

## Enrollment and Capacity Management Advisory Committee December 11, 2023 Evaluation Responses

1. Did tonight's meeting meet all of the intended outcomes?
  - 100% of Respondents said Yes
2. When considering how you learn best, what did we do tonight that was:
  - a. Most helpful to your learning?
    - Breakouts
    - Having the information in advance
    - Supporting documents with numbers and graphs are important
    - Going over factual information, it helps to see data on school capacity, growth, etc. in order to communicate accurate information to stakeholders, versus perceptions.
  - b. Least helpful to your learning?
    - Some information was redundant for me, only because I am a board member and have received some of this information in recent work sessions.
3. Based on what you have learned so far, will this work serve to increase community trust in the district's long-range planning for enrollment and building use?
  - I think it is a useful group. I am not 100% sure what our role is going to be going forward.
  - Yes, as long as there is open communication provided in a timely manner.
4. Anything else you would like us to know as we plan future meetings?
  - I appreciated being in a breakout room with a parent of elementary and preschool students. It is so important to have balanced committees, not only district staff, in order to build trust with our stakeholders.
