

Frequently Asked Questions

1. What is the “main contact” person’s role in this process?

The “main contact” is the person designated to oversee the data entry process. This person would be contacted if UNC Charlotte or the Potsdam Institute for Applied Research (PIAR) at SUNY-Potsdam has questions about data entered. You can designate the “main contact person” by going to the website as using the form located at the “**main contact person**” link:

<http://education.uncc.edu/postschool/DistrictContac.htm>

2. When do I actually administer the Exit Surveys?

We recommend that you fill out a “SHORT” Exit Survey on each exiter as soon as possible. This will save having to find the information for the NCDPI excel spreadsheet later.

3. Are the templates for parents and students available in Spanish or other languages such as Hmong?

The template for parents and students are now available in Spanish and are posted on the Post-School Outcomes website under Tools and Products

(http://www.psocenter.org/content_pages/6)

4. Do I need to go back and provide the exit survey data for students who have already dropped out since the school year began?

Yes, it is critical that exit survey data be collected on ALL of your students who exit or have exited during the 2013-2014 school year including those who dropped out earlier in the school year.

5. What is the website address for NC Post-School Outcomes again?

The website is: <http://education.uncc.edu/postschool>

6. I am the main contact person in one of the 5 larger school districts. May I have a list of participating schools in our district for this year’s sampling plan?

Yes, the sampling plan has that information for you. A link to it is on the post-school website under “**Additional Resources.**” If you have questions about the schools on the list, please contact Bobbie Grammer Bobbie.Grammer@dpi.nc.gov
