC PLAN | 2018-2023

## VISION

Wichita Public Schools will be the district of choice in our region, where all students and staff are empowered to dream, believe and achieve.

## MISSION

Wichita Public Schools prepares all students to achieve college, career and life readiness through an innovative and rigorous educational experience.

## LONG-TERM GOALS

**1**

Increase the high school graduation rate.

**2**

Increase 3rd grade reading proficiency.

**3**

Increase the percentage of students completing dual credit, concurrent credit, industry certification or other college and career readiness opportunities.

**4**

Ensure that schools are trusted as safe places by students, parents, staff and community.

## **SHARED BELIEFS**

### **Student Success**

- Each student has value and worth and deserves a high-quality education that develops their natural skills, abilities and talents.
- Each student can and will learn, and it is worth the effort to ensure that learning occurs.
- High expectations are essential for success.

### **Safety and Belonging**

- Each student should be valued and understood.
- Everyone has worth and dignity and is treated with respect.
- A safe, quality learning experience is essential for every child, every day, everywhere.

### **Family and Community Collaboration**

- All staff, families, students and community partners are responsible for students' academic, social and behavioral success.

### **Visionary Leadership**

- Our culture will encourage innovation and taking risks.
- Effective, accountable leaders attract and retain top talent leading to positive student outcomes.
- Change is inevitable and necessary; our response is intentional.

### **Civic Engagement**

- Public education is the foundation of functional citizenship, financial well-being, and productive participation as a member of our society.

### **Equity and Diversity**

- Our students have a richer experience because they learn in a diverse environment where the world walks in our hallways.
- All students should have access to research-based, rigorous, culturally-relevant curriculum programs.
- Every student is entitled to adequate, equitable opportunities, resources and services.

Government Finance Officers Association

Certificate of  
Achievement  
for Excellence  
in Financial  
Reporting

Presented to

**Wichita Public Schools Unified School District No. 259  
Kansas**

For its Comprehensive Annual  
Financial Report  
For the Fiscal Year Ended

June 30, 2020

*Christopher P. Morrell*

Executive Director/CEO

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Wichita Public Schools for the Annual Comprehensive Financial Report for the fiscal year ended June 30, 2020. This was the twenty-ninth consecutive year that the District has achieved this prestigious award.

To be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must comply with both Generally Accepted Accounting Principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The Association of School Business Officials (ASBO) awarded a Certificate of Excellence in Financial Reporting to the Wichita Public Schools for the Annual Comprehensive Financial Report for the fiscal year ended June 30, 2020. This was the twenty-ninth consecutive year that the District has achieved this prestigious award.

The Certificate of Excellence is an award of recognition granted by the Association of School Business Officials of the United States and Canada. The award certifies that the recipient school system has presented its Annual Comprehensive Financial Report to the ASBO Panel of Review for critical review and evaluation and that the report was judged to have complied with the principles and practices of financial reporting recognized by ASBO. The Certificate of Excellence is issued for a period of one year.

Receiving the award is recognition that a school system has met the highest standards of excellence in school financial reporting. We believe the current report continues to conform to certificate of Excellence program requirements, and we are submitting it to the ASBO to determine its eligibility for another certificate.

# Financial Section

## INDEPENDENT AUDITOR'S REPORT

The Board of Education  
**Wichita Public Schools**  
**Unified School District No. 259**

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Wichita Public Schools Unified School District No. 259 (District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the Kansas Municipal Audit and Accounting Guide, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Emphasis of Matter***

As discussed in Note 1.C. to the financial statements, in 2021 the District adopted Governmental Accounting Standards Board Statement No. 84, *Fiduciary Activities*. Our opinions are not modified with respect to this matter.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information listed on the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Supplementary and Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund statements and schedules and the introductory and statistical sections as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## **Management's Discussion and Analysis**

This Management's Discussion and Analysis is provided by the management of the Wichita Public Schools Unified District No. 259 (District) to offer an overall review of the District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the District's financial performance as a whole, identify changes in position as well as to provide basic financial statements. Readers should also review the transmittal letter, notes to the basic financial statements, and financial statements to enhance their understanding of the District's financial performance.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

## **Financial Highlights**

As part of the response to *Gannon v. State of Kansas*, the Kansas Legislature's amended Kansas School Equity and Enhancement Act increased the Base Aid for Student Excellence (BASE) from \$4,436 to \$4,569 per pupil. A fall enrollment decline of 5% in FY'21 offset much of the per pupil increase as parents sought safer options for their students following pandemic-related school shutdowns in the spring of 2020. The District received \$4.7 million more in General funds, including \$2.5 million in additional special education aid. The State is only funding 72% special education excess costs instead of the state statutory level of 92% of excess costs, a decrease of over 3%, as increases in expenses outpace the increases in aid. The FY'21 Supplemental General fund state aid increased by \$7 million as the District exercised its full 33% authority allowed by statute. Exercising this authority increased the mill levy from 15.862 mills to 17.046 mills, and the Supplemental General fund overall increased by \$13 million.

The District was the recipient of a third Mental Health grant for FY21 through the Kansas Department of Education. This grant, totaling \$1.3 million, funded mental health liaisons for twenty-one schools to address the growing challenge of social-emotional needs across the District.

In February 2021, the Kansas Department of Education (KSDE) announced the allocations of the second Elementary and Secondary School Emergency Relief (ESSER II) funds through the Coronavirus Response and Relief Supplemental Appropriations (CRSSA) Act to address the impact of COVID-19 on elementary and secondary schools. The District was allocated \$75.5 million. KSDE also awarded its first ESSER II special education allocation of \$1.2 million to specifically address needs of that student population. The District has until September 2023 to spend these funds.

In May 2021, KSDE announced the allocations of the third Elementary and Secondary School Emergency Relief (ESSER III) funds through the American Rescue Plan (ARP) Act to address the impact of COVID-19. The District was allocated \$169.7 million. The District has until September 2024 to spend these funds.

With some students attending school in person and others attending school remotely, and with COVID restrictions in place for most of the school year, the District realized savings in FY'21 in student transportation, fuel, utilities, unfilled positions, travel, professional development and supplemental wages. The District transferred unspent cash at June 30, 2021 to Pre-Kindergarten, At-Risk, Bilingual, and Vocational funds to support FY'22 needs. The District also transferred funds to Capital Outlay to support the significant investment in technology needed during the pandemic. Additionally, the District was able to increase its Contingency Reserve by over \$4.9 million to \$31.6 million.

### **Overview of the Financial Statements**

The basic financial statements of the District include the government-wide financial statements and the fund financial statements. The notes to the financial statements follow the basic financial statements and are essential for the reader's understanding of the financial statements. Other supplementary information is also included at the end of this report to provide additional information for the reader.

- ✓ The first two statements are *government-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- ✓ The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the government-wide statements.
  - The *governmental funds statements* tell how basic services such as regular and special education were financed in the *short-term*, as well as what remains for future spending.
  - The *proprietary funds statements* provide information on internal service activities which manage multiple types of risk for the District.
  - *Fiduciary funds statements* provide information about the financial relationships in which the District acts solely as a *trustee* or *agent* for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data.

Users of the report have an opportunity to compare the net position of the Wichita Public Schools to other entities using the government-wide financial statements. Those users can address relevant issues and broaden the basis of comparison (year-to-year or government-to-government) to enhance the District's accountability.

### **Government-Wide Financial Statements**

The government-wide statements report information about the District as a whole using the accrual basis of accounting, the method used by private-sector companies. The Statement of Net Position includes all District assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All current year revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide statements report the District's *net position* and how it has changed. Net position – the difference between the District's assets and deferred outflows and the liabilities and deferred inflows – is one way to measure the District's financial health or *position*.

- ✓ Over time, increases or decreases in the District's net position is an indicator of whether its financial position is improving or deteriorating, respectively.
- ✓ To assess the District's overall health, you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are divided into two categories:

- ✓ *Governmental activities:* The District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state aid finance most of these activities.
- ✓ *Business-type activities:* The District does not have any business-type activities.

### ***Fund Financial Statements***

A fund is a fiscal entity with a set of self-balancing accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Wichita Public Schools, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The fund financial statements provide more information about the District's most significant funds – not the District as a whole. All funds of the Wichita Public Schools can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- ✓ *Governmental funds:* Governmental fund financial statements are prepared on the modified accrual basis. Under the modified accrual basis, revenues are recognized when they become measurable and available, and expenditures are recognized when the related fund liability is incurred, except for long-term debt and other similar items which are recorded when due. The focus, therefore, is on the short-term financial picture of the operations reported, rather than the District as a whole. Most of the District's basic operations are reported in the governmental fund financial statements. The information reported in these statements can be compared to the governmental activities information in the government-wide statements. The reconciliation at the end of the fund financial statements details the relationship between the two types of financial statements.
- ✓ *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are prepared on the accrual basis of accounting. The District's internal service funds report activities that provide supplies and services for its other programs and activities. The District currently has the following four internal service funds: the workers' compensation fund, the disability fund, the health fund, and the risk management fund.
- ✓ *Fiduciary funds:* Fiduciary funds are used by the District to account for resources held by the District for the benefit of a third party. Because the resources of these funds are not available for the District's operation, they are not presented in the government-wide financial statements. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong.

### **The District as a Whole**

Table 1 reflects the net position of Wichita Public Schools as of June 30. The District's overall financial position increased \$43,073,043. The improvement in net position is the net effect of several changes, as explained in the following bullets:

- Current and other assets decreased \$57.5 million primarily because the restricted cash balance decreased in the Bond and Interest fund. In October 2020, the District used the crossover refunding bond proceeds from the Series 2017-A bonds to pay the principal and interest of the refunded Series 2010-B bonds. The \$110.5 million decrease in restricted cash was partially offset by increased cash balances in all funds. As a result of the District operating in partial remote status for most of the 2020-2021 school year with COVID-19 restrictions in place, coupled with the use of federal pandemic aid to meet COVID-19 supply needs, the District's operating expenditures were lower than a typical school year with normal attendance and activities. COVID-19 fears also made hiring teachers, substitutes and paraprofessionals difficult, leaving unspent cash available in almost every fund for use in FY'22. Receivables also increased by \$8.5 million primarily due to an increase of \$4 million in intergovernmental receivable related to ESSER fund reimbursements recorded in the Supplemental Grants – Federal fund and a \$4.7 million increase in state aid receivable.
- Capital assets decreased slightly as new capital projects took a back seat to COVID-19 response and other deferred maintenance needs.
- The changes in deferred outflows increased \$51.5 million mostly due to the \$43.8 million increase in the proportionate share of KPERS. The District's deferred outflows for OPEB also increased by \$8 million primarily due to changes in actuarial experience.
- Current liabilities increased by almost \$17.3 million with increases in both accounts payable and accrued payroll. The District's new ERP system was shut down more than a week earlier than usual to close the first fiscal year-end post-implementation, resulting in almost \$13.6 million more in accounts payable than last year. Accrued payroll was also higher by \$4.5 million as the District was operating robust summer school to help students with learning loss due to COVID-19 remote learning.
- The \$1.3 million increase in long-term liabilities due within one year is due in part to increased bond principal payments due for Series 2013-A and 2015-A bonds.
- Long-term liabilities due in more than one year decreased due primarily to the \$125.1 million reduction in general obligation bonds from the crossover refunded bond payoff. This decrease was partially offset by a \$75.5 million increase in the District's proportionate share of KPERS collective net pension liability.
- Deferred inflows decreased almost \$12.7 million as the deferred inflows-pension decreased \$19.9 while the deferred inflows-OPEB increased over \$7.2 million, both due to changes in actuarial experience and assumptions, as well as changes in the proportionate share of KPERS collective net pension liability previously referenced.
- The \$11.1 million increase in net position reflecting the net investment in capital assets is due to increasing debt service payments.
- The \$7 million increase in net position restricted for instruction and support services and the \$5.9 million in net position restricted for Special Education resulted from unspent salary savings retained in funds for use in FY'22.
- The \$.5 million decrease in net position restricted for nutrition services fund is a result of lost revenue during the shutdown period. While the District operated its meal service, over one million fewer meals were served compared to when school is in normal operation.

- The \$2.9 million increase in net position restricted for facilities and capital projects is a result of additional cash available from increased tax revenues, support from the General fund for technology and \$4.3 million from the federal E-Rate program to reimburse the District for approved internet access expenditures.
- The \$8 million increase in net position restricted for debt reflects the increased cash accumulated to pay off bond series 2013-A in October 2021.
- The \$2.9 million decrease in net position restricted for self-insurance reflects increased claims expenditures and reserve requirements for workers' compensation.

Interest on long-term debt	14,053,937	18,206,669	-22.81%
Total Expenses	<u>\$ 708,873,669</u>	<u>\$ 649,834,377</u>	<u>9.09%</u>
Increase/(Decrease) in Net Position	\$ 43,073,043	\$ 82,166,015	-47.58%
Net Position-Beginning	186,835,941	104,669,926	78.50%
Net Position-Ending	<u>\$ 229,908,984</u>	<u>\$ 186,835,941</u>	<u>23.05%</u>

- Receipts in Nutrition Services decreased as all students were provided meals for free and student fee collections fell as activities were impacted by COVID-19 restrictions resulting in a \$4.3 million decrease in charges for services.
- Revenues in operating grants and contributions increased almost \$12 million primarily due to increased federal funds to address COVID-19 which were primarily used to purchase instructional technology for students to participate in remote learning.
- The \$5.8 million increase in property taxes is due to an increase in assessed valuation from calendar year 2019 to 2020 and the increased mill levy in the Supplemental General fund.
- The \$11.5 million increase in state and federal aid not restricted to specific purposes is due to the 3.0% increase in the base state aid per pupil and additional state aid in the

Supplemental General fund. Because the District is declining in enrollment, actual base state aid received is less than the base aid per pupil increase.

- State aid received for debt service increased \$1.5 million as the District's principal payments due increased in FY'21.
- Other revenues are primarily earnings on investments. Due to interest rates dropping in early 2020 and remaining low through 2021, investment earnings alone decreased by almost \$5.9 million.
- Nutrition Services expenses decreased as the District served fewer meals while some students were in remote learning, resulting in lower food and labor costs.
- Spending freezes were implemented during the last four months of FY'20 at the beginning of the pandemic. Freezes were lifted for FY'21 as student either returned to the classroom or chose remote learning. Almost all program expenses except Nutrition Services and the interest on long-term debt increased as the District provided instructional services for the entire school year.

The results of this year's operations as a whole are reported in the Statement of Activities on page 32. All expenses are reported first. Specific charges for services, grants, revenues, and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues.

### **The School District's Funds**

At June 30, 2021, the District governmental funds reported a combined fund balance of \$247.1 million, a decrease of \$78.2 million from FY'21. Increases in cash in most funds were offset by the decrease in the Bond and Interest fund balance. Reasons for specific fund changes are discussed below.

