# Comprehensive Needs Assessment

Revised/Approved: September 30, 2021

## Needs Assessment Overview

### Needs Assessment Overview Summary

**Title I, Part A Schoolwide Program Element 1.1: Comprehensive Needs Assessment:** The campus conducted a comprehensive needs assessment of the entire school that considered information on the academic achievement of children in relation to the challenging State academic standards, particularly the needs of those children who are failing, or are at-risk of failing, to meet the challenging State academic standards and any other factors determined by the local education agency.

The campus used the following process to conduct the comprehensive needs assessment: Our CNA committee met to analyze data, comprise the problem statements and root causes for each subject area, as well as discipline, and discuss strategies to address our areas of need. The committee members broke into smaller groups to facilitate focused discussion and then came back together as a whole. Information from each group was shared and decisions were made regarding the best ways to support our students.

In summary, the comprehensive needs assessment denotes the following: It was noted that our major areas of concern included Special Education, Economically Disadvantaged and Hispanic students overall; the need for a consistent strategy that is vertically aligned in the core subject areas; and Parent engagement limitations due to safety protocols.

The comprehensive needs assessment was used to develop the goals, performance objectives, and strategies in the remainder of this campus improvement plan.

**Title I, Part A Schoolwide Program Element 2.1: Campus Improvement Plan Developed with Appropriate Stakeholders:** The campus improvement plan was developed with involvement of parents and other members of the community to be served and individuals who will carry out the plan, including teachers, principals, other school leaders, paraprofessionals present in the school, administrators, the local education agency, and where appropriate, other individuals determined by the school. The committee who develops and evaluates the CIP is called the Campus Performance Objective Committee (CPOC).

**Title I, Part A Schoolwide Program Element 2.2: Regular Monitoring and Revision:** The campus improvement plan will stay in effect for the duration of the school year and will be regularly monitored and revised as necessary based on student needs to ensure that all students are provided opportunities to meet the challenging state academic standards. The campus improvement plan will be evaluated during the regularly scheduled CPOC Meetings.

**Title I, Part A Schoolwide Program Element 2.3: Available to Parents and Community in an Understandable Format and Language:** The campus improvement plan is available to the local education agency, parents, and the public, and information contained in the plan is in an understandable and uniform format and, to the extent practicable provided in a language parents can understand. It is written in English and translated into Spanish and other languages based on the following Language Access Plan for Title I Campuses:

*In accordance with Title VI of the Civil Rights Act of 1964 and the Americans with Disabilities Act, this procedure establishes guidelines for providing language accessible services to individuals that are limited English proficient.*

*All Title I Campuses shall have all written and oral communication services readily available in English and Spanish.*

*When 25% of a Cypress-Fairbanks ISD Title I campuses home language data shows that the common form of communication is a language other than English or Spanish, the campus will provide the following documents translated to the common language:*

- *Registration and Enrollment Forms*

- *Progress Reports*
- *Report Cards*
- *Campus Improvement Plans*
- *School-Parent Compact*
- *Parent Engagement Policy*

*Individual campuses may provide other documents translated in a language accessible to their community based upon campus needs. All documents will be translated upon request. Verbal translation in Spanish is available at all Cypress-Fairbanks ISD campuses. The entire Cypress-Fairbanks ISD website, including attachments and links, is translated into Spanish. Other translations may be provided upon request.*

The Campus Improvement Plan is made available to parents on the campus website, the district website, the front office and various locations within the community such as the Stonehaven Apartment Office.

# Student Achievement

## Student Achievement Summary

### Student Achievement Strengths

- Writing: More than half of our ED and EL populations reached Approaches on the STAAR
- Writing: The written composition scores increased from our previous STAAR data
- Reading: Fifth grade scores were within 10% in each target group on STAAR
- Reading: All M2 students reached Approaches or higher on the STAAR
- Math: Fifth grade scores were at 88% in the Approaches and Meets categories on STAAR
- Science: There is consistent mastery in specific TEKS as students progress from second to fifth grade

### Problem Statements Identifying Student Achievement Needs

**Problem Statement 1:** Reading: Our bilingual population are not consistently meeting the set targets and are underperforming overall. **Root Cause:** Reading: Teachers have identified gaps in foundational instructional content due to the pace and delivery of curriculum.

**Problem Statement 2:** Writing: Our bilingual and LEP populations are underperforming and scoring below district averages on assessments. **Root Cause:** Writing: Teachers have identified an inability to meet the needs of the whole child, due to the student expectations and pace of curriculum provided.

