Welcome

We are all enthusiastic about our 2024 summer program and are eager to welcome both new and returning families. Since its inception nearly 40 years ago as a place for neighborhood kids to play basketball, Marlborough Summer has made tremendous strides. From that time, thousands of children have registered in our program, enjoying fun-filled summers, engaging in both well-known and unfamiliar games and activities, and making new friends in the process.

We recognize the value of a challenge, which is why we encourage your children to attempt new things. Every camper has the desire to grow, no matter how big or tiny, and we work hard to support them in doing so. In order to help foster this growth, our campers participate in a wide range of innovative activities, such as art-making using various media, bizarre science experiments, arts and crafts, and workshops in addition to receiving expert teaching in age-appropriate math, English, and sports. Our constant goal is to provide engaging and challenging programs that appeal to all age groups.

Finally, at Marlborough Summer, we recognize how critical it is to stay in touch with every parent. Therefore, we make sure our parents are informed about our fun events via emails and posts on our Facebook and Instagram (@marlboroughsummer) sites.

We anticipate having an amazing summer with your children, and we can't wait to meet them!

Ida, Michelle, Erick, Lael & Laila

Ida Dahan, Director of Summer School and Enrichment Programs
Michelle East, Assistant Summer School Director, Camp Mustang Coordinator
Erick Huezo, Student Worker Coordinator
Lael Williams, Mighty Mustangs Coordinator
Laila Dahan, Summer School Office Manager
Important Dates

Please refer to our calendar online for any changes. Once you enroll, you will receive weekly emails about upcoming events and important information.

Enrollment & Registration Policies

- Registration is on a first-come, first-served basis.
- Wait lists are available for each class. Families will be notified if space becomes available.
- There is a non-refundable registration fee of $100 per student.
- Students must be enrolled in consecutive courses if they are to remain on campus. No exceptions.
- Students enroll in courses for the grade they will enter in the Fall of 2024.
- All schedule changes incur a $50 change fee once online registration is completed. No refunds or credits are given if the new course is less than the original choice.
- May 24, 2024 is the final day to withdraw. Students who withdraw by this date are eligible for a refund of their tuition less the non-refundable registration fee and a $100 cancellation fee.
- On May 1, under-enrolled classes may be canceled. Families will be notified if cancellations affect their registration.
- Marlborough Summer School accepts Visa, MasterCard, American Express, and Discover, or E-Check. No other forms of payment will be accepted.
- Families may elect to pay the entire balance at the time of registration or pay 50% at the time of registration and the remaining 50% by May 15, 2024.

For-Credit Classes

The 21st century student is a year-long learner. By being an active member in one of our classrooms, students can get caught up or get further along the college path with for-credit academic courses, offered for students in grades 9 through 12. We blend the best of a traditional classroom with the exciting frontier of directed, online educational resources. All of our classes are taught by Marlborough teachers, with low teacher-student ratios for the summer student who needs extra support. Courses meet UC standards and are approved by WASC. We hold students accountable to the same standards
as we do during our normal academic year, so students are expected to demonstrate resourcefulness and self-advocacy.

**One-Week Camps**
Marlborough offers a number of one-week camps/workshops in a wide variety of subject areas. This summer we will offer science, coding, math, and sports camps during the weeks of June 10 and June 17. Extended care will be available from 1:00-3:00 p.m. for students who need to remain on campus after their camp is done for the day.

**Five-Week Program -- Kindergarten & First Grade**
Marlborough Summer has a variety of classes available for students entering Kindergarten and First Grade in the fall. We are excited to provide parents and students with age-appropriate activities and experiences. Parents may elect for their students to participate only in morning classes or they may add afternoon activities. Kindergarten and First Grade students will always be supervised, including during lunch time. Please note only students enrolled in an afternoon class may stay for lunch.

During the Five-Week Program, Kindergarten and First Grade students can enroll in Camp Mustang in the Morning or Camp Mustang in the Morning with Swim. Camp Mustang in the Morning is from 8:00 a.m. to 12:05 p.m. Tuition for Camp Mustang is for the entire morning through the five weeks. We value the opportunity for all students to meet new people as they enjoy our program and begin their introduction to Kindergarten or First Grade. Therefore, we do not accept requests for students to be placed together in the same group - no exceptions. Students will be placed in groups prior to the beginning of the Five-Week Session. Parents will receive an email before the start date with group information and other pertinent details about the upcoming weeks.

