**UCare Discount:** UCare members may be eligible for a \$15 discount on most classes. If a class is less than \$15, the class will be free of charge. Members must have UCare ID number at the time of registration and during the class(es). This discount cannot be used for the following: private lessons, alcohol-related activities, high-risk activities (skydiving, rock climbing, etc.), and gambling trips. To have your discount applied, you must call 651-407-7501 to register.

**Your Privacy is Important to Us:** Your registration information is considered private data under state and federal law. Information is used for the purposes of administering the activity, contacting you about upcoming activities, events or activity changes. If you choose to withhold this information, this could limit the distribution of information to the participant or instructor.

**Liability Waiver:** There is an inherent risk of accident or injury in any activity. It is the responsibility of the participant or the parent of the participant to be aware that there are assumed risks in participation. ISD 624 assumes no responsibility for injuries received during activities. Any changes in a participant's activity level should be done under approval and direction of their physician and/or healthcare provider(s).

**Do You Have a Disability?** Do not let it be a barrier to enjoying the wide variety of class offerings in this catalog. Please call 651-407-7501 to discuss accommodations.

**Need Financial Assistance?** WBL Community Services & Recreation is dedicated to providing learning opportunities for people of all ages. Limited financial assistance is available. For details and to apply, call 651-407-7501.

# FLEX

SUMMER 2024: JUNE 12-AUGUST 16

## Summer location (incoming grades 6-8):

- Lincoln

Summer FLEX is all about youth choice and voice! Youth work in committees to plan everything from the daily snack to on-site opportunities and field trips. We offer a wide variety of specialized activities to promote personal growth and success. Experiences and opportunities include: athletic tournaments and competitions, outdoor and indoor recreation, making new friends, service learning, cooking and a place to hang out! Programming closed: June 19, July 4 & 5.

## HIGHLIGHTS:

- FLEX is a fun place to hang out and make new friends! Break up those long summer days and come hang out with us!
- Staff working in FLEX are highly passionate about working with middle school students and have experience creating fun environments, encouraging exploration, imagination, social skills, and youth voice.
- Fun spaces will be available! Examples from previous summers include: a student run snack cafe, arcade/game room, Makerspace, "Club FLEX", and many more! Students will help create environments in which they would like to be!

## Enrollment opens on March 1 at 11:00 AM!

Fees are available online at:  
[communityservices.isd624.org/youth/extended-day-summer](https://communityservices.isd624.org/youth/extended-day-summer).

Pick Your Days Contract: to maximize the flexibility and choice for all families, all summer contracts will be Pick Your Day. Consistent days each week are not required to achieve the best daily rate. Any days added after the first day of summer will be at a drop-in rate and accepted as available. ## WBL Summer Nordic Ski

Summertime is the right time to prepare for the upcoming Nordic ski season! This program will focus on strength, technique, speed and endurance. You can choose from one to four sessions each week. However, the Wednesday option will be of high rigor and is for advanced skier athletes only.

The two morning sessions (Tuesday and Thursday) are geared toward newer skiers and the two evening session (M/W) toward more advanced skiers. All sessions will include roller skiing and most will involve some hill bounding, with Wednesdays involving longer and more rigorous hill bounding as a key component. All groups will be together every other Saturday morning for a long endurance roller ski session. The program will focus equally on the classic and skate techniques.

Locations will vary; the Monday, Tuesday and Thursday sessions will take place within the ISD 624 boundaries, and the Wednesday and Saturday sessions will be a little further afield, but nearby. Roller skis are required (a combo or classic ski or a set of skate and a set of classic), and helmets are mandatory. There will be some skis available for use, but the supply is limited. All participants will receive a t-shirt!

## Youth Tennis

WBL Community Ed is excited to partner with the Soar Tennis Academy for kids tennis programming. Soar Tennis was founded by Matt Swigart, a USPTA certified teaching pro who is the winningest all-time Head Men's and Women's Tennis Coach at the University of Northwestern - St. Paul. Matt and his coaching staff are excited to work with WBL students and families this summer!

**Beginner:** Players who have little to no experience playing tennis. Students will learn each stroke from the very beginning and work on technique in a success-orientated environment. This class uses age-appropriate tennis balls.

**Intermediate:** Players who completed the beginner class or have some playing experience. Concentration is on improving technique and learning how to control the ball. In class players focus on stroke production, learning to hit to specific targets and point playing experiences.

