Boundary Transfer Rules for Elementary and Middle School

- Any elementary school student affected by this boundary change who will be in the 5th grade for the 2023-24 school year, may remain at their current elementary school on a student transfer if their parents provide transportation. This opportunity will not be available for younger siblings.*
- Any middle school student affected by this boundary change who will be in the 8th grade for the 2023-24 school year, may remain at their current middle school on a student transfer if their parents provide transportation. This opportunity will not be available for younger siblings.*

*At the December 8th, 2022 Board Work Session, Board member Julie Hinaman made a formal request asking that CFISD modify the middle school and elementary school transfer provisions to include younger siblings.

Boundary Transfer Rules

High School

- **Only incoming 9th graders**, the year of the scheduled boundary change would be required to move to high school in new attendance zone.
- **Sibling Transfers** – students who are affected by a high school boundary change who will have an older sibling in 10th, 11th or 12th grade attending the affected high school, may choose to transfer to their original high school rather than attend the high school designated by the rezoning. The sibling transfer will remain eligible for UIL varsity participation, and they will be allowed to remain until graduation.
