The Great Valley School District understands that students may wish to take a course outside of GVHS in order to advance to a higher level of proficiency in a subject area prior to graduation. If students want this coursework to be included as transfer credits on their GVHS transcript, this application must be submitted and approved prior to enrollment. All courses must be **original** or **enrichment** credit. Full credit courses should equal 120 hours of instruction. If approved, the course and credit will be added to the transcript but the grade will not be included into the cumulative GPA calculation. We cannot guarantee that summer or online courses will be approved by the NCAA. This only affects student athletes who wish to participate in a Division 1 or Division 2 sport.
