VISIONING MEETING #4 SITE PLAN OPTIONS

SITE PLAN

Mentimeter

Have we addressed your input for the site design?

Mentimeter

- Looks beautiful!!!
- Not at all.
- Yes all questions addressed
- Yes drop off!
- Yes, love it!
- How many lanes are in the drop off area?
- Yes
- Looks very safe
- No

24

Have we addressed your input for the site design?

Mentimeter

Drop off looks much better!

Yes. It's beautiful

Yes, items have been addressed. Looking good so far!

Is the large bldg on the north a two story bldg?

What a great addition to the community!

Yes

Has there been any consideration given to the single family homes. Noise, light, exhaust

Love the separation of staff/parent parking, bus lane and deliveries.

Looks amazing, great job!!

24

Have we addressed your input for the site design?

Mentimeter

Yes

Parking/drop off is much improved

The new building will be a great addition to the neighborhood.

No. This is thr first time weve heard of these changes. We live in a single family home that borders Pueblo.

Too soon to ask the question

For the most part would have liked to see preschool and Pre-K parking a little closer to where Preschool and Pre-K are

24

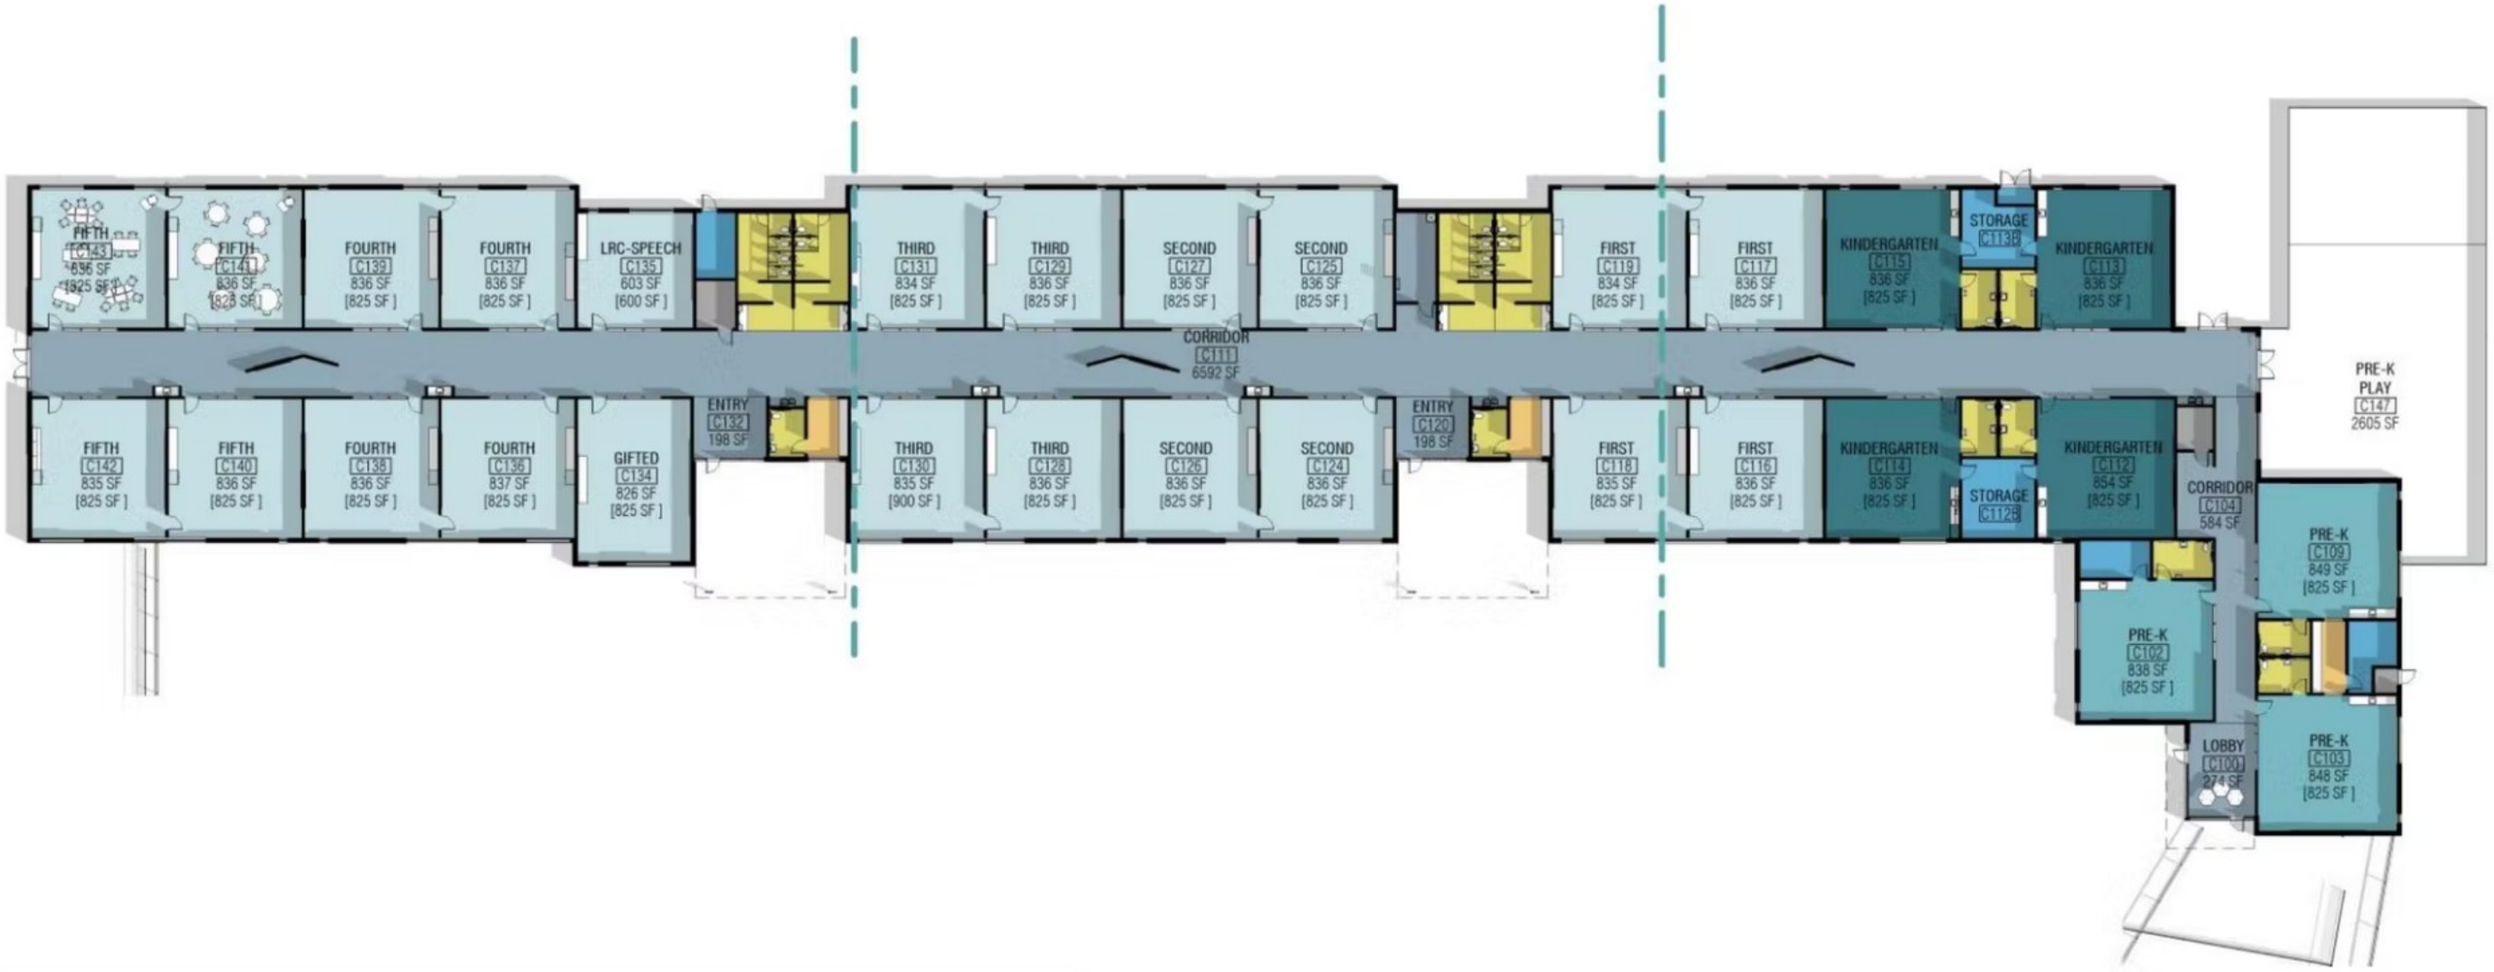

CURRENT FLOOR PLANS

Mentimeter

ADMIN BUILDING FLOOR PLAN

Mentimeter

CLASSROOM BUILDING FLOOR PLAN

MULTI-PURPOSE BUILDING FLOOR PLAN

Do the plans reflect how Pueblo will educate students for the future?

Mentimeter

Nope

Yes :)

I would love to be a student in this building!

Yes safety and into the 21st century

I am curious if covid played any part in the classroom design

Yes! Safe, secure, clean campus!

It will keep the students safe.

