We are pleased present the Delaware City School District's Popular Annual Financial Report (PAFR) for the fiscal year ending June 30, 2018. This report makes our district's finances easier to understand, and is intended to communicate our financial situation in an open and accountable manner.

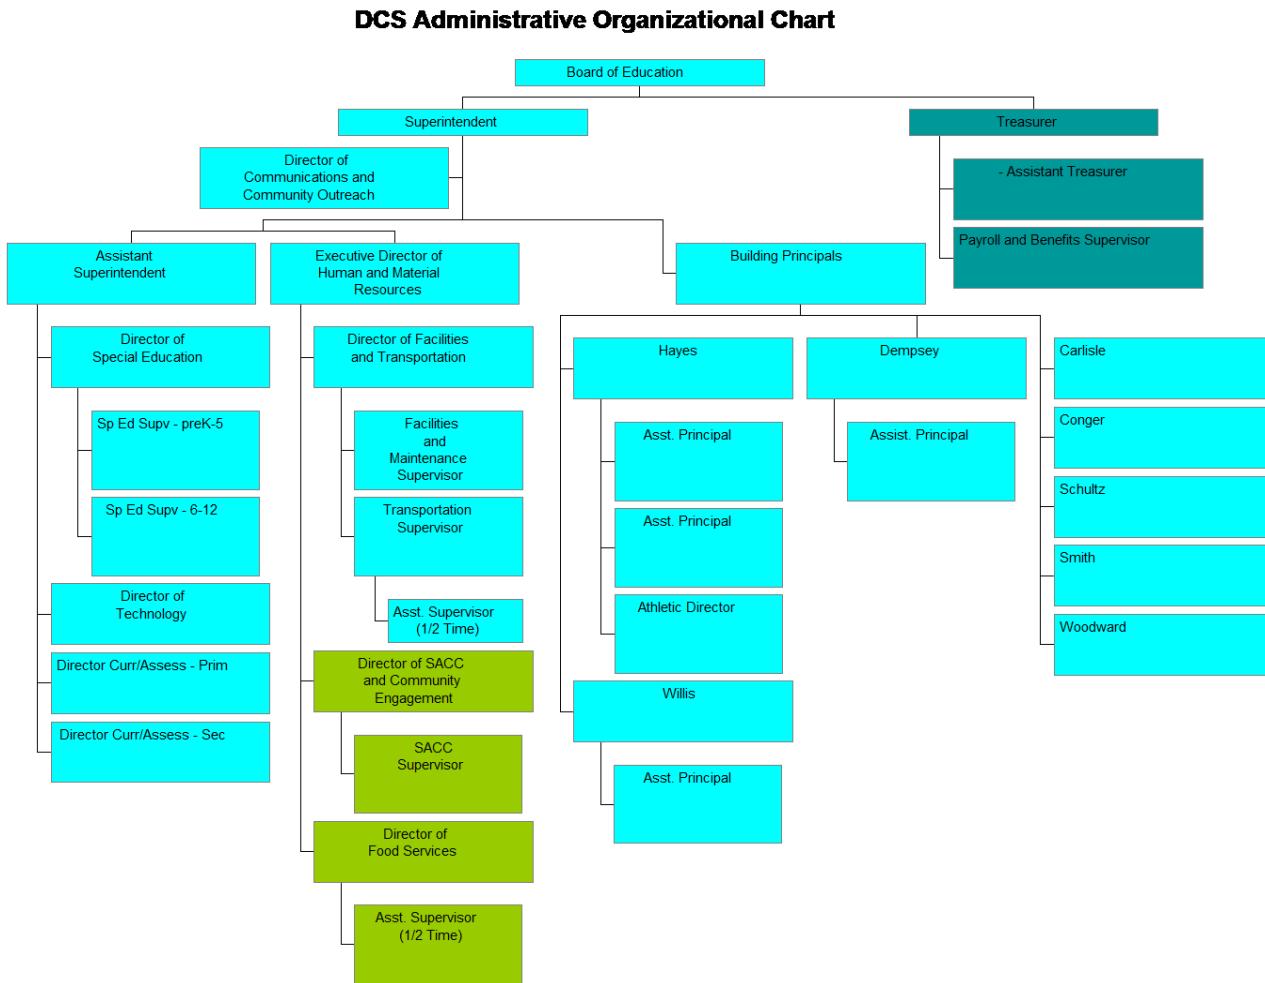

The PAFR is intended to summarize the financial activities and operating results reported in the Delaware City School District's audited Comprehensive Annual Financial Report (CAFR). The PAFR is unaudited and presented on a non-GAAP (Generally Accepted Accounting Principles) basis, which primarily deals with full disclosure and segregated funds. The statements presented on pages 3 and 7 consist of the General Fund of the District. The General Fund is the general operating fund of the District. It is used to account for all financial resources except those that are required to be accounted for in another fund. The most significant items not reported in the General Fund include debt issuance and retirement, building and permanent improvements and food service. For more detailed financial information, a copy of the Comprehensive Annual Financial Report is available from the Treasurer's office or can be viewed on the District's website at www.dcs.k12.oh.us.

The Delaware City School District is proud of the creation of this report. Ultimately, we would like to thank our citizens for their encouragement in creating a report designed to more adequately address their needs as taxpayers, as well as for the opportunity to serve them. Questions, comments and feedback regarding this report are encouraged, so please do not hesitate to contact the Treasurer's office at (740) 833-1100 or at leeme@delawarecityschools.org.

Respectfully submitted,

Melissa N. Lee

Award for Outstanding Achievement in Popular Annual Financial Reporting