**Advanced:** *Prerequisite: Beg/Inter Class or equivalent experience.* Players will concentrate on court positioning, strategy and reviewing and improving their techniques. There will be "player sustained" drills which simulate match play.

**Learn to Play Matches:** For players who have completed at least the intermediate classes and who are interested in learning about playing matches. This is for kids who are going into grades 5-9. Participants must be able to serve the ball in and maintain a rally.

**Tennis Rainout Policy:** Tennis courts become slippery when wet. If it is raining and courts are unplayable, class will be canceled. You will receive an email or phone call with the notification 30 minutes or earlier prior to your session. If conditions are questionable, please show up for your regularly scheduled start time and we will do our best to get the session in. If class is canceled due to weather, a makeup session will be held on that Friday.

**Location:** South Campus High School - Tennis Courts

### *The Future of Work and Education in White Bear Lake Area Schools*

In an era where CEOs and industry leaders grapple with an emerging work landscape, we in education are at the crossroads of the present and future. As stewards of the next generation, our charge in White Bear Lake Area Schools is not merely to prepare students for the world as we know it but to inspire them to shape the world that will be. Our journey begins with a core question: How do we equip our students for a yet-to-be-written future?

Reflect on this - our kindergarteners today will step into their futures as graduates in 2037, embarking on careers stretching into 2075 and beyond. Their professional lives will experience a scale of innovation and change we can only imagine. It's profound thinking and collaboration that inspires us to look beyond the educational models of the past to prepare our students for the decades to follow.

In White Bear Lake Area Schools, our community has rallied around a visionary Strategic Plan, a blueprint for change that honors our legacy yet looks forward with optimism and ambition. Together, we're creating a learning culture that thrives on change, celebrates curiosity, and embraces every student's unique skills and talents.

District leaders and school board members showed their appreciation for Gray Seever at the January School Board meeting. Gray has served the district by videotaping School Board meetings, and helping with other video projects through the district and the local community cable channel, for the last 25 years.

As he headed off into retirement, the School Board wished him well and thanked him for his decades of service to the district and the community.

*Continued from cover*

Our schools are not silent halls of passive learning; they are vibrant ecosystems of discovery where students are the designers of their futures. We've listened to what matters most to families, community members, and employers, and in response, we've sculpted our Foundations of Success. These pillars - including flexible and critical thinking, community engagement, character, communication skills, teamwork, and a robust educational foundation - are not just academic goals. They are the pillars of the future.

Gone are the days of the factory education model, with its desks in rows and rote memorization. Today, our students navigate a world rich with information, seeking relevance and connection in every lesson. They challenge us to make learning a dynamic engagement with the world. Our commitment to empowering students as designers of their future is alive in every school. From first graders exploring the physics of igloos to high school criminology enthusiasts solving mysteries, our students are proving that learning is not just about absorbing facts - it's about applying knowledge in innovative ways.

Consider the story of our fifth graders, ignited by a classmate's interest in rockets, who transformed their curiosity into a hands-on exploration of aerospace engineering. Or our tenth graders, who, through mock interviews, applied their language arts skills in real-world scenarios, leaving a lasting impression on community interviewers. These life experiences challenge our students to be adaptable, resilient individuals ready for tomorrow's opportunities.

As we witness daily advancements in science and technology, we are reminded of the unknown future our students will navigate. Our gift to them is the ability to learn, relearn, unlearn, and adapt. The future demands not just knowledge, but a profound set of skills in critical thinking, communication, collaboration, and community building. These are the foundations of success with which our students will build their futures and in doing so, shape the world.

Our journey in White Bear Lake Area Schools is more than an educational mission; it's a promise to our students that their futures are boundless and theirs to shape. In preparing our Bears for the future, we are not just educating students; we are nurturing problem-solvers who are ready to make meaningful contributions both locally and globally.

It's a pivotal time to be a learning leader, to witness the beginning of futures filled with potential. We are humbled to guide our Bears into a future that they will not only live, but lead. It's an exciting, transformative journey - and it's only just begun.

Dr. Wayne Kazmierczak, Superintendent

## *District Receives Finance Awards*

White Bear Lake Area Schools received the Government Finance Officers Association's (GFOA) Certificate of Achievement for Excellence in Financial Reporting. The district also received the Excellence in Financial Reporting Award from the Association of School Business Officials (ASBO).

These awards are the highest form of recognition a governmental agency can receive and represent a significant accomplishment for the finance department and its staff. This year's recognition marks the 23rd consecutive year the district has received both awards.

