# Science

## Science Adventures - Green Science

Go green with our teachers as we explore different sources of energy and learn about solar and wind power. Discuss how to replace the use of fossil fuel, which will cause air pollution. They investigate like real scientists and, in the process, they have fun and learn about how choices they make affect the planet. During the camp, the children will build their own “Green” power devices and plan their own Energy-Smart House.

**Dates:** April 14 - 17

**Ages:** 4 - 7

**Time:** 9:30 - 11:30

**Fee:** \$2352

## Science Adventures - Powerful Planet

Are you ready for an electrifying journey through the Earth and back? Welcome to Powerful Planet where children investigate alternative power while they construct an Energy Racer. These lessons not only teach the science behind an electric car in motion, but the importance of choosing clean, renewable, alternative energy sources. In the camp, the children experiment with different kinds of energy and attempt to extract forces to get their projects in motion. Children discover a world full of clean, renewable energy and learn how to use these types of energy in their lives. Throughout the design and construction of different inventions, children learn simple ways to conserve resources around the house.

**Dates:** April 14 - 17

**Ages:** 8 - 12

**Time:** 9:30 - 11:30

**Fee:** \$2352
