

FOR IMMEDIATE RELEASE
MEDIA ALERT – Tuesday, April 11
Fargo Public School District #1

MADISON ELEMENTARY SCHOOL HOSTING STEM NIGHT

Madison Elementary School wants to get its students excited about science, technology, engineering, and math.

WHAT: Madison STEM Night
WHEN: **Thursday, April 13** from 5 p.m. to 7 p.m.
WHERE: Madison Elementary School, 1040 29th Street North, Fargo
CONTACT: **Lori Conmy**, Madison principal, conmyl@fargo.k12.nd.us or 701.446.5100 for more information.

Madison Elementary School is hosting a STEM Night for its students and families on Thursday. At the STEM Family Night, guests will engage in hands-on, high-energy learning experiences in science, technology, engineering, and math.

Madison is partnering on the event with STEMZone for its Gateway to Science on the Go event. The event features carnival booth-style stations with a variety of STEM games and activities, including working on circuits, doing brain teasers, looking at objects through a microscope, and cooperating to build structures.

Through participation in the games, the aim is to get students excited about the STEM fields and help them to build skills in creativity, teamwork, collaboration, and communication. Students will gain exposure to potential future career paths they may not have considered.

Staff from Madison and members of the South High School Philanthropy and Youth organization will be volunteering to help make the event run smoothly.
