Elementary School

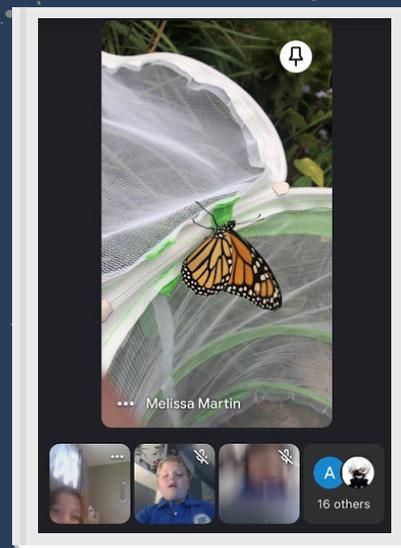

Elementary In-Person

The elementary school has begun live instruction for a small group of about 45 students.

Butterfly Watch

Ms. Martin and 4B watched a monarch caterpillar morph into a chrysalis. When the butterfly emerged, the students named it Skittles and released it outside. Then, they read a Scholastic News article about monarch butterflies and learned about the butterflies' yearly migration to Mexico.

Community Givings

Mr. Mattioni made a very generous donation to the H&S 2nd Annual School Supply Drive that helped provide school supplies and furniture to the Floyd family.

Hershey Fundraiser

The elementary school kicked off their popular Hershey Candy Fundraiser on September 21st. Families are selling boxes of candy and competing for prizes. In just over a week, students already distributed over 200 boxes of candy. Sales are expected to exceed last year's numbers!

Marie Mattioni Fedele

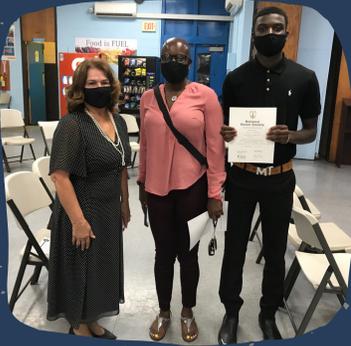

On September 12th, a brick ceremony was held at the Chapel of Four Chaplains for Marie Mattioni Fedele. The memorial brick was a gift from the Maritime staff in honor of Mr. Mattioni's late sister.

High School

NHS Induction

The high school held its annual National Honor Society Induction Ceremony on Thursday, September 24, 2020. Ms. Bogan and Ms. Gyuriska inducted 18 10th graders and 12 11th graders. It was a wonderful evening. The video of the ceremony can be found [here](#).

SAT & Khan Academy

Students in the class of 2021 who use the Official SAT Practice on Khan Academy, can earn a chance at a \$1,000 scholarship. Students earn their first entry by practicing six hours, then an extra entry for each additional hour of practice, for up to 20 hours. Briauna Booker was selected as the winner of the August \$1,000 Practice for the SAT Scholarship. Congratulations, Briauna!

Music and Art Supplies

The high school successfully distributed music instruments and art kits to our students. These necessary tools make virtual learning more meaningful and fun!

The Sea Cadets Are Back!

The Sea Cadets are back in the building! Under the guidance of Chief Hentnick, the Sea Cadet began practice on Fridays.
