**Fargo Public School District #1**

## **ELEMENTARY SCHOOLERS TO BECOME JUNIOR SLEUTHS AT ED CLAPP'S FORENSIC SCIENCE NIGHT**

The students at Ed Clapp Elementary School are stepping across the police tape into the world of crime scene investigation at Forensic Science Night.

**WHAT:** Forensic Science Night  
**WHEN:** **Tuesday, November 7** from 5:30 to 7 p.m.  
**WHERE:** Ed Clapp Elementary School, 3131 28<sup>th</sup> Street South, Fargo  
**CONTACT:** **Nikki Nelson**, Ed Clapp Assistant Principal, [nelsonn@fargo.k12.nd.us](mailto:nelsonn@fargo.k12.nd.us) or 701.446.2903 for more information.

Ed Clapp Elementary School's students and families will learn how to collect and analyze clues to help solve crimes at Forensic Science Night from 5:30-7 p.m. on Tuesday, November 7.

South High School science teacher Brittany Olson, who teaches a forensic science class at the high school, will lead the elementary schoolers through the basics of crime scene investigation.

The elementary schoolers will get a hands-on lesson in the tricks of the investigative trade and learn some of the real-life tools that detectives use to solve cases. Olson will teach them how to collect evidence, analyze fingerprints, compare blood types, dust for fingerprints, analyze hair under a microscope, make dental impressions, collect shoeprints, and use luminol.

If the investigators uncover a clue that they might be hungry, pizza will be served for the students and their families.