Government Finance Officers Association of the United States and Canada (GFOA) has given an Award for Outstanding Achievement in Popular Annual Financial Reporting to the Delaware City School District for its PAFR for the fiscal year ended June 30, 2017. The Award for Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award-recognizing conformance with the highest standards for preparation of state and local government popular reports.

In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, a government must publish a PAFR, whose contents conform to program standards of creativity, presentation, understandability and reader appeal.

An Award for Outstanding Achievement in Popular Annual Financial Reporting is valid for a period of one year only. Delaware City School District has received a Popular Award for the last three consecutive years (fiscal years 2015-2017). We believe our current report continues to conform to the Popular Annual Financial Reporting requirements, and we are submitting it to the GFOA.

Readers of the Financial Activity Statement (below) and Financial Position Statement (page seven) should keep in mind that the numbers in both reports represent only the General Fund and are taken from the district's Comprehensive Annual Financial Report (CAFR), but are presented in a non-GAAP format. The CAFR can be obtained from the Treasurer's office or at dcs.k12.oh.us.

The Financial Activity Statement, known in accounting terms as the income statement, provides a summary of the resources (revenues) and services (expenditures) of the district.

Income statement data for fiscal years 2016 through 2018 is presented below. In FY 18, revenues decreased by 13.74% from FY 17 and Expenditures increased by 7.05%.

The Delaware City Schools believes in transparency and that its community should have access to the district's financial information. In October 2017, the district launched its participation in OhioCheckbook.com, hosted by the Ohio Treasurer's Office. The site provides an overview of district expenditures, using charts, graphs and reports to demonstrate the amounts and percentages of district expenses by category. Data for the 2018 fiscal year is now available on the site.

