

Administrative Procedures

Judson Independent School District

COLLEGE AND CAREER READINES SCHOOL MODELS COHORT SELECTION

To close opportunity gaps and equalize access to high-quality education, the Texas Education Agency (TEA) created the Texas College and Career Readiness School Models (CCRSM) Network. The Early College High School (ECHS) and Pathways in Technology Early College High School (P-TECH) models offer a unique pathway to postsecondary education, while ensuring that all students can achieve their highest potential. The foundational principles and standards of these models are laid out in the CCRSM blueprint. This document addresses administrative procedures concerning student selection for our CCRSM campuses based on lottery requirements of the blueprint, the interdistrict transfers board policy FDA (LEGAL) and FDA(LOCAL), and our memorandums of understanding (MOU) with our Institute of Higher Education (IHE) partners.

CCRSM COHORT SELECTION PROCEDURES:

CCRSM Cohort Limit

CCRSM campuses have specific limits to the number of students permitted each cohort as specified in the MOU with the campuses IHE partner(s). If the number of applicants exceeds this limit, the CCRSM blueprint stipulates that a lottery must be held (P-TECH Blueprint Benchmark 2.5, ECHS Blueprint Benchmark 1.5).

CCRSM Lottery Design

In the lottery, all names will be drawn from the applicant pool and assigned a lottery number based on the order in which they were drawn. This may be a blind, open-access lottery system or a weighted lottery that favors at risk or subpopulations historically underrepresented in college courses. Any students whose lottery number is greater than the student cohort limit will be placed on a wait list, with entry granted if students before them in the lottery order chose not to attend the CCRSM dropping the total number of students in the cohort below the limit determined by the MOU with the IHE.

CCRSM Out-of-District Selection

All incoming freshmen students, both in-district and out-of-district, may apply, but availability of space in the CCRSM programs is considered when accepting district transfers in accordance with FDA (LOCAL). If the total number of applicants exceeds the limits in the CCRSM MOU and a lottery is required, preference will be given to in-district applicants in the lottery drawing order, and all in-district students will be drawn first before drawing out-of-district student names and assigning lottery numbers.