**Table 3**  
**Governmental Fund Balances**  
**As of June 30 Year End**

<u>Governmental Funds</u>	<u>2021</u>	<u>2020</u>	<u>Change %</u>
General	\$ 60,724,428	\$ 48,205,156	25.97%
Special Education	19,321,008	14,896,467	29.70%
Nutrition Services	14,262,339	15,302,818	-6.80%
At Risk (K-12)	4,949,016	849,552	482.54%
Supplemental Grants – Federal	(351,814)	136,117	-358.46%
Capital Outlay	59,509,441	56,679,826	4.99%
Bond and Interest	77,396,126	170,288,215	-54.55%
Nonmajor Governmental	11,300,291	18,994,191	-40.51%
Total Governmental Fund Balances	<u>\$ 247,110,835</u>	<u>\$ 325,352,342</u>	<u>-24.05%</u>

**General Fund**

The District's ending General fund balance increased by \$12.5 million primarily due to additional cash reserves placed in the Contingency Reserve fund, the Professional Development fund, and the Textbook Rental fund at the end of FY'21 to address learning loss and other COVID-related issues for FY'22. Funds remaining in the Supplemental General fund will be used to offset the mill levy in FY'22.

**Special Education Fund**

The Special Education fund increased by \$4.4 million as the District struggled to hire special education paraprofessionals and other staff. The \$19.3 million FY'21 ending fund balance will enable the District to fund the FY'22 program until state aid is received in October and cover unique expenditure needs related to special education learning loss and on-site safety. Since Special Education is a special revenue fund, all fund balances are restricted for special education purposes.

**Nutrition Services Fund**

The Nutrition Services fund declined \$1 million as fewer meals were served during the shutdown period leading to revenue losses as previously noted. Since this fund is a special revenue fund, all fund balances are restricted for expenditures related to child nutrition.

**At Risk (K-12)**

The At Risk (K-12) fund balance increased in FY'21 by \$4.1 million due to the hiring challenges previously mentioned and because the District used federal COVID relief funds for summer programming serving at risk students. The At Risk (K-12) is a special revenue fund. Fund balance is restricted for expenditures related to students considered to be at-risk.

**Supplemental Grants – Federal**

The Supplemental Grants – Federal fund was added as a major fund in FY'20 due to the \$17.9 million in CARES funding granted to the District in April 2020. As the District was granted two additional federal relief packages totaling \$245.2 million during FY'21, the fund will continue to be a major fund. As federal funds are drawn down as a reimbursement, the actual fund balances will be relatively small or negative.

**Capital Outlay Fund**

The District has the authority to levy up to 8 mills in the Capital Outlay fund. The District levied 8 mills during the FY'21 budget process to take full advantage of the state aid.

The Capital Outlay fund balance increased \$2.8 million in FY'21. The District spent Capital Outlay reserves in FY'21 to address safety issues in buildings, resulting in almost \$8.9 million more in expenses compared to last year. To cover some of the unique operational expenses, the District transferred \$7 million to Capital from the General fund and used federal COVID relief to reimburse technology expenses. The additional funds in the Capital Outlay fund at the end of FY'21 will allow for additional reserves to be budgeted for FY'22 with students returning to in-person instruction.

The Capital Outlay fund balance is restricted to furnishing, equipping, improving, repairing, acquiring, and constructing buildings and sites, as well as to purchase software and pay for maintenance.

### ***Bond and Interest Fund***

This fund is used to make principal and interest payments on the long-term debt obligations of the District authorized by the 2008 bond election. The fund balance in the Bond and Interest fund decreased \$92.9 million due to payment of the crossover refunded Series 2010-B bonds previously mentioned.

### ***General Fund Budgeting Highlights***

The District's budget is prepared according to state statutes and uses the statutory basis of accounting, in which revenues are recognized when cash is received and expenditures include disbursements, accounts payable, and encumbrances. The most significant budgeted fund is the General fund.

Kansas Statutes permit transferring budgeted amounts from one object or purpose to another within the same fund; however, such statutes prohibit creating expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Management may amend the amount of a specific object or purpose appropriation without obtaining authorization from the Board of Education, providing the amendments or transfers do not create a total budgeted expenditure amount for a specific fund in excess of the amount originally adopted by the Board.

The District's total General fund budget was not amended in FY'21. However, the final legal maximum budget was significantly reduced from \$395,232,697 to \$383,535,263, by the Kansas State Department of Education, due to COVID-related enrollment loss and lower than anticipated final audited enrollment.

The District's ending unobligated cash balance in the General fund was \$0, the same as the final budgeted fund balance amount.

## **Capital Assets and Debt Administration**

### ***Capital Assets***

At the end of the fiscal years 2021 and 2020, the District had \$760,663,156 and 769,168,100, respectively, invested in capital assets (net of depreciation). The FY'21 decreases in building and improvements as well as machinery and equipment are primarily attributable to increasing accumulated depreciation. Limited capital asset additions occurred as the District focused primarily on deferred maintenance projects. Construction in progress increased \$3.1 million as the District continued roof, HVAC, and window replacement projects in various schools. Land improvements increased as the District completed turf and track replacements around the District. Intangibles increased due financial enterprise resource management software licenses purchased for District-wide use.

**Table 4**  
**Capital Assets - Net of Depreciation**  
**Governmental Activities**

	2021	2020	Change %
Land	\$ 20,810,003	\$ 20,810,003	0.00%
Land Improvements	32,420,545	28,367,568	14.29%
Intangibles	5,005,630	4,308,899	16.17%
Construction in progress	17,683,174	14,523,049	21.76%
Buildings and improvements	673,977,889	687,954,168	-2.03%
Machinery and equipment	10,765,915	13,204,413	-18.47%
Total capital assets - net of depreciation	<u>\$ 760,663,156</u>	<u>\$ 769,168,100</u>	<u>-1.11%</u>

Additional information about the District's capital assets can be found in Note III.B. of the Notes to the Financial Statements.

### **Debt**

At June 30, 2021, the District had \$305,450,000 in bonds outstanding and \$8,095,000 in notes from direct placements. Table 5 summarizes debt outstanding.

**Table 5**  
**Governmental Activities**  
**Outstanding Debt, at Year End**

	2021	2020	Change %
General Obligation Bonds	\$ 305,450,000	\$ 430,575,000	-29.06%
Notes from direct placements	8,095,000	10,725,000	-24.52%
Total Outstanding Debt	<u>\$ 313,545,000</u>	<u>\$ 441,300,000</u>	<u>-28.95%</u>

Outstanding bonds are related to the November 2008 bond election, where voters approved \$370 million in bond improvements. The outstanding balance in FY'20 included the 2017-A General Obligation Refunding Bond proceeds which were be used in FY'21 to refund \$100 million of the Series 2010-B bonds as previously noted. All bonds have been sold and all construction is substantially completed. During FY'21, the District paid \$125,125,000 in scheduled bond principal payments.

On June 30, 2020, the District entered into financed lease purchase agreement to purchase laptops for student use, which is considered a direct placement debt issuance. During FY'21, the District paid \$2,630,000 in scheduled lease payments.

The ratio of net bonded debt to estimated actual value and the net bonded debt per capita are useful indicators of the District's debt position. The net bonded debt to estimated actual value decreased from 2.07% in FY'20 to 1.29% in FY'21, and the net bonded debt per capita

decreased from \$1,004 to \$653. Additionally, net bonded debt per pupil decreased from \$7,855 in FY'20 to \$5,415 in FY'21.

The District was assigned a credit rating of Aa2 during FY'18, which is unchanged from the last rating action in 2015. For more information on the District's debt administration, please refer to Note III.C. of the Notes to the Financial Statements.

### **Other Potentially Significant Matters**

The following significant facts were known by management as of the date of the independent auditor's report:

- In July, the District was notified of the final Title IA allocation for FY'22 in the amount of \$22.7 million and the Title IIA allocation of \$2.3 million for FY'22. The District also received notice of the Special Education IDEA VI-B allocation for FY'22 in the amount of \$11.4 million for the 3-5 Early Childhood and 3-21 Pass Through programs.
- In September, the District was awarded \$5.7 million of ARP funds from the Kansas Department of Health and Environment to use for COVID-19 testing, vaccinations, and nursing support.
- During the fall 2021, the District was awarded \$3.7 million in two Child Care Sustainability grants to support the District's latchkey programs as part of the Hero Relief Child Care Assistance Program administered by Child Care Aware of Kansas in partnership with the Kansas Department for Children and Families. All funds must be spent by February 28, 2022.
- In November, three incumbent Board of Education members were unseated in the general election. New board members will take office in January 2022.

### Wichita Public Schools Unified School District No. 259 Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position June 30, 2021

Amounts reported for governmental activities in the statement of net position are different because:

**Total fund balance -- governmental funds** \$ 247,110,835

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Cost	\$ 1,238,253,393	
Accumulated Depreciation	<u>(477,590,237)</u>	760,663,156

Other deferred outflows of resources are not due and payable in the current period and therefore are not reported in the funds:

Deferred Refunding on Bonds Payable	101,966	
Deferred outflows - pension	169,287,297	
Deferred outflows - OPEB	<u>12,635,070</u>	182,024,333

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds.

General Obligation Bonds Payable	(305,450,000)	
Premium on Bonds Payable	(6,350,542)	
Discount on Bonds Payable	351	
Notes from Direct Placements	(8,095,000)	
Accrued Interest Payable on the Bonds	(3,474,125)	
Early Retirement Program	(28,716,431)	
Compensated Absences	(12,289,000)	
Total OPEB Liability	(12,337,186)	
Net OPEB Liability	(27,350,452)	
Net Pension Liability	(558,777,110)	
Environmental Liability	<u>(2,391,890)</u>	(965,231,385)

Other deferred inflows of resources do not increase net position until a future period and therefore are not reported in the funds.

Deferred inflows - pension	(27,653,403)	
Deferred inflows - OPEB	<u>(12,840,003)</u>	(40,493,406)

Medicaid accounts receivable is not considered available to liquidate liabilities of the current period, and is therefore deferred in the funds. However, it is recognized as revenue in the entity-wide statements as soon as the related service has been provided.

5,287,819

Interest expense subsidy receivable is not considered available to liquidate liabilities of the current period and is therefore deferred in the funds. However, it is recognized as revenue in the entity-wide statements as soon as the related service has been provided.

678,585

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The assets and liabilities of internal service funds are included in governmental activities in the statement of net position.

39,869,047

**Total net position -- governmental activities** \$ 229,908,984

*The accompanying notes are an integral part of the basic financial statements.*

### Wichita Public Schools Unified School District No. 259 Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2021

Amounts reported for governmental activities in the statement of activities are different because:

**Net change in fund balances -- total governmental funds** **\$ (78,088,987)**

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded the amount of assets capitalized in the current period.

Depreciation expense	\$ (33,177,340)	
Capital assets capitalized	<u>25,064,639</u>	(8,112,701)

In the statement of activities, the gain or loss from the sale of capital assets is reported, whereas in the governmental funds, only any proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balances by the cost of capital assets sold. (392,243)

Revenues that do not provide current financial resources in the funds are reported as revenues in the statement of activities. (437,787)

The amortization of bond premiums and discounts decreases the long term liabilities in the statement of net position, but does not provide current financial resources to the governmental funds. 2,717,866

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

General obligation bonds		125,125,000
Direct placement debt		2,630,000

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. 1,562,376

In the statement of activities, certain operating expenses -- compensated absences, early retirement benefits, and environmental liabilities -- are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This year, the following differences were noted:

Compensated absences earned exceeded benefits paid	(810,000)	
Early retirement benefits paid exceeded benefits earned	8,522,081	
Reduction in total OPEB liability was less than costs incurred	(840,422)	
Reduction in net OPEB liability was more than costs incurred	5,535,899	
Reduction in the net pension liability was less than benefits paid	(75,472,191)	
Environmental liabilities incurred were more than amounts paid	<u>(48,022)</u>	(63,112,655)

The change in deferred outflows of resources and inflows of resources affects change in net position, but does not provide or use current financial resources to governmental funds.

Deferred outflows - pensions	43,821,996	
Deferred outflows - OPEB	8,099,247	
Deferred inflows - pensions	19,921,897	
Deferred inflows - OPEB	(7,232,736)	
Deferred refunding	<u>(393,324)</u>	64,217,080

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities. (2,882,386)

In the statement of activities, consumption of inventory is reported as an expense, whereas in governmental funds, changes in inventory are adjustments to fund balance. (152,520)

**Change in net position of governmental activities** **\$ 43,073,043**

**WICHITA PUBLIC SCHOOLS  
UNIFIED SCHOOL DISTRICT NO. 259  
NOTES TO THE FINANCIAL STATEMENTS**

**June 30, 2021**

**I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

The Wichita Public Schools, Unified School District No. 259, (District) is organized under the laws of the State of Kansas (Kansas) and is governed by an elected seven-member board. Accounting principles generally accepted in the United States of America (GAAP) require these financial statements present the District (the primary government) and its component units. There are no component units for which the District is considered to be financially accountable.

**B. Government-wide and Fund Financial Statements**

Government-wide Financial Statements – The statement of net position and the statement of activities report information on all of the nonfiduciary activities of the primary government.

The effect of interfund activity has been eliminated from these statements unless immaterial. However, interfund services provided and used are not eliminated in the process of consolidation.

The statement of net position presents the financial condition of the governmental activities of the District at year-end. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – The fund financial statements include separate financial statements that are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

Expenditures in the financial statements are grouped by function. Following are descriptions of the District's functions.

Instruction – Activities dealing directly with the interaction between teachers and students, and contracted instructional services.

Student and Instructional Support – Activities designed to assess, improve the well-being of students, supplement the teaching process, and assist the instructional staff with learning experiences for students. Includes student attendance, social work, student substance abuse assistance, nursing, psychology, speech pathology, audiology, curriculum improvement, counseling and guidance services, and library and media costs.

Administration – Activities concerned with establishing and administering policy for the operation of the school district. Includes only Board of Education support staff, special education central-office costs, community relations, school administration, staff relations/union negotiations, the superintendent's staff, assistant superintendents, area directors, the deputy superintendent, and the superintendent.

Operations and Maintenance – Activities concerned with the recruitment, hiring, and paying of staff. Includes the budgeting, purchasing, paying for, distributing, exchanging, and warehousing of goods and services. Also includes the Chief Financial Officer and business support costs such as printing and duplication, fiscal services, budgeting, payroll, and financial accounting. Includes other instructional and supporting services such as planning, research, development, evaluation, information, and data processing, in addition to, other supplemental services such as operations, maintenance, and security of schools and central office buildings including heating, lighting, ventilation, repair and maintenance of facilities, plus care and upkeep of grounds, equipment, and vehicles.

Student Transportation Service – Activities concerned with conveying students to and from school, as provided by State and Federal law, as well as District policy. This includes trips between home and school, and trips to and from school activities.

