December 22, 2023

Highland Board of Education Members and The Citizens of the Highland Local School District:

The Annual Comprehensive Financial Report (ACFR) of the Highland Local School District (the "School District") is hereby submitted for the fiscal year ended June 30, 2023. This report, prepared by the Treasurer's Office, includes financial statements, supplemental schedules, and other financial and statistical information to provide complete and full disclosure of all material financial aspects of the School District for fiscal year 2023.

The responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the School District's management. To the best of our knowledge and belief, this ACFR and the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds as well as the School District as a whole.

This ACFR, which includes an opinion from the Ohio Auditor of State, conforms to generally accepted accounting principles as set forth by the Governmental Accounting Standards Board (GASB), and is representative of the School District's commitment to provide meaningful information to the citizens of the Highland Local School District.

Copies of this report will be distributed to Board of Education members, School District administrators, Financial Rating Services, and other interested parties upon request.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

#### DESCRIPTION OF THE SCHOOL DISTRICT

Nestled among the rolling hills and extensive park system of Medina County, the School District's stated mission is to guarantee that each learner reaches maximum potential by providing, in partnership with the community, a quality, progressive, educational program in a safe and dynamic life-long learning environment.

Neil Barnes, CPA, Treasurer Laurie Boedicker, Director of Curriculum & Instruction Deborah Yorko, Director of Pupil Services Kelli Crawford-Smith, Director of Communications The sprawling 78-square mile School District is situated in the eastern portion of Medina County with a very small portion located in Summit County. The majority of the students educated by the School District reside in Granger, Hinckley, Sharon, and Montville Townships. The School District's boundaries also include small segments located in the City of Wadsworth, Copley Township, Medina Township, and Brunswick Hills Township. Interstates 71 and 271 and State Routes 18 and 94 provide easy access to the area. Major hospitals, Cleveland Hopkins International Airport, Akron-Canton Airport, and numerous institutions of higher learning are located within a forty-five minute drive. The School District's communities are predominantly rural residential. The socioeconomic status of residents generally ranges from middle to upper.

The Highland Local School District's core townships are rich in history. The lands were part of the Connecticut Western Reserve. Granger and Sharon Townships were laid out in 1816; Hinckley Township was formed in 1819. Each township was quick to recognize the importance of education to its children. The people agreed that the schoolhouse was a "thing of necessity."

Granger became a centralized school district in 1900, meaning that the one-room schoolhouses were abandoned for one central school. Granger continued to have a single township school district until 1950 when the Granger and Sharon Districts merged. In 1952, Hinckley was added to create the Highland Local School District.

The original Sharon, Granger, and Hinckley Elementary School buildings were constructed in 1922, 1929, and 1949, respectively. The 2020-2021 school year represented the final year of service for these buildings. In November 2017, the voters of the School District passed a \$63 million bond issue to construct three new elementary buildings and partially renovate the middle school. The new elementary buildings opened in September 2021 with the start of the 2021-2022 school year. The Highland Middle School building was constructed in 1958. Renovations and additions have been made to this building throughout the years in order to modernize and boost classroom space as enrollment increased. The award winning Highland High School building was opened in the fall of 2004. The building received the Outstanding Design award from the Council of Educational Facility Planners International and School Planning & Management magazine.

The School District provides a wide array of programs and services to students including instruction, support services, non-instructional services, and extracurricular activities. The instructional programs provide regular instruction from preschool through twelfth grade, special education for students with learning and other disabilities, and vocational education. Support services include pupil and staff support, school administration, fiscal and business services, maintenance of buildings and grounds, and pupil transportation. Non-instructional services include a food service operation for pupils, a latchkey program for before and after school child care, and community education activities. The extracurricular activities are designed to enhance the instructional experience for pupils and include student organizations and athletic activities.

As of June 30, 2023, the School District had 3,436 students enrolled in its five school buildings: Sharon Elementary, Granger Elementary, Hinckley Elementary, Highland Middle School housing grades 6 through 8, and Highland High School housing grades 9 through 12.

The School District also operates a bus garage, maintenance facility, and athletic facilities. In the summer of 2015, the School District opened a brand-new, state-of-the-art athletic complex that includes a field with all-purpose synthetic turf, eight lane running track, grandstands with a combined seating capacity of 5,000, field house, locker rooms, concessions, tennis courts, storage buildings, and expanded parking facilities.

Beginning in the early 1990's through 2007, the School District experienced significant increases in annual enrollment. From 2008 through 2017, the trend of relatively fewer new housing starts and increased alternative public school choice options led to a steadier, slightly decreasing student population. More recently, enrollment is trending upwards once again particularly in the southern portion of the School District where several large tracts of land in Sharon Township have been annexed into the City of Wadsworth allowing for higher density housing developments. It is anticipated that enrollment will continue to increase in the future as development continues.

#### A Legacy of Excellence

Through the 2011-2012 school year, the School District had been rated "Excellent with Distinction" or "Excellent" by the Ohio Department of Education on its local report card for 13 consecutive years.

The Ohio Department of Education unveiled a revamped local report card format beginning with the 2012-2013 school year. Under this reporting system, school districts received letter grades on specified components. These components included achievement, progress, gap closing, graduation rate, K-3 literacy, and prepared for success (i.e. college and career readiness). These report cards continued to evidence that Highland's students achieve at a high level. For the 2018-2019 school year, the School District was one of only 31 districts in the entire State of Ohio to receive an overall letter grade of "A". The School District's performance index score placed it 26<sup>th</sup> out of Ohio's 608 public school districts. The 2019-2020 and 2020-2021 state report cards did not include grades or ratings due to the pandemic.

The Ohio Department of Education again modified the local report card format beginning with the 2021-2022 school year. The new report card includes a star rating system analyzing six areas: achievement, progress, early literacy, gap closing, graduation, and college, career, workforce, and military readiness. For both 2021-2022 and 2022-2023, Highland received the highest possible overall rating of "5 Stars".

For the 11<sup>th</sup> consecutive year, Highland High School was recognized in the annual Best High Schools Rankings published by *US News*. For the 2022-2023 school year, Highland ranked an impressive 29<sup>th</sup> among Ohio's 741 high schools and 764<sup>th</sup> nationally out of nearly 18,000 high schools.

Approximately 83% of Highland High School's most recent graduating class enrolled in either a four-year or a two-year college. Highland also boasts an average SAT score of 1110 and an average ACT score of 23, which are both above the state and national mean scores. Highland High School offers 44 Advanced Placement, Honors, and Third/Fourth Year World Language courses. Over 83% of participating Highland students scored a 3 or better on Advanced Placement tests during the 2022-2023 school year. College readiness for Highland High School graduates remains consistently high.

In December 2019, the School District's "Little Hornets" Preschool Program received the Five-Star Step Up to Quality Award from the State of Ohio ~ the highest rating attainable. Step Up to Quality is Ohio's rating system for learning and development programs. Participating programs can earn a one to five-star rating. Star ratings are awarded only to learning and development programs that exceed licensing standards and are committed to continuous improvement, the continuing education of teachers, the use of learning and development standards to support children's learning, as well as relationship-building with families and communities.

#### ORGANIZATION OF THE SCHOOL DISTRICT

The Board of Education (the "Board") of the School District is comprised of five members elected at large by the citizens of the School District. The Board serves as the taxing authority, contracting body, and policy maker for the School District. The Board is responsible for the adoption of the tax budget and the annual operating budget of the School District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the Ohio

Revised Code. Current members include, Mr. Christopher Wolny, President, Mr. Mike Houska, Vice President, Mr. Robert Kelly, Dr. Norman Christopher, and Mrs. Melissa Schreiner.

The Superintendent is the chief executive officer of the School District and is responsible directly to the Board for all operations within the School District. Mrs. Catherine Aukerman was appointed Superintendent of the School District on August 1, 2008. She is currently employed under a five-year contract, which ends on July 31, 2026.

The Treasurer is the chief financial officer of the School District and is responsible directly to the Board for all financial operations, including but not limited to budgeting, investments, debt management, risk management, and capital asset inventory. The Treasurer also serves as Secretary to the Board. Mr. Neil Barnes was appointed to serve as the Treasurer effective August 1, 2010. He is currently employed under a five-year contract, which ends on July 31, 2024.

All other School District employees, with the exception of the Treasurer's department, are responsible to the Superintendent and are employed by the Board upon the recommendation of the Superintendent.

#### REPORTING ENTITY

The School District has reviewed its reporting entity definition in order to ensure conformance with applicable Governmental Accounting Standards Board (GASB) requirements. In evaluating how to define the School District for financial reporting purposes, management has considered all boards, funds, agencies, departments and organizations making up the Highland Local School District (the primary government).

Other governmental entities (i.e. Townships of Granger, Hinckley, Sharon, Montville, Brunswick Hills, Copley, and Medina and the City of Wadsworth) conducting business activities within School District boundaries are excluded from the accompanying financial statements. The School District's Board does not appoint the boards/councils of those entities, nor are they fiscally dependent on the School District. The School District cannot legally access their resources, has no obligation to finance deficits or provide financial support, and is not obligated for their debts.

A complete discussion of the School District's reporting entity is provided in Note 1 to the basic financial statements.

#### FINANCIAL INFORMATION

The School District is required by Ohio law to complete a five-year financial forecast annually. This document is updated regularly and serves as a financial roadmap for the School District. The forecast is designed to provide the administration, Board of Education and the public a general indication of the probable future financial position of the School District based on information currently available to the School District. The forecast is a critical planning document for the School District. It is a necessary tool focusing discussion and attention on future financial needs while facilitating management's strategic planning.

#### Internal Accounting and Budgetary Control

The School District's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Reports for general governmental operations are presented on the modified accrual basis whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received.

The School District is responsible for establishing and maintaining an internal control structure designed to protect its assets from loss, theft or misuse. Furthermore, the accounting system must be adequate to allow for the preparation of basic financial statements in conformity with generally accepted accounting

principles. In developing the School District's accounting system much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation. The valuation of costs and benefits requires estimates and judgments by management. As an additional safeguard, all employees are covered under an employee dishonesty provision of the School District's insurance policy and certain individuals in policy-making roles are covered by separate, higher limit performance and/or position bonds.

