Comprehensive Needs Assessment

Needs Assessment Overview

Needs Assessment Overview Summary

Title I, Part A Schoolwide Program Element 1.1: Comprehensive Needs Assessment: The campus conducted a comprehensive needs assessment of the entire school that considered information on the academic achievement of children in relation to the challenging State academic standards, particularly the needs of those children who are failing, or are at-risk of failing, to meet the challenging State academic standards and any other factors determined by the local education agency.

The campus used the following process to conduct the comprehensive needs assessment: Bang Elementary CPOC Team met in September to review the previous year's CIP and the progress made toward our strategies and goals. We analyzed many forms of data and feedback. After review of our progress and challenges, we met again in September to determine the most effective strategies we needed to implement as a team in order to meet the needs of Bang students.

The comprehensive needs assessment was reviewed and/or revised at the beginning of the current school year.

In summary, the comprehensive needs assessment denotes the following: Once completing the comprehensive needs assessment we determined that we needed to continue to focus on providing learning opportunities for our students that focus on building relationships, learning opportunities that require higher levels of engagement and retention of new learning. Our focus needs to be developing problem solving skills and creative thinking. We will maintain a focus on developing a strong foundation in number sense and literacy while also providing experiences for daily critical writing in all content areas. Through partnership with our staff, families and community, our goal is to close the gaps for our students as we meet the individual needs of our Bang students.

The comprehensive needs assessment was used to develop the goals, performance objectives, and strategies in the remainder of this campus improvement plan.

Title I, Part A Schoolwide Program Element 2.1: Campus Improvement Plan Developed with Appropriate Stakeholders: The campus improvement plan was developed with involvement of parents and other members of the community to be served and individuals who will carry out the plan, including teachers, principals, other school leaders, paraprofessionals present in the school, administrators, the local education agency, and where appropriate, other individuals determined by the school. The committee who develops and evaluates the CIP is called the Campus Performance Objective Committee (CPOC).

Title I, Part A Schoolwide Program Element 2.2: Regular Monitoring and Revision: The campus improvement plan will stay in effect for the duration of the school year and will be regularly monitored and revised as necessary based on student needs to ensure that all students are provided opportunities to meet the challenging state academic standards. The campus improvement plan will be evaluated during the regularly scheduled CPOC Meetings.

Title I, Part A Schoolwide Program Element 2.3: Available to Parents and Community in an Understandable Format and Language: The campus improvement plan is available to the local education agency, parents, and the public, and information contained in the plan is in an understandable and uniform format and, to the extent practicable provided in a language parents can understand. It is written in English and translated into Spanish and other languages based on the following Language Access Plan for Title I Campuses:

In accordance with Title VI of the Civil Rights Act of 1964 and the Americans with Disabilities Act, this procedure establishes guidelines for providing language accessible services to individuals that are limited English proficient.

All Title I Campuses shall have all written and oral communication services readily available in English and Spanish.

When 25% of a Cypress-Fairbanks ISD Title I campuses home language data shows that the common form of communication is a language other than English or Spanish, the

campus will provide the following documents translated to the common language:

- *Registration and Enrollment Forms*
- *Progress Reports*
- *Report Cards*
- *Campus Improvement Plans*
- *School-Parent Compact*
- *Parent Engagement Policy*

Individual campuses may provide other documents translated in a language accessible to their community based upon campus needs. All documents will be translated upon request. Verbal translation in Spanish is available at all Cypress-Fairbanks ISD campuses. The entire Cypress-Fairbanks ISD website, including attachments and links, is translated into Spanish. Other translations may be provided upon request.

The Campus Improvement Plan is made available to parents on the campus website, the district website, the front office, and two apartment complexes that feed into Bang Elementary (Sugar Creek and Meadow Lands Apartments).

Demographics

Demographics Summary

Bang is a wonderful campus with a diverse population. Our mission is to create a legacy that supports students academically and emotionally. It is our mission to provide a safe, learning environment that inspires students and staff to continually grow. We pride ourselves in providing differentiated staff development opportunities to build teaching capacity and enhance learning for our students. We believe home + school working together = students success.

Demographics Strengths

Our demographics mirror CFISD.