Nutrition Services – Activities concerned with providing food to students and staff in a school or local education agency. This service area includes preparing and serving regular and incidental meals, lunches, or snacks in connection with school activities and food delivery.

Facility Acquisition and Construction Service – Activities concerned with acquiring land and buildings, remodeling buildings, constructing buildings, additions to buildings, initially installing or extending service systems and other built-in equipment, and improving sites.

Debt Service – Activities related to servicing the long-term debt of the school district, including payments of both principal and interest. This includes bond interest payments, retirement of bonded debt, capital lease payments and other long-term notes.

### **C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

Government-Wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. All assets plus deferred outflows of resources, and liabilities plus deferred inflows of resources associated with the operation of the District are included on the statement of net position. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the budget year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund Financial Statements – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service

expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

State aid is considered to be susceptible to accrual and so has been recognized as revenue of the current period. Entitlements are recorded as revenue when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source. Expenditure-driven grants are recognized as revenues when the qualifying expenditures have been incurred and all other grant requirements have been met. Other receipts become measurable and available when cash is received by the government and is recognized as revenue at that time.

The District reports the following major governmental funds:

General fund – this is the District’s primary operating fund.

Special Education – used to account for programs which deliver educational services to special needs students. The primary revenues supporting this fund are from restricted federal grants and state aid restricted for this purpose.

Nutrition Services – used to account for revenues and expenditures attributable to the food service program. The program is administered according to the state plan of child nutrition operations under which federal funds and commodities are received pursuant to federal acts relating to child nutrition. The programs are administered and meals are served on a nonprofit basis.

At Risk (K-12) – used to account for programs for the District’s population by providing educational opportunities and instructional services to assist in closing the achievement gap. The primary revenues supporting this fund are from state aid restricted for this purpose.

Supplemental Grants – Federal – used to account federally funded grant activities of the District. The primary revenues supporting this fund are from federal aid restricted for the purpose of the respective grants.

Capital Outlay – used to account for the acquisition and construction of major capital facilities other than those financed from general obligation bond proceeds and maintaining and equipping of District property and equipment necessary for District purposes.

Bond and Interest – used for payment of principal and interest on the District’s general obligation bonds when such bonds are outstanding.

Additionally, the District reports the following fund types:

Internal Service funds – these funds account for the District’s self-insurance programs provided to other departments or agencies of the government, on a cost reimbursement basis.

Fiduciary funds – the District has one custodial fund which is used to account for assets held by the District as an agent for others. The fund includes assets held for activities such as student organizations and athletics. The School Activity Fund is custodial in nature as the District does not have administrative involvement with the funds.

The District also has two employee benefit trust funds to account for activities related to the District's other post-employment healthcare plan and its early retirement incentive plan. The trusts accumulate resources for payment of benefits to qualified employees under each plan.

The District implemented GASB Statement No. 84, *Fiduciary Activities*, in fiscal year 2021. Accordingly, the District has reported the cumulative effect of applying this statement as a restatement of net position as of July 1, 2020. This restatement increased previously reported net position for the Custodial fund by \$3,963,969. Additionally, the Payroll Trust and Flexible Spending Funds that were formerly reported as agency funds no longer qualify as Fiduciary funds upon implementation of this standard. These funds are reported within the District's General Fund. The movement of these funds had no net impact to beginning fund balance for the General Fund.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for insurance services. Operating expenses for internal service funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use unrestricted resources first, then restricted resources as they are needed.

#### **D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position**

##### **1. Deposits and Investments**

Cash resources of the individual funds (except for the proceeds of general obligation bonds, which are separately invested) are combined to form a pool of cash and temporary investments that are managed by the District Treasurer. Investments of the pooled accounts consist primarily of certificates of deposits. Interest income earned is allocated to various funds based upon statutory requirements detailed in K.S.A. 72-5166. Restricted cash and investments include the unspent proceeds from general obligation bond issues.

For purposes of the statement of cash flows, the District considers all investments by fund in the District's cash and investment pool to be cash equivalents.

K.S.A. 12-1675 authorizes the District to invest moneys not regulated by other statutes in: savings deposits, time deposits, certificates of deposit with maturities not more than two years, repurchase agreements consisting of obligations insured by the U.S. government or any agency thereof, direct obligations of or obligations that are insured by the United States or any agency thereof, and the Kansas Municipal Investment Pool.

District investments are measured at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The District uses the fair value hierarchy established by Generally Accepted Accounting Principles which require an entity to maximize the use of observable inputs when measuring fair value.

Investments of proceeds of long-term debt are governed by specific statutes and authorize the District to invest in direct obligations of the U.S. government or any other agency thereof, money market funds

comprised entirely of obligations of the U.S. Treasury and agencies thereof, obligations of any municipality of Kansas, or investment agreements with a financial institution rated in the three highest rating categories by Moody's or Standard and Poor's.

## **2.     *Receivables***

Taxes are assessed on a calendar-year basis and become a lien on the property on November 1 of each year. The County Treasurer is the tax collection agent for all tax entities within the county. Property owners have the option of paying one-half or the full amount of the taxes levied on or before December 20 during the year levied with the balance to be paid on or before May 10 of the ensuing year. Tax installments paid to the County Treasurer in May are budgeted to finance the current year's operations and are distributed to the District prior to fiscal year end.

State of Kansas (State) statutes provide that in the month of June of each school year, payment (from the State to District) shall be made of the full amount of the general state foundation aid for the year. The State did not make the final state foundation aid payment of \$25,605,136 for the fiscal year ended June 2021 until July 2021. The District was instructed by the State to record the final payment as though it had been received on June 30, 2021. This receipt was recorded for the budgetary basis; however, it was recorded as a receivable by the General and Supplemental General Funds for the government-wide and fund financial statements.

## **3.     *Inventories***

Inventories of supplies are stated at cost using the standard cost method. Inventories in the General Fund consist of educational and maintenance supplies. Inventories in the special revenue funds are food supplies. The purchase method is used to account for governmental fund type inventories. Under the purchase method, inventories are recorded as expenditures when purchased; however, material amounts of inventories are reported as assets of the respective fund. Reported inventories in these funds are equally offset by the nonspendable fund balance category, which indicates they are unavailable for appropriation even though they are a component of reported assets. Textbooks are expensed at the time of purchase and equally offset by the Textbook Rental Fund. On hand quantities of textbooks are tracked internally, and a replacement value for textbooks is established using the "purchasing list price" of the textbook multiplied by the on-hand quantity.

## **4.     *Capital Assets***

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their estimated acquisition value as of the date received. The District maintains a capitalization threshold of \$10,000 for regular capital assets, \$100,000 for special assessments and \$1,000,000 for other intangibles. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Asset Class	Estimated Useful Lives
Buildings	40-50 years
Building Improvements	5-30 years
Land Improvements	10-30 years
Machinery and Equipment	5-20 years
Intangibles	20-50 years

**5.     *Compensated Absences***

The District annually grants employees temporary leave, the amount of which varies with the classification of the employee. All vacation days accrue monthly. As of June 30 each year, vacation in excess of 40 days is converted to temporary leave for purposes of any future severance pay computation. Temporary leave, which consists primarily of sick and personal leave, is allowed to accrue without limit. Upon separation from the District, up to 20 days of unused accrued vacation leave is paid on the basis of current salary. An employee who dies or who retires or resigns honorably after reaching age 55 or completing 5 years of employment is eligible for a severance payment. The severance payment is paid at a rate of \$30 per unused accrued temporary leave day and unused accrued vacation leave hours in excess of 20 days. All vacation pay is reported as incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

**6.     *Long-Term Obligations***

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**7.     *Pensions***

The net pension liability is calculated as the difference between the actuarially calculated value of the projected benefit payments attributed to past periods of employee service and the plan's net fiduciary position. The total pension expense is comprised of the service cost or actuarial present value of projected benefit payments attributed to the valuation year, interest on the total pension liability, plan administrative expense, current year benefit changes, and other changes in plan fiduciary net position less employee contributions and projected earnings on plan investments. Additionally, the total pension expense includes the annual recognition of outflows and inflows of resources due to pension assets and liability.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net

position of the Kansas Public Employees Retirement System (KPERS) and additions to/deductions from KPERS' fiduciary net position have been determined on the same basis as they are reported by KPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**8.      *Postemployment Benefits Other Than Pensions (OPEB)***

For purposes of measuring the net OPEB liability, deferred outflows and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Retiree Benefit Trust Plan (RBTP) and additions to/deductions from the RBTP has been determined on the same basis as they are reported by the RBTP. For this purpose, the RBTP recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value with the exception of money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

**9.      *Deferred Inflows of Resources/Deferred Outflows of Resources***

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The District has three items that qualify for reporting in this category, deferred charge on refunding, collective deferred outflows for pensions and deferred outflows for OPEB. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. See Note IV. F. and G. for more information on the deferred outflows for pensions and OPEB, respectively.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has three items that qualify for reporting in this category. Accordingly, the first item, *unavailable revenue – receivables*, is reported only in the governmental funds balance sheet as it arises only under a modified accrual basis of accounting. The governmental funds report unavailable revenues from two sources: Medicaid reimbursement and federal interest subsidy. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The other two items, deferred inflows for pensions and deferred inflows for OPEB, are reported only in the Statement of Net Position. See Notes IV. F. and G. for more information on these deferred inflows for pension and OPEB, respectively.

**10.     *Fund Equity***

As prescribed by GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, governmental funds report fund balance classifications based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the funds can be spent.

In the governmental funds, equity is shown as fund balance and classified into five components:

- (1) Nonspendable: Assets that are not in spendable form (such as inventory).

- (2) Restricted: Amounts with externally imposed constraints, such as those mandated by creditors, grantors, contributors, or laws and regulations. Such constraint is binding unless modified or rescinded by the applicable external body, laws or regulations.
- (3) Committed: Amounts with a purpose formally imposed by resolution of the Board of Education; binding unless modified or rescinded by the Board of Education.
- (4) Assigned: The Board of Education adopted board policy P3414 authorizing the Board of Education or Chief Financial Officer to assign fund balance. Encumbrances shall be considered assigned unless they specifically meet the requirements to be restricted or committed.
- (5) Unassigned: All amounts not included in the other classifications. The General Fund shall be the only fund to report positive unassigned fund balance. All other governmental funds may report negative unassigned fund balance.

The District considers unrestricted amounts to be spent prior to restricted amounts when an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available. When expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used (committed, assigned or unassigned), the District considers committed amounts to be spent first, followed by assigned and then unassigned amounts.

#### **11. Net Position**

Net position represents the difference between assets/deferred outflows of resources and liabilities/deferred inflows of resources. *Net investment in capital assets*, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as *restricted* when there are limitations imposed on the use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Restricted resources are used first to fund appropriations.

#### **12. Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect: (1) the reported amounts of assets and liabilities, (2) disclosures such as contingencies, and (3) the reported amounts of revenues and expenses included in such financial statements. Actual results could differ from those estimates.

## **II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

### **A. Budgetary Information**

Kansas statutes require budgets be adopted for all funds, unless exempted by a specific statute. The statutes provide for the following sequence and timetable in the adoption of the legal budget.

1. Preparation of the budget for the current fiscal year on or before August 1.
2. Publication in local newspaper of the proposed budget and notice of hearing on the budget on or before August 5.
3. Public hearing on or before August 15, but at least 10 days after publication of notice of hearing.
4. Adoption of the final budget on or before August 25.

Kansas statutes allow school districts to operate from July 1 to August 25 without an adopted budget.

The District's legal level of budget control is at the fund level. Kansas statutes allow for the governing body to increase the original adopted budget for previously unbudgeted increases in revenue other than ad valorem taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least 10 days after the publication, the hearing may be held and the governing body may amend the budget at that time.

Kansas statutes permit transferring budgeted amounts from one object or purpose to another within the same fund; however, such statutes prohibit creating expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Management may amend the amount of a specific object or purpose appropriation without obtaining authorization from the Board of Education providing the amendments or transfers do not create a total budgeted expenditure amount for a specific fund in excess of the amount originally adopted by the Board of Education.

All legal annual operating budgets are prepared using the statutory basis of accounting, in which revenues are recognized when cash is received and expenditures include disbursements, accounts payable, and encumbrances. Encumbrances are commitments for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. All unencumbered appropriations (legal budget expenditure authority) lapse at year-end. Encumbered appropriations are not reappropriated in the ensuing year's budget but are carried forward until liquidated or canceled. Accordingly, the data presented in the budgetary comparison statements differ from the data presented in the financial statements prepared in accordance with GAAP.

A legal operating budget is not required for the internal service funds, the fiduciary funds and the following funds:

General fund subfunds:

- Supplemental grants – state and local
- Contingency reserve
- Textbook rental

Special revenue funds:

- Athletic activity
- Student material revolving
- Supplemental grants – federal
- Music rental

Capital project funds:

- Equipment purchases

The spending in funds which are not subject to legal annual operating budget requirement is controlled by federal regulations, other statutes, or by the use of internal spending limits established by the Board. The State of Kansas allows spending above legal operating budgets by amounts received from unbudgeted grants and reimbursements.

During the 2017 legislative session, Senate Bill 19 passed, amending and repealing numerous statutes pertaining to how public schools are financed in Kansas. For fiscal year ending June 30, 2021, the level of the general fund budget is based on a formula that used \$4,569 per full-time equivalent weighted student as of September 20.

**B. Deficit Fund Equity**

At June 30, 2021, the Workers' Compensation Fund had a deficit of \$1,565,016 which will be recovered from future internal charges to the District's other funds. The Supplement Grants-Federal Fund had a deficit of \$351,814 which will be recovered through future grant reimbursements and other funds.

**III. DETAILED NOTES ON DISTRICT ACCOUNTS****A. Deposits and Investments**

*Custodial Credit Risk.* For deposits and investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2021, District deposits were not exposed to custodial credit risk since all were either covered by federal depository insurance or the collateral was held by the District's agent in the District's name. The District does not have a formal policy regarding custodial credit risk, though it follows Kansas statutes, which require that deposits be secured 100%, and investments be perfected in the name of the investing entity and be delivered to a third-party custodian. None of the District's investments were exposed to custodial credit risk as they were being held by the proper third-party custodian.

*Credit Risk.* State law limits the types of investments that the District may make (see Note I.D.1). The District's investment policy does not add any further limitations. As of June 30, 2021, the securities underlying the District's repurchase agreements include U.S. Treasury and U.S. government agency notes.

*Concentration of Credit Risk.* State statutes place no limit on the amount the District may invest in any one issuer as long as the investments are adequately secured under K.S.A. 9-1402 and 9-1405. The District has investments in repurchase agreements, U.S Treasury bills, Treasury obligation mutual funds and a Federal Home Loan Bank agency security which comprises 10% of the District's total investment balance.