The School District utilizes a fully automated accounting system as well as an automated system for payroll. These systems, coupled with the manual auditing of receipts and each voucher prior to payment, help ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation measure is first adopted on or about July 1<sup>st</sup>, then a permanent appropriation measure must subsequently be adopted by October 1<sup>st</sup> of the fiscal year. The permanent appropriation measure may be amended by the Board throughout the fiscal year as necessary.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund level for all funds. All purchase order requests must be approved by the Superintendent and certified by the Treasurer. Following approval and certification, the necessary funds are then encumbered and purchase orders are released to vendors. Those requests that exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the School District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. Administrators are furnished with monthly reports showing the status of the budget accounts for which they are responsible. In addition, an on-line inquiry system is available at each cost center site.

The basis of accounting and the various funds utilized by the Highland Local School District are fully described in Note 1 of the financial statements. Additional information on the School District's budgetary accounting can also be found in Note 3.

#### ECONOMIC CONDITION AND FUTURE OUTLOOK

For the future, the School District's overall focus will be to continue to improve the educational program for the benefit of students, parents and community residents. The process involves assessing current programs, identifying strengths and weaknesses, developing and implementing new courses of action, and evaluating the results.

Easily accessible via interstate highways between the metropolitan areas of Akron and Cleveland, the School District offers a wealth of opportunity for cultural, social and economic resources for its residents. Three major state universities, The University of Akron, Kent State University and Cleveland State University, and numerous other small colleges and universities are within reasonable traveling distance from the community.

The townships within the School District offer an excellent opportunity for business growth. There exists a healthy, favorable environment with a relatively low tax rate for business establishments. The School District works cooperatively with the Medina County Economic Development Corporation to attract new businesses to the area. In recent years, the School District has realized increased activity in commercial development and new residential housing starts continue to occur each year. School District officials will continue to monitor the impact of the aforementioned annexation on its southern boundary and the resulting potential for enrollment increases.

In May 2011, the Highland community passed a 10-year Emergency Levy that generated in excess of \$4.6 million annually. This levy greatly contributed to the financial stability of the School District for a decade. In May 2021, voters approved a Substitute Levy that replaced the Emergency Levy for a continuous period of time. The new Substitute Levy generates the same amount of revenue in the initial year of collection, but also provides the opportunity for increased revenues in the future as new construction occurs within the School District.

As previously mentioned, in November 2017, voters approved a \$63 million bond levy to construct three new elementary schools and partially renovate the middle school. The School District issued school improvement notes totaling \$5.9 million in December 2017. These notes were paid off in June 2018. The School District then issued school improvement bonds totaling \$63 million in April and May 2018. Moody's Investors Service assigned a rating of Aa2 in relation to these debt issuances. The newly opened elementary buildings will make the District an even more attractive location for individuals and businesses.

In March 2020, the School District executed a refunding transaction in relation to the aforementioned school improvement bonds taking advantage of historically low interest rates. This transaction reduces debt service requirements by nearly \$21 million over the remaining term of the bonds.

The Board and school administration are committed to containing costs and maximizing revenues in an effort to extend the levy cycle as long as possible.

#### OTHER INFORMATION

#### Independent Audit

Provisions of state statute require the School District's financial statements to be subjected to a biannual examination by the Ohio Auditor of State unless an annual Single Audit is required, which is the case for the School District. The Ohio Auditor of State performed the audit of the School District for the year ended June 30, 2023. The auditor's unmodified opinion rendered on the School District's basic financial statements is included in the financial section of this Annual Comprehensive Financial Report.

#### GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the School District for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2022. The School District has submitted this report for consideration to the GFOA. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Annual Comprehensive Financial Report, the contents of which conform to program standards. The ACFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report will conform to the high standards required by the Certificate of Achievement program.

#### Additional Information

For a more in depth discussion of the financial condition of the Highland Local School District, please refer to the Management's Discussion and Analysis and the Notes to the Basic Financial Statements of the Annual Comprehensive Financial Report.

#### **Acknowledgments**

My sincere appreciation and thanks are extended to the many individuals who made the preparation and publication of this Annual Comprehensive Financial Report a reality. This accomplishment would not have been possible without the support and efforts of the staff in the Treasurer's office and many other dedicated employees of the School District. In addition, sincere thanks are extended to the Medina County Auditor's office staff and other outside agencies whose efforts contributed to the fair presentation of the statistical data.

I would also like to extend my appreciation to the members of the Highland Board of Education for their leadership, commitment to excellence, and support. It is with great pride that the Highland Local School District presents the 2023 Annual Comprehensive Financial Report to the citizens and taxpayers of the School District.

Respectfully Submitted,

Neil W. Barnes, CPA

#### INDEPENDENT AUDITOR'S REPORT

Highland Local School District Medina County 3880 Ridge Road Medina, Ohio 44256

To the Board of Education:

#### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Highland Local School District, Medina County, Ohio (the District), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Highland Local School District, Medina County, Ohio as of June 30, 2023, and the respective changes in financial position thereof and the budgetary comparison for the General Fund for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Efficient • Effective • Transparent

Highland Local School District Medina County Independent Auditor's Report Page 2

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
  raise substantial doubt about the District's ability to continue as a going concern for a reasonable
  period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis* and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic

Highland Local School District Medina County Independent Auditor's Report Page 3

financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we will also issue our report dated December 22, 2023, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Keith Faber Auditor of State Columbus, Ohio

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 Unaudited

This discussion and analysis of Highland Local School District's (the "School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2023. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the letter of transmittal, basic financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

#### **Financial Highlights**

Key financial highlights for 2023 are as follows:

- Net position of governmental activities increased \$2,130,200 representing a 25.2 percent increase from 2022.
- General revenues accounted for \$44,340,729 in revenue or 87.6 percent of all revenues. Program revenues in the form of charges for services; operating grants, contributions and interest; capital grants, contributions and interest accounted for \$6,254,923 or 12.4 percent of total revenues of \$50,595,652.
- The School District had \$48,465,452 in expenses related to governmental activities. Of this amount, \$6,254,923 was offset by program specific revenues. General revenues of \$44,340,729 were adequate to provide for these programs.
- At the end of the current fiscal year, the governmental funds reported a combined ending fund balance of \$35,348,741 which is an increase of \$1,685,332 from the prior fiscal year.

#### **Using this Annual Financial Report**

This annual report consists of a series of financial statements, notes to those statements and the required supplementary information. These statements are organized so the reader can understand the School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements present how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the School District, the general fund, the debt service fund, and the building fund are the most significant funds.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 Unaudited

#### Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While these statements contain information about the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and helps answer the question, "How did we do financially during 2023?" The statement of net position and the statement of activities are designed to answer this question. These statements include all non-fiduciary assets, liabilities, deferred outflows of resources and deferred inflows of resources using the accrual basis of accounting similar to the accounting method used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in that position. This change in net position is important because it tells the reader the extent to which the financial position of the School District as a whole has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's current property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and the statement of activities, the School District's activities are considered to be all Governmental Activities.

Governmental Activities - Most of the School District's programs and services are reported here including instruction, support services, operation of non-instructional services and extracurricular activities.

#### Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 12. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. Fund financial reports provide detailed information about the general fund, the debt service fund, and the building fund, which are considered major funds. Data from the other funds is combined into a single, aggregated presentation.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 Unaudited

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

#### The School District as a Whole

Recall that the statement of net position provides the perspective of the School District as a whole. Over time, net position can serve as a useful indicator of a government's financial position. For the fiscal year ended June 30, 2023, the School District had an increase in net position of \$2,130,200.

Net investment in capital assets on the government-wide statements represents a large portion of the School District's net position for fiscal year 2023 amounting to \$11,874,200. Capital assets, which include land, land improvements, buildings and building improvements, furniture, fixtures, and equipment, vehicles, and intangible right to use furniture, fixtures, and equipment are used to provide services to students and are not available for future spending. Although the School District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the School District's net position, \$16,579,759, represents resources that are subject to external restrictions on how the funds may be used. Of the total restricted assets, \$8,281,966 or 50.0 percent is restricted for debt service payments; \$6,065,745 or 36.6 percent is restricted for capital projects; \$1,303,966 or 7.9 percent is restricted for food service; \$329,382 or 1.9 percent is restricted for extracurricular; \$497,383 or 3.0 percent is restricted for OPEB; \$45,819 or 0.3 percent is restricted for scholarships; and \$55,498 or 0.3 percent is restricted for other purposes. Restricted for other purposes for the School District are net positions restricted for special revenue funds which are used for educational services.

The remaining significant balance of government-wide unrestricted net position is a deficit of \$(17,860,446).

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 Unaudited

The School District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense equal to its proportionate share of each plan's change in net pension liability and net OPEB liability or asset, respectively, not accounted for as deferred inflows/outflows.

As a result of implementing the accounting standard for pension and OPEB, the School District is reporting a significant net pension liability, net OPEB liability, related deferred inflows of resources and an increase in pension expense for the fiscal year which have a negative effect on net position. In addition, the School District is reporting a net OPEB asset, deferred outflows of resources and a decrease in expenses related to OPEB, which have a positive impact on net position. The increase and decrease in pension and OPEB expense is the difference between the contractually required contributions and the pension and OPEB expense resulting from the change in the liability or asset that is not reported as deferred inflows or outflows. These amounts can be found in the reconciliation of the statement of revenues, expenditures and changes in fund balances of governmental funds to the statement of activities. To further explain the impact of these accounting standards on the School District's net position, additional information is presented below.

	<u>2023</u>		<u>2022</u>

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 Unaudited

Governmental Activities - The School District has carefully planned for its financial future by forecasting its revenues and expenses over the next five years. The School District's revenue growth is mostly dependent upon property tax collections. Property taxes made up 63.2 percent of revenues for governmental activities for the School District in fiscal year 2023. Although the School District relies heavily upon local property taxes to support its operations, the School District does actively solicit and receive additional grant and entitlement funds to help offset some operating costs.

Instruction comprises 54.9 percent of governmental program expenses. Additional supporting services, including but not limited to those for pupils, staff, administration, fiscal, operation and maintenance of plant, and pupil transportation, encompassed an additional 31.1 percent. The remaining 14.0 percent of program expenses is used for other obligations of the School District such as non-instructional services, extracurricular activities and interest and fiscal charges.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 Unaudited

#### The School District's Funds

The School District's governmental funds are accounted for using the modified accrual basis of accounting. The total revenues and other financing sources for governmental funds were \$52,121,919 and total expenditures and other financing uses were \$50,436,587. The total net change in fund balance across all governmental funds was an increase of \$1,685,332.

