

The High School Internship Course: Is it Right for You?

Are you curious about the world of work and how delving into a real-world experience might stretch you as an individual? Do you have strong oral and written communication skills?

Are you currently taking, or have you already taken, advanced coursework at your high school? Are you interested in taking a course that will challenge your thinking about the world and your future?

Are you open to an internship experience that is under the umbrella of your current career plans, but not necessarily in the narrow, specific field you think you want to eventually pursue?

Are you available after school a minimum of three days each week throughout the semester so that you can spend the required amount of time on site at your internship location?

Do you have a driver's license and access to a car, the ability to access and use MARTA, or do you have at least one parent with a flexible schedule who will be willing to drive you to and from your Internship site on a regular basis?

If you answered **YES** to **ALL** of the questions above, we hope you will consider signing up! Many schools required that you complete a mini-course called Hire Me prior to signing up for the Internship Course. See the Internship Program Teacher in your school to find out more.
