

Kindergarten-Rising 1st Grade
Summer Remote Learning Opportunities

Directions: Utilize the links to access interactive tutorials or videos that will help your child practice concepts and will also introduce him/her to new concepts that will be explored in the upcoming school year. Some of the interactive tutorials are lengthy. So, you may choose to have your child view only one of those on the designated day.

Activity sheets are also available for students to practice the concepts. If you choose not to print out activity sheets, your child can draw, color and record responses on plain paper, by using the activity sheets as a guide.

Your child may also work in his/her pathway in iReady which was identified during the 2019-2020 school year. The login information is the same as what was used during the school year.
