

Campus Targeted Improvement Plan

Intervention and Submission documents for the 2019-2020 monitoring year may be found on the Division of School Improvement web page at <https://tea.texas.gov/si/accountabilityinterventions/>

Please complete all sections of the Cycles 1, 2, and 3 tabs except:

- Status of Metrics/Evidence Collections
- Necessary Adjustments/Next Steps
- Section V: Reflections and Planning for Next 90 Day Cycle

These sections will be filled out at the end of the 90 day cycle prior to the Division of School Improvement Progress Submission.

Campus Information							
District Name	Georgetown ISD	Campus Name	Carver Elementary	Superintendent	Dr. Fred Brent	Principal	Nancy Bottlinger
District Number	246904	Campus Number	000000102	District Coordinator of School Improvement (DCSI)	Gabi Nino	ESC Support	Kendra Monk

Assurances	
DCSI	I, the District Coordinator of School Improvement, attest that I will provide or facilitate the provision of all the necessary district-level commitments and support mechanisms to ensure the successful implementation of the Targeted Improvement Plan for this campus. I understand I am responsible for the implementation of all intervention requirements. If I am the principal supervisor, I understand I am responsible for ensuring the principal carries out the plan elements as indicated herein.
Principal Supervisor <i>(Only necessary if the DCSI is NOT the Principal supervisor)</i>	I, as supervisor of the principal for this campus, attest that I will coordinate with the DCSI to provide or facilitate the provision of all the necessary district-level commitments and support mechanisms to ensure the principal I supervise can achieve successful implementation of the Targeted Improvement Plan for this campus. I understand I am responsible for ensuring the principal carries out the plan elements as indicated herein.
Principal	I, as principal for this campus, attest that I will coordinate with the DCSI (and my supervisor, if they are not the same person) to use the district-provided commitments and support mechanisms to ensure the successful implementation of the Targeted Improvement Plan for this campus. I agree to carry out the plan elements as indicated herein.
Board Approval Date	

Needs Assessment		
Data Analysis Questions	What accountability goals for each Domain has your campus set for the year?	Domain 1: 76 C - includes 15% gain in Approaches from 67 to 82, 10% gain in Meets from 33 to 43, and 5% gain in Masters from 14 to 19 Domain 2: 79 C, if Carver increases the number of students meeting the growth measure by 10% the result would be a 79 C Domain 3: by increasing performance in each student group by 10% the outcome for domain 3 will be a 78 C
	What changes in student group and subject performance are included in these goals?	Our student performance in all student groups are well below where they need to be across the board in all content areas and domains. On average, we want to see a 15 percentage point increase in each STAAR tested subject area and grade level. If we have a 10% gain, our outcome would be a 79C.
	If applicable, what goals has your campus set for CCMR and Graduation Rate?	n/a

Essential Action	4.1 Curriculum and assessments aligned to TEKS with a year-long scope and sequence.	5.3 Data-driven instruction.	5.1 Objective-driven daily lesson plans with formative assessments.
Rationale	Carver Design Team coached vertical teams with creating four to five "I can " statements for each content area. These were not finalized until the end of the 2018-2019 school year.	In the past, grade level PLCs have met either weekly or bimonthly. Data analysis was not a priority during these meetings which resulted in the lack of students receiving effective reteach.	Prior to this year, teachers were not given guidelines and a process for planning and submitting their lesson plans. The formative assessments did not identify specific skills to reteach which resulted in gaps in learning.
Desired Annual Outcome	Carver students will master their grade level "I Can" statements. This ensures student readiness and success for the following school year.	The desired outcome is for campus leaders, grade level teachers, and intervention teachers to use formative assessments and student data to effectively design and provide appropriate instruction.	Teachers and campus administrators will design formative assessments during grade level planning time. Data from the assessments will be discussed in PLCs to determine how students will be retaught the skill or objective.
Barriers to Address During the Year	1. There are thirteen new classroom teachers who will need to become aware of and have access to the "I Can" statements. 2. "I Can" statements are not visible in classrooms and throughout the school.	1. Teachers do not have a clear understanding of the PLC and how it directly relates to student achievement. 2. Teacher's understanding of how to locate, disaggregate, and use student data to effectively guide instruction.	1. Teacher's being receptive to a change in the lesson planning process. 2. Not all teachers have been trained on how to create formative assessments. 3. Feedback from campus administration on lesson plans.
District Commitment Theory of Action:		Professional learning days are built in to the academic calendar. These designated days provide teachers with opportunities for lesson design, create formative assessments based off data, and collaboration with their peers to determine appropriate groupings for reteach and enrichment.

