

Four Year State Qualifiers

What follows is a list of all student-athletes who have qualified for the Oregon State Championships in all four years of their high school running career. They are ranked by their success at State (the places they earned all four years, added together). 1966 (if senior season) to 2023

Please note: Schools are listed by the Classification in which the athlete competed. If it says "Switch", it means that either the student-athlete transferred between schools of different Classifications or the school was shifted to a different classification during the athletes time competing, and therefore the field of competition - in terms of school sizes - was different. The 5A/6A did not have a State Championships in 2020 due to the global Covid pandemic, so that derailed some potential streaks

RECORDS SUPPLEMENT

5A/6A did not have a State Championships in 2020 during the Covid pandemic, whereas the 4A/3A/2A/1A coaches were able to create championships for their classifications. The 5A/6A athletes had no control over this, and we do not want their cumulative career achievements to go uncommented upon. What follows are 5A/6A runners who did run in the 2020 season (but no State meet) and who then qualified for State in the three years which bookend this 'No State' year. (We will deliberate at a later date to decide if this supplement becomes a permanent feature of this historical ranking or not.)