The net change in the general fund was an increase of \$433,475 or 2.2 percent. This increase was primarily due to a rise in tax collections resulting from the Medina County triennial update of property values. General fund expenditures also significantly increased driven by additional hiring, contractual commitments and expanded purchased services for mental health, nursing and security. While total fund balance increased, the debt service and building fund reported decreases in fund balance. The net change in the debt service fund was a decrease of \$417,301 or 4.7 percent. This decrease was primarily due to a reduction of the bond levy millage enacted by the County. The net change in the building fund was a decrease of \$463,705 or 25.3 percent. This decrease was the result of the continued spend down of construction related resources. The net change in fund balance in the other governmental funds was an increase of \$2,132,863 or 67.5 percent. This change was the primary result of the receipt of proceeds from the sale of the old Hinckley elementary building.

Table 3 shows fiscal year 2023 fund balances compared to fiscal year 2022.

Table 3
Fund Balances

	Fund Balance June 30, 2023	Fund Balance June 30, 2022	Increase/ (Decrease)	Percent Change
General	\$ 20,236,714	\$ 19,803,239	\$ 433,475	2.2%
Debt service	8,455,597	8,872,898	(417,301)	(4.7%)
Building	1,365,722	1,829,427	(463,705)	(25.3%)
Other governmental	5,290,708	3,157,845	2,132,863	<u>67.5%</u>
Total	\$ 35,348,741	\$ 33,663,409	\$ 1,685,332	<u>5.0%</u>

#### General Fund

The School District's general fund balance increased \$433,475 during the fiscal year. The following table assists in illustrating the change in revenues of the general fund.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 Unaudited

Table 4
General Fund - Change in Revenue

			Percent
	<u>2023</u>	<u>2022</u>	Change
Taxes	\$ 27,300,074	\$ 24,661,799	10.7%
Intergovernmental	9,108,055	8,351,639	9.1%
Interest	899,027	242,073	271.4%
Increase (decrease) in fair			
value of investments	(308,877)	(902,362)	(65.8%)
Tuition and fees	590,556	523,845	12.7%
Extracurricular activities	425,956	478,539	(11.0%)
Gifts and donations	8,025	12,650	(36.6%)
Rent	11,679	13,927	(16.1%)
Miscellaneous	63,263	 624,281	(89.9%)
Total revenues	\$ 38,097,758	\$ 34,006,391	

General fund revenues increased \$4,091,367 or 12.0 percent. The main reasons for the overall incline were increases in property tax revenues attributable to the aforementioned triennial update from the county and elevated interest income resulting from more favorable interest rates.

The following table assists in illustrating the change in expenditures of the general fund.

Table 5
General Fund - Change in Expenditures by Type

			Percent
<u>Expenditures</u>	<u>2023</u>	<u>2022</u>	Change
Instruction	\$ 23,403,677	\$ 21,902,312	6.9%
Support services	12,661,300	12,632,726	0.2%
Extracurricular activities	1,360,948	1,236,826	10.0%
Operation of non-instructional services	143,685	302,910	(52.6%)
Capital outlay	243,111	23,015	956.3%
Debt service	38,526		n/a
Total	\$ 37,851,247	\$ 36,097,789	

General fund expenditures increased \$1,753,458 or 4.9 percent from the previous year. The overall rise in expenditures over the prior year was primarily attributable to increased compensation and benefit costs associated with contractual obligations and additional staffing coupled with increased expenditures for support services such as mental health, nursing and security.

#### General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During fiscal year 2023, the School District amended its general fund budget; however, not significantly. Budget revisions are presented to the Board of Education for approval.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 Unaudited

For the general fund, the final budget basis revenues and other financing sources estimate was \$39,213,223, which was higher than the original budget estimate of \$35,539,125. The \$3,674,098 difference was most notably the result of the county incorporating the full anticipated two-year impact of the triennial update in the estimates it provided to the District for budgeting purposes. The actual revenues and other sources received were \$37,372,553, which was \$1,833,428 more than originally anticipated.

The original expenditures and other financing uses estimate of \$39,116,437 was revised over the course of the fiscal year. The final budgeted expenditures and other financing uses were \$39,101,437, which was a decrease of \$15,000 or 0.04 percent over the original budget. This was not attributable to any single item. Actual expenditures, including encumbrances and other financing uses, were under budget by \$921,341 or 2.36 percent. This favorable variance was also not attributable to any one specific budget line item or event.

#### **Capital Assets and Debt Administration**

#### Capital Assets

At the end of fiscal year 2023, the School District had \$97,888,216 invested in capital assets. Table 6 shows fiscal year 2023 balances compared to fiscal year 2022:

Table 6
Capital Assets, at Fiscal Year End
(Net of Depreciation/Ammortization)

	Governmental Activities			<u>Activities</u>
		<u>2023</u>		<u>2022</u>
Land	\$	3,768,170	\$	3,972,386
Land improvements		8,003,727		8,543,413
Buildings and building improvements		82,165,353		86,053,394
Furniture, fixtures and equipment		2,780,010		2,674,261
Vehicles		984,233		816,287
Intangible right to use:				
Furniture, fixtures and equipment		186,723		
Total capital assets	\$	97,888,216	\$	102,059,741

The School District reported a net decrease in the total carrying value of capital assets of \$4,171,525 after the recognition of \$3,757,006 in depreciation/amortization expense. See Note 8 to the basic financial statements for detail on the School District's capital assets.

#### Debt

At June 30, 2023, the School District had \$75,271,974 in bonds (including unamortized bond premium and accreted interest on capital appreciation bonds) outstanding with \$3,205,000 due within one year and \$12,906,421 in direct borrowing lease-purchase agreements outstanding with \$936,671 due within one year. Table 7 summarizes the debt outstanding:

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 Unaudited

# Table 7 Outstanding Debt, at Fiscal Year End Governmental Activities

	<u>2023</u>	<u>2022</u>
School improvement bonds	\$ 6,411,393	\$ 6,575,840
School improvement bonds refunding bonds	68,860,581	72,066,908
School facilities lease-purchase agreement	7,490,000	7,980,000
Athletic complex lease-purchase agreement	5,416,421	5,837,153
Lease payable	 191,246	 
Total	\$ 88,369,641	\$ 92,459,901

At June 30, 2023, the School District's overall legal debt margin was \$55,453,183 with an unvoted debt margin of \$1,273,236. The School District is rated Aa2 by Moody's Investors Service. The School District has budgeted to meet all of its debt requirements, which are to be repaid from the debt service fund and the sales tax capital projects fund. See Note 11 to the basic financial statements for details on the School District's debt.

### **Current Issues Affecting Financial Condition**

The Board of Education and administration closely monitor the School District's revenues and expenditures. The five year financial forecast is discussed and updated regularly. The School District will be faced with financial challenges in the future. These challenges stem from issues at the local, state, and federal levels. The local challenges will continue to exist as the School District must rely heavily on property taxes to fund its operations as a result of the state's current funding system. The state funding system limits basic aid for school districts such as Highland who are deemed to be relatively wealthy from both a property value and taxpayer income standpoint. Moreover, unfunded state mandates and the expansion of public school choice options continue to divert potential unrestricted operating resources away from traditional public school districts.

Due to the unsettled issues in school funding, management is required to plan carefully and prudently to provide the resources to meet student needs over the next several years. All of the School District's financial abilities will be required to meet the challenges of the future.

#### **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions or need additional financial information, contact Neil Barnes, CPA, Treasurer, Highland Local School District, 3880 Ridge Road, Medina Ohio, 44256, or email him at nbarnes@highlandschools.org.

# **Reconciliation of Total Governmental Fund Balances to**

# **Net Position of Governmental Activities**

June 30, 2023

Total governmental fund balances			\$ 35,348,741
Amounts reported for governmental activities in the statement of net position are different because:			
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.			97,888,216
Other long-term assets that are not available to pay for current-period expenditures and therefore are unavailable revenue in the funds:			
Property taxes	\$	136,765	
Intergovernmental receivables		1,189,759	
Tuition and fees		117,996	
Extracurricular		27,763	
Rent		10,579	
Miscellaneous		5,823	
Total			1,488,685
The net pension liability and net OPEB liability (asset) are not due and payable in the current period; there	efore,		
the liability, the asset and related deferred inflows/outflows are not reported in the funds:			
Deferred outflows - pension	\$	9,071,802	
Deferred inflows - pension		(3,404,092)	
Net pension liability		(37,842,848)	
Deferred outflows - OPEB		920,039	
Deferred inflows - OPEB		(5,398,449)	
Net OPEB liability		(1,995,436)	
Net OPEB asset		3,534,481	
Total			(35,114,503)
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds,			
an interest expenditure is reported when due.			(215,926)
Long-term liabilities that are not due and payable in the current period and therefore are not reported in the funds:			
General obligation bonds	\$	(68,066,102)	
Premium on bonds		(7,205,872)	
Unamortized amount from refunding		1,709,523	
Lease-purchase agreement		(12,906,421)	
Lease		(191,246)	
Compensated absences		(2,141,582)	
Total			 (88,801,700)
Net position of governmental activities			\$ 10,593,513

See accompanying notes to the basic financial statements.

# Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2023

Net change in fund balances - total governmental funds			\$ 1,685,332
Amounts reported for governmental activities in the statement of activities are different because:			
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense.  In the current period, these amounts are:  Capital asset additions  Depreciation/ammortization expense  Excess of depreciation expense over capital asset additions and capital contributions	\$	1,015,464 (3,757,006)	(2,741,542)
The proceeds from the sale of capital assets are reported as a source of financing in the governmental funds. However, the cost of the capital assets sold is removed from the capital assets account in the statement of net position and offset against the sales proceeds resulting in a loss on the disposal of capital assets in the statement of activities. Thus, more revenue is reported in the governmental funds and more expenses in the statement of activities.			(1,429,983)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. These activities consist of:  Property taxes Intergovernmental Tuition and fees Extracurricular activities Rent Miscellaneous Net change in deferred inflows of resources during the year	\$	43,390 97,198 3,422 26,627 9,931 (16,447)	164,121
Contractually required contributions are reported as expenditures in the governmental funds; however, the statement of activities reports these amounts as deferred outflows.  Pension  OPEB			3,355,910 100,934
Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability and OPEB asset are reported as pension/OPEB expense in the statement of activities.  Pension OPEB			(3,897,264) 779,593
Repayment of debt, lease and lease purchase agreement principal is an expenditure in the governmental fur repayment reduces long-term liabilities in the statement of net position.	ıds, bı	ut the	3,894,160
The issuance of leases results in other financing sources in the governmental funds, but these transactions are reflected in the statement of net position as long-term liabilities.			(219,674)
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:  Decrease in compensated absences Increase in deferred amount from refunding Decrease in accrued interest payable Total additional expenditures	\$	48,129 (37,860) 12,570	22,839
The amortization of issuance costs, bond premium and accretion is reflected as an expense in the statement of activities.  Premium  Bond accretion  Total additional expenses	\$	652,266 (236,492)	415,774
Change in position of governmental activities			\$ 2,130,200

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

# NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND DESCRIPTION OF REPORTING ENTITY

#### A. Description of the School District

The Highland Local School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The Highland Local School District was established in 1952 through the consolidation of the former Granger-Sharon and Hinckley Local School Districts. The School District operates under a locally elected five-member Board form of government and provides educational services as mandated by state and/or federal agencies. The Board controls the School District's seven instructional/support facilities staffed by 156 classified employees including 6 administrators, 216 certificated teaching and support personnel including 12 administrators, that provide services to 3,436 students and other community members.