Camp Mustang in the Morning is a combination of our best course offerings and includes an introduction to words and numbers that children will see in the fall. The program also gives students the opportunity to create art, dance, sing, and experiment and build in science. It is an age-appropriate taste of all that Marlborough Summer School has to offer. Parents may also select Camp Mustang in the Morning with Swim Lessons. Limited enrollment is available.

Camp Mustang in the Afternoon is open to Kindergarten and First Grade students who would like to remain on campus beyond 12:05 p.m. Students enrolled in Camp Mustang in the Afternoon are provided lunch with their counselors and remain with them throughout the afternoon while engaged in various activities like Dance Camp, Legos, Reading Time, Art, and more.

Five-Week Program -- 2nd Grade
We are happy to offer a program designed specifically for students going into 2nd grade. They will be divided into groups with their peers and take science, English, math, art, music, and athletics classes in the morning, followed by afternoon concentration in one or two classes, if they are staying for the afternoon. Lunch is provided to students enrolled in the afternoon (Period 5) session.

Five-Week Program -- Grades 3 and Up
Students in Grades 3 and above may choose from over 150 different classes during the Five-Week program. Classes for Grades 3 and above offer more flexibility for start and end times. Students must enroll in back-to-back classes in order to stay on campus.

Our Period 5 camps will include Afternoon Athletics, Swim, Performing Arts, Dance, Science, and Music.

Lunch
Students enrolled in Afternoon Classes automatically receive lunch as part of their enrollment package. Lunch is served buffet style in Cafe M from 12:20 p.m. to 12:45 p.m. Grade levels eat together with their friends and camp counselors. Each day of the week has a different theme, but also includes a choice of cheese pizza, fresh salad bar, and sandwich wraps. All meals are prepared on site by Café M and are made based on nutritionist guidelines.

We cannot accommodate special meal requests. If your child has a food allergy, we recommend sending food from home.

How to Enroll
Enrollment for Marlborough Summer School takes place online at www.marlboroughsummer.org. Parents must create an account and complete the registration online. Registration cannot be completed in person. Payment is due at the time of registration and may be made by Visa, MasterCard, American Express, Discover or E-Check only. We cannot accept any other form of payment.

Following registration, all communications from the School will be sent via email from summer@marlborough.org or ida.dahan@marlborough.org. Please read all communications carefully. Changes
to your child’s schedule may only be made by contacting the Summer School Office at (323) 964-8401 or summer@marlborough.org. Parents CANNOT make changes online.

**Wait Lists**
If your first-choice class is full, we recommend that you register for your second-choice class. Students are added to the waitlist on a first-come, first-served basis. Families will be contacted if a space becomes available. There are no guarantees that spaces will become available, and we cannot predict if a spot will open.

**Frequently Asked Questions**

**Is Marlborough a summer camp or a school?**
Marlborough Summer School is a five-week summer school. We are not a camp; we are so much more! We offer enrichment classes for students to explore their passions and develop their minds, bodies, and imaginations. Our classes are five weeks in duration, but we also offer one-week camps in a variety of subjects.

**Can I sign up by the week?**
We have several week-long camps that students can register for. You can choose to only register for one-week camps. However, if you are interested in classes held during our 5-week session you must sign up for the full five weeks. If a student needs to miss days of school, that is fine, but we do not pro-rate for absences.

**When I am selecting classes, do I pick classes for my child’s current grade or the grade in the fall?**
Please choose classes for your child’s grade in the fall and make certain to select the correct grade. The registration system will not allow you to view a class unless it is for the grade your child will be entering in the fall of 2024. Enrollment is first-come, first-served. It is possible that some parents will be able to register for a class and others will not. If you are informed that the class you want is full, your best option is to register for the wait list. If a spot opens, we will contact you at that time.

**How much does Summer School cost?**
Your cost will vary depending on the type of classes and number of classes you select. All prices are included in this catalog.

**Do you offer financial aid?**
Unfortunately, we do not offer financial aid to the public. Current and incoming Marlborough students already receiving financial support may qualify for financial aid toward academic classes with permission from their Division Director. Parents of current or incoming Marlborough students should reach out to the appropriate Division Director prior to registering for Summer School.

**What if I need to withdraw my child?**
The last date to withdraw and receive a refund is May 24, 2024. After that date, you may withdraw, but there are no refunds. No exceptions. Families who withdraw by May 24 will receive their paid tuition, less the $100 non-refundable registration fee and a $100 cancellation fee.

**My child has changed his/her mind and would like to change a class. Can I do that myself?**
No. Once you complete your online registration, only we can make schedule changes on your behalf. You may call or write, and we will make the change for you. Please note that there is a $50 schedule change fee each time you make a schedule change. In addition, you will be responsible for any additional tuition.