**Problem Statement 3:** Math: The academic achievement gaps between each target group, especially our African American population, is greater than 10% of our highest target group. **Root Cause:** Math: There is a lack of opportunity for school wide vertical alignment, and a need to develop a common delivery of content, and the strategies relating to curriculum.

**Problem Statement 4:** Science: Our LEP, African American and Hispanic target groups are underperforming on assessments. **Root Cause:** Science: We need to continue to focus on building academic and conversational vocabulary, including word meaning, to ensure students are able to apply their knowledge and understanding on assessments.

**Problem Statement 5:** Students are beginning the 2021-22 school year with learning gaps. **Root Cause:** The onset of COVID-19 in the spring of 2020, and the implications of modified instructional methods, necessitated the need for immediate remote learning.

**Problem Statement 6:** Campuses serving the most economically disadvantaged/at-risk students experience larger achievement gaps. **Root Cause:** Need to deepen understanding and address specific academic needs of economically disadvantaged/at-risk students.

# School Culture and Climate

## School Culture and Climate Strengths

- Student attendance 95.79%
- Low office referrals overall (142 total)
- Self-Manager program
- PBIS is established school wide
- PBIS Level 2 check-in procedures
- Capturing Kids Hearts strategies are used in teachers classrooms
- Dan St. Romain social skills taught in all grade levels
- Project Safety taught in smaller group setting
- Sanford Harmony is implemented multiple times a week in classrooms

## Problem Statements Identifying School Culture and Climate Needs

**Problem Statement 1:** School Culture and Climate: The majority of office referrals are happening in the classroom setting. **Root Cause:** School Culture and Climate: There is a lack of understanding that social skills and academics go together.

# Staff Quality, Recruitment, and Retention

## Staff Quality, Recruitment, and Retention Strengths

- Positive and secure school environment
- Respect of staff members to each other and their teams
- Strong staff work ethic and integrity (desire to put children first)
- Many opportunities for staff recognition
- Providing teacher led staff development specific to teachers needs (PLC)
- Building teachers' capacity and growth by providing video coaching
- Mentor/Mentee program with monthly meetings
- Lee staff is highly qualified
- Low staff absentee percentage

## Problem Statements Identifying Staff Quality, Recruitment, and Retention Needs

**Problem Statement 1:** Teacher/Paraprofessional Attendance: There is a noticeable increase in staff absences specifically on Mondays and Fridays. **Root Cause:** Teacher/Paraprofessional Attendance: Due to the change in our school hours, teachers must take a half day or full day for personal needs or medical appointments.

# Parent and Community Engagement

## Parent and Community Engagement Strengths

- Multiple opportunities for parent involvement virtually
- Multiple opportunities for parents to leave feedback and ideas
- Provide translations (Spanish, Vietnamese and sign language)
- Provide technology support and distribution of devices to parents at various and flexible times
- Communicate through a variety of forums (email, text, remind, school messenger, social media, marquee, newsletters, etc.)

## Problem Statements Identifying Parent and Community Engagement Needs

**Problem Statement 1:** Parent and Community Engagement: Parent attendance has been low for curriculum related events, such as STAAR Night, Family Literacy Night and Family Math Night. **Root Cause:** Parent and Community Engagement: Lee will provide a more interactive and hands-on approach to promote more parent and family involvement overall.

## Standard Expectations

The following activities will no longer appear in the *District Improvement Plan* or the *Campus Improvement Plans*, since they represent practices that are expected to happen in an ongoing manner to provide instructional “standard operating procedures.”

### Curriculum and Instruction

- The District provides a common curriculum for all subjects at every grade level with appropriate learning experiences based on the Texas Essential Knowledge and Skills (TEKS) and ensures that all students, no matter which campus they attend, receive the same curriculum.
- The District curriculum staff updates and revises the curriculum regularly considering teacher input, state and district assessment data, and current research and best practices. The curriculum includes scope and sequence, pacing guides, instructional resources, model lessons, and assessment items that support the content area while addressing the needs of a diverse student population.
- The District curriculum resides in Schoology, the learning management system. Schoology is used to its fullest capacity: lesson planning, resource selection, assessments, data digging, and data interpretations for instructional decisions.
- Teacher teams meet weekly (the appropriate number of times using Schoology) to plan collaboratively and develop effective, relevant lessons that focus on creating classroom experiences that meet students’ needs while maximizing first-time instruction and learning. These classroom experiences provide opportunities in which students
  - use technology (including but is not limited to online textbooks, animations/videos, simulations, reports, assessments, information graphics, probe ware, graphing calculators, programs, etc.) to support the learning of the TEKS;
  - generate and translate between multiple representations (graphs, diagrams, pictures, equations, tables, poems, advertisements, etc.);
  - develop academic language proficiency through speaking, reading, writing, and listening;
  - develop stamina to solve complex problems, read long passages and questions, and transfer knowledge to other situations and/or disciplines; and
  - have time to make sense of their learning (reflective journaling, student discourse, collaborative group work, Socratic seminars, etc.).
- The District provides and campuses follow student placement guidelines and scheduling protocols (Blue Book, Elementary Administrative Handbook, Master’s Scheduler Handbook, etc.) ensuring that students are placed in the appropriate classrooms/programs and are ready and able to achieve at high levels.