Essential Action	4.1 Curriculum and assessments aligned to TEKS with a year-long scope and sequence.	5.3 Data-driven instruction.	5.1 Objective-driven daily lesson plans with formative assessments.
Desired Annual Outcome	Carver students will master their grade level "I Can" statements. This ensures student readiness and success for the following school year.	The desired outcome is for campus leaders, grade level teachers, and intervention teachers to use formative assessments and student data to effectively design and provide appropriate instruction.	Teachers and campus administrators will design formative assessments during grade level planning time. Data from the assessments will be discussed in PLCs to determine how students will be retaught the skill or objective.
Desired 90-day Outcome	Grade level teams will implement with fidelity at least one area of the new ELAR adoption.	During PLC meetings, teachers will determine the process for re-teach and retest for the students who need a reteach and retest. This will be implemented during Colt Time.	Teachers will discuss assessment results during PLC meetings to determine who will reteach and retest students in the areas not mastered on assessments to prevent gaps in learning.
Barriers to Address During this Cycle	Implementing new ELAR adoption of Lucy Caukins and Jeff Anderson, making sure new teachers to Carver have the support, training, and materials that are needed to implement the curriculum. "I Can" statements are not posted for easy access.	Teachers do not have a clear understanding of the PLC and how it directly relates to student achievement. Teacher's also have limited experience and understanding of how to locate, disaggregate, and use student data to effectively guide instruction.	Teachers need to be receptive to a change in the lesson plan process. Training on how to create formative assessments
District Actions for this Cycle	Principal supervisor meets with Leadership Team with a coaching focus on implementation of DEW, new ELAR adoption, and plan for ensuring that district curriculum and grade level standards are being met.	Principal supervisor and leadership team build protected time into the master schedule so that teacher teams can meet frequently and regularly. In depth conversations will be held about formative and ongoing student data, effective instructional strategies, and possible instructional adjustments to focus on meeting the needs of students.	District Chief Strategists and curriculum coordinators will provide support and guidance for the leadership team and teacher teams in the lesson design process to ensure all required components are represented.
District Commitments Theory of Action	If the district provides access to assessments aligned to the standards and the expected level of rigor, ensures access to high-quality common formative assessment resources aligned to state standards for all tested areas and PK-2nd grade reading and math, and district policies and practices support effective instructions in schools, then the campus will be able to have access to a TEKS-aligned and viable curriculum, assessments, and resources to engage in learning at the appropriate level of rigor. The campus will also have rigorous learning experiences because the school ensures objective-driven daily lessons, classroom routines, and formative assessments that yield the data necessary for teachers to reflect, adjust, and deliver instruction that meets the needs of each student.

Essential Action	From the drop down menu, select the Essential Action the campus selected based on the Needs Assessment and/or ESF Final Report.
Rationale	Explain the reasons this Essential Action was selected.
Desired Annual Outcome for Priority Focus Area	Create your annual goal for each Prioritized Focus Area identified using qualitative and/or quantitative measures.
Barriers to Address During the Year	List barriers to implementation the campus may face as they take the necessary steps to improve the prioritized focus area.
District Commitment on Theory of Action	State the District Theory of Action and the District Commitments that will support the campus' essential actions found in the plan.
Date of ESF Diagnostic	Complete after ESF Diagnostic.
Capacity Builder	Capacity Builders can include vetted partners, ESCs, and/or internal district support.
Cycles 1, 2, and 3 90-day Action Plan	
Desired 90-day Outcome	Describe the specific goals the campus plans to achieve by the end of the cycle for the relevant prioritized focus area.
Barriers to Address During the Year	List barriers to implementation the campus may face as they take the necessary steps to improve the prioritized focus area. Barriers may stay the same or change from cycle to cycle.
District Actions for this Cycle	List what the district will do to support the campus during this 90-day cycle to achieve the desired outcomes.
Milestones	In each row, list actions the campus is taking in this cycle to achieve desired outcomes and address barriers to implementation. An action may address more than one priority focus area. New actions can be added over time, as needed.
Prioritized Focus Area	Select the Prioritized Focus Area(s) that is aligned to this milestone.
Timeline	Identify a start and end date. End date may carryover to another cycle.
Resources Needed	Examples include, but are not limited to: budget allocation, data platforms, personnel, etc.
Evidence used to Determine Progress toward Milestone	Measures can be qualitative or quantitative.
