Community members interested in the future of Fargo Public Schools and the impact the District's schools have on the community are invited to attend any of three FPS Long-Range Facility Plan Community Meetings on November 14-16.

Each meeting will be from 6-8 p.m. with the Tuesday, November 14 meeting at North High School; the Wednesday, November 15 meeting at South High School; and the Thursday, November 16 meeting at Davies High School. The meetings are open for all to attend.

During the 2023-24 school year, FPS is creating an updated Long-Range Facility Plan to guide major capital investments such as new construction and major renovations. These community meetings are an opportunity to community members to have their voices heard and inform the decision making of the Long-Range Facility Plan Steering Committee.

Topics covered at the community meetings will include the current and projected condition of FPS buildings; how the District's buildings meet the needs of modern teaching and learning methods; ways the District can operate more efficiently; and future enrollment and educational opportunities.
