

BUILDING THINKING CLASSROOMS

Are you an educator looking to create a dynamic learning environment that promotes critical thinking and problem-solving? Join us for our full-day workshop on Building Thinking Classrooms!

- Learn how to engage your students in deep thinking and inquiry.
- Build a classroom culture of learning that supports students as they grapple with challenging concepts.
- Explore the research of Peter Liljedahl to learn teacher moves that build a thinking classroom.
- Develop a toolkit of strategies and activities that you can use to promote critical thinking and inquiry in your classroom.