*Interest Rate Risk.* State law and the District's investment policy limit investments in U.S. Treasury bills or notes to those with maturities not exceeding two years. District policy also states that portfolio maturities shall be staggered in a way that avoids undue concentration of assets in a specific maturity sector, and that the investment portfolio shall remain sufficiently liquid to enable the District to meet all operating requirements which might reasonably be anticipated.

*Fair Value Measurements.* The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the investment. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs, either directly or indirectly observable, and fair value can be determined through the use of models or other valuation methodologies; and Level 3 inputs are significant unobservable inputs in situations where there is little or no market activity for the asset or liability and the entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The District has the following recurring fair value measurements as of year-end:

U.S. Treasury securities and the Treasury obligation mutual funds are valued using quoted market prices (Level 1 inputs).

---

**Financial Section**

---

The repurchase agreement is an overnight instrument, with the fair value of the collateral underlying the repurchase agreement being in excess of the amount invested. Given the short-term nature of the agreement, it is measured at amortized cost.

As of June 30, 2021, the District had the following investments and maturities:

Investment Type	Investment Maturities (in Years)			Fair Value Hierarchy
	Fair Value	Less than 1	1-5	
Repurchase agreements	\$ 237,067,337	\$ 237,067,337	\$ --	N/A
Treasury obligation mutual funds	53,565,773	53,565,773	--	Level 1
Total	<u>\$ 290,633,110</u>	<u>\$ 290,633,110</u>	<u>\$ --</u>	

Deposits and investments at June 30, 2021 appear in the financial statements as summarized below:

Carrying amount of deposits	\$ 63,107,893
Carrying amount of investments	<u>290,633,110</u>
Total	<u>\$ 353,741,003</u>
Cash and investments - governmental funds, balance sheet	\$ 255,493,277
Cash and investments - internal service funds, statement of net position	<u>59,117,606</u>
Cash and investments - governmental activities statement of net position	314,610,883
Cash and investments - fiduciary funds	<u>39,130,120</u>
Total	<u>\$ 353,741,003</u>

## **Financial Section**

### **B. Capital Assets**

Capital asset activity for the year ended June 30, 2021 was as follows:

	Balance June 30, 2020	Increases	Decreases	Balance June 30, 2021
<b>Governmental activities:</b>				
Capital assets, not being depreciated:				
Land	\$ 20,810,003	\$ --	\$ --	\$ 20,810,003
Construction in progress	14,523,049	23,886,088	20,725,963	17,683,174
Total capital assets, not being depreciated	35,333,052	23,886,088	20,725,963	38,493,177
Capital assets, being depreciated:				
Buildings and improvements	1,082,035,268	14,343,132	--	1,096,378,400
Machinery and equipment	42,861,508	600,199	1,394,270	42,067,437
Land improvements	48,659,034	5,993,465	--	54,652,499
Intangibles	5,694,162	967,718	--	6,661,880
Total capital assets being depreciated	1,179,249,972	21,904,514	1,394,270	1,199,760,216
Less accumulated depreciation for:				
Buildings and improvements	394,081,100	28,319,411	--	422,400,511
Machinery and equipment	29,657,095	2,646,454	1,002,027	31,301,522
Land improvements	20,291,466	1,940,488	--	22,231,954
Intangibles	1,385,263	270,987	--	1,656,250
Total accumulated depreciation	445,414,924	33,177,340	1,002,027	477,590,237
Total capital assets, being depreciated, net	733,835,048	(11,272,826)	392,243	722,169,979
Governmental activities capital assets, net	<u>\$ 769,168,100</u>	<u>\$ 12,613,262</u>	<u>\$ 21,118,206</u>	<u>\$ 760,663,156</u>

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:	
Instruction	\$ 31,135,722
Student and Instructional Support	35,314
Administration	1,510
Operations and Maintenance	1,605,994
Transportation	2,235
Nutrition Services	396,565
Total depreciation expense – governmental activities	<u>\$ 33,177,340</u>

**C. Long-Term Obligations**

Long-term liability activity for the year ended June 30, 2021 was as follows:

	Balance June 30, 2020	Additions	Reductions	Balance June 30, 2021	Due within one year
General obligation bonds	\$ 430,575,000	\$ --	\$ 125,125,000	\$ 305,450,000	\$ 26,610,000
Notes from direct placements	10,725,000	--	2,630,000	8,095,000	2,665,000
Early retirement program	37,238,512	4,390,433	12,912,514	28,716,431	11,519,800
Compensated absences	11,479,000	19,333,000	18,523,000	12,289,000	659,000
Premium on bonds	9,070,832	--	2,720,290	6,350,542	1,988,993
Discount on bonds	(2,775)	--	(2,424)	(351)	(351)
Environmental liability	2,343,868	159,230	111,208	2,391,890	124,430
Claims payable	13,849,944	68,031,477	62,770,064	19,111,357	11,142,796
Total OPEB liability	11,496,764	3,667,868	2,827,446	12,337,186	--
Net OPEB liability	32,886,351	13,639,291	19,175,190	27,350,452	--
Net pension liability	483,304,919	200,910,129	125,437,938	558,777,110	--
Total	<u>\$ 1,042,967,415</u>	<u>\$ 310,131,428</u>	<u>\$ 372,230,226</u>	<u>\$980,868,617</u>	<u>\$ 54,709,668</u>

Compensated absences and the early retirement program are liquidated by the fund where each employee's regular salary is charged (primarily the General Fund and various special revenue funds). The net pension liability and total OPEB liability will be liquidated primarily through KPERS employer contributions made from the KPERS Retirement Contribution Fund. The environmental liability will be liquidated primarily with funds from the Special Liability Expense Fund. The net OPEB liability will be liquidated by the Retiree Health Benefits Trust Fund as discussed in Note IV.G.

*General Obligation Bonds.* On May 27, 2009, the District issued \$58,760,000 in General Obligation Refunding and School Building Bonds with interest rates with an average yield of 3.35% due October 1, 2021, and \$132,500,000 in Taxable General Obligation School Building bonds (Build America Bonds), with a taxable interest rate of 6.22% (32% of interest cost is subsidized by the federal government) due October 1, 2028. The bond proceeds were used to construct, furnish, and equip new school facilities and make additions and improvements to existing school facilities throughout the District. The debt service requirements for general obligation bonds are being paid with property tax revenues.

On December 15, 2009, the District issued \$32,000,000 in General Obligation School Building Bonds (Qualified School Construction – Tax Credit Bonds), with a federal bond holder tax credit rate of 5.90% and a District funded supplemental coupon of 1.35% due September 15, 2026. The bond proceeds were used to fund certain school building improvement projects throughout the District. The debt service requirements for general obligation bonds are being paid with property tax revenues. The Qualified School Construction bonds are not subject to optional or mandatory sinking fund redemption prior to their stated maturity date. However, the District is required to set aside deposits for payment of the bonds, in annual amounts of \$2,000,000 beginning September 15, 2012. Such funds will be applied to payment of the principal amount of the bonds at maturity. As of June 30, 2021, this sinking fund had a balance of \$18,565,773, which is recorded as restricted cash in the Bond and Interest Fund.

On March 3, 2010, the District issued \$100,000,000 in Taxable General Obligation School Building Bonds (Build America Bonds), with taxable interest rates from 5.10 – 5.39% (32% of interest cost is subsidized by the federal government) due October 1, 2025. The debt proceeds were used to

## ***Financial Section***

---

construct, furnish, and equip new school facilities and make additions and improvements to existing school facilities throughout the District. The debt service requirements for general obligation bonds are being paid with property tax revenues.

On October 1, 2013, the District issued \$49,340,000 in General Obligation Refunding and School Building Bonds with interest rates with an average yield of 1.72% due October 1, 2022. The bond proceeds were used to construct, furnish, and equip new school facilities and advance refund \$500,000 of the Series 2009 bonds. The net proceeds related to the advance refunding of the Series 2009 bonds of \$592,979 were deposited in an irrevocable trust with an escrow agent to provide for future debt service payments on the Series 2009 bonds. As a result, a portion of the Series 2009 bonds is considered to be defeased and the liability for those bonds has been removed from the government-wide statement of net position.

On November 15, 2015, the District issued \$39,400,000 in General Obligation Refunding and Improvement Bonds with interest rates with an average yield of 1.412% due October 1, 2021. The bond proceeds were used to construct, furnish, and equip new school facilities and advance refund \$37,995,000 of the Series 2009A bonds. The net proceeds related to the refunding of the Series 2009A bonds of \$42,433,450 were deposited in an irrevocable trust with an escrow agent to provide for future debt service payments on the Series 2009A bonds. As a result, a portion of the Series 2009A bonds is considered to be defeased and the liability for those bonds has been removed from the government-wide statement of net position.

On December 28, 2017, the District issued \$95,080,000 in General Obligation Refunding Bonds with interest rates with an average yield of 2.02% due October 1, 2025. The bond proceeds were used to crossover advance refund \$100,000,000 of the Series 2010B bonds. The net proceeds related to the crossover refunding of the Series 2010B bonds of \$104,468,674 were placed into an escrow account to be used temporarily to meet debt service requirements on the new refunding bonds. At a later date, known as the "crossover date," resources in the escrow account will be dedicated exclusively to payment of principal and interest on the refunded bonds. Therefore, crossover refundings do not result in the defeasance of debt until the crossover date. The crossover date occurred on October 1, 2020 resulting in the 2010B bonds being fully paid off as of that date. A small residual balance of \$4,514 remains in an escrow account at June 30, 2021, which is recorded as restricted cash in the Bond and Interest fund.

Annual debt service requirements to maturity for general obligation bonds are as follows:

<u>Year Ended June 30,</u>	<u>Principal</u>	<u>Interest</u>
2022	\$ 26,610,000	\$ 13,691,600
2023	28,085,000	12,557,038
2024	32,730,000	11,380,275
2025	34,720,000	10,088,450
2026	36,155,000	8,499,028
2027 – 2029	147,150,000	9,495,535
Total	<u>\$ 305,450,000</u>	<u>\$ 65,711,926</u>

*Notes from Direct Placements.* On June 30, 2020, the District entered into a financed lease purchase agreement to purchase laptops for student use. When the contract was signed, \$10,725,000 was placed into an escrow account to make purchases of the laptops in upcoming months. This is considered a direct placement debt issuance. Per the contract, the commencement date of the agreement is the earlier of the date on which funds were received into escrow and the date of the

equipment purchase. Funds were received and the contract was deemed to have commenced on June 30, 2020.

The District's outstanding notes from direct placements of \$8,095,000 contain a provision that in the event of default, outstanding amounts become immediately due and bear a 3% interest rate per month or the maximum rate permitted by applicable law, whichever is less.

Debt service requirements to maturity for notes from direct placements are as follows:

<u>Year Ended June 30,</u>	<u>Principal</u>	<u>Interest</u>
2022	\$ 2,665,000	\$ 100,378
2023	2,700,000	67,332
2024	2,730,000	33,852
Total	<u>\$ 8,095,000</u>	<u>\$ 201,562</u>

*Early Retirement Incentive Program.* At the discretion of the Board of Education, the District offers a voluntary early retirement incentive program. The District follows GASB 47, *Accounting for Termination Benefits*, in recognizing and reporting the liability related to the early retirement incentive. Eligible employees are those who have been employed by the District in a permanent position for 15 or more years, are at least age 50 when they retire, and have an effective hire date prior to July 1, 1996. Benefits at attaining age 60 are based on the retiree's final average salary used by the Kansas Public Employees Retirement System (KPERS), a 1.4% multiplier for all years of participating service credit with KPERS, and the total number of years of credited KPERS service (excluding any purchased or repurchased years), paid in not more than 60 monthly payments. The benefits also include an amount equal to the amount of the social security benefit the retiree would have been eligible to receive if the employee were age 62, paid in not more than 24 monthly payments. This benefit will be reduced by 5% for each year by which the employee's years of qualified service are less than 20. At year-end, there are 377 retirees receiving benefits.

For the year ended June 30, 2021, the District paid \$12,912,514 in benefits. The liability for the early retirement program includes the expected cash outflows related to future benefit payments, discounted at 1.80%.

This program is primarily funded on a pay-as-you-go basis, with costs expended as paid. In June 2011, the District established an employee benefit grantor revocable trust for employer contributions to fund benefits paid under the program. The District made an initial contribution of \$13,363,566 in June 2011. Effective January 1, 2012, the trust was changed to become a qualified irrevocable trust under Section 401(a) of the Internal Revenue Code. Since trust assets are to be retained for the exclusive benefit of participants under the trust, assets held in the trust as of June 30, 2021, were recorded as a reduction to the liability and additional contributions made during 2021 are included with "Reductions" on the Long-Term Debt table at the beginning of this section. Contributions will continue to be made on a pay-as-you-go basis, and any additional employer contributions to the trust are at the sole discretion of the District.

## **Financial Section**

### **D. Interfund Activity**

A summary of interfund transfers by fund type for the year ended June 30, 2021 is as follows:

Transfer from:	Special Education	At Risk (K-12)	Capital Outlay	Nonmajor Governmental	Internal Service	Total
General fund	\$ 53,061,314	\$ 13,773,479	\$ 7,000,000	\$ 19,785,263	\$6,000,000	\$ 99,620,056
Supplemental Grants - Federal	--	--	2,752,277	--	1,850,778	4,603,055
<b>Total</b>	<b>\$ 53,061,314</b>	<b>\$ 13,773,479</b>	<b>\$ 9,752,277</b>	<b>\$ 19,785,263</b>	<b>\$7,850,778</b>	<b>\$ 104,223,111</b>

Transfers are used primarily to move revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Transfers from the Supplement Grants-Federal Fund relate to federal grant reimbursements for costs incurred by other funds.

The due from other funds reported in the General Fund of \$5,485,803 is related the Supplemental Grants-Federal Fund negative cash balance which is expected to be repaid next year.

### **E. Fund Balances**

A summary of the components of fund balance, by purpose, for the year ended June 30, 2021 is as follows:

	General	Special Education	Nutrition Services	At Risk (K-12)	Supplemental Grants - Federal	Capital Outlay	Bond and Interest	Nonmajor Governmental	Total
<b>Nonspendable:</b>									
Inventory	\$ 883,824	\$ --	\$ 2,000,763	\$ --	\$ --	\$ --	\$ --	\$ --	\$ 2,884,587

## **IV. OTHER INFORMATION**

### **A. Risk Management**

The District has adopted self-insurance programs for workers' compensation, short-term disability, health, pharmacy and dental. Liabilities are reported when it is probable a loss has occurred, and the amount can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). The District uses internal service funds to account for this activity. Each program is funded by a monthly contribution made by the District for each eligible employee. Contribution amounts are determined by the District and the insurance carrier for the District's stop loss policy, if applicable. There have been no settlements in excess of insurance coverage during any of the prior three years.

