

"Old-Style" Boys Divisional Team Rankings (by Classification)

Who's Who has long maintained rankings by classification. What follows is a continuation of the traditional rankings, which solely reflect a team's performance within a particular classification level.

Please understand that the point totals will necessarily differ from the All-Time Team Rankings, inasmuch as the below reflects only performances within a classification and invariably reaches back to a different starting season than the comprehensive All-Time Rankings do.

Before long these Divisional Rankings will be retired in favor of the cross-classification All-Time Rankings. This is offered here for those long-time coaches who would like to see how this has shifted relative to last year's publication. It has been updated to include the 2023 season

Methodology: teams earn points for qualifying for state (10 points), for each team they beat at State (2 points), and for any top-four finishes at State (1st-50 points, 2nd-30 points, 3rd-20 points, 4th-10 points; due to the occasional small number of complete teams in the smallest division, points are not awarded for a 4th place team finish unless the field of competition numbered at least eight teams.)