**Can I register for a few classes and add more later?**
Absolutely. Register for the classes you know are important to you and contact us when you are ready to add more. We will take care of the rest!

**Do you offer Extended Care?**
This summer we will be offering extended care in the afternoon (2:45 p.m. - 5:00 p.m.). Your student will be placed in groups by age, and will be supervised by our camp counselors. Activities will be available, there will be snacks and an opportunity to swim, play games on the field, watch a video, etc.
What impact has Covid-19 had on the program?
We continue to follow all recommendations and guidelines from the CDC, LA Public Health Department, and the State. Our primary objective is to keep our students and employees safe. At Marlborough we encourage, but do not require the vaccination. However, it is important to note that this may change as we get closer to the start of the summer program.
For-Credit Classes

Emergency Preparedness and Water Safety
Grade Level: 10-12
Session Dates June 3 - June 14
9:00 a.m. - 2:00 p.m.
Fee: $2,000

Marlborough Summer School offers the opportunity for students entering grades 10-12 to complete the Emergency Preparedness and Water Safety course requirement in a two-week course. This required course fulfills one of the Marlborough School graduation requirements.

Through this course, students learn to care for others in emergency situations, while learning about their personal safety in diverse emergency medical situations.

The main components of the course include: First Aid, CPR, Patient Assessments, and Water Safety. Students will participate in scenarios, practical skill testing, and simulated rescue drills, and generally train to be well equipped to handle emergency events. Students will also develop team leadership skills by using strong collaborative and communication skills during class exercises.

To pass the class, students must fulfill the requirements to earn the following American Red Cross certifications: CPR for the Professional Rescuer, Basic Water Rescue, Emergency Medical Response (including Advanced First Aid, Preventing Disease Transmission, the Detection of Hazardous Materials and Blood-Borne Pathogens, and Search and Rescue), Incident Commands, Oxygen Administration, and Multiple-Casualty Incidents.

In addition, for those who wish, there will be an opportunity to earn the American Red Cross Lifeguard Training certification, but this is not required to pass the class.

Due to the condensed nature of this course, attendance is mandatory on all dates. Students must attend and participate in the final simulated skills test and drill that occur during the last week. The simulated test and drill are mandatory for course credit - no exceptions. Again, students must attend both weeks, in order to receive the semester credit for Physical Education and fulfill the Marlborough graduation requirement.

Geometry for Credit
Grade Level: 10-11
9:30 a.m. - 1:30 p.m.
Session Dates: June 17 - July 26
Fee: $2,825

This course is designed for students who have completed Algebra 1 in 9th grade and will be entering 10th or 11th grade in the fall. Topics include Euclidean geometry, introduction to logic, trigonometry, coordinate geometry, and transformational geometry. Students taking this course will need a scientific calculator.

This course satisfies the regular Geometry requirement at Marlborough. A minimum of an 80% class average allows a student to enroll in regular Algebra II with Trigonometry in the fall. This course does not advance students into Honors Algebra II and Trigonometry.

This course will be on campus and include breaks and a lunch period.

Prerequisite: Students must have completed Algebra 1 and be entering 10th or 11th grade in the fall.
ONE WEEK CAMPS

Girls Rule!

Marlborough Robo Camp: A Crash Course in Competition Robotics
Grade Level: 8-9
Session Dates: June 10 - June 14
9:00 a.m. - 12:00 p.m.
Fee: $800

The premise is simple; students will work together in a small group to design, build, program, and compete with a robot similar to those found in the FIRST Technical Challenge. Students will leave camp with a working knowledge of robot parts, basic robot subsystems (such as object manipulators), the REV Robotics control system, and the Java programming necessary to operate their robots. The camp will culminate in an exciting head-to-head robot competition.

This camp is best suited for rising 8th-9th grade students who want to participate on Marlborough Robotics Teams, and serves as an alternative to the Intro to Robotics elective during the regular school year. This camp is also well suited to any student looking for an introduction to robotics competitions, particularly the FIRST Technical Challenge.

Summer Coding Workshop for Girls
Grade Level: 7-12
Session Dates: June 10 - June 14
1:00 - 3:00 p.m.
Fee: $550

This one-week intensive coding workshop will introduce students to computer graphics programming using the Processing language (a simplified version of Java). No coding experience is required. However, if you have coding experience, we will build on what you know and you can use this workshop to launch a larger project. You will create your own interactive animations and video games. You will also learn about standard programming concepts such as variables, functions, conditionals, and loops. Motivated students can use this workshop as a crash course for AP Computer Science A, and this will give you a good start on your summer project for the class.

