Comprehensive Needs Assessment

Needs Assessment Overview

Needs Assessment Overview Summary

Demographics

Demographics Summary

The staff at Birkes Elementary includes 66 classroom teachers, 26 paraprofessionals, 4 interpreters and interpreter interns, 3 support staff, and 12 administrators.

The student population as of October 2021 is:

-28% White

-35% Hispanic

-16% African American

-13% Asian

-7% Two or more races

-42% Economically Disadvantaged

-13% LEP

Demographics Strengths

We have multiple special programs at Birkes. These include being one of two deaf education elementary campuses in the district. In addition, we have an Adaptive Behavior Classroom, ECSE for Deaf Education, Pre-Kindergarten, and special education program supporting students with various disabilities.

Student Achievement

Student Achievement Strengths

Third Grade:

Reading - Overall above the district passing average for meets, approaches, and masters

Math - Performed above the district average in all subpops, except one, in masters expectations

Fourth Grade:

Reading - Performed above or at the district average in all subpops, except two in meets expectations

Math - Performed above the district average in all subpops, except one, in meets and masters expectations

Writing - Overall performed above the district average in meets and approaches expectations

Fifth Grade:

Reading - Overall above the district passing average for meets, approaches, and masters

Math - Overall above the district passing average for meets, approaches, and masters (including all subpops)

Science - Overall above the district passing average for meets, approaches, and masters

Problem Statements Identifying Student Achievement Needs

Problem Statement 1: Reading: Current Language English Proficient (LEP), Special Education (SPED), and Economically Disadvantaged (ED) students are not performing at the same rate as other student populations. **Root Cause:** Reading: Teachers do not have a clear understanding or knowledge of how to teach specific differentiated strategies for LEP and SPED learners.

Problem Statement 2: Writing: Current LEP and special education students are not performing at the same rate as other student populations. **Root Cause:** Writing: Teachers do not have a clear understanding or knowledge of how to teach specific differentiated strategies for LEP and SPED learners.

Problem Statement 3: Math: Current special education students are not performing at the same rate as other student populations. **Root Cause:** Math: Teachers do not have a clear understanding or knowledge of how to teach specific differentiated strategies for sped learners.

Problem Statement 4: Science: Current LEP students are not performing at the same rate as other student populations. **Root Cause:** Science: Teachers do not have a clear understanding or knowledge of how to teach specific differentiated strategies for LEP learners.

Problem Statement 5: Students are beginning the 2021-22 school year with learning gaps. **Root Cause:** The onset of COVID-19 in the spring of 2020 and the implications of modified instructional methods necessitated by the need for immediate remote learning.

School Culture and Climate

School Culture and Climate Strengths

- Restorative discipline continues to be implemented and practiced through the implementation of Positive Behavior Intervention System (PBIS).
- Security and safety continues to be enhanced with guidance from the district Emergency Operations team.
- Staff and student presence continues to be reinforced with an emphasis placed on decreased absences.

Problem Statements Identifying School Culture and Climate Needs

Problem Statement 1: School Culture and Climate: Students tend to leave early or take the day off and miss instruction. **Root Cause:** School Culture and Climate: We need to communicate with parents the importance of students staying in class all day and only missing for doctor appointments when absolutely necessary.

Staff Quality, Recruitment, and Retention

Staff Quality, Recruitment, and Retention Strengths

- We continue to provide professional development opportunities and support to build teacher capacity.
- Birkes is a desirable campus to work due to our reputation for teamwork and collaboration at all levels. We have a healthy and positive culture among staff.
- We continue to retain all staff, unless losing someone to retirement or a career change, from year-to-year.
- Transfer requests to Birkes are high.
- Our staff is highly qualified.

Problem Statements Identifying Staff Quality, Recruitment, and Retention Needs

Problem Statement 1: Teacher/Paraprofessional Attendance: Staff attendance is not as high as historical data shows. **Root Cause:** Teacher/Paraprofessional Attendance: We need to encourage staff to be in class as much as possible and only leave for doctor appointments when absolutely necessary.

