

Hello LPS Families!

By now we hope you have heard of Schoolinks, our new College and Career Planning platform for students and we are excited to now connect you as well! Schoolinks is a robust tool used to support and enhance your student's high school journey and prepare for life beyond LHS. It includes interest-inventories to assist in self discovery, college and career search capabilities, resume building, goal setting and so much more.

You as the parent/guardian can also set up a Schoolinks account and connect it to your student's so you can be a part of their high school and post-secondary dreaming and planning! Attached is a flier on how to set up your account, but your student will also have to send you a unique claim code so you can connect.

To get started, have your student follow these instructions.
