Lincoln received the funds to purchase the snowshoeing equipment through an Innovative Education Grant from the Fargo Public Schools Development Foundation, were awarded an additional grant through Scheels, and received financial support from the schools' Parent Teacher Associations and Noridian Healthcare Solutions.

The Adopt-A-School program matches individual schools with area businesses, services clubs, colleges, universities, and other organizations. These partnerships bring business employees and community members into schools to assist with reading programs, tutoring, career awareness, special events, mentoring, extra-curricular clubs, community service projects, field trips, and other activities.