Student Achievement

Problem Statements Identifying Student Achievement Needs

Problem Statement 1: Reading: Bang Elementary did not meet any of the 2021 CIP Target "Approaches" goals for 3rd, 4th, and 5th grade Reading. **Root Cause:** Reading: We need to provide opportunities for students to meet in small groups/guided reading groups.

Problem Statement 2: Writing: Students at Bang did not meet the 2021 "Approaches" CIP Target for 4th Grade Writing. **Root Cause:** Writing: Grammar instruction (Patterns of Power) was not consistently implemented across grade levels to ensure student understanding.

Problem Statement 3: Math: We did not meet our 2021 Target Goal for the Approaches level in 3rd, 4th or 5th grades. **Root Cause:** Math: A decrease in opportunities to differentiate instruction.

Problem Statement 4: Science: We did not meet our 2021 Target Goal for the Meets level in Science. **Root Cause:** Science: Teachers did have the opportunity to consistently meet in small groups based on formative data.

Problem Statement 5: Students are beginning the 2021-22 school year with learning gaps. **Root Cause:** The onset of COVID-19 in the spring of 2020 and the implications of modified instructional methods necessitated by the need for immediate remote learning.

Problem Statement 6: Campuses serving the most economically disadvantaged/at-risk students experience larger achievement gaps. **Root Cause:** Need to deepen understanding and address specific academic needs of economically disadvantaged/at-risk students.

School Culture and Climate

School Culture and Climate Strengths

Student attendance at Bang continues to be a focus. We have attendance incentives and awards to enhance attendance. When students arrive late, they are greeted and walked to class.

Restorative Practices

We are a Positive Behavior Interventions and Support (P.B.I.S.) Campus with Level 1 and Level 2 teams. Our students are taught to demonstrate their (G.R.O.W.L.) Great Attitude, Respect, Organization, Wise Choices, and Leadership consistently.

Approximately 97% of our staff participates in the "Helping Us Grow Stronger" (H.U.G.S.) mentor program.

Multiple programs are implemented to help us with this goal such as:

- Project Safety
- Student of the Week
- Boys of Bang
- Book Club
- Garden Club
- Music Club
- Art Club
- Volleyball Club
- Girls & Pearls and Girls on the Run - Girls Empowerment Programs
- Ambassadors Program: provides leadership opportunities for students in 4th and 5th grade
- Daily Class Meetings
- Red Ribbon Week

Campus Safety

Our campus has implemented all-district safety protocols. We have created and implemented power points for safety drills and practicing campus safety. The campus sends letters, newsletters, video, and safety information. This campus is entering its seventh year of providing parents with a Friday call out at 5:00 pm through the school messenger system which often includes safety reminders.

Problem Statements Identifying School Culture and Climate Needs

Problem Statement 1: School Culture and Climate: The campus has a disproportionate number of office referrals for African American males. **Root Cause:** School Culture and Climate: Students are struggling to appropriately communicate their needs and teachers are struggling to prevent and de-escalate disruptions.

Staff Quality, Recruitment, and Retention

Staff Quality, Recruitment, and Retention Strengths

The following are strengths of the campus in regard to staff quality, recruitment and retention:

- Promote Healthy Practices
- Distribute GROWL Green Bucks to Recognize Staff
- School Wide recognition through weekly "Shout Out System"
- Increase team building activities through out the year.
- Provide ongoing training that supports working with students with unique needs.
- Maintain our school values through an organized system with lead mentors.
- PTO monthly rewards/treats
- Correlate "Teacher Appreciation" with their love language
- Increase opportunities for professional growth for para educators.
- Provide training for teachers and staff on working with difficult students.
- Utilize school wide data base to provide personalized rewards and treats.
- Provide support via "New Teacher Academy"

Problem Statements Identifying Staff Quality, Recruitment, and Retention Needs

Problem Statement 1: Teacher/Paraprofessional Attendance: Paraprofessionals and Teachers are more likely to be absent on a Monday or a Friday. **Root Cause:** Teacher/Paraprofessional Attendance: Some staff members don't realize the value in their daily attendance and it's impact on student learning.

