

THE PROMISE CAREER INSTITUTE

At **The Promise Career Institute**, students experience a transformative educational journey that goes beyond traditional high school education. Through an innovative curriculum developed through our partnership with Atlanta Technical College, students can earn technical certificates by taking college courses while enrolled in high school. These technical certificates provide valuable credentials that **prepare students for entry into their desired career field immediately upon high school graduation**. By combining rigorous academic coursework with hands-on training and college coursework, **The Promise Career Institute equips students with the practical skills and knowledge needed to excel in their chosen professions**. The Accelerated Career Diploma program not only fast-tracks students' college and career readiness, but also empowers them to pursue further education and professional growth with a solid foundation.
