

Next Generation Firewall

Presentation for SUSD School Board
Debi Spaulding, Chief Systems Officer
01/11/18

Current State

- “Bottlenecks” in network
 - Internet Bandwidth available 2Gbps (expandable)
 - Web Filtering Max throughput 1Gbps
- Limited Firewall Functionality
- Multiple, disparate systems

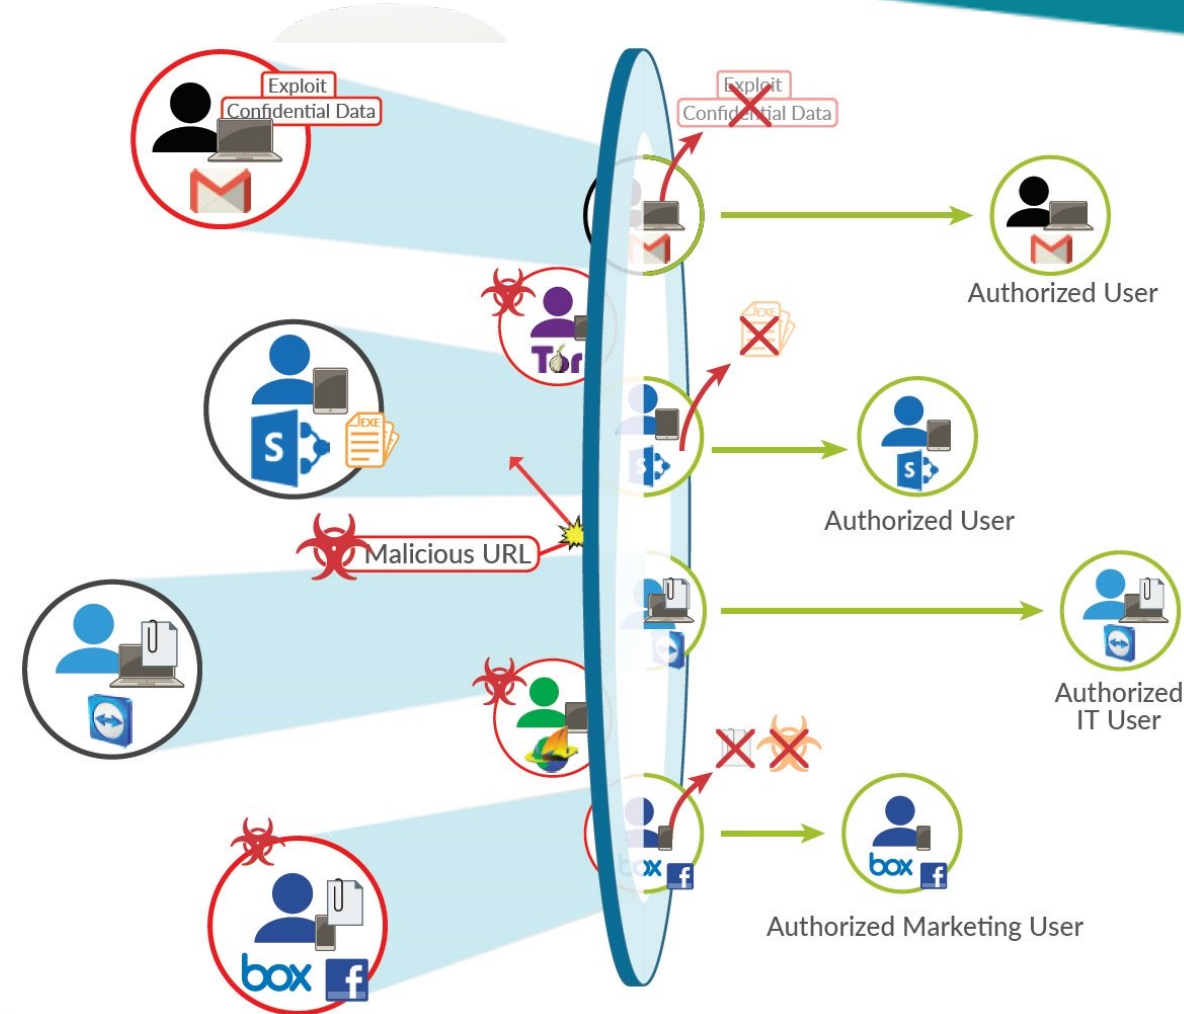

Benefits of Palo Alto Next Generation Firewall

- Remove 1 Gbps traffic throughput restriction
- Planning for increases in traffic
- Increased security features
- Replaces multiple systems
- Safely enable applications
- Prevent advanced threats
- Enhanced visibility of traffic

Functionality

- Firewall
- Web Filtering
- Malware Sandboxing
- Intrusion Prevention

Pricing

- \$203,204.00 + tax
- Includes:
 - Redundant power supplies
 - Capacity for 10Gbps inspected traffic
 - 3 years licensing
 - 3 years support