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting entity for establishing governmental accounting and financial reporting principles. Following are the more significant of the School District's accounting policies.

#### B. Reporting Entity

The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. This includes general operations, food service, preschool and student-related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organizations' resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization.

Component units may also include organizations that are fiscally dependent on the School District in that the School District approves their budget, the issuance of their debt or the levying of their taxes. Based on the above criteria, the School District had no component units at June 30, 2023.

The School District is associated with Connect (formerly known as North Coast Council (NCC)) and the Ohio Schools Council, which are defined as jointly governed organizations. Jointly governed organizations are governed by representatives from each of the governments that create the organization. Information regarding Connect and the Ohio Schools Council is presented in Note 12.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

# C. Basis of Presentation - Fund Accounting

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

#### Government-wide Financial Statements

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activities of internal activity of governmental funds are eliminated to avoid "doubling-up" revenues and expenses of governmental activities. However, the services provided and used are not eliminated in the process of consolidation.

The statement of net position presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

#### Fund Financial Statements

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

# D. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into two categories: governmental and fiduciary.

#### Governmental Fund Types

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The School District has three major governmental funds:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

<u>General Fund:</u> The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Debt Service Fund:</u> The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

<u>Building Fund:</u> The building capital projects fund is used to account for all receipts and expenditures related to the construction and renovation of new school buildings.

# Fiduciary Fund Types

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four categories: pension trust funds, investment trust funds, private-purpose trust funds, and custodial funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs.

#### E. Measurement Focus and Basis of Accounting

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All non-fiduciary assets, liabilities, deferred outflows of resources and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (i.e. revenues) and decreases (i.e. expenses) in total net position.

<u>Fund Financial Statements</u> All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. The private purpose trust fund and custodial funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

#### Revenue - Exchange and Nonexchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, shared revenue, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which taxes are levied. Shared revenue and revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, investment earnings, tuition, grants and entitlements, and student fees.

#### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for pension and other postemployment benefits (OPEB). The deferred outflows of resources related to pension and OPEB are explained in Note 10.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of resources include property taxes, pension, OPEB, deferred amount from refunding, and unavailable revenues. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2023, but which were levied to finance the fiscal year 2024 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes, intergovernmental grants, tuition and fees, and County levied sales tax. These amounts are deferred and recognized as inflows of resources in the period the amounts become available. Deferred inflows of resources related to pension and OPEB are reported on the government-wide statement of net position (See Note 10).

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the bonds outstanding method and is presented as a deferred inflows of resources and as a deferred outflows of resources on the statement of net position.

#### Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the fund financial statements as intergovernmental revenue and an expenditure of food service operations. In addition, this amount is reported on the statement of activities as an expense with a like amount reported within the "Operating Grants, Contributions and Interest" program revenue account. Unused donated commodities are reported in the account "Inventory held for resale" within the basic financial statements.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

#### F. Budgets and Budgetary Accounting

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the Tax Budget, the Certificate of Estimated Resources, and the Appropriation Resolution, all of which are prepared on the budgetary basis of accounting. The primary level of budgetary control is at the fund level for all funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The Certificate of Estimated Resources and the Appropriation Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than custodial funds, are legally required to be budgeted and appropriated. The amounts reported as original budgeted revenues in the budgetary statement reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as final budgeted revenues in the budgetary statement reflect the amounts in the final amended certificate issued during fiscal year 2023. The amounts reported as original budgeted expenditures reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as final budgeted expenditures represent the final appropriation amounts passed by the Board during the year.

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

#### G. Cash and Investments

To improve cash management, all cash received by the School District is pooled in a central bank account. Monies for all funds are maintained in this account or used to purchase investments. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "Equity in pooled cash and investments".

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

Some of the School District's monies for the building capital projects fund are held separate from the School District's central bank account and are presented on the statement of net position as "Cash and cash equivalents in segregated accounts" and "Investments in segregated accounts".

During the fiscal year, investments were limited to certificates of deposit, instruments of government sponsored mortgage-backed securities, money market mutual fund, commercial paper, U.S. treasury notes and an interest in STAR Ohio, the State Treasurer's Investment Pool. These investments are stated at cost, which approximates market value (fair value).

The School District's investment in the State Treasury Asset Reserve of Ohio (STAR Ohio) is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company and is recognized as an external investment pool by the School District. The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For the fiscal year 2023, there were no limitation or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice is appreciated 24 hours in advance of all deposits and withdrawals exceeding \$100 million. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Under existing Ohio statutes, all investment earnings accrue to the general fund except those specifically related to certain trust funds, unless the Board specifically allows the interest to be recorded in other funds. The Board of Education has passed a resolution to allow interest to also be recorded in other funds as indicated in Note 4.

For presentation on the basic financial statements, investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

#### H. Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". Interfund balances, are eliminated in the statement of net position.

#### I. Inventory

On the governmental-wide financial statements, inventories are presented at cost on a first-in, first-out basis and are expensed when used.

Inventories of the general fund primarily include maintenance and custodial supplies, paper supplies, transportation supplies, and fuel. Inventories of the food service special revenue fund consist of donated food, purchased food and supplies held for resale.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

#### J. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are imposed by creditors, contributors, grantors, laws of other governments, or enabling legislation. Restricted assets may include unexpended revenues required to be set aside by the School District for the acquisition or construction of capital improvements.

Restricted assets may also include amounts set aside as a reserve for budget stabilization, which is now optional as determined by the School District. The School District expended all restricted assets in accordance with specific restrictions during the fiscal year. See Note 14 for additional information.

#### K. Pension and other postemployment benefits (OPEB)

For purposes of measuring the net pension/OPEB liability or asset, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

The current accounting standard requires school districts to report their proportionate share of the net pension/OPEB liability or asset using the earning approach to pension and OPEB accounting instead of the funding approach as previously used. The funding approach limited pension and postemployment costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension/OPEB liability or asset. Under the new standards, the net pension/OPEB liability or asset equals the School District's proportionate share of each plan's collective present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service minus plan assets available to pay these benefits.

Pension and OPEB obligations, whether funded or unfunded, are part of the employment exchange. The employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. The unfunded portion of this benefit of exchange is a liability of the School District. However, the School District is not responsible for key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Benefit provisions and both employer and employee contribution rates are determined by State statute. The employee and employer enter the employment exchange with the knowledge that the exchange is limited by law. The pension system is responsible for the administration of the pension and OPEB plans.

There is no repayment schedule for the net pension liability or the net OPEB liability. The School District has no control over the changes in the benefits, contribution rates, and return on investments affecting the balance of the liabilities or assets. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not identify the responsible party for the unfunded portion. Due to the unique nature of how the pension liability and the OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

#### L. Capital Assets

General capital assets are those assets resulting from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. The School District's policy is not to capitalize interest costs incurred as part of construction.

All reported capital assets, other than land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<b>Estimated Lives</b>
Land improvements	10 - 50 years
Buildings and building improvements	20 - 50 years
Furniture, fixtures and equipment	3 - 20 years
Vehicles	8 - 20 years
Intangible right to use:	
Furniture, fixtures and equipment	5 years

#### M. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments. The entire compensated absences liability is reported on the government-wide financial statements.

For the governmental fund financial statements, compensated absences (including employee separation incentives) are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

#### N. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, claims and judgments, compensated absences, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

#### O. Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments. Net position restricted for other purposes primarily include amounts generated by individual school buildings to supplement co-curricular and extra-curricular programs, and for operating or capital costs for any new and innovative programs designed to enhance or promote education with the School District.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

#### P. Interfund Transactions

Interfund transactions are reported as other financing sources/uses for governmental funds in the fund financial statements. All transfers between governmental funds have been eliminated within the governmental activities column of the statement of activities.

#### O. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### R. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

**Nonspendable** The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

**Restricted** Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. The purpose constraint that represents the intended use is established by the Board of Education or by their designated official. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the School District or by State statute. The Treasurer is authorized to assign fund balance using encumbrances for planned purchases, provided such amounts have been lawfully appropriated. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget.

**Unassigned** Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

#### **NOTE 2 – FUND BALANCES**

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are as follows:

Fund Balances	General	Debt Service	Building	Other Governmental Funds	Total Governmental Funds
	General	Scrvice	Dunding	Tulius	Tunus
Nonspendable Materials and					
	\$ 106,982	\$ -	\$ -	\$ -	\$ 106,982
supplies inventory Long-term advances	97,500	Ф -	Ф -	<b>5</b> -	97,500
Permanent fund principal	97,300	-	-	40,500	40,500
		<u>-</u>			
Total nonspendable	204,482			40,500	244,982
Restricted for					
Food service	-	-	-	1,332,199	1,332,199
Various student activities	-	-	-	317,584	317,584

Various ordinary operating costs	468,336	-	-	-	468,336
Next fiscal year budget	1,781,053	<u> </u>	<u>-</u> _	<u>-</u>	1,781,053
Total assigned	2,661,320				2,661,320
Unassigned	17,359,912			(140,492)	17,219,420
Total fund balances	\$ 20,236,714	\$ 8,455,597	\$ 1,365,722	\$ 5,290,708	\$ 35,348,741

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

#### **NOTE 3 - BUDGETARY BASIS OF ACCOUNTING**

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law and described above is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual presentation for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).
- 4. Encumbrances are treated as expenditures (budget basis) rather than assigned fund balance (GAAP basis).
- 5. The revenues, expenditures and other financing sources and uses of the general fund include activity that is budgeted within special revenue funds (GAAP basis). However, on the budgetary basis, the activity of the special revenue funds is excluded resulting in perspective differences.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statement to the budgetary basis statement for the general fund.

