## The Phases of the Moon

The 4th graders recently learned about the moon phases in science class. They used Oreos to create all the phases!

## Volcano Fun!

Mr. Phillips' 8th grade science classes have been studying volcanoes and following the new volcanoes that have developed over the last few weeks in Iceland.

## Kindness Garden

CLC students have started a "Kindness Garden," where they are learning about types of soil and what plants need to grow.

## Unsung Heroes of MACS

Since the beginning of the pandemic, two groups of people at Maritime worked tirelessly to keep our staff and cadets safe. The members of our support staff both at the elementary and high school have done an incredible job of keeping our building clean and ready for the cadets each day.

We salute the unsung heroes of Maritime Academy Charter School!

THANK YOU TO OUR SUPPORT STAFF FOR ALWAYS BEING THERE FOR OUR STUDENTS AND STAFF!

## Recognizing Ms. Fanega

Eugene Mattioni very affectionately and respectfully refers to Ms. Fanega as the "MACS Clydesdale." Clydesdales are considered a rare powerful breed, have significance influence, are impressive, strong, very active and energetic with a calm outlook and disposition. Ms. Fanega pours her heart and soul for MACS on a 24/7 basis. She is the epitome of "Being Rich in Kindness." Thank you, Ms. Fanega!

## IN-PERSON SCHOOL IS BACK!

In April, we welcomed back our students for hybrid learning!

## Spring Sports Are Back!

## Juniors Take the SAT

## SeaPerch News

SeaPerch had its annual competition on Friday 4/22, and Trinity Porter did an amazing job!

She was the only member that participated this year and she built an online model using Tinkercad. She also put together a presentation and presented it in front of four members of the Navy completely on her own! Each judge personally complimented her on her work.

## Four Chaplains Essay Contest

Congratulations to Jeffery Gonzalez, who won second place in the national Four Chaplains Essay contest. He will receive \$750.00 with this award.