LOCAL PROPERTY TAXES

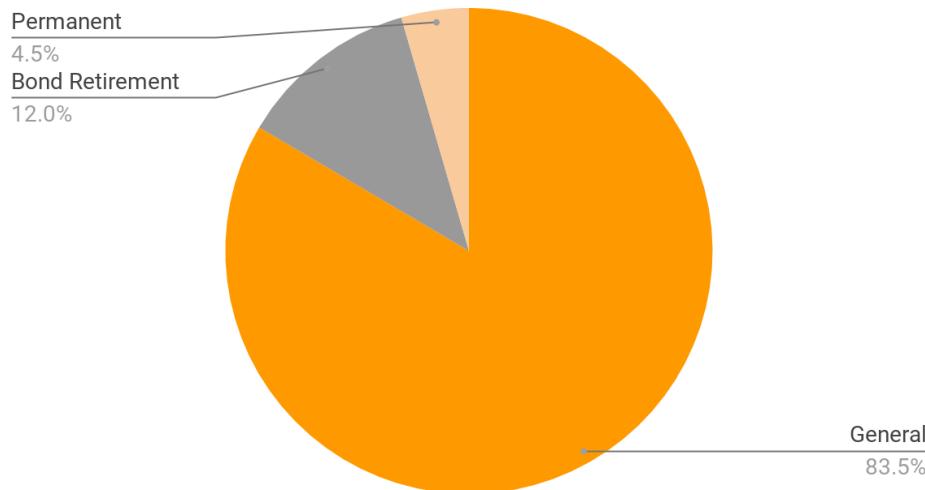

The graph below depicts the amount of cash collections received by the District from real and personal property taxes. Property taxes provide a majority of the local revenue to operate and maintain our schools. Taxes paid on homes and businesses (both property and public utilities) represent 57.53% of all general fund revenues.

GENERAL FUND – Tax dollars are received by the District and are utilized to conduct day-to-day operations, which primarily include employee salaries and benefits.

PERMANENT IMPROVEMENT – Tax dollars are received by the District and can only be used for repairs, improvements to facilities and grounds, and capital assets with a useful life of five years or more. These funds cannot be used for salaries or benefits.

BOND RETIREMENT – Tax dollars are received for the payment of principal and interest on voter approved bond issues related to the construction of buildings. The County Auditor reviews information provided by the District to set the bond issue millage rate. The District must generate sufficient revenue to pay the principal and interest on the bonds issued.

Tax Dollars Collected

Unbundling the Tax Rate

All tax rates for the School District, except inside millage, are reduced as valuations increase. In accordance with House Bill 920, as property valuations increase during the triennial update and reappraisal periods, the voted millage is reduced in order to generate the same amount of tax revenue for the District as was received when each levy was initially approved by the voters. The chart on the right shows the difference in the District's "Gross" or voted tax rates, as compared to the "Effective" rates, which are what is being collected.

State & Federal Sources – General Fund

State and Federal sources of revenue generated \$22.0 million or 36.1% of all general fund revenue. Due to a relatively higher property valuation per pupil, and other demographic factors, the District is considered wealthy and receives less State foundation funding than the State average of 43.57% (FY2017). State support comes mostly from State Aid, which is a formula calculation based upon student enrollment. The current budget continues to cap the increase in State funding that a district can receive each year. For FY2018, the formula indicated that the District should receive an additional \$7.4 million (cash basis) than the 3% cap increase allowed.

The District was impacted by the State's decision in 2005 to eliminate the tangible personal property tax (HB 66). The District received reimbursement from the State for the lost revenues, which were to hold the District harmless through FY13, and then phase the payments out annually until completely eliminated by 2018. The 2011 biennium budget (HB

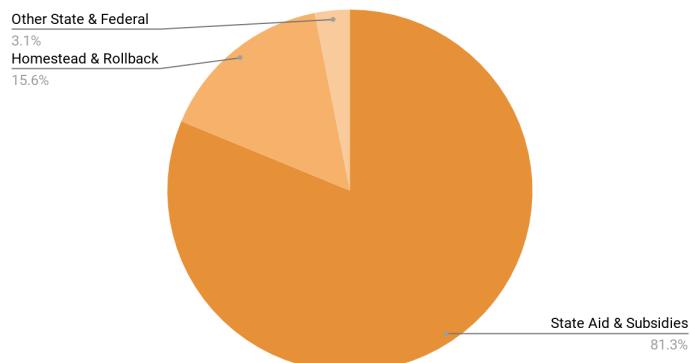

153), however, reduced this revenue source by 25% in FY12 and 33% in FY13. The State budget maintained future reimbursements at FY13 levels, but these reimbursements were further reduced for FY16 and beyond. In fiscal year 2016, the District received approximately \$734,000 through this reimbursement. FY16 was the final year of reimbursement for the District.