#### Net Change in Fund Balance

	<u>General</u>
GAAP basis	\$ 433,475
Net adjustment for revenue accruals	(821,892)
Advances in	291,469
Net adjustment for expenditure accruals	220,706
Advances out	(11,174)
Encumbrances (Budget basis) outstanding at year-end	(768,654)
Perspective differences from funds budgeted	
as special revenue funds:	
Revenues	(431,746)
Expenditures	 280,273
Budget basis	\$ (807,543)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

#### **NOTE 4 - DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing within five years from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be invested in the following obligations provided they mature or are redeemable within five years from the date of settlement, unless the investment is matched to a specific obligation or debt of the School District and the investment is not a commercial paper note, a banker's acceptance or a repurchase agreement:

- 1. United States Treasury bills, notes, bonds, or any other obligations or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements for a period not to exceed thirty days in securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in item (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Commercial paper notes, limited to 40% (5% for a single issuer) in total of the interim monies available for investment at any one time and for a period not to exceed two hundred seventy days; and

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

8. Bankers acceptances, limited to 40% of the interim monies available for investment at any one time and for a period not to exceed one hundred eighty days.

According to state law, public depositories must provide security for the repayment of all public deposits. These institutions shall give security for all public funds on deposit in excess of those funds that are insured by the Federal Deposit Insurance Corporation (FDIC). The security for these deposits will be made under an agreement using a surety bond and/or by means of pledging allowable securities as collateral to be held by a qualified trustee. The pledged collateral can be held for each public depositor or in a pool for multiple public depositors and must have a fair value of at least 105% of the total value of public monies on deposit at the institution. If the institution participates in the Ohio Pooled Collateral System (OPCS), the total fair value of the securities pledged can be 102% or lower if permitted by the Treasurer of State. The School District's financial institution participates in the OPCS and was approved for a reduced collateral floor of 50 %.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

### A. Deposits

<u>Custodial credit risk</u> is the risk that, in the event of a bank failure, the School District's deposits may not be returned. As of June 30, the School District's bank balance of \$10,944,784 was not exposed to custodial credit risk because those deposits were insured or collateralized.

#### B. Investments

As of June 30, 2023, the School District had the following investments and maturities:

			In	vestment Maturi	ties
				(in years)	
Investment	Fair	Percentage of			
<u>Type</u>	<u>Value</u>	<u>Investments</u>	< 1 year	<u>2 - 4 years</u>	> 4 years
Government Sponsored Enterprise Bonds:					
Federal Home Loan Mortgage Corporation	\$ 1,099,509	4.21%	\$ 218,002	\$ 881,507	\$ -
Federal Home Loan Bank	7,780,850	29.83%	1,472,161	5,662,732	645,957
Federal Farm Credit Bank	2,036,962	7.81%	-	1,042,489	994,473
Federal National Mortgage Association	238,527	0.91%	-	238,527	-
U.S. Treasury notes	10,555,854	40.46%	3,181,205	6,160,816	1,213,833
Negotiable certificates of deposit	1,916,708	7.35%	490,264	1,192,501	233,943
Commercial paper	2,414,883	9.26%	2,414,883	-	-
First American government obligation	42,100	0.16%	42,100	-	-
STAR Ohio	1,431	<u>0.01</u> %	1,431		
Total investments	\$26,086,824	100.00%	\$ 7,820,046	\$ 15,178,572	\$ 3,088,206

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The preceding table identifies the School District's recurring fair value measurement as of June 30, 2023. As previously discussed, Star Ohio is reported at its net asset value. Other investments of the School District are valued using Level 2 inputs using valuation techniques that incorporate market data for similar investments, broker quotes and inactive transactions prices.

Custodial credit risk for an investment is the risk that in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The investments in Federal Home Loan Mortgage Corporation (FHLMC), Federal Home Loan Bank (FHLB), Federal Farm Credit Bank (FFCB), Federal National Mortgage Association (FNMA), US Treasury securities and commercial paper are held by the counterparty's trust department or agent and not in the School District's name. All of the School District's negotiable certificates of deposit are registered securities and covered in full by FDIC insurance. The School District's policy is to invest money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

<u>Interest rate risk</u> is the possibility that changes in interest rates will adversely affect the fair value of an investment. The School District's investment policy does not address limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

<u>Credit risk</u> is the possibility that an issuer or other counterparty to an investment will not fulfill its obligation. Standard and Poor's has assigned STAR Ohio and the First American Government Obligation an AAAm rating, the FHLMC, FHLB, FFCB and FNMA bonds an AA+ rating, the U.S. Treasury notes have a A-1+ rating. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard service rating. The School District's investment policy requires certain credit ratings for some investments as allowed by state law.

Concentration of credit risk is the possibility of loss attributed to the magnitude of the School District's investment in a single issuer. More than 5 percent of the School District's investments are in Federal Home Loan Bank bonds. These investments are presented in the table on the previous page. The investment in STAR Ohio is a pooled investment and not of a single issuer. The investments in negotiable CD's and commercial paper are all individually below 5 percent for each issuer. The School District's policy does not specify stricter limits than allowed by law.

All interest is legally required to be placed in the general fund, the food service and auxiliary services special revenue funds, the building capital projects fund and the Scholarships private purpose trust fund. Interest revenue and the change in fair value of investments credited to the general fund during fiscal year 2023 amounted to \$590,150, which includes \$192,954 assigned from other School District funds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

#### **NOTE 5 - PROPERTY TAX**

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used for public utilities) located in the School District. Real property tax revenue received in calendar year 2023 represents collections of calendar year 2022 taxes. Real property taxes received in calendar year 2023 were levied after April 1, 2022, on the assessed value listed as of January 1, 2022, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2023 represents collections of calendar year 2022 taxes. Public utility real and tangible personal property taxes received in calendar year 2023 became a lien December 31, 2021, were levied after April 1, 2022 and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Medina and Summit Counties. The Medina County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the counties by year-end are available to finance the current fiscal year operations. The amount available to be advanced can vary based on the date the tax bills are sent and on the collection of delinquent taxes. The Board has passed a resolution to accept advances of property taxes and make them available for appropriation.

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2023 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources – property taxes.

The amount available as an advance at year-end was \$2,585,655 in the general fund and \$532,690 in the debt service fund, and is recognized as revenue on the fund financial statements.

On the accrual basis, collectible delinquent property taxes have been recorded as revenue on the statement of activities.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

The assessed values totaling \$1,273,235,740 upon which the current fiscal year taxes were collected are:

2022	Medina	Summit	
Property Category	<u>County</u>	<u>County</u>	<u>Total</u>
Real Property			
Residential and agricultural	\$ 1,155,878,500	\$ 9,038,610	\$ 1,164,917,110
Commercial, industrial			
and minerals	85,980,750	-	85,980,750
Tangible Personal Property			
Public utilities	 22,111,640	226,240	22,337,880
Total	\$ 1,263,970,890	\$ 9,264,850	\$ 1,273,235,740

#### NOTE 6 – SHARED SALES TAX REVENUE

During 2007, the voters of Medina County passed an additional one-half percent sales tax to be used for capital improvements at all school districts within the County. Collection began in October 2007 for a period of 30 years. Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies to the State Auditor the amount of the tax to be returned to the County. The County then allocates this tax to the school districts within the County based on the number of students enrolled.

#### **NOTE 7 - RECEIVABLES**

Receivables at year-end consisted of taxes, accounts, accrued interest, interfund, and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs, and the current year guarantee of federal funds. The general fund and nonmajor governmental funds reported intergovernmental receivables as follows:

Governmental Activities	<u>Amounts</u>
General:	
Medicaid reimbursements	\$ 51,608
Miscellaneous reimbursements	 260,726
Total general	 312,334
Other governmental funda	
Other governmental funds:	
Sales tax	1,565,390
Grants	 183,943
Total other governmental funds	 1,749,333
Total	\$ 2,061,667

Highland Local School District
Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

# **NOTE 8 - CAPITAL ASSETS**

Capital asset activity for the fiscal year ended June 30, 2023, was as follows:

	Balance July 1, 2022	Additions	Deletions	Balance June 30, 2023
<b>Governmental Activities</b>	1, 1, 1

Capital assets, net	\$ 102,059,741	\$ (2,741,542)	\$ (1,429,983)	\$ 97,888,216

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

During fiscal year 2023, some assets previously reported in furniture, fixtures and equipment have been reclassified as land improvements.

Depreciation/amortization expense was charged to governmental functions as follows:

Instruction:	
Regular	\$ 1,089,876
Special	49,399
Vocational	3,313
Support services:	
Pupils	53,035
Instructional staff	53,583
Administration	46,666
Fiscal	3,197
Operation and maintenance of plant	1,230,980
Pupil transportation	196,325
Central	1,657
Food service operations	155,511
Extracurricular activities	 873,464
Total depreciation/amortization expense	\$ 3,757,006

#### **NOTE 9 - RISK MANAGEMENT**

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. There have been no settlements paid in excess of insurance nor has insurance coverage been significantly reduced in the past three years.

The School District has contracted with the Stark County Schools Council of Governments (COG) to provide medical/surgical, dental, vision, life insurance and accidental death and dismemberment insurance for its employees and their covered dependents. The COG is a shared risk pool comprised of more than one hundred member school districts, educational service centers, libraries, colleges and related agencies. The employer participants pay monthly contributions that are placed in a common fund from which eligible claims and expenses are paid for employees and their covered dependents. This plan includes both individual and aggregate stop-loss provisions. Premium contributions are determined annually in a manner that ensures the pool is funded up to the aggregate stop loss attachment point. Premium holidays may be declared by the COG to ensure reserves do not exceed thirty percent of annual expenditures.

The School District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries and wages. This rate is calculated based on accident history and administrative costs.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

#### NOTE 10 - DEFINED BENEFIT PENSION AND OPEB PLANS

#### Net Pension Liability/Net OPEB Liability (Asset)

Pensions and OPEB are a component of exchange transactions between an employer and its employees of salaries and benefits for employee services. Pensions/OPEB are provided to an employee on a deferred-payment basis as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represent the District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

#### A. DEFINED BENEFIT PENSION PLANS

#### **School Employee Retirement System (SERS)**

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at <a href="https://www.ohsers.org">www.ohsers.org</a> under Employers/Audit Resources.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

Age and service requirements for retirement are as follows:

Eligible to	Eligible to
Retire on or before	Retire after
August 1, 2017 *	August 1, 2017

Full benefits Age 65 with 5 years of service credit or

Any age with 30 years of service credit

Age 67 with 10 years of service credit; or

Any age with 50 years of service credit

Age 57 with 30 years of service credit

Actuarially reduced benefits

Age 60 with 5 years of service credit; or Age 55 with 25 years of service credit

Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost-of-living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension was in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent. In 2022, the Board of Trustees approved a 2.5 percent cost-of-living adjustment (COLA) for eligible retirees and beneficiaries in 2023.