## **Financial Section**

**Healthcare.** All active employees of the District who are .75 FTE or higher, as well as grandfathered employees who are .5 to .74 FTE, are eligible for health, pharmacy and dental benefits. Health, prescription and dental benefits are provided through a self-funded program to District employees and all eligible dependents. The District's annual liability for benefits is limited to \$500,000 per individual claim by a specific stop loss policy. There is no aggregate stop loss policy.

**Short-Term Disability.** The District provides disability benefits covering employees working in a benefited position at least half-time. Short-term disability benefits for certificated employees are provided for disabilities resulting from occupational or non-occupational illnesses and injuries at a rate of 70% of the employee's regular daily rate. Short-term disability benefits for classified employees are provided for disability resulting from non-occupational illness at a rate of 70% of the employee's regular hourly rate of pay. Benefits are provided for a maximum of 180 calendar days from the beginning date of the disability. The outstanding claims liability is calculated from historical data and future expectations. This liability includes an estimated liability for known claims as well as estimated liability for claims incurred but not reported. Short-term disability coverage for classified employees has been reduced from prior years through negotiation to eliminate the 70% coverage for occupational injuries, which are instead covered under workers' compensation.

**Workers' Compensation.** Workers' compensation benefits are provided for medical expenses and indemnity resulting from occupational illness or accidental injury to all employees under the Kansas Workers Compensation Act. Benefits are paid according to Kansas statute governing workers compensation benefits and are self-funded by the District. The District's liability for benefits is limited by a specific stop loss policy of \$500,000 per claim. The District pays an annual assessment fee to the State of Kansas for the state insurance fund and an assessment for the operation of the Division of Workers Compensation in the Kansas Department of Labor. The outstanding claims liability is calculated from historical data and case reserves set by District staff, and evaluated by an independent actuarial opinion. This includes an estimated liability for known claims as well as an estimated liability for claims incurred but not reported (IBNR). These limits are the same as for the prior year.

**Risk Management.** The District has a self-insurance program to provide legal defense and pay claims against the Board of Education when an incident occurs during the course of employment. There is a \$500,000 limitation for Kansas claims based on government immunity law. The deductible portion of the property and casualty, general liability, automobile, and aviation premiums are paid from the risk management fund. This limit is the same as for the prior year.

Changes in the claims liabilities during the past two years are as follows:

	Healthcare	Disability Reserve	Workers' Compensation	Risk Management
Unpaid claims, June 30, 2019	\$ 6,016,000	\$ 104,000	\$ 7,876,074	\$ --
Incurred claims (including IBNR)	57,534,591	1,076,573	1,610,886	1,816,518
Claim payments	(57,214,591)	(1,069,573)	(2,084,016)	(1,816,518)
Unpaid claims, June 30, 2020	6,336,000	111,000	7,402,944	--
Incurred claims (including IBNR)	58,926,492	780,165	5,990,239	2,334,581
Claim payments	(58,236,172)	(735,165)	(1,464,146)	(2,334,581)
Unpaid claims, June 30, 2021	<u>\$ 7,026,320</u>	<u>\$ 156,000</u>	<u>\$ 11,929,037</u>	<u>\$ --</u>

**B. Environmental Matters**

An area near the District's School Service Center has been designated by the Kansas Department of Health and Environment (KDHE) as a groundwater contamination site. As a result of that contamination, the District entered into an agreement with KDHE to perform a Remediation Investigation and Feasibility Study (RI/FS) to investigate the contamination and develop a clean-up plan. The District has recently revised the Feasibility Study and Remediation Plan with the assistance of Geosyntech Consultants, Inc., an environmental consulting and remediation company. The revised plan, approved by KDHE, is currently being implemented. While the revised Feasibility Study and remedial measures progress, the District is required to perform semi-annual monitoring of the groundwater for an estimated 20 years. The present value of the costs required for the Feasibility Study, monitoring activities, and interim remedial measures is estimated at \$2,391,890. This amount has been recorded with long-term liabilities on the statement of net position and is based on engineering estimates and actual costs incurred. Until the Remediation Plan developed through the Feasibility Study has been completed, it is not yet possible to estimate the District's ultimate cost for clean-up of the site. There are no anticipated recoveries on this project.

**C. Contingent Liabilities and Contingencies**

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the District's counsel that resolution of these matters will not have a materially adverse effect on the financial condition of the District.

On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic and recommend worldwide mitigation measures. The extent of COVID-19's effect on the District's operational and financial performance will depend on future developments, including the duration, spread and intensity of the pandemic, all of which are uncertain and difficult to predict considering the rapidly evolving landscape. As a result, it is not currently possible to ascertain the overall impact of COVID-19 on the operations. However, if the pandemic continues to evolve it could have an impact on property tax collections and grant revenues.

**D. Construction Commitments and Encumbrances**

As of June 30, 2021, the District had outstanding construction commitments of \$16,945,435 which are included in the Capital Outlay Fund encumbrances below. Listed below are outstanding encumbrances for the District:

General	\$ 7,863,201
Special Education	2,084,850
Nutrition Services	1,781,457
Supplemental Grants - Federal	12,653,632
Capital Outlay	20,619,498
Nonmajor Governmental	<u>396,992</u>
Total	<u>\$ 45,399,630</u>

**E. Tax Abatements**

Due to tax abatements by the following local governments, the District's fiscal year 2021 property tax revenues were reduced by the total reflected below:

Sedgwick County	\$ 3,750,291
City of Wichita	2,395,766
City of Kechi	94,332
City of Bel Aire	8,661
City of Park City	313,645
Total	<u>\$ 6,562,695</u>

**F. Defined Benefit Pension Plan**General Information about the Pension Plan

*Plan description.* The District participates in the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, et. seq. Kansas law establishes and amends benefit provisions. KPERS issues a publicly available financial report that includes financial statements and required supplementary information. KPERS' financial statements are included in its Annual Comprehensive Financial Report which can be found on the KPERS' website at <http://www.kpers.org>, by writing to KPERS (611 South Kansas, Suite 100, Topeka, KS 66603) or by calling 1-888-275-5737.

*Benefits provided.* KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Benefits are established by statute and may only be changed by the General Assembly. Member employees with ten or more years of credited service may retire as early as age 55, with an actuarially reduced monthly benefit. Normal retirement is at age 65, age 62 with ten years of credited service, or whenever an employee's combined age and years of credited service equal 85 "points".

Monthly retirement benefits are based on a statutory formula that includes final average salary and years of service. When ending employment, member employees may withdraw their contributions from their individual accounts, including interest. Member employees who withdraw their accumulated contributions lose all rights and privileges of membership. The accumulated contributions and interest are deposited into and disbursed from the membership accumulated reserve fund as established by K.S.A. 74-4922.

Member employees choose one of seven payment options for their monthly retirement benefits. At retirement a member employee may receive a lump-sum payment of up to 50% of the actuarial present value of the member employee's lifetime benefit. His or her monthly retirement benefit is then permanently reduced based on the amount of the lump-sum. Benefit increases, including ad hoc post-retirement benefit increases, must be passed into law by the Kansas Legislature. Benefit increases are under the authority of the Legislature and the Governor of the State of Kansas.

The 2012 Legislature made changes affecting new hires, current member employees and employers. A new KPERS 3 cash balance retirement plan for new hires starting January 1, 2015,

was created. Normal retirement age for KPERS 3 is 65 with five years of service or 60 years with 30 years of service. Early retirement is available at age 55 with ten years of service, with a reduced benefit. Monthly benefit options are an annuity benefit based on the account balance at retirement.

The retirement benefits are disbursed from the retirement benefit payment reserve fund as established by K.S.A. 74-4922.

*Contributions.* K.S.A. 74-4919 and K.S.A. 74-49,210 establish the KPERS member-employee contributions rates. KPERS has multiple benefit structures and contribution rates depend on whether the employee is a KPERS 1, KPERS 2 or KPERS 3 member. KPERS 1 members are active and contributing members hired before July 1, 2009. KPERS 2 members were first employed in a covered position on or after July 1, 2009, and KPERS 3 members were first employed in a covered position on or after January 1, 2015. Effective January 1, 2015, Kansas law established the KPERS member-employee contribution rate at 6% of covered salary for KPERS 1, KPERS 2 and KPERS 3 members. Member employee contributions are withheld by their employer and paid to KPERS according to the provisions of Section 414(h) of the Internal Revenue Code.

State law provides that the employer contribution rates for KPERS 1, KPERS 2 and KPERS 3 be determined based on the results of each annual actuarial valuation. KPERS is funded on an actuarial reserve basis. Kansas law sets a limitation on annual increases in the employer contribution rates. The actuarially determined employer contribution rate (not including 1.00% contribution rate for Death and Disability program) and the statutory contribution rate was 16.15% and 14.41%, respectively, for the fiscal year ended June 30, 2020. The actuarially determined employer contribution rate (not including 1.00% contribution rate for Death and Disability program) and the statutory contribution rate was 15.59% and 14.23%, respectively, for the fiscal year ended June 30, 2021.

For public school districts, K.S.A. 74-4939 states that the State of Kansas shall budget for the transfer from the state general fund sufficient sums to satisfy the participating district's obligations for employer contributions. K.S.A. 74-4939a then establishes the procedures for the actual distribution by the state, and subsequent remittance to KPERS, of the district's employer contributions. Under this statute, the state Department of Education disburses to the school district an amount equal to the participating employer's obligation. Upon receipt of each quarterly disbursement from the Department of Education, the school district must remit an equal amount to KPERS to satisfy the school district's obligation as a participating employer. Under these statutes, the District received and remitted amounts equal to the statutory contribution rate. Contributions to the pension plan from the District (excluding contributions for the Death and Disability Program) were \$52,044,670 and \$52,663,083 for the periods ended June 30, 2021 and 2020, respectively. Since the statutes require the State of Kansas to set the KPERS employer rate and also to budget and transfer a sufficient amount for employer contributions, the statutes do not permit the District to contribute additional amounts to the retirement program for the purposes of improving the funding status and reducing the liability recorded on the District's financial statements.

Per 2017 Senate Substitute for House Bill 2052, Section 37(a), state general fund employer contributions to KPERS were decreased by \$64.13 million for the fiscal year ended June 30, 2017. Section 43(17) of the bill also stipulated that repayments of the reduced contributions are to

be amortized over twenty years at a level dollar amount commencing in fiscal year 2018. The level dollar amount was computed to be \$6.4 million dollars per year. The first year payment of \$6.4 million was received in July 2017 and appropriations for fiscal year 2018 were made for the State/School group at the statutory contribution rate of 12.01% for that year.

Per 2017 Senate Substitute for House Bill 2002, Section 51(a), state general fund employer contributions to KPERS were decreased by \$194.0 million for the fiscal year ended June 30, 2019. Section 56(19) of the bill also stipulates that repayments of the reduced contributions are to be amortized over twenty years at a level dollar amount commencing in fiscal year 2020. The level dollar amount was computed to be \$19.4 million per year.

2018 House Substitute for Senate Bill 109 provided for an additional funding for KPERS School Group. A payment of \$56 million was paid in fiscal year 2018. This bill also authorized a payment of \$82 million in fiscal year 2019.

2019 Senate Bill 9 authorized a payment of \$115 million for the KPERS School Group. House Substitute for Senate Bill 25 from the 2019 Legislative session authorized additional funding for the KPERS School Group in fiscal year 2020 of \$51 million.

2021 House Bill 2405 authorized the state to issue bonds with net proceeds of \$500 million to fund a portion of the School Group unfunded actuarial liability.

During June 30, 2021, the District recorded \$3,929,762 in nonemployer contribution revenue for their proportionate share of payments made per the legislation outlined above.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability of \$558,777,110 for its proportionate share of the KPERS' collective net pension liability. The collective net pension liability was measured by KPERS as of June 30, 2020, and the total pension liability used to calculate the collective net pension liability was determined by an actuarial valuation as of December 31, 2019, which was rolled forward to June 30, 2020. The District's proportion of the collective net pension liability was based on the ratio of the District's actual contributions to KPERS, relative to the total employer and nonemployer contributions of the State/School subgroup within KPERS for the fiscal year ended June 30, 2020. The contributions used exclude contributions made for prior service, excess benefits and irregular payments. At June 30, 2020, the District's proportion was 7.48%, which was an increase of 0.01% from its proportion measured as of June 30, 2019.

## **Financial Section**

For the year ended June 30, 2021, the District recognized pension expense of \$63,772,970. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Difference between expected and actual experience	\$ 7,781,393	\$ 6,141,709
Net difference between projected and actual earnings on pension plan investments	49,507,108	-
Changes in proportionate share	31,420,123	21,511,694
Changes in assumptions	28,534,003	-
District contributions subsequent to measurement date	52,044,670	-
Total	<u>\$ 169,287,297</u>	<u>\$ 27,653,403</u>

The \$52,044,670 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year ended June 30:</b>	<b>Deferred Outflows (Inflows) of Resources</b>
2022	\$ 21,946,072
2023	29,478,890
2024	19,242,615
2025	18,169,938
2026	751,709
	<u>\$ 89,589,224</u>

**Actuarial assumptions.** The total pension liability for KPERS in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Price inflation	2.75 percent
Salary increases, including wage increases	3.25 to 11.75 percent, including inflation
Long-term rate of return net of investment expense, and including price inflation	7.50 percent

---

## **Financial Section**

---

Mortality rates were based on the RP-2014 Mortality Tables, with age setbacks and age set forwards as well as other adjustments based on different membership groups. Future mortality improvements are anticipated using Scale MP-2016.

The actuarial assumptions used in the December 31, 2019, valuation were based on the results of an actuarial experience study conducted for the three-year period beginning January 1, 2016. The experience study is dated January 7, 2020.

The actuarial assumptions changes adopted by the Pension Plan for all groups based on the experience study were as follows:

- Investment return assumption was lowered from 7.75 percent to 7.50 percent
- General wage growth assumption was lowered from 3.50 to 3.25 percent
- Payroll growth assumption was lowered from 3.00 percent to 2.75 percent

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage. Best estimates of arithmetic real rates of return for each major asset class as of the most recent experience study, dated January 7, 2020, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
US Equities	23.5%	5.20%
Non-US Equities	23.5%	6.40%
Fixed Income	11.0%	1.55%
Yield Driven	8.0%	4.70%
Real Return	11.0%	3.25%
Private Real Estate	11.0%	4.45%
Private Equity	8.0%	9.50%
Short-term Investments	4.0%	0.25%
	<u>100.0%</u>	

**Discount rate.** The discount rate used by KPERS to measure the total pension liability was 7.50%. The discount rate used to measure the total pension liability at the prior measurement date of June 30, 2019 was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the contractually required rate. The State/School subgroup of employers do not necessarily contribute the full actuarial determined rate. Based on legislation passed in 1993, the employer contribution rates certified by the KPERS' Board of Trustees for this group may not increase by more than the statutory cap. The statutory cap for fiscal year 2020 was 1.2%. Based on the employer contribution history described on pages 62 and 63, it is a reasonable estimate that the State/School subgroup's contribution rate may not be certified at the statutory rate. It has been assumed that contribution rates will be made within the same range as have been seen in the past few years, between 11 to 12 percent. Using this assumption, actuarial modeling indicates that employer contribution rates for the State/School subgroup are sufficient to avoid a depletion date.

