

AUTOMOTIVE TECHNOLOGY

The **Automotive Technology Program of Study** emphasizes a curriculum in automotive mechanic's theory and practical applications necessary for skillful employment. Program graduates will be well-rounded entry-level technicians.

GPA REQUIREMENT: Minimum 2.0 GPA

SALARY: \$44, 570 - Average Salary in Georgia for Automotive Service Technicians and Mechanics

Source: O*Net Online - Georgia Wages: 49-3023.00 - Automotive Service Technicians and Mechanics (onetonline.org)

AUTOMOTIVE TECHNOLOGY

TECHNICAL CERTIFICATES OF CREDIT (TCCs) AND COURSES

AE41 Auto Electrical/Electronic System Technician

- › **AUTT 1010** - Automotive Technology Introduction (2)
- › **AUTT 1020** - Automotive Electrical Systems (7)

Program: 9 Credit Hours

AE51 Automotive Engine Performance Technician

- › **AUTT 1010** - Automotive Technology Introduction (2)
- › **AUTT 1020** - Automotive Electrical Systems (7)
- › **AUTT 1040** - Automotive Engine Performance (7)

Program: 7 Additional Credit Hours

ASG1 Automotive Chassis Technician Specialist

- › **AUTT 1010** - Automotive Technology Introduction (2)
- › **AUTT 1020** - Automotive Electrical Systems (7)
- › **AUTT 1030** - Automotive Brake Systems (4)
- › **AUTT 1050** - Automotive Suspension and Steering Systems (4)

Program: 8 Additional Credit Hours

AH21 Automotive Climate Control Technician

- › **AUTT 1010** - Automotive Technology Introduction (2)
- › **AUTT 1020** - Automotive Electrical Systems (7)
- › **AUTT 1060** - Automotive Climate Control Systems (5)

Program: 5 Additional Credit Hours

While only two Technical Certificates of Credit (TCCs) are required for graduation, students have the option to earn up to four TCCs with each being fully funded through Dual Enrollment Funding.