A significant portion of State revenue also comes from Rollback and Homestead payments, which represents the portion of the local tax bill paid by the State instead of the local taxpayer. Currently, the State pays 10% of the taxes due on all property and an additional 2.5% on residential and agricultural owner-occupied property. An additional exemption is provided to senior and disabled citizens, regardless of income. The prior State budget, however, eliminated the property tax rollback on any new levy passed after August of 2013. Current Emergency levies need to be passed as renewals, rather than replacements in order to maintain their

eligibility for Homestead and Rollback exemptions. The new Emergency Levy passed in November 2017 ballot is not eligible for the State homestead/rollback exemptions. Other State/Federal revenue includes the public utility reimbursement, tangible personal property tax loss reimbursement, Medicaid reimbursement, catastrophic cost reimbursement, and casino revenue. Federal sources in this category include E-rate reimbursements for telecommunications services, internet access, and internal connections. The District receives these reimbursements based on its percentage of students qualifying for free and reduced-price lunches and other socio-economic factors.

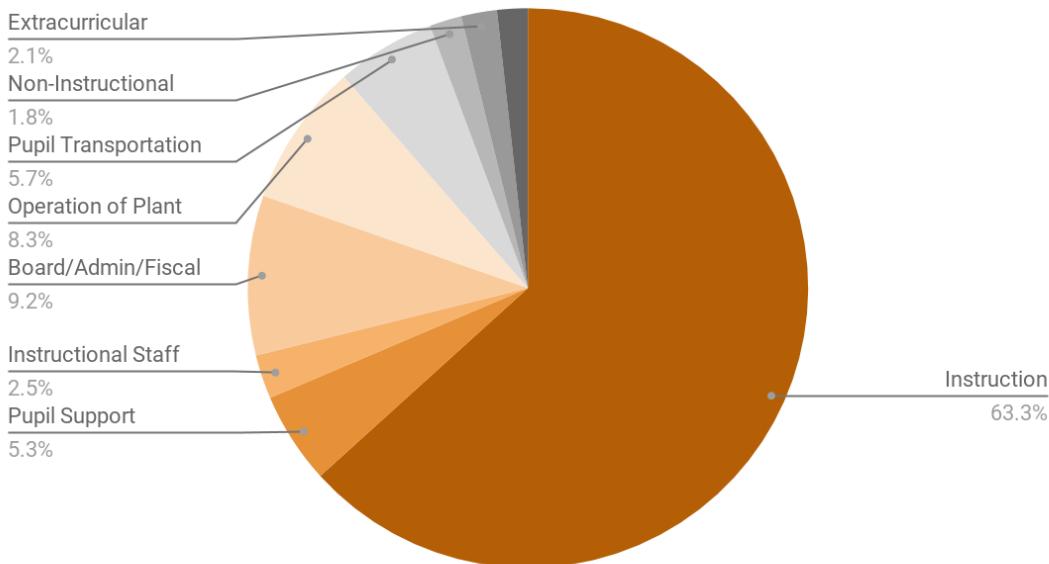

The chart below depicts state school funding in actual cash receipts for the District's General Fund. Years are presented on a June 30 fiscal year-end basis.

Definitions

INSTRUCTION is the largest expenditure category. Students are directly impacted by expenditures from this category, which relate to the direct instruction of our students.

PUPIL SUPPORT areas comprise all guidance services, nurses, speech, hearing, occupational therapy, physical therapy, and psychological services.

STAFF SUPPORT costs include library services, technology integration support, and literacy collaborative support.

BOARD/ADMINISTRATION/FISCAL costs represent those of the administration and Board of Education's operation of the District. Also included in this category is school building secretarial support and financial services, such as payroll, accounts payable and receivable, auditing, budgeting and reporting, and fringe benefits administration.

BUSINESS SUPPORT costs include business services such as risk management, safety/security, inventory management and courier services.

PLANT OPERATION expenditures relate to the safe and efficient environment of the school including building maintenance, grounds and custodial services.

TRANSPORTATION expenditures relate to providing transportation (mostly by bus) to all students who live in the Delaware City School District, consistent with Board of Education policies and the laws of the State of Ohio. In FY2018 the bus fleet transported 2,353 regular and special education students to Delaware City Schools, non-public and community schools daily.

CENTRAL SUPPORT expenditures include community relations and technology maintenance staff, computer network maintenance contracts, district wide postage costs, and strategic planning type activities.