Yes good thought into children moving around campus

Yes, I love it

21

Do the plans reflect how Pueblo will educate students for the future?

Mentimeter

I like how the classrooms reflects the partner classes

Sure but that's not the angst. Your plan is severely impacting perimeter residents and does not have to.

Yes. Like that they are grouped by teams still and that grades are put together. Glad to see classrooms for our preschool and Pre-K as well

Yes because security seems better. Teachers have easy access to admin and work rooms. If everything is safe and accessible of course it supports future learning

Yes, connecting classrooms and interior hallways/learning areas.

Yes the grouping of the classrooms are great for our model. Love the indoor and outdoor space for performance. Very exciting!

I think the interior design seems to makes sense for the future

They are a wonderful design for Pueblo's unique Dual Language program

So much thought was put into this & it is clear everyone was considered. The kids are the priority and the flow supports them so well. The location is fabulous and secure for our students and staff. The angled building is considerate of neighbors

21

Do the plans reflect how Pueblo will educate students for the future?

Mentimeter

Love how it will foster collaboration between classes.

I don't think your presentation so far has given enough information to answer this question

What is the amount of area to the west? Seems like there is more room to the west to just move everything west.

21

BUILDING MASSING

LET'S HEAR FROM YOU

Mentimeter

Do you like the direction the project is heading?

Mentimeter

Yes!

Absolutely!!!!!!

Yes

Yes