### Monitoring

- Campus leaders use various strategies, processes, and/or procedures to monitor the standard expectations to ensure fidelity. Examples include but are not limited to
  - review of lesson plans;
  - participation in team planning by administrators;
  - participation in data review/data dig sessions; and
  - monitor Schoology use.
- Campus leaders gather data, and coach teams and individual teachers in order to improve the impact of first-time instruction and learning.

### Assessment and Data Analysis

- The District develops and campuses administer assessments (District Progress Monitors, benchmark assessments, unit tests, check points, etc.) based on the established assessment calendars.
- Teacher teams review student data from multiple sources (DPMs, benchmark assessments, unit tests, check points, etc.) and develop a response that supports and defines methods for re-teaching and re-evaluating to ensure all students learn the content.
- Each teacher reviews data at the individual student level in an effort to adjust instruction and provide support so that every student has opportunity to master the content.

# Elementary Content Area Standard Expectations

## Literacy (Reading and Writing)

- Maximize instructional time by developing, posting, and consistently following a balanced literacy schedule that contains all components.
- Teach/re-teach the reading and writing process throughout the school year and ensure that students read and write each day.
- Utilize reading and writing workshop strategies to teach and reinforce critical TEKS (think aloud, modeling reading and writing processes in mini-lessons, interactive read aloud with accountable talk, independent reading and writing, small group instruction, conferring, and whole group share time).
- Use varied, authentic literature as mentor texts in reading and writing.
- Allow student choice from among varied genres and reading levels during independent reading time from classroom and digital libraries.
- Post and use anchor charts, created with students, in literacy classrooms.
- Maintain a monitoring notebook as documentation of individual student's progress observed during small group instruction and/or reading/writing conferences.
- Use varied, research-based strategies to teach revising and editing skills and apply language conventions within the context of writing.
- Use the *Continuum of Literacy Learning* and District and campus data to differentiate literacy instruction using individual conferences, small group instruction, and/or strategy group instruction.
- Integrate social studies and theater arts TEKS in literacy classes through read aloud and reading and writing workshop.
- 1:1 Technology in the Language Arts classroom should provide opportunities for students to:
  - Use Chromebook devices to engage in face-to-face and digital creation and collaboration
  - Locate and access information and resources stored in different platforms such as Google Drive and Schoology
  - Communicate and share conclusions using digital tools such as Google Suite, Flipgrid, WeVideo etc.
  - Incorporate the use of digital tools such as:
    - Google Suite
    - Scholastic Literacy Pro
    - Scholastic Storyworks (2<sup>nd</sup>-5<sup>th</sup>)
    - Amplify Reading
    - Amira Suite
    - HMH Suite
    - Library Resources
    - Schoology
  - Incorporate the use of technology inside the Language Arts classroom when it is the most effective and developmentally appropriate tool for the task being asked of the student
  - Utilized only after explicit and systematic instruction of literacy processes has occurred and not in place of first instruction

## Mathematics

- Model and expect students to use a problem-solving process.
- Post and use classroom-created anchor charts in math classrooms.
- Facilitate fact fluency/numeracy for 10-15 minutes daily during math instruction to develop automaticity. This can be accomplished using Number Talks, Math Talks, CFISD Fact Fluency Plan, and other content conversation routines.
  - "Procedural fluency refers to knowledge of procedures, knowledge of when and how to use them appropriately, and skill in performing them flexibly, accurately, and efficiently." NRC (2001)
  - Automaticity is fast recall of facts which seemingly appear instant.
- Use math manipulatives to help students develop concept understandings.
- Include teaching strategies and questions designed to promote higher-level thinking in lesson plans to improve first-time learning, which includes time for productive struggle.
- Use and encourage students to use precise mathematical vocabulary.
- Use Interactive Math Notebooks in 2<sup>nd</sup>-5<sup>th</sup> grade.
- Incorporate the use of small-group instruction to meet the needs of individual learners.
- Encourage student discourse/discussion including "what do you notice/wonder" and justifications.
- 1:1 Technology in the math classroom should provide opportunities for students to:
  - Use the rule of thumb of a weekly average use of the following:
    - 55% paper resource, 35% digital resource, 10% flex
  - Use Chromebook devices to engage in digital creation and collaboration
  - Incorporate the use of digital tools such as ST Math, Gizmos, ClassFlow, Interactive Textbook, Schoology, Google Suite, etc.
  - Incorporate the use of technology inside the math classroom when it is the most effective tool for the task being asked of the student
  - Communicate and share products using digital tools such as Google Suites, WeVideo, FlipGrid, etc.
  - Use technology to discover relationships and/or make connections between representations of mathematics, beyond skills practice

