Dexter, MI 48130

RE: Dexter Senior Center - Building Addition

Dear Sharon,

Pursuant to your request, we have prepared a budget proposal based on the preliminary drawing P2.1 prepared by Wah Yee Associates dated February 19, 2024, to construct a new 9,094 SF building for the Dexter Senior Center.

The work to be completed is as follows:

### Site & Utilities

#### Site Earthwork

The site will be cut, filled and balanced by moving on-site materials and rough and fine graded as necessary. All excess materials will be hauled to the landfill for proper disposal.

#### Site Utilities

New storm sewer piping will connect the roof conductors to the existing storm sewer system.

New sanitary sewer piping will connect to the existing sanitary sewer in the driveway.

The new water piping will connect to the existing domestic and fire protection water lines in the driveway.

#### Asphalt Pavement

A \$20,000 allowance is included to repair the existing parking lot after construction.

#### Landscaping

A \$30,000 allowance is included for plant material, lawn restoration and an irrigation system.

#### Foundations

### Structure

Reinforced concrete footings will be provided at 3'-6" below finish grade. The soil is assumed to be of sufficient cohesiveness to permit the footings to be soil formed.

### Flatwork

The building floor slab will consist of a 4" thick concrete reinforced with wire mesh.

### Exterior Concrete

The exterior concrete will include 4" thick concrete sidewalk along the north and east sides of the building and concrete curb along the parking lot.

### Masonry

The exterior masonry will consist of load bearing masonry walls, brick and precast stone to emulate the Pharmacy building. The block cores will be filled with insulating foam and 2" of spray foam will be applied to the exterior face of the block.

### Structural System

The structural system will be conventional steel including the columns, beams, joists and miscellaneous iron.

### Rough Carpentry

### Interiors

The rough carpentry will include the roof nailers, the interior, steel stud partitions, setting the hollow metal door frames, hanging the doors and installing the toilet accessories.

### Millwork

The millwork will include 12 LF of base cabinets and solid surface countertops in the Great Room, 27 LF of coat rack and shelf, and 111 LF of solid surface window sills.

### Roofing

The roof will be a 60 mil fully adhered EPDM roof with two (2) layers of 2.6" thick isocyanurate and metal cap flashing around the parapet.

### Caulking

High quality caulking will seal joints between different building materials.

### Hollow Metal and Wood Doors

Hollow metal doors, wood doors, hollow metal frames and finish hardware will be provided.

### Kitchen Shutters

Two (2) manual, coiling, aluminum shutters will be installed at the kitchen counters.

### Glass

The exterior doors and windows will consist of insulated glass and aluminum framing.

### Flooring

Ceramic tile will be provided in the vestibule, toilet rooms and warming kitchen. Polished concrete will be utilized throughout the rest of the building.

A 4'-0" high ceramic tile wainscot will be provided on the toilet room and vanity walls.

### Acoustical Ceiling

2 x 2 lay-in acoustical ceiling will be installed in the reception area, offices, quiet room, consult rooms, and storage rooms.

2 x 2 lay-in, vinyl-faced gypsum tiles will be installed in the kitchen.

### Painting

The interior partitions will receive one coat of primer and two (2) finish coats of paint.

### Fireplace

A \$7,500 allowance is included to furnish and install a gas fireplace in the reception area.

### Toilet Accessories

Toilet accessories will be provided in the toilet rooms.

### Fire Protection

## Building Systems

The fire protection system will provide a Light Hazard level of protection throughout the building.

### Plumbing

The plumbing includes the roof conductors, gas piping, sanitary piping, water piping, plumbing fixtures and water heater.

### HVAC

The building will be heated and cooled with rooftop HVAC units. Exhaust fans will be provided for the toilet rooms and the warming kitchen.

## Electrical

A new secondary service will feed a 400 amp, 120/208 volt, three-phase main panel. Lighting will be installed according to the attached lighting plan. Convenience outlets, emergency lights, exit lights, mechanical equipment hookups, etc. will also be provided.

## Architecture/Engineering

### General Conditions

The architectural and engineering services required for building permit application and final construction are included. The drawings will be prepared by registered Architects and Engineers in accordance with applicable laws in the State of Michigan.

### General Conditions

On-site supervision, layout, material testing, temporary office, dumpsters, general cleanup, final cleanup, builder's risk insurance, liability insurance and safety program are included.

A \$30,000 allowance is included for the plan review fee, building permit, soil erosion permit and soil erosion inspection fees.

A \$10,000 allowance is included for the DTE fees for natural gas and electrical service.

A \$7,500 allowance is included for the City of Dexter/OHM inspection fees for the site utilities, asphalt paving and site concrete.

## Land

The vacant lot at 2740 Baker Rd is included.

## Exclusions

Water and sewer tap fees, winter conditions, unknown soil conditions, on-site stormwater detention, dewatering, exterior signage, kitchen equipment, low voltage wiring, fire alarm system throughout the building, security system and changes required by the City of Dexter, Washtenaw County and the State of Michigan are excluded.

## Price

Our price to provide the land and construct the new Dexter Senior Center, as described above, is \$2,851,500.00.

## Alternates

1. Provide a 16' long x 8' high masonry screen wall (8" block with brick on both sides) with a metal cap on the west side of the patio.

**Add:** **\$10,300.00**

2. Add a stone wall in the pondwith allowance for fencing Add: \$11,550.00

3. Provide a 16' x wide x 90' long, 4" thick concrete patio along the south side of the building.

Add: \$11,400.00

4. Replace the storefront glazing system on the south elevation with a folding glass door wall.

Add: \$31,500.00

5. Furnish and install 28 LF of base cabinets with solid surface tops in the Great Room.

Add: \$9,250.00

6. Furnish and install a Dexter Senior Center sign fabricated from brushed aluminum over the main entry door.

Add: \$6,150.00

7. Provide a canopy over the main entrance. Included in the base bid.

8. Replace the polished concrete floor finish with Marmoleum.

Add: \$44,000.00

9. Furnish and install a 400 amp ATS for a future generator connection.

Add: \$16,100.00

10. Furnish and install a generator pad, 60W natural gas generator and a 400 amp ATS.

Add: \$77,150.00

11. Increase the service size to 600 amps and prep for four (4) 30 amp EV charging stations in the parking lot east of the building.

Add: 10,900.00

12. Delete the lay-in ceiling in the reception area and office hallway. Paint the drywall partitions, exposed metal deck and spiral ductwork. Replace the lay-in fixtures with linear fixtures.

Add: \$26,000.00

We appreciate this opportunity to be of service to Dexter Community Schools and look forward to working with you on this project.

Sincerely,

*Steve Brouwer*
