MEAL SERVICES TO CHILDREN WITH DISABILITIES

Dear Parent/Guardian,

Most children with disabilities have no special dietary needs. They are able to participate in the Child Nutrition Programs the same as all other children in the school. In some instances, however, children with disabilities may experience difficulty when chewing and swallowing which would require that the physical characteristics of their foods be changed. Some children with severe disabilities may need special foods or a therapeutic diet.

Federal regulations require schools and institutions to serve meals at no extra charge to those children whose disabilities restricts their diets in such a way that they cannot fully participate in the food service program without some modification to the foods offered or the scheduled menu. If you believe your child needs substitutions because of a disability, please get in touch with us for further information. You must request the special meals from the school and provide the school with medical certification from a medical doctor. This medical certification must contain the following.

Verification that the special meals are needed due to the student's disability and a recommendation/préscription for alternate foods and forms of foods needed to meet the dietary needs of the student.

If you have any questions regarding the need for meal modifications, contact Lawrence A. Anthony at 845.758.2241 ext. 38100.

Sincerely,

Lawrence A. Anthony