Funding Policy - Plan members are required to contribute 10.00 percent of their annual covered salary and the District is required to contribute 14.00 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10.00 percent for plan members and 14.00 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2023, the allocation to pension, death benefits, and Medicare B was 14.00 percent. For fiscal year 2023, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The School District's contractually required contribution to SERS was \$751,118 for fiscal year 2023. Of this amount \$72,498 is reported as an intergovernmental payable.

#### **State Teachers Retirement System (STRS)**

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <a href="https://www.strsoh.org">www.strsoh.org</a>.

<sup>\*</sup> Members with 25 years of service credit as of August 1, 2017 will be included in this plan.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.20 percent of final average salary for the five highest years of earnings multiplied by all years of service. Eligibility changes will be phased in until August 1, 2023, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023 when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit regardless of age.

The DC Plan allows members to place all of their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS Ohio. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 and after termination of employment.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service, who is determined to be disabled, may qualify for a disability benefit. New members, on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2023 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For fiscal year 2023, the full employer contribution was allocated to pension

The School District's contractually required contribution to STRS was \$2,604,792 for fiscal year 2023. Of this amount \$448,661 is reported as an intergovernmental payable.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the net pension			
liability - prior measurement date	0.1438559%	0.1360620%	
Proportion of the net pension			
liability - current measurement date	0.1386334%	0.1365016%	
Change in proportionate share	- <u>0.0052225</u> %	0.0004396%	
Proportionate share of the net			
pension liability	\$7,498,373	\$30,344,475	\$37,842,848
Pension expense	\$289,152	\$3,608,112	\$3,897,264

At June 30, 2023, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		<u>SERS</u>		<b>STRS</b>		<u>Total</u>
Deferred outflows of resources						
Differences between expected and						
actual experience	\$	303,690	\$	388,448	\$	692,138

Total deferred inflows of resources	\$	554,673	\$	2,849,419	\$	3,404,092

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

\$3,355,910 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Fiscal				
Year	<b>SERS</b>		<b>STRS</b>	<u>Total</u>
2024	\$ (117,136)	\$	189,556	\$ 72,420
2025	(120,908)		(20,285)	(141,193)
2026	(373,785)		(757,898)	(1,131,683)
2027	 434,834	_	3,077,422	 3,512,256
Total	\$ (176,995)	\$	2,488,795	\$ 2,311,800

#### **Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2137.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2022, are presented below:

Wage inflation:

Current measurement date 2.4 percent Prior measurement date 2.4 percent 2.4 percent

Future salary increases, including inflation:

Current measurement date 3.25 percent to 13.58 percent Prior measurement date 3.25 percent to 13.58 percent

COLA or Ad Hoc COLA:

Current measurement date 2.0 percent Prior measurement date 2.0 percent 2.0 percent

Investment rate of return:

Current measurement date 7.0 percent net of system expense Prior measurement date 7.0 percent net of system expense

Discount rate:

Current measurement date 7.0 percent
Prior measurement date 7.0 percent
Actuarial cost method Entry age normal

In 2022, mortality rates were based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

In the prior measurement date, mortality rates were based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

The most recent experience study was completed for the five-year period ended June 30, 2020.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

	Target	Long Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	2.00 %	(0.45) %
US equity	24.75	5.37
International equity developed	13.50	6.22
International equity emerging	6.75	8.22
Fixed income/Global bonds	19.00	1.20
Private equity	11.00	10.05
Real estate/Real assets	16.00	4.87
Multi-asset strategies	4.00	3.39
Private debt/Private credit	3.00	5.38
Total	100.00 %	

**Discount Rate** The total pension liability was calculated using the discount rate of 7.0 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.00 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.00 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent), or one percentage point higher (8.00 percent) than the current rate.

	Current		
	1% Decrease discount rate 1% Inc		
	<u>(6.00%)</u>	<u>(7.00%)</u>	(8.00%)
School District's proportionate			
share of the net pension liability	\$ 11,037,247	\$7,498,373	\$4,516,919

# **Actuarial Assumptions - STRS**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2022 actuarial valuation, compared with June 30, 2021 actuarial valuation, are presented below:

	June 30, 2022	June 30, 2021
Inflation	2.5 percent	2.5 percent
Projected salary increases	Varies be service from 2.5 percent	12.5 percent at age 20
	to 8.5 percent	to 2.5 percent at age 65
Investment rate of return	7.0 percent, net of investment expenses,	7.0 percent, net of investment expenses,
	including inflation	including inflation
Discount rate of return	7.0 percent	7.0 percent
Payroll increases	3.0 percent	3.0 percent
Cost-of-Living Adjustment (COLA)	0.0 percent	0.0 percent

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

For the June 30, 2022 actuarial valuation, post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

For the prior measurement date, post-retirement mortality rates are based on the RP-2014 Annuitant Mortality Tables with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Tables, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Tables with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2022 valuation are based on the results of an actuarial experience for the period July 1, 2015 through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset	Target	Long term expected
<u>class</u>	allocation *	real rate of return**
Domestic equity	26.00 %	6.60 %
International equity	22.00	6.80
Alternatives	19.00	7.38
Fixed income	22.00	1.75
Real estate	10.00	5.75
Liquidity reserves	1.00	1.00
Total	100.00 %	

<sup>\*</sup> Target allocation percentage is effective as of July 1, 2022. Target weights were phased in over a 3-month period concluding on October 1, 2022.

<sup>\*\*</sup>Over a 30 year period, STRS's investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

**Discount Rate** The discount rate used to measure the total pension liability was 7.00 percent as of June 30, 2022. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2022. Therefore, the long-term expected rate of return on pension plan investments of 7.00 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2022.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00 percent) or one-percentage-point higher (8.00 percent) than the current rate:

	Current		
	1% Decrease discount rate 1% Inc.		
	<u>(6.00%)</u>	<u>(7.00%)</u>	(8.00%)
School District's proportionate			
share of the net pension liability	\$ 45,839,455	\$30,344,475	\$17,240,520

**Changes Between Measurement Date and Reporting Date** - STRS approved a one-time 1.00 percent cost-of-living adjustment to eligible benefit recipients effective July 1, 2023. It is unknow what effect this change will have on the net pension liability.

### **Social Security System**

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. The Board's liability is 6.2% of wages paid for those that choose Social Security.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

# B. DEFINED BENEFIT OPEB PLANS

# **School Employee Retirement System**

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2023, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2023, this amount was \$25,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2023, the School District's surcharge obligation was \$100,934.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contractually required contribution to SERS was \$100,934 for fiscal year 2023. Of this amount \$100,934 is reported as an intergovernmental payable.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

# **State Teachers Retirement System**

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2020. The Plan is included in the report of STRS which can be obtained by visiting <a href="https://www.strsoh.org">www.strsoh.org</a> or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2023, STRS did not allocate any employer contributions to post-employment health care.

# OPEB Liability or Asset, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability or asset was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability or asset was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability or asset was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities.

Following is information related to the proportionate share and OPEB expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the net OPEB liability			
(asset) - prior measurement date	0.1483934%	0.1360620%	
Proportion of the net OPEB liability			
(asset) - current measurement date	0.1421240%	<u>0.1365016</u> %	
Change in proportionate share	- <u>0.0062694</u> %	0.0004396%	
Proportionate share of the net			
OPEB liability (asset)	\$1,995,436	(\$3,534,481)	(\$1,539,045)
OPEB expense	(\$172,070)	(\$607,523)	(\$779,593)

At June 30, 2023, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

	<b>SERS</b>	<b>STRS</b>	<u>Total</u>
Deferred outflows of resources			
Differences between expected and			
actual experience	\$ 16,775	\$ 51,237	\$ 68,012
Changes of assumptions	317,400	150,557	467,957
Net difference between projected and			
actual earnings on pension plan investments	10,371	61,527	71,898
Changes in proportionate share and difference			
between School District contributions			
and proportionate share of contributions	159,597	51,641	211,238
School District contributions subsequent to the			
measurement date	100,934	<del>_</del>	100,934
Total deferred outflows of resources	\$ 605,077	\$ 314,962	\$ 920,039
Total deferred outflows of resources	ψ 003,077	\$ 314,702	\$ 720,037
Deferred inflows of resources			
Differences between expected and			
actual experience	\$ 1,276,427	\$ 530,811	\$ 1,807,238
Changes of assumptions	819,141	2,506,287	3,325,428
Changes in proportionate share and difference			
between School District contributions and			
proportionate share of contributions	265,438	345	265,783
Total deferred inflows of resources	\$ 2,361,006	\$ 3,037,443	\$ 5,398,449

\$100,934 reported as deferred outflows of resources related to OPEB resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability or an adjustment to the net OPEB asset in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal			
Year	<b>SERS</b>	<b>STRS</b>	<u>Total</u>
2024	\$ (406,322)	\$ (781,249)	\$ (1,187,571)
2025	(394,758)	(780,198)	(1,174,956)

Total	\$ (1,856,863)	\$ (2,722,481)	\$ (4,579,344)

# **Actuarial Assumptions - SERS**

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2022, are presented below:

Wage inflation:

Current measurement date 2.40 percent
Prior measurement date 2.40 percent

Future salary increases, including inflation:

Current measurement date 3.25 percent to 13.58 percent Prior measurement date 3.25 percent to 13.58 percent to 13.58 percent

Investment rate of return:

Current measurement date 7.00 percent net of system

expense, including inflation 7.00 percent net of system

Prior measurement date 7.00 percent net of system expense, including inflation

Municipal Bond Index Rate:

Current measurement date 3.69 percent
Prior Measurement Date 1.92 percent

Single Equivalent Interest Rate, net of plan investment expense,

including price inflation:

Current measurement date 4.08 percent Prior Measurement Date 2.27 percent

Medical Trend Assumption:

Current measurement date 7.00 to 4.40 percent

Prior measurement date

Medicare5.125 to 4.40 percentPre-Medicare6.75 to 4.40 percent

In 2022, mortality rates were based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

In the prior measurement date, mortality rates were based on the PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

The most recent experience study was completed for the five-year period ended June 30, 2020.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial 5-year experience study. The most recent study covers fiscal years 2016 through 2020, and was adopted by the Board in 2021. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a long-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a e inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The SERS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 10 A.

