2021-2022 Arts Education Update

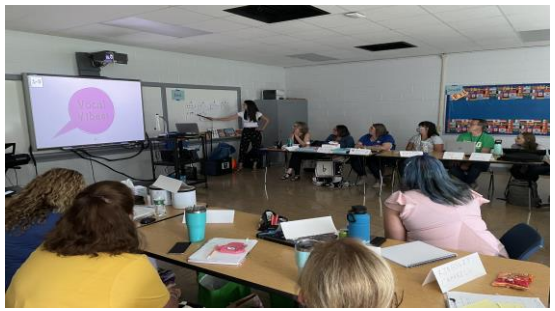

2021-2022 Arts Education Update

The North Carolina Arts Education Essential Standards is the framework that guides OCS Arts Educators to teach their students.

During the 2018-2019 school year, a group of OCS Arts Educators worked diligently to create OCS Arts Education Priority Standards for K-12 Music, K-12 Visual Arts, and 9-12 Dance Education.

What are Priority Standards?
Priority Standards are a "carefully selected subset of the total list of the grade-specific and course-specific standards within each content are that students must know and be able to do by the end of the school year in order to be prepared for the standards at the next grade level or course. Priority standards represent the assured student competencies that each teacher needs to help every student learn, and demonstrate proficiency in, by the end of the current grade or course." (Ainsworth, 2013, p. xv).

Professional Development: At the end of every school year, a teacher survey is conducted to gather data on needed professional development. Based on need, professional development is provided throughout each school year by presenters from various universities, agencies, and OCS arts educators.