Curriculum, Instruction, and Assessment

Curriculum, Instruction, and Assessment Strengths

Math:

5th grade exceeded the district for the February Benchmark

District: 62% proficient

Bang: 66% proficient

Science & Math:

Teachers were effective in pulling small groups to work with students who had gaps in their learning for math and science

Reading:

5th grade exceeded the district for the February Benchmark:

District: 66.3% proficient

Bang: 68.5% proficient

Writing:

Teachers were able to analyze checkpoint and benchmark data to effectively create small groups and reteach revising and editing strategies.

Parent and Community Engagement

Parent and Community Engagement Strengths

The following are strengths of the campus in regard to parent and community engagement.

Parent Survey data & attendance indicates positive feedback back for the following programs offered at Bang Elementary these include:

- Science and Technology Club
- Title I Parent Meetings
- Homeroom Parent Ambassadors
- Parent Volunteers
- Multicultural Night
- Family Math Night
- Family Reading Night
- Science Family Night
- 30th Anniversary Parent Team
- PTO Monthly Meetings
- Parent Monthly Meetings
- Student Showcase and Grade Level Performances
- Community Veteran's Daytime program
- Career Share & Tell
- Coffee with the Counselors

Problem Statements Identifying Parent and Community Engagement Needs

Problem Statement 1: Parent and Community Engagement: Parents are having difficulty navigating online learning, including Schoology. **Root Cause:** Parent and Community Engagement: Schoology is a new platform and many parents did not understand the expectations of CFISD Connect and using Schoology.

CYPRESS-FAIRBANKS ISD

Standard Expectations

The following activities will no longer appear in the *District Improvement Plan* or the *Campus Improvement Plans*, since they represent practices that are expected to happen in an ongoing manner to provide instructional “standard operating procedures.”

Curriculum and Instruction

- The District provides a common curriculum for all subjects at every grade level with appropriate learning experiences based on the Texas Essential Knowledge and Skills (TEKS) and ensures that all students, no matter which campus they attend, receive the same curriculum.
- The District curriculum staff updates and revises the curriculum regularly considering teacher input, state and district assessment data, and current research and best practices. The curriculum includes scope and sequence, pacing guides, instructional resources, model lessons, and assessment items that support the content area while addressing the needs of a diverse student population.
- The District curriculum resides in Schoology, the learning management system. Schoology is used to its fullest capacity: lesson planning, resource selection, assessments, data digging, and data interpretations for instructional decisions.
- Teacher teams meet weekly (the appropriate number of times using Schoology) to plan collaboratively and develop effective, relevant lessons that focus on creating classroom experiences that meet students’ needs while maximizing first-time instruction and learning. These classroom experiences provide opportunities in which students
 - use technology (including but is not limited to online textbooks, animations/videos, simulations, reports, assessments, information graphics, probe ware, graphing calculators, programs, etc.) to support the learning of the TEKS;
 - generate and translate between multiple representations (graphs, diagrams, pictures, equations, tables, poems, advertisements, etc.);
 - develop academic language proficiency through speaking, reading, writing, and listening;
 - develop stamina to solve complex problems, read long passages and questions, and transfer knowledge to other situations and/or disciplines; and
 - have time to make sense of their learning (reflective journaling, student discourse, collaborative group work, Socratic seminars, etc.).
- The District provides and campuses follow student placement guidelines and scheduling protocols (Blue Book, Elementary Administrative Handbook, Master’s Scheduler Handbook, etc.) ensuring that students are placed in the appropriate classrooms/programs and are ready and able to achieve at high levels.

Monitoring

- Campus leaders use various strategies, processes, and/or procedures to monitor the standard expectations to ensure fidelity. Examples include but are not limited to
 - review of lesson plans;
 - participation in team planning by administrators;
 - participation in data review/data dig sessions; and
 - monitor Schoology use.
- Campus leaders gather data, and coach teams and individual teachers in order to improve the impact of first-time instruction and learning.

Assessment and Data Analysis

- The District develops and campuses administer assessments (District Progress Monitors, benchmark assessments, unit tests, check points, etc.) based on the established assessment calendars.
- Teacher teams review student data from multiple sources (DPMs, benchmark assessments, unit tests, check points, etc.) and develop a response that supports and defines methods for re-teaching and re-evaluating to ensure all students learn the content.
- Each teacher reviews data at the individual student level in an effort to adjust instruction and provide support so that every student has opportunity to master the content.