EXTRACURRICULAR expenditures account for the salaries and benefits of club advisors and athletic coaches.

NON-INSTRUCTIONAL expenditures relate to various expenditures that are required to be reported under Generally Accepted Accounting Principles (GAAP). These are School-Aged Childcare expenses for our before/after school program, which are actually accounted for in an Agency fund on a cash basis. The program is self-supporting and no general fund dollars are used in its operations, even though we are required to report it in this manner

DEBT SERVICE expenditures relate to payments on the District's energy conservation bonds.

General Fund Assets Over Liabilities

The Financial Position Statement, known in accounting terms as the balance sheet, reports the assets available to provide services. Liabilities are the amounts for which the district is obligated to pay in the future. The amount below represents the difference between the assets of the district and the liabilities, which it must pay. This amount provides the "net worth" of the district. Information is provided for the district's General Fund.

ASSETS:

CASH is the amount of physical cash held by the District in checking accounts and on hand for purposes of paying expenses.

INVESTMENTS are made up of the funds not needed to pay expenses. The Treasurer invests these funds in a variety of accounts. This allows the District to earn interest on its cash.

RECEIVABLES represent the amounts that are owed to the District at June 30, 2018.

LIABILITIES & DEFERRED INFLOWS/OUTFLOWS:

LIABILITIES are those amounts the District owed to employees, other governments or vendors for items or services that have been provided to the District, for which payment is expected to be made within twelve months.

DEFERRED INFLOWS OF RESOURCES AND DEFERRED OUTFLOWS OF RESOURCES are neither assets nor liabilities as they relate to the current fiscal year. Unlike current assets and liabilities, amounts classified as "deferred inflows" or "deferred outflows" are amounts which will not be recognized as a revenue or an expense until the future period to which the inflows or outflows are related. For FY18, the District's General Fund reported deferred inflows related to tax revenue received but not available for use until a future period, and no deferred outflows.

Building Our Future

In May 2013, our voters approved a \$50 million bond levy for improvements and additions at all of our buildings. With these dollars, we were able to add much needed classroom and common space to all 5 elementary schools, Dempsey Middle School and Hayes High School.

Hayes High School ribbon cutting, groundbreaking and addition.

Planning For Our Future

Our District continues to grow in enrollment. We engaged FutureThink in early 2017 to perform a comprehensive enrollment study and enrollment projection report. Enrollment is projected to increase by 11.5% or more than 650 students over the next 8 years.

Building	2017-18 Enrollment	2019-20 Projected	2021-22 Projected	2023-24 Projected	2025-26 Projected

Out of 610 school districts in the State, only 94 gained enrollment from the 2006-2007 to the 2014-15 school year. Approximately 84% of school districts lost enrollment over that time period. Delaware City Schools' enrollment increased by 850 students over that time period, or 18.1%, from 4686 in 2006-07 to 5536 in 2014-15. We have grown by an additional 233 students, or 4.2%, in the past 3 years.

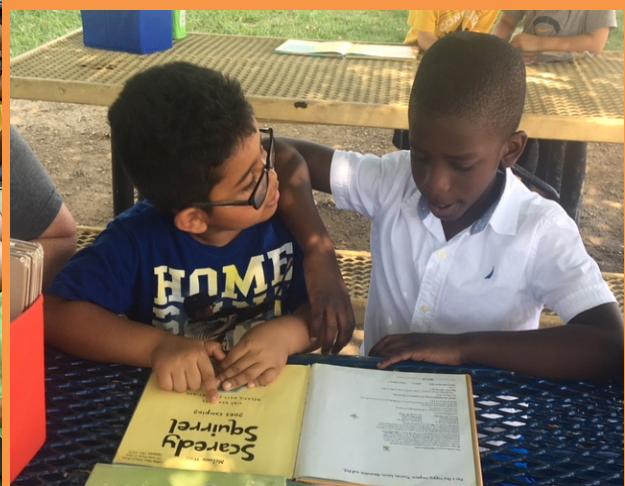

Delaware County is one of only three counties in the State to gain enrollment from 2006-07 to 2014-15.

County	Percentage Gain
Delaware	36.57%
Warren	4.95%
Fairfield	0.75%