"Receiving this recognition every year for more than two decades is notable," said Superintendent Wayne Kazmierczak. "Our finance team has a long-standing dedication to stewardship, transparency and financial responsibility. Their role in maintaining accountability by appropriately using resources provided by the community cannot be understated."

To be considered for the awards, the finance department submits its annual comprehensive financial report to be reviewed by an impartial panel at GFOA and ASBO. If the report meets all of the requirements, the district may qualify for the highest recognition. According to GFOA Director of Technical Services, Michele Mark Levine, the district's annual report demonstrates "a constructive 'spirit of full disclosure' to clearly communicate its financial story."

## *FREE Senior Activity Pass*

More than 1,000 Senior community members (those who are age 65+) who live in the District participate in the Lifetime Activity Pass program and enjoy complimentary admission to school activities.

To request a pass, find the application at [isd624.org/SeniorActivityPass](http://isd624.org/SeniorActivityPass) and your pass will be mailed to you. If you have questions, please contact Rachael Markuson at 651-407-7563 or by email at [rachael.markuson@isd624.org](mailto:rachael.markuson@isd624.org).

## *Requesting an Interpreter*

Families and community members can request that a district staff member call them through the use of an interpreter who speaks the language they speak.

Information about how to make the request can be found in text and audio translations, in all languages spoken by students in the district, on the district website or at the QR code below:

## *Bear Wear Pics!*

We are looking for photos of little ones in their "Born to be a Bear" onesies and "I'm a Bear" shirts!

Email your photos to us at [communications@isd624.org](mailto:communications@isd624.org) and you may find your little one(s) featured in a District publication!

Onesies are sent to families who live in the district upon the arrival of a little one, and shirts are given to toddlers when they receive Screen at 3 information. Kindergartners receive shirts when their enrollment paperwork is complete.

### *Leaders Present at National Design Conference*

District leaders accompanied a team from Wold Architects and Engineers, the firm that designed the majority of the district's construction projects made possible by the community's support of the 2019 bond referendum, to present at the EDspaces "Designing the Future of Education" national conference. The annual event is described as the place where leaders and innovators unite to drive the future of learning environments, where technology, space and pedagogy converge.

The district's presentation focused on the design and construction of North Star Elementary, which opened

in Hugo in the fall of 2022. North Star Elementary was carefully planned from the perspective of both the physical space and the pedagogical perspective to support student agency and flexibility. The process included significant stakeholder input throughout the process and professional development to support the mission.

"Innovative and future ready learning environments are being created throughout the district, and while the concept of student agency may not be new we are frontrunners with the work happening at North Star," said Superintendent Wayne Kazmierczak. "We are implementing teaching and learning practices to empower students to lead their learning, and the building is specially designed to support this effort."

The philosophy of supporting student agency and student-centric design was accomplished through a building design that incorporates educational spaces called Learning Studios, where students and educators work together throughout a larger area that can be separated into multiple space configurations. Through a strategic design of the space, the environment has become an essential tool in shaping the student experience. Multi-age learning has been implemented in some of the studios, and sensory spaces where students can reduce anxiety and self-regulate when needed have been incorporated in all of the studios. Every aspect, including furniture, technology and operable walls, is multi-functional in the Learning Studio and adds to the flexibility.

"It was rewarding to share with school and district leaders from throughout the nation, and the world, what we have been able to achieve at North Star," said Principal Dan Schmidt. "We started with a shared dream of how to 'do school differently,' and we were able to realize that dream with the help of a community that supported our vision."

Structural changes are visible, but changes being made to our buildings' learning environments are equally evident. The engagement that multiple community members had in our Strategic Planning process helped us think about how teaching and learning happen in our schools. The facilities projects we've undertaken allow us to serve students differently, using bricks and mortar to transform our students' environments and help them design their future and create their success.

## WHY BE A BEAR?

### *Benefits of being a BEAR:*

- Student-centered instruction. We believe all students grow and learn in different ways and at different rates, all can achieve.
- More academic opportunities to explore interests, excel and design your future.
- Students are agents and owners of their own learning in an environment that is safe, supportive and challenging — with high expectations for student success.
- Our educators inspire, facilitate, and challenge students, nurturing curiosity and confidence. We provide a window to their future.
- We are transforming learning. Our flexible learning spaces and learning studios ignite opportunities for communication, collaboration, creativity and critical thinking.