Yes, looking good!

Love it all ... can't wait

Yes. It is so much better than what exists right now.

Looks amazing!

Absolutely beautiful! I love the safety and function of the design!

21

Do you like the direction the project is heading?

Mentimeter

Yes, Amazing job!! Very well thought out!.

Very exciting project!

I love it. We love it. We love you guys 💜💛

No

Still have concerns about impact on single family homes on the north & east.

Yes this beautiful! Looking forward to this! Thank you it seems very well thought out. 💕.

The thought put into this is so wide and considerate. So much detail and so many angles have been considered. We appreciate all you have done! This is better than we could have imagined!

The classroom set up and campus aesthetic looks great but as a homeowner whose views will be directly affected I still have many concerns of substitution of nice own views to classes over looking our yards.

Yes! I can see so much thought and work has gone into this. It is beautiful! Pueblo's students and teachers are finally going to get the amazing learning environment that they deserve!

21

Do you like the direction the project is heading?

Mentimeter

I think it looks amazing! Now the outside can truly reflect the excitement and energy of what's really is going on in the inside!

I am so excited for this school for my kids and future generations.

Nice school but you are impacting perimeter residents unnecessarily.

21

Have we addressed your comments from the previous meeting?

Mentimeter

Yes plenty for everyone. Many thank yous and many blessings

Looks great!

2

Has the project captured the Pueblo Culture?

Mentimeter

QUESTIONS & WRAP UP
