

FOR IMMEDIATE RELEASE

MEDIA ALERT – Tuesday, December 19, 2023

Fargo Public School District #1

ELEMENTARY SCHOOLERS TO SHOW OFF ROBOTICS SKILLS

Robots are coming to life under the command of a club of elementary school robotics experts.

WHAT: Robotics Club Presentation Day
WHEN: **Thursday, December 21** from 2:25 p.m. to 4 p.m.
WHERE: Bennett Elementary School, 2000 58th Avenue South, Fargo
CONTACT: **Julia Warner**, Bennett gifted services teacher, warnerj@fargo.k12.nd.us or 701.446.4081 for more information.

The members of Bennett Elementary School's Robotics Club have been learning how to build and program robots and they are ready to show off their hard work at their Presentation Day on Thursday. Parents and students will be attending the showcase presentation. Students will present their robots and share insights and troubleshooting strategies they employed during the process.

Over the course of the 10-week club, the students have learned to code, use specific software, and program sensors to create and command their robots. They have dug into design engineering, science, and space challenges to explore open-ended problem-solving activities. At their Presentation Day, the students will show off everything they have learned.

Volunteers from Microsoft, Marvin Windows, Davies High School and more organization have visited the club to help guide the students through their journey towards becoming robotics experts and helped them to achieve the tasks and goals set before them.