## Science

Teachers will develop science-literate students by creating learning opportunities using the 5E Instructional Model (grades 2-5) that engage students in scientific practices that require them to

- Ask questions, identify problems, plan and conduct classroom and field investigations to answer questions according to grade-level TEKS expectations (K-1 = 80% of the time, 2<sup>nd</sup>-3<sup>rd</sup> = 60% of the time, 4<sup>th</sup>-5<sup>th</sup> = 50% of the time).
- Use a science notebook (grades 2-5) to collect and organize data in simple graphs, tables, maps, and charts.
- Analyze data using math to derive meaning, identify patterns, and discover relationships.
- Engage in a common inquiry experience to make sense of and develop scientific concepts and vocabulary.
- Develop evidence-based explanations and communicate findings, conclusions, and proposed solutions.
- Engage respectfully in scientific discussion by listening, speaking, reading, and scientific writing.
- Incorporate the use of technology when it is the most effective tool for the task.
- 1:1 Technology in the science classroom should provide opportunities for students to:
  - Use Chromebook devices to engage in face-to-face and digital collaboration;
  - Locate and access information and resources stored in different platforms such as Google Drive and Schoology
  - Explore simulations (e.g. Explore Learning Gizmos, Interactive textbook, etc.);
  - Collect and represent data using digital tools such as digital microscopes, Google Suite, etc;
  - Communicate and share conclusions using digital tools such as; Google Suite, Flipgrid, WeVideo etc.

## Elementary Physical Education/Health (K-5)

- Utilize best practices for providing skills-based instruction in elementary physical education and health
- Utilize best practices to achieve moderate to vigorous physical activity
- Differentiate teaching strategies to meet individual student needs including allowing for student choice when possible and appropriate
- Provide engaging instruction with the goal of promoting the development of lifelong health and fitness
- Utilize technology to encourage movement and physical activity as appropriate
- Utilize the resources available to teachers including the CFISD Elementary PE Required Skills Units; Focused Fitness resources (digital); SPARK (digital); CATCH materials; and, Health Curriculum Videos.
- Provide the required fitness assessments for students in grades three, four, and five
- Participate in activities and events that promote school and community involvement

## Elementary Music (K- 5)

- Develop the singing voice as the foundation of music learning through folk, patriotic, seasonal, and songs of diverse genres
- Provide music experiences through activities that include listening, movement, improvisation, and playing a variety of classroom rhythm and Orff instruments
- Create lessons and utilize activities that develop understanding of the elements of music such as rhythm, dynamics, melody, harmony, tone color (timbre), texture, and form
- Utilize the resources available to teachers, including the CFISD adopted instructional materials, CFISD Scope and Sequence and CFISD Curriculum Standards
- Use 1:1 technology as a resource for self-exploration of topics and careers in music
- Encourage students to connect learning in music with other areas of knowledge such as math, reading, and social studies
- Participate in activities and events that promote school and community involvement

## Visual Arts (K–5)

- Model and teach artistic thinking – which means prompting curiosity and asking questions to develop ideas.
- Create open-ended lessons encouraging the voice and experiences of students through creative approaches and unique solutions.
- Introduce a variety of processes/media to demonstrate skills and techniques (not solutions).
- Explore careers associated with visual culture.
- Reflect on teaching practices to enhance professional development.
- Utilize the resources available to teachers including the CFISD adopted instructional materials, 1:1 technology, CFISD Benchmarks and CFISD Curriculum Standards.
- Encourage excellence by providing multiple opportunities for the students to compete in various settings including the Houston Rodeo School Art Contest, and the Texas Elementary Art Meet (TEAM contest).
- Participate in activities and events that promote school and community involvement, such as campus and districtwide art exhibits.
