Each of the 48 first graders at Eagles Elementary School will deliver a flower pot to share with the residents at the Touchmark at Harwood Groves retirement community on Tuesday. The first graders each painted a pot and planted flowers in it as an act of kindness and compassion for their neighbors at Touchmark.

The students will walk from Eagles starting at about 9:10 a.m. and deliver the flower pots to the main entrance at Touchmark. Residents have been invited to meet the students as they drop off their delivery and say hello or thank them.

The first graders learned about the plant life cycle in conjunction with this project, as well as getting lessons about the importance of consideration and compassion for others.

Touchmark is Eagles' Adopt-A-School program partner. The Adopt-A-School program matches individual schools with area businesses, services clubs, colleges, universities, and other organizations. These partnerships bring business employees and community members into schools to assist with reading programs, tutoring, career awareness, special events, mentoring, extra-curricular clubs, community service projects, field trips and other activities.
