

STUDENT SUCCESS SKILLS

All Schools. All Teachers. All Students.

STUDENT SUCCESS SKILLS

Student Success Skills will be taught in all schools, by all teachers, to all students. There are six skills that are broken down into several standards across grade levels. Teaching Student Success skills will support students in creating a foundation for managing emotions, healthy relationships, understanding and empathizing with others, being responsible and safe, and learning to cope with difficult situations. The standards will be taught throughout the school year.

RETHINK ED

ReThink Ed is a comprehensive K-12 online platform that is used to teach Student Success Skills. Educators use the instructional materials, lessons, and activities within the ReThink Ed platform to deliver instruction. Various instructional strategies are used by teachers to teach the skill, allow students to practice the skill, and take a deep dive into applying the skill. Each lesson also has an Academic Connection which links each skill to academic content.

THE RESEARCH

Interventions focused on these key skills lead to increased academic performance, improved classroom behavior, increased ability to manage stress and depression, and better attitudes about themselves, others, and school. The positive impacts of this work are long term and far reaching. These skills can help reduce poverty, improve economic mobility, and improve life outcomes. (CASEL 2020)

REJOIN MODULE

The purpose of the Rejoin Module is to ensure a strong start for students with settling into our 'new normal' in the wake of the pandemic. Lessons will help students build skills in identifying emotions, managing difficult emotions, identifying support systems, and building resiliency. Rejoin Module lessons will be taught the first five weeks of school.

HOME CONNECTION

Student Success Skills can also support parents and caregivers as they help their students manage emotions, set and achieve positive goals, and make responsible decisions. Home Connection letters are available to provide parents and caregivers with tips and strategies to reinforce Student Success Skills with their student at home. Spanish versions of many resources are also available, including connection letters and closed captioning of adult and student videos.

SCAN THE QR CODE TO CREATE A RETHINK ED PARENT ACCOUNT

Parents and caregivers can access Student Success Skills lessons online through creating a ReThink Ed Parent Account or through your student's ReThink Ed Student Account via ClassLink. To access your student's account, log into ClassLink using your student's login information and then click on the ReThink Ed app.