Curriculum, Instruction, and Assessment

Curriculum, Instruction, and Assessment Strengths

Due to Covid 19, our staff is working to close the achievement gap. Our campus has implemented "Closing the Gap" time for 30 minutes a day to ensure students are receiving instruction to help minimize the learning gap. In addition, students who did not pass the beginning of the year benchmark or STAAR in 2020-21 are receiving additional instruction through small group intervention.

Problem Statements Identifying Curriculum, Instruction, and Assessment Needs

Problem Statement 1: While most students are accessing the curriculum via a face-to-face instructional model, we still have 6% of our population receiving online instruction resulting in many students not participating as they would face-to-face. **Root Cause:** The onset of COVID-19 in the spring of 2020 and the implications of modified instructional methods.

Parent and Community Engagement

Parent and Community Engagement Strengths

Parents are once again invited to engage in community events and meetings such as PTO, Watch DOGs, book fair, etc.

Parents have ongoing communication with teachers via email, phone calls, texts, etc.

Problem Statements Identifying Parent and Community Engagement Needs

Problem Statement 1: Parent and Community Engagement: Parents do not always understand "how" or "why" the curriculum is taught the way it is taught. **Root Cause:** Parent and Community Engagement: We need to teach parents the "why" behind how our current curriculum is taught.

School Context and Organization

School Context and Organization Strengths

Our campus consists of multiple committees to support and promote professional development opportunities for staff growth and student involvement.

Technology

Technology Strengths

All students have a one-to-one device to utilize at home and school.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)

Accountability Data

- Student Achievement Domain
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data

Student Data: Assessments

- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Special education/non-special education population including discipline, progress and participation data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Class size averages by grade and subject
- School safety data

Employee Data

- Professional learning communities (PLC) data
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus department and/or faculty meeting discussions and data

Support Systems and Other Data

- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Study of best practices

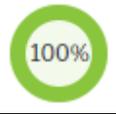

Goals

Goal 1: Academic Achievement: The district will ensure academic performance and achievement levels that reflect excellence in learning and attainment of both high expectations and high standards for all students.

Performance Objective 1: Curriculum and Instruction & Accountability: By June 2022, students will meet or exceed the STAAR performance targets as noted on the attached CIP data table.

Standard Expectations

The following activities will no longer appear in the *District Improvement Plan* or the *Campus Improvement Plans*, since they represent practices that are expected to happen in an ongoing manner to provide instructional “standard operating procedures.”

Curriculum and Instruction

- The District provides a common curriculum for all subjects at every grade level with appropriate learning experiences based on the Texas Essential Knowledge and Skills (TEKS) and ensures that all students, no matter which campus they attend, receive the same curriculum.
- The District curriculum staff updates and revises the curriculum regularly considering teacher input, state and district assessment data, and current research and best practices. The curriculum includes scope and sequence, pacing guides, instructional resources, model lessons, and assessment items that support the content area while addressing the needs of a diverse student population.
- The District curriculum resides in Schoology, the learning management system. Schoology is used to its fullest capacity: lesson planning, resource selection, assessments, data digging, and data interpretations for instructional decisions.
- Teacher teams meet weekly (the appropriate number of times using Schoology) to plan collaboratively and develop effective, relevant lessons that focus on creating classroom experiences that meet students’ needs while maximizing first-time instruction and learning. These classroom experiences provide opportunities in which students
 - use technology (including but is not limited to online textbooks, animations/videos, simulations, reports, assessments, information graphics, probe ware, graphing calculators, programs, etc.) to support the learning of the TEKS;
 - generate and translate between multiple representations (graphs, diagrams, pictures, equations, tables, poems, advertisements, etc.);
 - develop academic language proficiency through speaking, reading, writing, and listening;
 - develop stamina to solve complex problems, read long passages and questions, and transfer knowledge to other situations and/or disciplines; and
 - have time to make sense of their learning (reflective journaling, student discourse, collaborative group work, Socratic seminars, etc.).
- The District provides and campuses follow student placement guidelines and scheduling protocols (Blue Book, Elementary Administrative Handbook, Master’s Scheduler Handbook, etc.) ensuring that students are placed in the appropriate classrooms/programs and are ready and able to achieve at high levels.