Elementary Content Area Standard Expectations

Literacy (Reading and Writing)

- Maximize instructional time by developing, posting, and consistently following a balanced literacy schedule that contains all components.
- Teach/re-teach the reading and writing process throughout the school year and ensure that students read and write each day.
- Utilize reading and writing workshop strategies to teach and reinforce critical TEKS (think aloud, modeling reading and writing processes in mini-lessons, interactive read aloud with accountable talk, independent reading and writing, small group instruction, conferring, and whole group share time).
- Use varied, authentic literature as mentor texts in reading and writing.
- Allow student choice from among varied genres and reading levels during independent reading time from classroom and digital libraries.
- Post and use anchor charts, created with students, in literacy classrooms.
- Maintain a monitoring notebook as documentation of individual student's progress observed during small group instruction and/or reading/writing conferences.
- Use varied, research-based strategies to teach revising and editing skills and apply language conventions within the context of writing.
- Use the *Continuum of Literacy Learning* and District and campus data to differentiate literacy instruction using individual conferences, small group instruction, and/or strategy group instruction.
- Integrate social studies and theater arts TEKS in literacy classes through read aloud and reading and writing workshop.
- 1:1 Technology in the Language Arts classroom should provide opportunities for students to:
 - Use Chromebook devices to engage in face-to-face and digital creation and collaboration
 - Locate and access information and resources stored in different platforms such as Google Drive and Schoology
 - Communicate and share conclusions using digital tools such as Google Suite, Flipgrid, WeVideo etc.
 - Incorporate the use of digital tools such as:
 - Google Suite
 - Scholastic Literacy Pro
 - Scholastic Storyworks (2nd-5th)
 - Amplify Reading
 - Amira Suite
 - HMH Suite
 - Library Resources
 - Schoology
 - Incorporate the use of technology inside the Language Arts classroom when it is the most effective and developmentally appropriate tool for the task being asked of the student
 - Utilized only after explicit and systematic instruction of literacy processes has occurred and not in place of first instruction

Mathematics

- Model and expect students to use a problem-solving process.
- Post and use classroom-created anchor charts in math classrooms.
- Facilitate fact fluency/numeracy for 10-15 minutes daily during math instruction to develop automaticity. This can be accomplished using Number Talks, Math Talks, CFISD Fact Fluency Plan, and other content conversation routines.
 - "Procedural fluency refers to knowledge of procedures, knowledge of when and how to use them appropriately, and skill in performing them flexibly, accurately, and efficiently." NRC (2001)
 - Automaticity is fast recall of facts which seemingly appear instant.
- Use math manipulatives to help students develop concept understandings.
- Include teaching strategies and questions designed to promote higher-level thinking in lesson plans to improve first-time learning, which includes time for productive struggle.
- Use and encourage students to use precise mathematical vocabulary.
- Use Interactive Math Notebooks in 2nd-5th grade.
- Incorporate the use of small-group instruction to meet the needs of individual learners.
- Encourage student discourse/discussion including "what do you notice/wonder" and justifications.
- 1:1 Technology in the math classroom should provide opportunities for students to:
 - Use the rule of thumb of a weekly average use of the following:
 - 55% paper resource, 35% digital resource, 10% flex
 - Use Chromebook devices to engage in digital creation and collaboration
 - Incorporate the use of digital tools such as ST Math, Gizmos, ClassFlow, Interactive Textbook, Schoology, Google Suite, etc.
 - Incorporate the use of technology inside the math classroom when it is the most effective tool for the task being asked of the student
 - Communicate and share products using digital tools such as Google Suites, WeVideo, FlipGrid, etc.
 - Use technology to discover relationships and/or make connections between representations of mathematics, beyond skills practice

Science

Teachers will develop science-literate students by creating learning opportunities using the 5E Instructional Model (grades 2-5) that engage students in scientific practices that require them to

- Ask questions, identify problems, plan and conduct classroom and field investigations to answer questions according to grade-level TEKS expectations (K-1 = 80% of the time, 2nd-3rd = 60% of the time, 4th-5th = 50% of the time).
- Use a science notebook (grades 2-5) to collect and organize data in simple graphs, tables, maps, and charts.
