

Immediate Mental Health Resources

If you are experiencing an emergency, please seek immediate assistance and/or call 911. For your convenience, some resources are listed below. The following facilities provide 24-hour assistance and have shared with the District that they will complete emergency assessments at no cost. If your child already receives support from a mental health provider, you may wish to make contact with that professional first. You may also want to check with your insurance company regarding mental/behavioral health coverage. Please note that the District does not endorse any provider, makes no representations as to the effectiveness of these providers, and makes this information available only as a helpful resource.
