

GRADING IMPLEMENTATION STEPS - DISTRICT

This document serves as a reference guide for district administrators. Configuration of district implementation steps regarding traditional grades for secondary schools will be reviewed. Implementation steps for grading will be completed at the district and school level in PowerSchool. This document focuses on district level grading implementation steps for traditional grades.

OVERVIEW

Use this document as a reference to review **DISTRICT** grading implementation steps

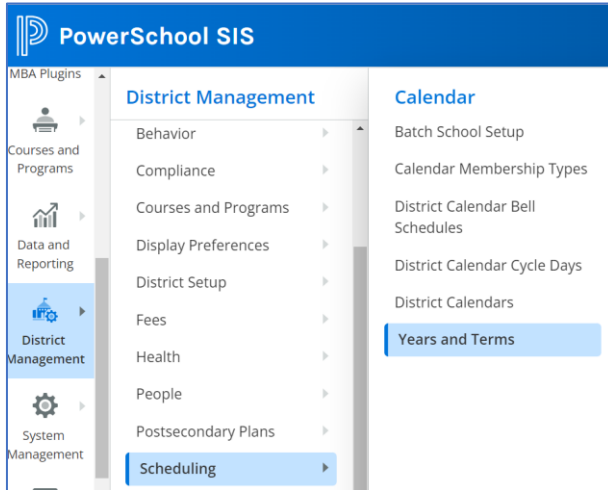

- Step 1: District Years and Terms
 - Step 2: Grade Scales
 - Step 3: PowerTeacher Pro
 - Display Settings
 - District Categories for Teachers
 - Default Gradebook Settings
 - Grade Preferences for Courses
 - Lock Reporting Term Setup
 - Traditional Grade Calculation
 - Step 4: GPA Calculations
-

1. DISTRICT YEARS AND TERMS

- **Navigate to District Years and Terms (using the SEARCH BAR):**
 - Enter YEARS AND TERMS in the SEARCH BAR
 - Under Pages, select YEARS AND TERMS
 - NOTE: Use the SEARCH BAR to navigate quickly to many pages in PowerSchool

- **Navigate to District Years and Terms (using a PATH):**
 - Choose DISTRICT MANAGEMENT from the left navigation pane on the START PAGE
 - From the slide out drawer choose SCHEDULING
 - From the secondary slide out drawer choose YEARS AND TERMS
-

- The YEAR TERM at the district level should encompass the FIRST DAY and LAST DAY of attendance for ALL schools in the district
- NOTE: you will be using these dates to set up FINAL GRADE REPORTING TERMS for schools
- Districts may choose to enter the YEAR TERM as 07/01/XX – 06/29/XX
- The FULL YEAR TERM is the only term necessary to create at the district level

2. GRADE SCALES

- **Navigate to Grade Scales at the District Level:**

- Path: DISTRICT MANAGEMENT\ACADEMICS\GRADES\ACADEMIC GRADE SCALES
- Grade scales are associated to COURSES and inherited by SECTIONS

- Grade Scales have the ability to convert GRADEBOOK POINTS and PERCENTAGES to ALPHA GRADES for use on Report Cards and Transcripts
- SPECIAL CODES reside in a SPECIAL CODE Grade Scale that is attached to each traditional Alpha Grade Scale (**Alpha Grade Scales have been created for ALL Districts**)
 - o Special Codes include TEACHER GRADEBOOK SPECIAL CODES from Skyward
 - o Special Codes Grade Scales are helpful in distinguishing which SPECIAL CODES are to be used for FINAL GRADES or ASSIGNMENT GRADES
- Grade Scale FIELD LIST:

| | |
|--------------------------|---|
| Grade | Indicate the Grade, such as A+, C- or D, etc. |
| Description | Enter the description of the grade in this field, such as Excellent. |
| Grade Points | Enter in the Grade Points associated with this grade, such as 3.8, or 4.0, etc. For example, an A might be worth 4.0, and a C might be worth 2.0. |
| Cutoff Percent | Enter the lowest percentage a student can earn to receive this grade. For example if you enter an 80 (for 80%) for a B, the student must receive at least an 80% to get a B. The system uses the next highest cutoff percentage you define for a different grade to determine the highest percent grade students can earn to receive this grade. |
| Gradebook Value | This field indicates the percentage value of a letter grade when teachers give letter grades instead of numeric grades in the PowerTeacher gradebook. Enter a number for the value of the letter grade; usually this is in the middle of the range (median) for the grade, such as 85 for a B where any percentage between 80-89 could be a B. Some districts like to use the highest numeric value, some districts like to use the lowest numeric value. |
| Counts in GPA? | Select the checkbox to determine that this grade calculates in the GPA. |
| Receives added value? | Select the checkbox if you have courses such as Advance Placement courses where there are GPA points added for that particular grade item. In order for those points to be considered in GPA calculation the grade scale item has to be marked indicating it can receive added value. |
| Earns graduation credit? | Select the checkbox to determine that this grade earns credit towards graduation requirements. |
| Teachers grade scale? | Select the checkbox to indicate that teachers use this grade scale. |

3. GPA CALCULATION METHODS

- Path: DISTRICT MANAGEMENT\ACADEMICS\GPA\GPA CALCULATION METHODS
- PowerSchool has 5 standard GPA CALCULATION METHODS

| GPA Method Name | Description |
|----------------------|---|
| Simple GPA | Numeric GPA based on a four point scale where classes all count the same in determining GPA. |
| Weighted GPA | Numeric GPA on a four point scale when potential credits factor in determining GPA. A 1 credit class is worth more than a .5 credit class. |
| Simple Percent GPA | Shows a student's Percent average when all classes count the same in determining GPA. |
| Weighted Percent GPA | Shows a student's Percent average when potential credits factor in determining GPA. A 1 credit class is worth more than a .5 credit class. |
| Added Value GPA | Numeric GPA on a four point scale when potential credits factor in determining GPA. A 1 credit class is worth more than a .5 credit class, and specific classes (Honors/AP) can be given a bonus of extra GPA points. |

- CALCULATION METHODS are formulas that PowerSchool will use to calculate GPA's
- A GPA Calculation is done on the fly; GPA's are never STORED in PowerSchool
- FORMULAS for each GPA Calculation Method:

| | |
|----------------------|--|
| Simple GPA | $\text{round}((\text{sum}(\text{gpa_gpapoints}())/\text{gpa_count}()),4)$ |
| Weighted GPA | $\text{round}((\text{gpa_sum}(\text{gpa_gpapoints}()*\text{gpa_potentialcredit}())/\text{sum}(\text{gpa_potentialcredit}())),4)$ |
| Simple Percent GPA | $\text{round}((\text{sum}(\text{gpa_percent}())/\text{gpa_count}()),4)$ |
| Weighted Percent GPA | $\text{round}((\text{gpa_sum}(\text{gpa_percent}()*\text{gpa_potentialcredit}())/\text{sum}(\text{gpa_potentialcredit}())),4)$ |
| Added Value GPA | $\text{round}((\text{gpa_sum}((\text{gpa_gpapoints}()+\text{gpa_addedvalue}))*\text{gpa_potentialcredit}())/\text{sum}(\text{gpa_potentialcredit}())),4)$ |