**Discount Rate** - The discount rate used to measure the total OPEB liability at June 30, 2022, was 4.08 percent. The discount rate used to measure total OPEB liability prior to June 30, 2022, was 2.27 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 1.50 percent of projected covered payroll each year, which includes a 1.50 percent payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make all projected future benefit payments of current System members by SERS actuaries. The Municipal Bond Index Rate is used in the determination of the SEIR for both the June 30, 2022 and the June 30, 2021 total OPEB liability. The Municipal Bond Index rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present counting those benefits after the date of depletion. The Municipal Bond Index Rate is 3.69 percent at June 30, 2022 and 1.92 percent at June 30, 2021.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates - The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability, what the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.08 percent) and higher (5.08 percent) than the current discount rate (4.08 percent). Also shown is what the net OPEB liability would be based on health care cost trend rates that point lower (6.00 percent decreasing to 3.40 percent) and higher (8.00 percent decreasing to 5.40 percent) than the current rate (7.00 percent decreasing to 4.40 percent).

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

			Current	
	1	% Decrease	discount rate	1% Increase
School District's proportionate share of the net OPEB liability	\$	2,478,361	\$1,995,436	\$1,605,584
	<u>1</u> '	% Decrease	Current trend rate	1% Increase
School District's proportionate share of the net OPEB liability	\$	1,538,826	\$1,995,436	\$2,591,825

# **Actuarial Assumptions – STRS**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2022 actuarial valuation, compared with June 30, 2021 actuarial valuation, are presented below:

	June 30, 2022	June 30, 2021
Inflation	2.50 percent	2.50 percent
Projected salary increases	Varies be service from 2.50 percent	12.50 percent at age 20
	to 8.50 percent	to 2.50 percent at age 65
Investment rate of return	7.00 percent, net of investment expenses,	7.00 percent, net of investment expenses,
	including inflation	including inflation
Discount rate of return	7.00 percent	7.00 percent
Payroll increases	3.00 percent	3.00 percent
Cost-of-Living Adjustment (COLA)	0.00 percent	0.00 percent
Blended discount rate of return	n/a	n/a
Health care cost trends		

	<u>Initial</u>	<u>Ultimate</u>	<u>Initial</u>	Ultimate
M edical				
Pre-M edicare	7.50 percent	3.94 percent	7.50 percent	4.00 percent
Medicare	-68.78 percent	3.94 percent	-16.18 percent	4.00 percent
Prescription Drug				
Pre-M edicare	9.00 percent	3.94 percent	6.50 percent	4.00 percent
Medicare	-5.47 percent	3.94 percent	29.98 percent	4.00 percent

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For the June 30, 2022 actuarial valuation, for healthy retirees the post-retirement mortality rates are based on the Pub- 2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

For the prior measurement date, for healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Tables with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Tables with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2022 valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

**Assumption Changes Since the Prior Measurement Date** - The discount rate remained unchanged at 7.00 percent for the June 30, 2022 valuation.

Benefit Term Changes Since the Prior Measurement Date - Salary increase rates were updated based on the actuarial experience study for the period July 1, 2015 through June 30, 2021 and were changed from age based to service based.

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 10 A.

**Discount Rate** - The discount rate used to measure the total OPEB liability was 7.00 percent as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed STRS Ohio continues to allocate no employer contributions to the health care fund. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2022. Therefore, the long-term expected rate of return on health care fund investments of 7.00 percent was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2022.

Sensitivity of the District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2021, calculated using the current period discount rate assumption of 7.00 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

		Current	
	1% Decrease	discount rate	1% Increase
School District's proportionate share of the net OPEB asset	\$ (3,267,534)	(\$3,534,481)	(\$3,763,143)
	1% Decrease	Current trend rate	1% Increase
School District's proportionate share of the net OPEB asset	\$ (3,666,116)	(\$3,534,481)	(\$3,368,323)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

# NOTE 11 - BONDED DEBT AND OTHER LONG-TERM OBLIGATIONS

The changes in long-term obligations of the School District during the fiscal year were as follows:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

# **General Obligation Bonds:**

On March 8, 2016, the School District issued \$19,205,000 in General Obligation Bonds with interest rates ranging from 2% to 5% to current refund \$22,325,000 of outstanding School Improvement Bonds with an average interest rate of 4.25%. The bond proceeds consisted of bond principal and \$3,817,887 of premium. The net proceeds of \$18,994,692 (after payment of \$210,308 in underwriting fees, insurance, and other issuance costs) was deposited into an irrevocable trust with an escrow agent to provide for future debt service payments of the portion of School Improvement Bonds refunded. As a result of this issue, a portion of the School Improvement Facilities Bonds are considered to be redeemed and the liability has been removed. As of June 1, 2016, all of the old bonds have been called and redeemed. The new bonds are serial bonds. The School District current refunded the School Improvement Bonds to reduce their total debt service payments over the next 11 years and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$3,609,699.

In April 2018, the School District issued \$57,100,000 in School Improvement Bonds with interest rates ranging from 3% to 5.25%. The School Improvement bonds are direct obligations of the School District for which its full faith and credit are pledged for repayment. The bonds were issued for providing resources for constructing, furnishing, and equipping new elementary schools, renovating, remodeling, reconstructing, adding to, furnishing, equipping, and otherwise improving school facilities and their sites, including the middle school. The bonds and interest are to be repaid by the debt service fund from the proceeds of property taxes collected from a levy that was approved by the taxpayers.

In May 2018, the School District issued \$5,900,000 in School Improvement Bonds with interest rates ranging from 2% to 4.25%. The School Improvement bonds are direct obligations of the School District for which its full faith and credit are pledged for repayment. The bonds were issued for providing resources for constructing, furnishing, and equipping new elementary schools, renovating, remodeling, reconstructing, adding to, furnishing, equipping, and otherwise improving school facilities and their sites, including the middle school. The bonds and interest are to be repaid by the debt service fund from the proceeds of property taxes collected from a levy that was approved by the taxpayers.

On March 3, 2020, the School District issued \$53,945,000 in General Obligation Bonds with interest rates ranging from 3% to 5.25% to refund \$53,945,000 of outstanding School Improvement Bonds with an average interest rate of 5.125%. The bond proceeds consisted of bond principal and \$7,698,073 of premium. The net proceeds of \$61,128,743 (after payment of \$514,330 in underwriting fees, insurance, and other issuance costs) was deposited into an irrevocable trust with an escrow agent to provide for future debt service payments of the portion of School Improvement Bonds refunded. As a result of this issue, a portion of the School Improvement Bonds are considered to be redeemed and the liability has been removed. The old bonds have a call date of June 1, 2023. The new bonds include serial and capital appreciation bonds. The School District refunded the School Improvement Bonds to reduce their total debt service payments over the next 35 years and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$12,267,201.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

<u>Direct borrowings</u>: During February 2021, the School District entered into a lease-purchase agreement to finance \$8,500,000. The proceeds from the transaction are being used to finance various improvements of school facilities including the construction, furnishing and equipping of Sharon Elementary School facilities. The repayment terms are using an interest rate of 2.25% and maturity date of December 1, 2035.

On June, 5, 2014, the School District entered into a lease-purchase agreement to finance the construction of a new athletic complex. The aggregate amount of the principal component of payments under the agreement is \$7,255,066 and the interest component of those payments accrues at the fixed rate of 3.272%. Payments under the agreement, amounting to \$500,000 annually and first due on June 5, 2015, are planned to be paid from County sales tax revenue and private donations received by the School District. The final payment under the agreement is due June 5, 2034.

On October 21, 2014, the School District entered into a supplemental lease-purchase agreement to provide additional financing for the aforementioned athletic complex project in the aggregate principal amount of \$1,440,725. The interest component of payments accrues at the fixed rate of 3.25%. Payments under the supplemental agreement, amounting to \$99,091 annually and first due on October 21, 2015, are also to be paid from County sales tax revenue and private donations received by the School District. The final payment under the supplemental agreement is due October 21, 2034.

In February 2020, the School District refinanced the lease-purchase agreements. The interest component of payments in the new agreement accrues at a fixed rate of 2.60%. Payments under the new agreement, amount to \$572,498 annually and are due on June 5 each year. The final payment under the new lease-purchase agreement is June 5, 2034.

The outstanding lease-purchase agreements contain: (1) a provision that funds must be legally appropriated for an amount sufficient to make all lease payments during the lease term or the lease terminates and (2) a provision that in the event of default leased property be returned at the School District's expense.

<u>Compensated absences</u>: Compensated absences are typically paid from the fund from which the employee is paid. Substantially all compensated absence obligations have been paid from the general fund in prior years.

<u>Lease payable</u>: The lease payable is for copiers used in various buildings and is an obligation of the general fund.

There is no repayment schedule for the net pension liability and net OPEB liability; however, the School District pays pension and OPEB obligations related to employee compensation from the fund benefitting from their service.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

Principal and interest requirements to amortize all bonds, lease-purchase agreements and lease payable outstanding at June 30, 2023 are as follows:

General obligation bonds								ase-Purchas	e A	greements

# **NOTE 12 - JOINTLY GOVERNED ORGANIZATIONS**

Connect is a jointly governed organization comprised of twenty-four member school districts, three educational service centers and the Ohio Schools Council. The jointly governed organization was formed for the purpose of providing support and leadership which enables organizations to achieve their objectives through innovative and cost effective shared technology solutions. Connect is governed by a four member Board of Directors consisting of the Superintendent of the Educational Service Center of Northeast Ohio, the Superintendent of the Educational Service Center of Medina County and the Executive Director of the Ohio Schools Council. Each participating entity's contribution to Connect is dependent upon student enrollment and/or software packages and services utilized. Financial information for Connect can be obtained by contacting the Treasurer at the Educational Service Center of Northeast Ohio, which serves as fiscal agent. During fiscal year 2023, the School District contributed \$104,878 to Connect.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

The Ohio Schools Council (Council) is a jointly governed organization among 280 school districts, educational service centers, joint vocational school districts, and developmental disabilities boards in thirty-four Ohio counties. The jointly governed organization was formed to purchase quality products and services at the lowest possible cost to its members. Each member supports the Council by paying an annual participation fee. The Council's Board consists of nine superintendents of the participating districts whose term rotates every year. The degree of control exercised by any school district is limited to its representation on the Board. During fiscal year 2023, the School District paid the Council \$79,266 for natural gas purchases and membership fees. Financial information can be obtained by contacting William Zelei, the Executive Director of the Ohio Schools Council, at 6393 Oak Tree Blvd., Suite 377, Independence, Ohio 44131.

