NATIONAL BOARD CERTIFIED TEACHERS

Oldham County Schools is proud to announce that three teachers obtained their National Board Certification and four renewed their certification.

National Board Certification recognizes accomplished teachers who work to generate continued improvement in the learning environment. This certification is a voluntary, advanced teacher credential which can take several years to complete. It is a rigorous, peer-reviewed process that ensures teachers have proven skills to advance student achievement. As part of this process, teachers must analyze their teaching context and students' needs, demonstrate what they have done outside of the classroom to improve student success, submit videos of their teaching, and provide student work samples that demonstrate growth. Additionally, candidates must submit essays describing, analyzing, and reflecting on their practices and the evidence, and pass an exam to demonstrate they have mastered their chosen content area of certification. Just under 3% of the nation's teachers are nationally board certified.