**Sensitivity of the District's proportionate share of the collective net pension liability to changes in the discount rate.** The following presents the District's proportionate share of the collective net pension liability calculated using the discount rate of 7.50%, as well as what the District's proportionate share

---

## Financial Section

---

of the collective net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
District's proportionate share of the collective net pension liability	\$ 740,902,025	\$ 558,777,110	\$ 405,230,926

*Pension plan fiduciary net position.* Detailed information about the pension plan's fiduciary net position is available in the separately issued KPERS' financial report.

### G. Postemployment Benefits Other Than Pensions

#### District Plan

Wichita Public Schools Post-Retirement Benefits Plan (the Plan) is a single-employer defined benefit healthcare plan administered by the Wichita Public Schools No. 259 (District). The Plan does not issue a stand-alone audited GAAP basis financial report.

*Investment policy.* The District's policy in regard to the allocation of invested assets is established and may be amended by the Board of Education. As of June 30, 2021, the targeted allocation was 100% in cash equivalents for liquidity purposes.

*Rate of return.* For the year ended June 30, 2021, the annual money-weighted rate of return on investments, net of investment expense, was 0.07%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

#### General Information About the Plan

*Plan description and benefits provided.* The Plan provides healthcare benefits, including medical, dental, vision and life, to retirees. Retiree health coverage is provided for under K.S.A. 12-5040. Employees who retire on or after age 55 with at least 10 years of cumulative service with the District and 10 years of vested service under Kansas Public Employee Retirement System (KPERS) are eligible for benefits. If a participant was hired before July 1, 1996, then the participant can access the Plan if retirement is on or after age 50 with 15 years of service with the District. Retirees and spouses are offered the Plan with the highest coverage levels, which is one of several options offered to active employees. Within that Plan, retirees and spouses have the same benefits as active employees. Retiree coverage terminates either when the retiree becomes covered under another employer health plan, or when the retiree reaches the Medicare eligibility age which is currently age 65. Spousal coverage is available until the retiree becomes covered under another employer health plan, attains Medicare eligibility age, or dies.

Membership of the Plan consisted of the following at July 1, 2020, the date of the latest actuarial valuation:

Inactive Plan members or beneficiaries receiving benefits	626
Active Plan members	6,768
Total	<u>7,394</u>

---

## **Financial Section**

---

*Contributions.* As provided by K.S.A. 12-5040, the District allows retirees to participate in the group health insurance plan. The funding policy of the District is to pay premiums as they come due. The contribution requirements of Plan members and the District are established and may be amended by the Board of Education. The required contribution is based on projected pay-as-you-go financing requirements. District retirees pay 100% of their premiums, which are 125% of the premium cost for active employees, as allowed by statute. The District is not required to share costs of retiree premiums. Administrative costs of the Plan are financed by the premiums paid into the Retiree Health Benefit Trust Fund.

In June 2011, the District established an irrevocable trust for the exclusive benefit of providing funds to pay benefits under the Plan. The District made an initial contribution of \$10 million to the trust in June 2011 to pre-fund benefits. Additional employer contributions to the trust are at the sole discretion of the District. Pay-as-you-go contributions and corresponding benefit payments began to be reported in the Retiree Health Benefit Trust fund effective July 1, 2011. For the year ended June 30, 2021, the District contributed \$10,866,216 into the Plan.

### Total OPEB Liability of the District

The components of the net OPEB liability of the District at June 30, 2021, were as follows:

Total OPEB liability	\$ 43,796,280
Plan fiduciary net position	16,445,828
District's net OPEB liability	<u>\$ 27,350,452</u>
Plan fiduciary net position as a percentage of the total OPEB liability	37.55%

### Net OPEB Liability

The District's net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of July 1, 2020, which was rolled forward to June 30, 2021.

*Actuarial assumptions.* The total OPEB liability was determined by an actuarial valuation as of July 1, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%
Salary increases	Service graded table
Investment rate of return	0.20%
Healthcare cost trend rates	6.50% for 2020 grading to 5.00% over 6 years and then to 4.00% over the next 48 years

Mortality rates were based on the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General Teachers) with MP-2019 Generational Improvement Scale.

The actuarial assumptions used in the July 1, 2020 valuation were based on similar assumptions used to value pension liabilities for Kansas school district employees. The Kansas state pension plans base their assumptions on periodic experience studies.

## Financial Section

The long-term expected rate of return on OPEB Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. As of June 30, 2021, the District only had investments in cash equivalents with a long-term expected real rate of return of 0.20%.

**Discount rate.** The discount rate used to measure the total OPEB liability was 1.80%. Assets were projected using expected benefit payments and expected asset returns. Expected benefit payments by year were discounted using the expected asset return assumption for years in which the assets were sufficient to pay all benefit payments. Any remaining benefit payments after the trust fund is exhausted are discounted at the 20-year municipal bond rate. Based on those assumptions, the OPEB Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members through the year 2035. At that point in time, the plan's fiduciary net position will be insufficient to satisfy projected future benefits payments. Therefore, the long-term expected rate of return on OPEB investments (1.80%) was applied to years 2022 through 2035 of projected benefit payments and the 20-year municipal bond rate of 2.10% was applied to projected benefit payments after 2035 to determine the total OPEB liability. The discount rate decreased from 2.30% on June 30, 2020 to 1.80% on June 30, 2021.

### Changes in the Net OPEB Liability

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)
<b>Balances at June 30, 2020</b>	\$ 43,316,585	\$ 10,430,234	\$ 32,886,351
<b>Changes from the prior year:</b>			
Service cost	2,543,074	-	2,543,074
Interest cost	1,026,913	-	1,026,913
Assumption changes	(9,556,802)	-	(9,556,802)
Employer contributions	-	10,866,217	(10,866,217)
Employee contributions	2,429,789	-	2,429,789
Projected investment return	-	20,860	(20,860)
Difference between expected and actual experience	8,902,938	(5,266)	8,908,204
Benefit payments	(4,866,217)	(4,866,217)	-
<b>Total net changes</b>	<u>479,695</u>	<u>6,015,594</u>	<u>(5,535,899)</u>
<b>Balances at June 30, 2021</b>	<u>\$ 43,796,280</u>	<u>\$ 16,445,828</u>	<u>\$ 27,350,452</u>

**Change in assumptions.** For June 30, 2021, changes in assumptions were as follows:

- The health care trend rates, mortality tables, salary increase rates and withdrawal and retirement rates were updated.
- The discount rate was changed from 2.30% to 1.80%.

**Sensitivity of the net OPEB liability to changes in the discount rate.** The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (0.80%) or 1-percentage-point higher (2.80%) than the current discount rate:

## Financial Section

	<b>1% Decrease 0.80%</b>	<b>Discount Rate 1.80%</b>	<b>1% Increase 2.80%</b>
Net OPEB liability	\$ 30,804,918	\$ 27,350,452	\$ 24,034,429

*Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates.* The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (5.50% decreasing to 4.00% then 3.00%) or 1-percentage-point higher (7.50% decreasing to 6.00% then 5.00%) than the current healthcare cost trend rates:

	<b>1% Decrease (5.50% decreasing to 4.00% then 3.00%)</b>	<b>Healthcare Trend Rate (6.50% decreasing to 5.00% then 4.00%)</b>	<b>1% Increase (7.50% decreasing to 6.00% then 5.00%)</b>
Net OPEB liability	\$ 21,836,215	\$ 27,350,452	\$ 33,963,124

### OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2021, the District recognized OPEB expense of \$2,898,077. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Difference between expected and actual experience	\$ 7,631,089	\$ 3,213,053
Net difference between projected and actual earnings on OPEB plan investments	--	111,923
Changes in assumptions	1,838,235	8,955,559
Total	<u>\$ 9,469,324</u>	<u>\$ 12,280,535</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<b>Year ended June 30:</b>	<b>Deferred Outflows (Inflows) of Resources</b>
2022	\$ (657,794)
2023	(657,654)
2024	(653,298)
2025	(617,539)
2026	(437,886)
Thereafter	212,960
	<u>\$ (2,811,211)</u>

**KPERS Death and Disability OPEB Plan**

*Plan Description.* The District participates in an agent multiple-employer defined benefit other post-employment benefit (OPEB) plan which is administered by KPERS. The Plan provides long-term disability benefits and life insurance benefit for disabled members to KPERS members, as provided by K.S.A. 74-04927. The plan is administered through a trust held by KPERS that is funded to pay annual benefit payments. Because the trust's assets are used to pay employee benefits other than OPEB, no assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75. There is no stand-alone financial report for the plan.

*Benefits provided.* Benefits are established by statute and may be amended by the KPERS Board of Trustees. The Plan provides long-term disability benefits equal to 60% (prior to January 1, 2006, 66 2/3%) of annual compensation, offset by other benefits. Members receiving long-term disability benefits also receive credit towards their KPERS retirement benefits and have their group life insurance coverage continued under the waiver premium provision.

*Long-term disability benefit.* Monthly benefit is 60% of the member's monthly compensation, with a minimum of \$100 and maximum of \$5,000. The monthly benefit is subject to reduction by deductible sources of income, which include Social Security primary disability or retirement benefits, worker's compensation benefits, other disability benefits from any other source by reason of employment, and earnings from any form of employment. If the disability begins before age 60, benefits are payable while disability continues until the member's 65<sup>th</sup> birthday or retirement date, whichever occurs first. If the disability occurs after age 60, benefits are payable while disability continues, for a period of 5 years or until the member retires, whichever occurs first. Benefit payments for disabilities caused or contributed to by substance abuse or non-biologically based mental illnesses are limited to the term of the disability or 24 months per lifetime, whichever is less. There are no automatic cost-of-living increase provisions. KPERS has the authority to implement an ad hoc cost-of living increase.

*Group life waiver of premium benefit.* Upon the death of an employee who is receiving monthly disability benefits, the plan will pay a lump-sum benefit to eligible beneficiaries. The benefit amount will be 150% of the greater of the member's annual rate of compensation at the time of disability or the member's previous 12 months of compensation at the time of the last date on payroll. If the member has been disabled for 5 or more years, the annual compensation or salary rate at the time of death will be indexed using the consumer price before the life insurance benefit is computed. The indexing is based on the consumer price index, less one percentage point, to compute the death benefit. If a member is diagnosed as terminally ill with a life expectancy of 12 months or less, the member may be eligible to receive up to 100% of the death benefit rather than having the benefit paid to the beneficiary. If a member retires or disability benefits end, the member may convert the group life insurance coverage to an individual life insurance plan.

*Members covered by benefit terms.* At June 30, 2021, the following members were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	107
Active employees	7,370
	<u>7,477</u>

---

## **Financial Section**

---

### Total OPEB Liability

The District's total OPEB liability of \$12,337,186 was measured as of June 30, 2020, and was determined by an actuarial valuation as of December 31, 2019, which was rolled forward to June 30, 2020.

*Actuarial assumptions and other inputs.* The total OPEB liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all period included in the measurement, unless otherwise noted:

Price inflation	2.75%
Payroll growth	3.00%
Salary increases, including inflation	3.50 to 11.50%, including price inflation
Discount Rate	2.21%
Healthcare cost trend rates	Not applicable for the coverage in this plan
Retiree share of benefit cost	Not applicable for the coverage in this plan

The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Index.

Mortality rates were based on the RP-2014 Mortality tables, as appropriate, with adjustment for mortality improvements based on Scale MP-2020.

The actuarial assumptions used in the June 30, 2020 valuation were based on actuarial experience study for the period January 1, 2016 – December 31, 2018. Other demographic assumptions are set to be consistent with the actuarial assumptions reflected in the December 31, 2019 KPERS pension valuation.

### Changes in the Total OPEB Liability

	<b>Total OPEB Liability</b>
<b>Balance at fiscal year-end 6/30/20</b>	<u>\$ 11,496,764</u>
<b>Changes for the year:</b>	
Service cost	739,774
Interest	404,445
Effect of economic/demographic gains or losses	359,888
Effect of assumptions changes or inputs	710,101
Benefit payments	<u>(1,373,786)</u>
<b>Net changes</b>	<u>840,422</u>
<b>Balance at fiscal year-end 6/30/21</b>	<u><u>\$ 12,337,186</u></u>

*Changes of assumptions.* Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period. The discount rate decreased from 3.50% on June 30, 2019 to 2.21% on June 30, 2020.

*Sensitivity of the total OPEB liability to changes in the discount rate.* The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.21%) or 1-percentage-point higher (3.21%) than the current discount rate:

## Financial Section

	1% Decrease (1.21%)	Current Discount Rate (2.21%)	1% Increase (3.21%)
Total OPEB liability	\$ 12,902,398	\$ 12,337,186	\$ 11,780,435

*Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates.* The healthcare trend rates do not affect the liabilities related to the long-term disability benefits sponsored by KPERS. Therefore, there is no sensitivity to a change in healthcare trend rates.

### OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2021, the District recognized OPEB expense of \$1,270,275. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 1,004,830	\$ 238,781
Changes in assumptions	787,130	320,687
Benefit payments subsequent to the measurement date	1,373,786	--
Total	<u>\$ 3,165,746</u>	<u>\$ 559,468</u>

The deferred outflow of resources related to the benefit payments subsequent to the measurement date totaling \$1,373,786 consist of payments made to KPERS for benefits and administrative costs, and will be recognized as a reduction in the total OPEB liability during the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	Deferred Outflows (Inflows) of Resources
2022	\$ 126,056
2023	126,056
2024	126,056
2025	126,056
2026	126,056
Thereafter	602,212
	<u>\$ 1,232,492</u>

**Summary of OPEB Plans**

As of June 30, 2021, the District's net OPEB liability, total OPEB liability, deferred outflows of resources, deferred inflows of resources and OPEB expense associated with the two OPEB plans are summarized as follows:

	2021
Total OPEB liability	\$ 12,337,186
Net OPEB liability	\$ 27,350,452
Deferred outflows of resources	\$ 12,635,070
Deferred inflows of resources	\$ 12,840,003
OPEB expense	\$ 4,168,352

**H. Other Employee Benefit Trust Funds**

The District has two trust funds which include assets held for other postemployment healthcare benefits and early retirement incentives. Listed below are condensed financial statements for both trusts.