Monitoring

- Campus leaders use various strategies, processes, and/or procedures to monitor the standard expectations to ensure fidelity. Examples include but are not limited to
 - review of lesson plans;
 - participation in team planning by administrators;
 - participation in data review/data dig sessions; and
 - monitor Schoology use.
- Campus leaders gather data, and coach teams and individual teachers in order to improve the impact of first-time instruction and learning.

Assessment and Data Analysis

- The District develops and campuses administer assessments (District Progress Monitors, benchmark assessments, unit tests, check points, etc.) based on the established assessment calendars.
- Teacher teams review student data from multiple sources (DPMs, benchmark assessments, unit tests, check points, etc.) and develop a response that supports and defines methods for re-teaching and re-evaluating to ensure all students learn the content.
- Each teacher reviews data at the individual student level in an effort to adjust instruction and provide support so that every student has opportunity to master the content.

Elementary Content Area Standard Expectations

Literacy (Reading and Writing)

- Maximize instructional time by developing, posting, and consistently following a balanced literacy schedule that contains all components.
- Teach/re-teach the reading and writing process throughout the school year and ensure that students read and write each day.
- Utilize reading and writing workshop strategies to teach and reinforce critical TEKS (think aloud, modeling reading and writing processes in mini-lessons, interactive read aloud with accountable talk, independent reading and writing, small group instruction, conferring, and whole group share time).
- Use varied, authentic literature as mentor texts in reading and writing.
- Allow student choice from among varied genres and reading levels during independent reading time from classroom and digital libraries.
- Post and use anchor charts, created with students, in literacy classrooms.
- Maintain a monitoring notebook as documentation of individual student's progress observed during small group instruction and/or reading/writing conferences.
- Use varied, research-based strategies to teach revising and editing skills and apply language conventions within the context of writing.
- Use the *Continuum of Literacy Learning* and District and campus data to differentiate literacy instruction using individual conferences, small group instruction, and/or strategy group instruction.
- Integrate social studies and theater arts TEKS in literacy classes through read aloud and reading and writing workshop.
- 1:1 Technology in the Language Arts classroom should provide opportunities for students to:
 - Use Chromebook devices to engage in face-to-face and digital creation and collaboration
 - Locate and access information and resources stored in different platforms such as Google Drive and Schoology
 - Communicate and share conclusions using digital tools such as Google Suite, Flipgrid, WeVideo etc.
 - Incorporate the use of digital tools such as:
 - Google Suite
 - Scholastic Literacy Pro
 - Scholastic Storyworks (2nd-5th)
 - Amplify Reading
 - Amira Suite
 - HMH Suite
 - Library Resources
 - Schoology
 - Incorporate the use of technology inside the Language Arts classroom when it is the most effective and developmentally appropriate tool for the task being asked of the student
 - Utilized only after explicit and systematic instruction of literacy processes has occurred and not in place of first instruction

Mathematics

- Model and expect students to use a problem-solving process.
- Post and use classroom-created anchor charts in math classrooms.
- Facilitate fact fluency/numeracy for 10-15 minutes daily during math instruction to develop automaticity. This can be accomplished using Number Talks, Math Talks, CFISD Fact Fluency Plan, and other content conversation routines.
 - “Procedural fluency refers to knowledge of procedures, knowledge of when and how to use them appropriately, and skill in performing them flexibly, accurately, and efficiently.” NRC (2001)
 - Automaticity is fast recall of facts which seemingly appear instant.
- Use math manipulatives to help students develop concept understandings.
- Include teaching strategies and questions designed to promote higher-level thinking in lesson plans to improve first-time learning, which includes time for productive struggle.
- Use and encourage students to use precise mathematical vocabulary.
- Use Interactive Math Notebooks in 2nd-5th grade.
- Incorporate the use of small-group instruction to meet the needs of individual learners.
- Encourage student discourse/discussion including “what do you notice/wonder” and justifications.
- 1:1 Technology in the math classroom should provide opportunities for students to:
 - Use the rule of thumb of a weekly average use of the following:
 - 55% paper resource, 35% digital resource, 10% flex
 - Use Chromebook devices to engage in digital creation and collaboration
 - Incorporate the use of digital tools such as ST Math, Gizmos, ClassFlow, Interactive Textbook, Schoology, Google Suite, etc.
 - Incorporate the use of technology inside the math classroom when it is the most effective tool for the task being asked of the student
 - Communicate and share products using digital tools such as Google Suites, WeVideo, FlipGrid, etc.
 - Use technology to discover relationships and/or make connections between representations of mathematics, beyond skills practice

