

Meeting #6
November 1, 2018

Purpose of the meeting:

Representatives from each of the remaining Publishers, for each grade level range, made presentations to the grade level/course groups illustrating the ins and outs of their programs.

Points of discussion:

- Break Out Groups:
 - Each vendor representative presented for exactly 60 minutes.
 - Committee members were able to take notes on the rubric, and assign a rubric score for each publisher.
 - Committee members were provided a 2nd note paper on which to collect notes to bring back to their communities to collect feedback from non-committee members.
 - Committee members had a half of an hour break between presentations to ask questions, review their notes, summarize their observations, and decide on rubric scores.
 - Rubrics were collected after each presentation. At the conclusion of the last presentation, committee members received all of their rubrics for a final look-over, all rubrics were collected a final time and scores were recorded.
- Homework:
 - Committee members were asked to share with their community any notes they took from the Vendor Presentations. Members will bring feedback on December 17 when we meet again to confirm a final recommendation to bring to the Board.
 - Identified materials will continue to be on display through December 17 for Community Members to review. Committee Members are asked to publicize this information to their school/community members.