# **NOTE 13 - CONTINGENCIES**

The School District received financial assistance from Federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2023, if applicable, cannot be determined at this time.

In the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2023.

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. ODE has finalized the impact of enrollment adjustments to the June 30, 2023 Foundation funding for the School District. These adjustments were insignificant for the School District for fiscal year 2023.

## **NOTE 14 - STATUTORY RESERVES**

The School District is required by state law to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. The School District may replace using general fund revenues with proceeds from various sources (offsets), such as bond or levy proceeds related to the acquisition, replacement, enhancement, maintenance or repair of permanent improvements. Amounts not spent by fiscal year end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future fiscal years.

Although the School District had qualifying disbursements and current year offsets during the fiscal year that reduced the set-aside amount to below zero for the capital maintenance reserve, this amount may not be used to reduce the set aside requirement for future years. This negative balance is, therefore, not presented as being carried forward to future years.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

The following information describes the change in the year-end set-aside amounts for capital maintenance.

	Capital					
	Maintenance					
		Reserve				
Set-aside cash balance as of						
June 30, 2022	\$	-				
Current year set-aside requirement		726,671				
Current year offset		(2,955,000)				
Qualifying disbursements		(677,538)				
Total	\$	(2,905,867)				
Balance carried forward to future years	\$					

# NOTE 15 – INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund balances at June 30, 2023 consisted of the following:

Due to general fund from:	
Nonmajor governmental funds	\$ 11,174
, ,	
Advances from general fund to:	
Nonmajor governmental funds	97,500
Total interfund receivable/payable	\$ 108,674

All balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, or (3) payments between funds are made. As of June 30, 2023, the \$11,174 interfund loan outstanding is anticipated to be repaid in fiscal year 2024. The \$97,500 interfund loan outstanding is classified as long-term and is anticipated to be repaid in installments over the next several years.

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the fund collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund transfers for the year ended June 30, 2023, consisted of the following:

Transfers to nonmajor governmental funds from:
General fund \$50,000

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

# **NOTE 16 – COMMITMENTS/ENCUMBRANCES**

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. The School District had outstanding encumbrances at June 30, 2023 in the following funds:

	Encumbrances					
General fund	\$	468,336				
Building fund		957,269				
Other governmental funds		126,041				
Total encumbrances at year end	\$	1,551,646				

As of June 30, 2023, the School District had no individually significant commitments.

## **NOTE 17 – ACCOUNTABILITY**

As of June 30, 2023, several funds had a deficit fund balance. These deficits were caused by the application of GAAP; namely in the reporting of various liabilities attributable to the fiscal year. This deficit balance will be eliminated by anticipated future intergovernmental revenues or other subsidies not recognized and recorded at June 30. The following fund had a deficit balance:

	1	<u>Amount</u>
Nonmajor special revenue fund:		
IDEA, Part B	\$	116,682
Title I		19,758
IDEA Preschool Grant		3,992
ESSER		60

## **NOTE 18 – TAX ABATEMENTS**

Pursuant to Ohio Revised Code (ORC) Section 3735, Medina County established a Community Reinvestment Area (CRA) program. The CRA program is an economic development tool administered by municipal and county governments that provides real property tax exemptions for property owners who renovate existing or construct new buildings. CRAs are areas of land in which property owners can receive tax incentives for investing in real property improvements. Under the CRA program, local governments petition to the Ohio Development Services Agency (ODSA) for confirmation of a geographical area in which investment in housing has traditionally been discouraged. Once an area is confirmed by the ODSA, local governments may offer real property tax exemptions to taxpayers that invest in that area. Property owners in the CRA can receive temporary tax abatements for the renovation of existing structures and new construction in these areas. Property owners apply to the local legislative authority for approval to renovate or construct in the CRA. Upon approval and certification of completion, the amount of the abatement is deducted from the individual or entity's property tax bill.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

The total value of the School District's share of taxes abated for fiscal year 2023 was \$154,146.

Pursuant to ORC Section 5709.82, Medina County and the School District have entered into various Community Reinvestment Area Compensation Agreements. These agreements require compensation to the School District for a specified portion of the property tax revenues forgone as a result of the tax incentives granted. Compensation agreement payments are made directly to the School District by the taxpayer(s) receiving the tax benefit. The School District received a total of \$36,450 in compensation agreement payments during fiscal year 2023.

Combining Statements for Nonmajor Governmental Funds

# COMBINING STATEMENTS – NONMAJOR GOVERNMENTAL FUNDS

# NONMAJOR SPECIAL REVENUE FUNDS

The special revenue funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes. The title of each special revenue fund is descriptive of the activities accounted for therein. A description of the School District's nonmajor special revenue funds follows:

# Food Service

To account for all revenues and expenditures related to the provision of food services, including breakfast and lunch, for the School District's students and staff.

# Special Trust

To account for the use of donations used to provide educational experiences for the School District's elementary students.

# Miscellaneous Local Grant

To account for a number of small local grants that are restricted for specific expenditures.

# Student Managed Student Activity

To account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer, and faculty advisor.

# **District Managed Student Activity**

To account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund includes athletic programs as well as band, cheerleading, dance, and other similar types of activities.

# **Auxiliary Services**

To account for state monies used to provide services and materials for pupils attending non-public schools within the School District.

# Miscellaneous State Grant

To account for monies restricted from state agencies which are not classified elsewhere.

# Elementary and Secondary School Emergency Relief

To account for emergency relief grants to school districts related to the COVID-19 pandemic. Restrictions include, but are not limited to, providing for coordination of preparedness and response efforts, training and professional development of staff, planning and coordination during long-term closure, and purchasing technology for students.

# IDEA, Part B

To account for federal funds for the provision of full educational opportunities to disabled children at the preschool, elementary and secondary levels; assist in the training of teachers, supervisors and other specialists in providing educational services to the disabled.

# Title III

To account for monies to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

# Title I

To account for federal funds for services provided to meet special educational needs of educationally deprived children.

# Title IV-A

To account for federal funds for services intended to improve students' academic achievement by providing all students with access to a well-rounded education, improving school conditions for student learning and improving the use of technology in order to improve the academic achievement and digital literacy of all students.

# **IDEA Preschool Grant**

To account for federal funds used for the improvement and expansion of services for disabled children ages three through five years.

# Improving Teacher Quality

To account for monies to hire additional classroom teachers grades 1 through 3, so that the number of students per teacher will be reduced.

# Miscellaneous Federal Grants

To account for various monies received through state agencies from the federal government or directly from the federal government which are not classified elsewhere. A separate cost center must be used for each grant.

# NONMAJOR CAPITAL PROJECTS FUNDS

Capital projects funds are established to account for financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities. The nonmajor capital projects fund are:

# Permanent Improvement

To account for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary and trust funds.

# Sales Tax

To account for shared sales tax monies to be used for permanent improvement projects.

# NONMAJOR PERMANENT FUNDS

Permanent funds are established to account for resources that are restricted to the extent that only earnings, not principal, may be used for purposes that support the School District's programs.

# **Sharon Elementary Trust**

To account for principal trust amounts received and related interest income. The interest portion of the trust can be used for the upkeep and maintenance of the Sharon Elementary garden.

# Endowment

To account for all other principal trust amounts received and related interest income. The interest portion of the trust can be used to support the School District's programs.

Individual Fund Schedules of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Basis) and Actual Governmental Funds – Major and Nonmajor

#### MAJOR GENERAL FUND

The general fund is the main operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

#### FUNDS BEING REPORTED AS PART OF THE GENERAL FUND

The following funds are legally budgeted as separate special revenue funds but are being reported as part of the general fund for GAAP reporting purposes.

#### <u>Uniform School Supplies</u>

To account for the purchase and sale of school supplies as adopted by the Board of Education for resale to students of the School District.

#### Public School Support

To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sales of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

#### Latchkey and Community Education

To account for income and expenditures made in connection with goods and services provided relative to the School District's before and after school care program and personal enrichment addressing the unique interests of individuals and meeting the community needs.

#### MAJOR DEBT SERVICE FUND

The debt service fund is used to account for the accumulation of resources and the payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the government is obligated in some manner for the payment. It is also used to account for the accumulation of resources and the payment of general obligation notes payable, as required by Ohio Law.

#### MAJOR CAPITAL PROJECTS FUND

The building capital projects fund is used to account for the receipts and expenditures related to all special bond funds in the district. All proceeds from the sale of bonds, notes, or certificate of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs of acquiring capital facilities including real property.

## **Statistical Section**

This part of the School District's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

<u>Contents</u>	Page(s)
Financial Trends  These schedules contain trend information to help the reader understand how the School District's financial position has changed over time.	S2 - S13
Revenue Capacity	S14 - S21
These schedules contain information to help the reader understand and assess the factors affecting the School District's ability to generate its most significant local revenue source, the property tax.	
Debt Capacity	S22 - S26
These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	
Economic and Demographic Information	S27 - S28
These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	
Operating Information	S29 - S35
These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	

**Sources:** Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property including public utility real property is 35% of estimated true value. The assessed value of public utility personal property ranges from 0% of true value for railroad property to 85% for electric transmission and distribution property.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property was eliminated.

- (1) Includes homestead exemptions and rollback of locally assessed taxes which are reimbursed by the State and reported as intergovernmental revenue.
- (2) The 2023 information cannot be presented because all collections have not been made by June 30, 2023.
- (3) The County's current reporting system does not track delinquent tax collections by tax year. Outstanding delinquencies are tracked in total by the date the parcel is first certified delinquent. Penalties and interest are applied to the total outstanding delinquent balance. The presentation will be updated as new information becomes available.

(1) Beginning with the 2012-2013 Local Report Card, the Ohio Department of Education implemented changes that affect the manner in which the graduation rate is reported. The graduation rate disclosed in the new Local Report Card represents a 4-year longitudinal graduation rate that takes into consideration the amount of time it takes an incoming freshman to successfully complete high school. Graduation rates are also published one year in arrears.