Science

Teachers will develop science-literate students by creating learning opportunities using the 5E Instructional Model (grades 2-5) that engage students in scientific practices that require them to

- Ask questions, identify problems, plan and conduct classroom and field investigations to answer questions according to grade-level TEKS expectations (K-1 = 80% of the time, 2nd-3rd = 60% of the time, 4th-5th = 50% of the time).
- Use a science notebook (grades 2-5) to collect and organize data in simple graphs, tables, maps, and charts.
- Analyze data using math to derive meaning, identify patterns, and discover relationships.
- Engage in a common inquiry experience to make sense of and develop scientific concepts and vocabulary.
- Develop evidence-based explanations and communicate findings, conclusions, and proposed solutions.
- Engage respectfully in scientific discussion by listening, speaking, reading, and scientific writing.
- Incorporate the use of technology when it is the most effective tool for the task.
- 1:1 Technology in the science classroom should provide opportunities for students to:
 - Use Chromebook devices to engage in face-to-face and digital collaboration;
 - Locate and access information and resources stored in different platforms such as Google Drive and Schoology
 - Explore simulations (e.g. Explore Learning Gizmos, Interactive textbook, etc.);
 - Collect and represent data using digital tools such as digital microscopes, Google Suite, etc;
 - Communicate and share conclusions using digital tools such as; Google Suite, Flipgrid, WeVideo etc.

Elementary Physical Education/Health (K-5)

- Utilize best practices for providing skills-based instruction in elementary physical education and health
- Utilize best practices to achieve moderate to vigorous physical activity
- Differentiate teaching strategies to meet individual student needs including allowing for student choice when possible and appropriate
- Provide engaging instruction with the goal of promoting the development of lifelong health and fitness
- Utilize technology to encourage movement and physical activity as appropriate
- Utilize the resources available to teachers including the CFISD Elementary PE Required Skills Units; Focused Fitness resources (digital); SPARK (digital); CATCH materials; and, Health Curriculum Videos.
- Provide the required fitness assessments for students in grades three, four, and five
- Participate in activities and events that promote school and community involvement

Elementary Music (K- 5)

- Develop the singing voice as the foundation of music learning through folk, patriotic, seasonal, and songs of diverse genres
- Provide music experiences through activities that include listening, movement, improvisation, and playing a variety of classroom rhythm and Orff instruments
- Create lessons and utilize activities that develop understanding of the elements of music such as rhythm, dynamics, melody, harmony, tone color (timbre), texture, and form
- Utilize the resources available to teachers, including the CFISD adopted instructional materials, CFISD Scope and Sequence and CFISD Curriculum Standards
- Use 1:1 technology as a resource for self-exploration of topics and careers in music
- Encourage students to connect learning in music with other areas of knowledge such as math, reading, and social studies
- Participate in activities and events that promote school and community involvement

Visual Arts (K–5)

- Model and teach artistic thinking – which means prompting curiosity and asking questions to develop ideas.
- Create open-ended lessons encouraging the voice and experiences of students through creative approaches and unique solutions.
- Introduce a variety of processes/media to demonstrate skills and techniques (not solutions).
- Explore careers associated with visual culture.
- Reflect on teaching practices to enhance professional development.
- Utilize the resources available to teachers including the CFISD adopted instructional materials, 1:1 technology, CFISD Benchmarks and CFISD Curriculum Standards.
- Encourage excellence by providing multiple opportunities for the students to compete in various settings including the Houston Rodeo School Art Contest, and the Texas Elementary Art Meet (TEAM contest).
- Participate in activities and events that promote school and community involvement, such as campus and districtwide art exhibits.