	<b>Early Retirement Incentive Plan Trust</b>	<b>Retiree Health Benefit Trust</b>	<b>Totals</b>
Total assets	\$19,353,686	\$ 16,445,828	\$ 35,799,514
Total liabilities	245,427	--	245,427
Net position	<u>\$19,108,259</u>	<u>\$ 16,445,828</u>	<u>\$ 35,554,087</u>
Additions	\$12,928,887	\$ 10,881,811	\$ 23,810,698
Deductions	<u>13,470,367</u>	<u>4,866,217</u>	<u>18,336,584</u>
Change in net position	(541,480)	6,015,594	5,474,114
Beginning net position	<u>19,649,739</u>	<u>10,430,234</u>	<u>30,079,973</u>
Ending net position	<u><u>\$19,108,259</u></u>	<u><u>\$ 16,445,828</u></u>	<u><u>\$ 35,554,087</u></u>

**I. Pending Governmental Accounting Standards**

The effect on the District's financial statements of the following statements issued, but not yet adopted, has not yet been determined.

GASB Statement No. 87, *Leases*, improves accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resource based on the payment provisions of the contract. It establishes a single model for lease accounting based on foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. Provisions of this statement were originally effective for the District's fiscal year ending June 30, 2021 and now are postponed until June 30, 2022 per GASB Statement No. 95.

GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*, enhances the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period. It also simplifies the accounting for interest cost incurred before the end of a construction period. Provisions of this statement were originally effective for the District's fiscal year ending June 30, 2021 and now are postponed until June 30, 2022 per GASB Statement No. 95.

GASB Statement No. 91, *Conduit Debt Obligations*, provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The provisions of this statement were originally effective for the District's fiscal year ending June 30, 2022 and now are postponed until June 30, 2023 per GASB Statement No. 95.

GASB Statement No. 92, *Omnibus 2020*, enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This statement addresses a variety of topics including: effective date of GASB 87 for interim financial reports; intra-entity transfers between primary governments and component unit pension or OPEB plans; applicability of Statements No. 73 and 74 for reporting assets accumulated for postemployment benefits; applicability of certain requirements of GASB 84 to postemployment benefit arrangements; measurement of asset retirement obligations in government acquisitions; reporting by public entity risk pools for amounts recoverable from reinsurers or excess insurers; reference to nonrecurring fair value measurements in authoritative literature and terminology used related to derivative instruments. Certain provisions of this statement were effective upon issuance and did not impact the District's financial reporting, other provisions of this statement are were originally effective for the District's fiscal year ending June 30, 2021 and now postponed until June 30, 2022 per GASB Statement No. 95.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, provides guidance where some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR) -most notably, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or

changing fallback provisions related to the reference rate. The provisions of this statement were originally effective for the District's fiscal year ending June 30, 2021 and now postponed until June 30, 2022 per GASB Statement No. 95.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). A PPP is an arrangement in which a government contracts with an operator to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset, for a period of time in an exchange or exchange-like transaction. This statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs), which is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The provisions of this statement are effective for the District's fiscal year ending June 30, 2023.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, provides new accounting and financial reporting guidance for subscription-based information technology arrangements (SBITAs), which have become increasingly common among state and local governments in recent years. Statement 96 is based on the standards established in Statement 87, *Leases*. The new defines a SBITA as a contract that conveys control of the right to use a SBITA vendor's IT software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction. The guidance requires governments with SBITAs to recognize a right-to-use subscription asset, an intangible asset, and a corresponding subscription liability (with an exception for short-term SBITAs, those with a maximum possible term of 12 months) and provides guidance related to outlays other than subscription payments, including implementation costs, and requirements for note disclosures related to a SBITA. The provisions of this statement will be effective for the District's fiscal year ending June 30, 2023.

GASB Statement No. 97, *Certain Component Unit Criteria and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*, provides the following guidance: 1) increases consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; 2) mitigates costs associated with the reporting of certain defined contribution pension plans, defined contribution OPEB plans and employee benefit plans other than pension or OPEB plans as fiduciary component units in fiduciary fund financial statements; and 3) addresses relevance, consistency and comparability of the accounting and financial reporting for Internal Revenue Code Section 457 deferred compensation plans that meet the definition of a pension plan and for benefit provided through those plans. The first two provisions of this statement are effective immediately. The last provision will be effective for the District's fiscal year ending June 30, 2022.

### **WICHITA PUBLIC SCHOOLS UNIFIED SCHOOL DISTRICT NO. 259**

#### **REQUIRED SUPPLEMENTARY INFORMATION**

June 30, 2021

#### ***Changes in assumptions.***

Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period. The discount rate for each year is as follows:

2017: 2.90%  
2018: 3.30%  
2019: 3.00%  
2020: 2.30%  
2021: 1.80%

For June 30, 2021, other changes in assumptions were as follows:

- The health care trend rates, mortality tables, salary increase rate and withdrawal and retirement rates were updated.

For June 30, 2020, other changes in assumptions were as follows:

- The expected long-term investment return was changed from 2.10% to 0.20%.

For June 30, 2019, other changes in assumptions were as follows:

- The health care trend rates were changed to better anticipate short-term and long-term medical increases.
- The mortality table were updated from using the MP-2015 Generational Improvement Scale to using the MP-2017 Generational Improvement Scale.
- Disability rates were removed.
- The withdrawal and retirement tables for all employees were updated.
- The percentage of future retirees who are assumed to incur a tobacco surcharge of \$100 per month was increased from 2% to 5%.
- Spouses are assumed to end coverage at the earlier of the date of the participant or spouse attains age 65. Previously spouses were assumed to end coverage when the spouse attained age 65.

Measurement Date	June 30, 2020	June 30, 2019	June 30, 2018	June 30, 2017
<b>Total OPEB liability</b>				
Service cost	\$ 739,774	\$ 659,781	\$ 656,571	\$ 703,157
Interest	404,445	416,753	409,710	343,623
Actuarial gains or losses	359,888	857,613	(345,857)	-
Assumption changes	710,101	187,337	(142,864)	(378,424)
Benefit payments	(1,373,786)	(1,453,660)	(1,063,551)	(1,404,549)
<b>Net change in total OPEB liability</b>	840,422	667,824	(485,991)	(736,193)
<b>Total OPEB liability - beginning</b>	11,496,764	10,828,940	11,314,931	12,051,124
<b>Total OPEB liability - ending</b>	<u>\$ 12,337,186</u>	<u>\$ 11,496,764</u>	<u>\$ 10,828,940</u>	<u>\$ 11,314,931</u>
 <b>Covered payroll</b>	 \$ 366,651,053	 \$ 352,165,029	 \$ 354,130,642	 \$ 319,342,479
 <b>District's total OPEB liability as a percentage of covered payroll</b>	 3.36%	 3.26%	 3.06%	 3.54%

\* GASB 74 and 75 require presentation of ten years. As of June 30, 2021, only four years of information is available.

*Changes of assumptions.* Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period. The discount rate for each year is as follows:

2017: 2.85%  
2018: 3.58%  
2019: 3.87%  
2020: 3.50%  
2021: 2.21%

**REQUIRED SUPPLEMENTARY INFORMATION**

June 30, 2021

*Changes in benefit terms for KPERS.* Effective January 1, 2014, KPERS Tier 1 members' employee contribution rate increased to 5.0% and then on January 1, 2015, increased to 6.0% with an increase in benefit multiplier to 1.85% for future years of service. For Tier 2 members retiring after July 1, 2012, the cost of living adjustment (COLA) is eliminated, but members will receive a 1.85% multiplier for all years of service.

January 1, 2015, the KPERS 3 cash balance plan became effective. Members enrolled in this plan are ones first employed in a KPERS covered position on or after January 1, 2015, or KPERS 1 or KPERS 2 members who left employment before vesting and returned to employment on or after January 1, 2015. The retirement benefit is an annuity based on the account balance at retirement.

*Changes in assumptions.*

The major items of impact in the actuarial valuation dated December 31, 2014 relative to the prior valuation are as follows:

- Reduce disability rates by 20% for all three KPERS groups.
- Increase the termination of employment rates for State-Males and Local-Males and Females.
- Modify the election of a deferred benefit by Local vested members who terminate employment in future years.
- Modify the retirement rates for the C60 group.
- Increase the load for the impact of final average salary provisions for Local, C55 and C60 members hired before July 1, 1993.
- Establish an interest crediting rate of 6.50% for KPERS 3 members.

As a result of the experience study completed in November 2016, there were several changes made to the actuarial assumptions and methods since the prior valuation are as follows:

- The price inflation assumption was lowered from 3.00% to 2.75%.
- The investment return assumption was lowered from 8.00% to 7.75%.
- The general wage growth assumption was lowered from 4.00% to 3.50%.
- The payroll growth assumption was lowered from 4.00% to 3.00%.
- The post-retirement health mortality assumption was changed to the RP-2014 Mortality Table, with adjustments to better fit the observed experience for the various KPERS groups. The most recent mortality improvement scale, MP-2016, is used to anticipate future mortality improvements in the valuation process through the next experience study.
- The active member mortality assumption was modified to also be based on the RP-2014 Employee Mortality Table with adjustments.
- The retirement rates for the select period (when first eligible for unreduced benefits under Rule of 85) were increased, but all other retirement rates were decreased.
- Disability rates were decreased for all three groups.
- The termination of employment assumption was increased for all three groups.
- The interest crediting rate assumption for KPERS 3 members was lowered from 6.50% to 6.25%.

As a result of the experience study completed in January 2020, there were several changes made to the actuarial assumptions and methods since the prior valuation. The changes that impact all groups were effective December 31, 2019 and include:

- The investment return assumption was lowered from 7.75% to 7.50%.
- The general wage growth assumption was lowered from 3.50% to 3.25%.
- The payroll growth assumption was lowered from 3.00% to 2.75%.

Changes from the January 2020 experience study that impacted State/School groups are listed below:

- Retirement rates were adjusted to partially reflect observed experience.
- Termination rates were increased for most KPERS groups.
- Disability rates were reduced.
- Factors for the State group that are used to anticipate higher liabilities due to higher final average salary at retirement for pre-1993 hires were modified to better reflect actual experience.
- The administrative expense load for contributions rates was increased from 0.16% to 0.18%.

# Governmental Funds

**General Funds** – the general funds maintained by the District and the purpose of each are as follows:

**General** – used in conjunction with the Supplemental General fund to account for all financial resources except those required to be accounted for in another fund.

**Supplemental General** – used in conjunction with the General fund to account for all financial resources except those required to be accounted for in another fund.

**Contingency Reserve** – used to provide resources for unforeseen and unplanned needs.

**Supplemental Grants – State and Local** – used to account for revenue and expenses of programs administered in accordance with state and nongovernmental and/or local grants awarded to the District.

**Professional Development** – used to account for teacher in-service training program.

**Textbook Rental** – used to account for the receipt of student textbook rental fees and the expenditures for student textbooks.

**Special Revenue Funds** - used to account for specific revenues that are legally restricted to expenditures for particular purposes. The special revenue funds maintained by the District and the purpose of each are as follows:

**Preschool-Aged At-Risk** – created by Kansas Statute in 2005 and provides early childhood programs for the District.

**Bilingual Education** – used to account for costs incurred in administering programs to provide special help for pupils whose native language is not English.

**Virtual Education** – used to provide lessons, resources, training and teaching support online for K-8 families and to provide an online alternative learning option for high school students in Wichita and the Wichita Metro Area.

**Latchkey** – used to account for expenditures associated with the before and after school programs for children 5 to 12 years of age.

**Parents As Teachers** – used to account for the home/school partnership program that helps parents understand more about how young children grow and learn, so they can be better teachers of their preschool children.

**Summer School** – used to account for costs associated with the summer school programs.

**Vocational Education** – used to account for secondary education vocational programs approved by the State and funded by the General fund weighting formula.

**Special Liability Expense** – used to pay for the cost of providing for the defense of the District and its employees and for the payment of claims.

**Athletic Activity** – used to account for gate receipts at secondary school athletic functions and expenditures relating to those functions.

**Music Rental** – used to account for the collection of student music rental fees and the expenditures for musical instruments.

**Student Material Revolving** – used to account for revenues from student materials fees and the expenditures associated with the purchase of student materials.

**Supplemental Grants – Federal** – used to account for revenue and expenditures of programs administered in accordance with Federal grants awarded to the District.

**KPERS Retirement Contributions** – used to account for revenues and expenditures of the Kansas Public Employees Retirement System. KPERS provides statewide defined-benefit retirement plans for state and local public employees.

**Capital Project Funds** – used to account for financial resources to be used for the acquisition, construction, remodeling, and equipping of major capital facilities. The capital project funds maintained by the District and the purpose of each are as follows:

**Special Assessments** – used to pay for costs associated with capital improvements such as streets, sewers, curbs, and gutters.

**Equipment Purchases** – used to pay for laptops for student use

# Internal Service Funds

## **INTERNAL SERVICE FUNDS**

**Internal Service Funds** are used by state and local governments to account for the financing of goods and services provided by one department or agency to other departments or agencies and to other government units, on a cost-reimbursement basis. These funds are not required by the State to have adopted budgets. The internal service funds maintained by the District and the purpose of each are as follows:

**Healthcare** – used to account for premium deposits and expenditures to health care providers of medical and dental services for covered District employees.

**Disability Reserve** - used to account for premiums and disability claims paid by the District on behalf of covered employees.

**Workers' Compensation** – used to account for benefits provided for medical expenses and indemnity resulting from occupational illness or injury to all employees under the Kansas Worker's Compensation Act.

**Risk Management** – used to account for legal defense and payment of claims against the Board of Education when an incident occurs during the course of employment. The deductible portion of the property and casualty, general liability, automobile and aviation premiums are also accounted for in this fund.

# Fiduciary Funds

## **FIDUCIARY FUNDS**

**Fiduciary Funds** are used when a government holds or manages financial resources in an agent or fiduciary capacity. The fiduciary funds maintained by the District and the purpose of each are listed below:

**Early Retirement Incentive Plan Trust** – used to account for early retirement incentives.

**Retiree Health Benefit Trust** – used to account for other post-employment benefits (OPEB). Provides healthcare benefits, including medical, dental, vision, and life, to eligible retirees.

**Wichita Public Schools

<b>Ratio of total debt service expenditures to noncapital expenditures.</b>					
		7.40%	11.10% (3)	6.71%	6.93%

- (1) Interest on Build America Bonds is eligible for a 35% Federal subsidy. Due to sequestration, the subsidy was reduced to 32.48% in FY14 and has had minor adjustments to the rate in each subsequent calendar year.
- (2) Higher than normal interest rates starting in FY18 through early FY20 with significant drop late FY20 through FY21.
- (3) The increases in FY13 and FY21 are due to the current refunding of general obligation bonds. Advance refundings in other years are reflected in Other Financing Sources (Uses).
- (4) The reduction in Taxes and increase in Intergovernmental - State beginning in FY15 is due to a legislative change requiring counties to remit school districts' General Fund taxes to the State of Kansas. The taxes are then distributed to districts as state foundation aid. The increase in FY21 is due to increased tax collections and state aid in the Supplemental General funds as the District maximized its funding authority allowed by state statute.
- (5) The reduction in facility acquisition and construction service beginning in FY17 is a result of the final construction projects related to the 2008 bond election nearing completion. Increases in FY21 are due to additional purchases of IT equipment related to COVID-19 remote learning impacts.
- (6) Increased refunding bond issuance in FY18 without corresponding principal retirement is a result of crossover advance refunding in December 2017 with crossover date occurring on Oct 1, 2020.
- (7) The increase in Intergovernmental-Federal revenues is due to increased federal aid for COVID-19 relief in FY20 and FY21.

