

Schedule Time to View Curricular Resource

Please read below

Members of the community are welcome to view D51 Board Adopted Curricular Resources.

Should you like to make an appointment to view select resources, please call 254-5308.

90 minute appointment times are available Mondays - Thursdays from 7:30-3:30. In calling to make an appointment, you'll be asked to share your contact information and list the materials you'd like to view (e.g. Grade 2 Math: Bridges; Grade 6 English Language Arts Units of Study; all core High School Science: Biology, Environmental Science, Physics, Chemistry). The address of the facility will be shared at the time the appointment is confirmed.

Please note, the facility does not have a public restroom and physical space is limited, so only two people can attend at one time. While a curriculum specialist will not be available during each appointment, questions can be directed to the curriculum office.