- (1) Decreases in FY13, FY15, and FY16 are due to completion of bond projects. The increase in FY14 is due to additional bond projects as a result of a new bond issue. Increases beginning in FY18 are due to increased assessed valuation, increased interest income and conservative spending as the District worked on a system-wide facilities wide maintenance plan. The decrease in FY21 after three years of increases reflects greater capital spending for technology and safety in response to COVID-19.
- (2) Increase in FY18 is attributed to recording 2017A crossover advance refunding, which totaled \$103 million in FY18. General obligation bond series 2010B crossover date was October 1, 2020, explaining the decrease in FY21.
- (3) Increases in FY20 and FY21 are due to unspent salary and operational budget due to COVID-19 restrictions.
- (4) Decrease in FY14 is due to a reduction in encumbrances that were primarily related to furnishing and equipping new schools.
- (5) Due to the legislature's implementation of Block Grant funding for FY16 and FY17, several funds no longer met the requirements to be special revenue funds in those years and were combined with the General Fund. Increases in FY21 are due to unspent salary and operational budgets due to COVID-19 restrictions.

(1) Increase in FY18 is due to crossover advance refunding bond issued with interest payable from escrow funds until October 2020 crossover date causing the decrease in FY21.

(2) Amounts shown are primarily attributable to FEMA funding of storm shelters. FY13 through FY16 also include funding from Grace Med Health Clinic and the Department of Human Resources & Services Administration for construction of health clinics at school sites to serve students and staff at those schools and the surrounding community. FY16 and FY17 decreased due to construction of fewer storm shelters and clinics.

(3) The increase in FY14 is due to a net impairment gain related to a fire in a school building and a change in the method in which Latchkey fees are handled.

(4) Increased interest earnings beginning in FY17 are due to favorable interest rates and modifications in individual investment sizes. Interest rates dropped in late FY20 and continued into FY21.

(5) The increase in FY 2014 is a result of two primary factors: 1) A considerably higher number of roof repairs related to hail damage than in prior years, and, 2) Expensing small items that no longer meet the District's capitalization threshold. Increase in FY21 are due to COVID-19 impacts.

(6) The FY15 decrease in property taxes levied for general purposes and increase in state and federal aid not restricted to specific purposes is due to a legislative change requiring counties to remit school districts' General Fund taxes to the State of Kansas. The taxes are then distributed to districts as state foundation aid.

(7) As a result of Block Grant funding for FY16 and FY17, state aid that was previously designated for specific purposes and included in Operating grants and contribution was no longer restricted and was therefore included in State and federal aid not restricted to specific purposes. The legislature passed a new school finance formula in June 2017 that once again provided state aid designated for specific purposes and therefore is included in Operating grants and contributions starting in FY18.

(8) The state aid received in FY17 is the District's proportionate share of a one-time bond issue by the State of Kansas in which the proceeds were deposited to the Kansas Public Employees Retirement System (KPERs) to reduce the unfunded actuarial pension liability.

Total Primary Government Net Position		\$ 397,849,816	\$ 438,888,520	\$ 438,038,899	\$ (47,446,644)	\$ (34,739,747)	\$ 55,828,192	\$ 78,326,564	\$ 104,669,926	\$ 186,835,941	\$ 229,908,984

- (1) Increases in FY12-FY17 are attributable to projects for the 2008 bond election.
- (2) The capital outlay mill levy was lowered to 6 mills in FY12, 4.5 mills in FY13 and 4.3 mills in FY14 due to elimination of State equalization. In FY 15, State equalization was reinstated and the capital outlay mill levy was increased to 8 mills. This allowed increased spending on such things as bond projects and maintenance work that had previously been delayed, resulting in a large decrease in cash and restricted net position. In FY17, spending was purposely reduced to build cash in order to eliminate cash flow issues in the first half of each year before taxes and state aid are received. This resulted in an increase to the restricted net position. Beginning FY18, the increases are due to increased assessed valuation, increased interest income and conservative spending as the District worked on a system-wide facilities wide maintenance plan.
- (3) Funding of Other Post Employment Benefits (OPEB) through an irrevocable trust in FY11 reduced liabilities, therefore increasing unrestricted net position. The decrease in FY14 is primarily due to an increase in early retirement and OPEB liabilities and a decrease in the State Intervention fund balance as a result of lower state aid revenue and increased costs. The decrease in FY15 is due to implementation of GASB Statement No. 68, requiring the District to record its proportionate share of the Kansas Public Employees Retirement System (KPERs) collective net pension liability. In FY17, the majority of the increase is due to the net difference between the increase in the Net OPEB Liability related to implementation of GASB 74 and 75 and the decrease in the Net Pension Liability related to recording the District's proportionate share of the one-time bond issue by the State of Kansas in which the proceeds were deposited to KPERs.
- (4) The decrease in FY15 and FY16 are due to a substantial increase in health claims that drew down reserves. Due to depletion of health plan reserves, in mid-FY17 substantial plan changes were made, increasing reserves and restricted net position.
- (5) Reduction in FY16 is due to the Textbook Rental Fund no longer meeting the requirements of a special revenue fund and therefore being combined with the General Fund.
- (6) Increased net positions in FY20 and FY21 are due to lower operating costs and unspent salary savings due to hiring challenges caused by COVID-19 impacts.
- (7) Increased in net positions beginning in FY20 due to purposeful increased tax collections in anticipation of increasing bond payments over the next five years.

(1) Increases are due to the increasing population of low-income students.

(2) Beginning in FY18, the State determined that students must exit from ESOL services after testing determines that the student scored proficient for one year. As students scored proficient in FY18, the District saw a slight decline in students eligible for funded ESOL services in FY 19.

(3) Equalization state aid was reinstated in 2014-15 in the Supplemental General Fund and Capital Outlay Fund as a result of a Supreme Court ruling, but the Capital Outlay aid was cut mid-year from \$7.7 million to \$4.5 million. The Legislature's implementation of Block Grant funding in 2015-16 froze the state aid in both funds at the 2015-16 amount. As a result of another Supreme Court ruling, equalization state aid was again fully reinstated in 2016-17.

(4) Due to the Legislature's implementation of Block Grant funding for the 2015-16 and 2016-17 school years, state aid that was previously designated for specific purposes is no longer restricted to those purposes and was therefore included in Unrestricted State School Aid for 2016 and 2017. Beginning 2018, this aid has been designated for specific purposes and is restricted.

(5) Professional development aid is part of the school finance funding formula beginning in 2017-18.

(6) Increase in KPERS in FY 2018 due to the State meeting its full KPERS obligation. In the previous two fiscal years, as a result of State's revenue challenges, only partial KPERS payments had been made. State revenue challenges in FY 2019 resulted in partial payments for KPERS.

(1) The year shown is the year in which taxes are levied for collection in the following calendar year.

(2) Overlapping rates are those of local and county governments that apply to property owners within the boundary of USD 259.

(3) Taxes were levied in 2015 for the purpose of funding special assessments at the new Southeast High School.

(4) Due to the State of Kansas fully reinstating equalization state aid in the Supplemental General and Capital Outlay funds for FY 2015, the mill levy decreased in the Supplemental General Fund, allowing the District to increase the Capital Outlay mill levy in order to fully maximize the matching state aid in that fund. The Bond & Interest mill levy was also restored to the 2012 level as planned.

(5) In FY 2016 the State of Kansas eliminated the school funding formula and replaced it with a block grant system that provided essentially the same funding as FY 2015 after mid-year cuts to equalization state aid. An increase to the Supplemental General mill levy was necessary to avoid losing additional state aid. In FY 2017, as a result of a Supreme Court ruling, equalization state aid was again reinstated, resulting in a decrease to the Supplemental General mill levy. In FY 2018 and FY 2021, decreased state aid in the Supplemental General fund resulted in an increase in the mill levy to fund the maximum budget authority.

(6) Beginning in 2018, taxes levied to fund environmental liability related to ground water remediation and reporting activities at the School Service Center.

<b>Total Direct and Overlapping Debt</b>			<u><u>\$ 794,949,724</u></u>

**Note:** Overlapping governments are those that coincide, at least in part, with the geographic boundaries of USD 259. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property owners of USD 259.

(1) The percentage of overlapping debt applicable to taxpayers of USD 259 is estimated using assessed valuations. For Sedgwick County, since 100 percent of USD 259 lies within Sedgwick County, the District's total assessed valuation was divided by the County's assessed valuation to determine the percentage of the County's debt applicable to taxpayers of the District. For all other entities, the portion of each entity's assessed valuation that is related to property located within USD 259 boundaries was divided by the entity's total assessed valuation.

(2) Source: Sedgwick County Clerk

(3) Includes premiums and discounts.

(1) Source: Sedgwick County Clerk

(2) Computed in accordance with K.S.A. 10-310.

(3) K.S.A. 72-5457 - Legal bonded debt limit is 14% of the assessed valuation of the taxable tangible property value within the school district.

(4) On September 9, 2008, the State Board of Education approved an additional \$246,682,112 to the legal debt limit of the District, as authorized by K.S.A. 72-5461. This approval was needed in order for the District to hold an election for the issuance of bonds in the amount of \$370,000,000, which otherwise would have caused the School District's bonded indebtedness to exceed the general obligation bond debt limit. The increased authority applies only to bonds issued under the 2008 election, is valid as long as debt related to that election is outstanding, and cannot be used for a future election to issue additional debt. Therefore, the amount of the additional authority reflected was adjusted annually (not to exceed \$246,682,112) to arrive at a Legal Debt Margin of zero. By the end of FY17, all bonds under the 2008 election have been issued and the additional authority is no longer needed, as the total debt applicable to the limit is within the 14% statutory authority under K.S.A. 72-5457.

(5) As of June 30, 2021.

(6) The legal debt margin is the District's available borrowing authority under K.S.A 72-5457 and is calculated by subtracting the total debt applicable to the legal debt limit from the legal debt limit.

(1) Also known as School Age Program Centers. Latchkey centers are run by USD 259.

(2) Metro-Boulevard closed in 2012-13; Metro-Meridian closed at the end of 2014-15.

(3) Decrease in 2011-12 was primarily due to cuts in state and federal aid. The Curriculum Department completed a reorganization between 2015-16 and 2016-17. Increases in 2019-20 are due to moving paraprofessionals from temporary positions to permanent positions.

(4) In 2012-2013, 71 positions were moved from Capital Projects to Operations due to the state eliminating funding for capital outlay. In 2014-2015, positions were moved from Operations to Capital Projects due to changes in Capital Outlay regulations.

(5) Due to state funding issues in 2015-16, an adult learning center was changed to a virtual format, causing enrollment to decline. Towne East Learning Center and Towne West Learning Center were also changed to a virtual format in 2016-17, again causing enrollment to decline. Additionally, enrollment declined at the Juvenile Detention Center in 2016-17.

(6) Due to budget reductions in 2015-16, 1.0 FTE was moved to Student Support Services, 3.0 FTE clerical vacancies were eliminated, and 1.0 FTE for Chief Operations Officer was eliminated.

(7) Lower elementary enrollment numbers due to COVID-19 effects.

(2) Using the Four-Year Adjusted Cohort formulas which are significantly different than the NCES and NCLB formulas.

(3) The base year is 1995-96 enrollment of 46,579. This is the point of the lowest enrollment during the prior 25-year period.

(4) The school year calendar was shortened for 2016-17 and 2017-18 due to budget constraints. Due to COVID-19, last day of school for 2019-20 was 3/14/20.

(5) The decrease for 2016-17 in the number of students who live less than 2.5 miles from school is due to re-evaluation of hazardous routes.

(6) 2020-2021 decreases due to an increase in remote and virtual learning.

Indicators are not available for the Transportation program, since the District contracts out student bussing and therefore does not own the assets.

Source: Wichita Public Schools Facilities Division and Information Services & Technology Department.

(1) In 2015-16, construction of a new school eliminated the remaining unimproved land.

(2) Metro Meridian closed at the end of 2015-16.

(3) Lincoln was sold in 2012-13. Grace Med Clinic opened at Dodge in 2013-14. Grace Med Clinics at Cloud and Gardiner opened in 2014-15. Grace Med Clinics opened at Jardine and West in 2015-16. The adult learning center that was previously located in the Dunbar Support Center was moved into another existing facility in 2015-16 making Dunbar a non-school building. Additionally, the downtown Alvin E. Morris Administrative Center building was sold in 2015-16, with the move of administration to the old Southeast High building during 2017-18.

(4) In 2012-13 Bryant, Lincoln, and Emerson closed, and Ortiz opened.

(5) Judge Riddel Boys Ranch and Riverside Academy closed in 2014-15. Dunbar Support Center was moved to the non-school building count in 2015-16, as it is no longer utilized for instructional purposes. Towne East Learning Center and Towne West Learning Center were closed at the end of 2015-16. Towne East Learning Center and Bryant Opportunity Academy were reopened in 2018-19.

(6) Christa McAuliffe Academy opened in 2012-13.

(7) Beginning in 2016-17, the Information Services & Technology Department has been increasing the number of student computers for use with computer-based curriculum. In 2020-21, numbers were increased for remote-learning. During this transition, older computers have not yet been obsolete.

(8) There was a decrease in servers in 2016-17 due to switching to virtual servers, allowing multiple applications to use the same server.

(9) Microwave towers have been sold.

A fractional part of a year's service is paid on the basis that the number of contract days worked bears to the total number of contract days in the contract year.

The base contract salary is prorated for any teacher who teaches less than full time.

The term "supplemental salary" refers to payment for the assigned, accepted, and performed services under a supplemental contract as set forth on this page.

## Statistical Section

### WICHITA PUBLIC SCHOOLS UNIFIED SCHOOL DISTRICT NO. 259 DISTRICT FEEDER PROGRAM

Unless there are programmatic student needs such as Special Education or ESOL services, the District assigns students to schools based on residential address. Students move from elementary schools to middle schools and then to high schools located in their neighborhoods as units called feeder patterns. Students who prefer thematic approach to instruction offered by the magnet school programs are eligible to apply regardless of academic ability.

<b><u>East High School Feeder Pattern</u></b> Number of students in the feeder pattern: 6648 Number of buildings in the feeder pattern: 10 Average school building age: 60 years	<b><u>North High School Feeder Pattern</u></b> Number of students in the feeder pattern: 7116 Number of buildings in the feeder pattern: 14 Average school building age: 76 years	<b><u>Southeast High School Feeder Pattern</u></b> Number of students in the feeder pattern: 7925 Number of buildings in the feeder pattern: 13 Average school building age: 50 years