Athletics/Sports

Basketball Skill Development Camp
Grade Level: 4-9
Session Dates: June 17 - June 21
9:00 a.m.-12:00 p.m.
Fee: $550

Taught by Sixx Johnson, head varsity basketball coach at Marlborough, the basketball skill development camp focuses on improving basic skills such as dribbling, passing, and shooting. The camp will help players understand the game at a higher level while promoting team-play. A fun preparation course for school or club experience, this camp is designed for beginning or intermediate basketball players. It’s a great opportunity for boys and girls grades 4-9 to have fun, enhance their level of play, and make new friends. Players of different ages will be separated to ensure adequate skill development. The techniques can be easily implemented so that players can continue training on their own and raise their game to a higher level. Come join us for a good time.

Basketball Advanced Development Camp
Grade Level: 5-11
Session Dates: June 17- June 21
1:00 - 4:00 p.m.
Fee: $550

Taught by Sixx Johnson, head varsity basketball coach at Marlborough, the basketball advanced development camp takes training to a whole new level. This camp focuses on raising each player’s ability to compete at the next level. Whether your goal is making the middle school team or preparing for high school, this camp challenges each player — propelling them to tap into unknown potential. A fun yet challenging preparation course for school or club experience, this camp is designed for intermediate and advanced players. It is a great opportunity for boys and girls grades 5-11 to have fun and improve skill levels while making new friends. Players of different ages will be separated to ensure adequate skill development. The techniques can be easily implemented so that players can continue training on their own and raise their game to a higher level. Come ready to work!
Volleyball Sports Camp
Grade Level: 5-8
Session Dates: June 10 - June 14
9:00 - 12:00 p.m.
Fee: $650

Grades 4-7
Session Dates: June 10- June 14
1:00 - 4:00 p.m.
Fee: $650

The volleyball sports camp is taught by Marlborough Volleyball Coaches. The volleyball camp will focus on teaching good fundamental techniques necessary to move forward in school and club programs. Both beginning and intermediate volleyball players are welcome to attend this fun week of volleyball. This course is open to both boys and girls in grades 5-8 who want to enhance their current level of play.

Mathematics

Algebra II with Trigonometry Honors Preparation
Grade Level: 9-11
Session Dates: June 17 - June 21
9:00 - 11:00 a.m.
Fee: $570

This week-long course will help students prepare for Algebra II with Trigonometry Honors. It is especially designed for students who have never taken an Honors course; however, anyone who is about to take Algebra II with Trigonometry Honors is welcome. The prerequisite is Geometry or Geometry Honors, and being enrolled in Algebra II Honors for the fall. This course is not for credit, and it cannot change a placement recommendation.

Bridge to Pre-Algebra
Grade Level: 7
Session Dates: August 12 - August 16
9:00 - 11:00 a.m.
Fee: $570

Bridge to Pre-Algebra is a course designed for students entering grade 7 who want to build skills to be successful with beginning Pre-Algebra topics. This course will help students master operations with integers, fractions, and decimals. It will explore these concepts along with practicing order of operations and beginning ratios and proportions.

Science

Mad Science: ADVENTURES IN SCIENCE!
Grade Level: K-2
Session Dates: June 10 - June 14
9:00 a.m. - 12:00 p.m.
Fee: $800

Learn about your surrounding environment and how science will help us protect our planet. Discover how Newton’s laws are at work in your favorite sport. You will even become a young astronaut for a day while exploring the mysteries of the solar system. From the depths of the earth to the heights of the solar system this will be one adventurous week of science!

Mad Science: CRAZY CHEMWORKS!
Grade Level: 3-5
Session Dates: June 10 - June 14
9:00 a.m. - 12:00 p.m.
Fee: $800

Shake up a flask of fun in the lab as a junior chemist! Campers learn to swirl, pour, and mix like a scientist! Chill down and heat up at the atomic level as you change liquid to solid and back again. Learn how to handle laboratory tools, build and break molecules, and pick up some tricks on chemical changes with solids, liquids, and gasses. Hop on board the chemistry express this summer for a high-speed science experience!
**Mad Science: FUN-GINEERING, MIX-UPS & MORE!**  
Grade Level: K-2  
Session Dates: June 17 - June 21  
9:00 a.m. - 12:00 p.m.  
Fee: $800  

Put on your engineer’s hat to see how science is used to build skyscrapers, bridges, and tunnels. Use simple machines to help lift weights and even launch marshmallows. Spend a day being a true Mad Scientist as you learn about chemical reactions that you might encounter in your daily life. See how film captures light to store images and how filmmakers make images move during “Shutterbugs” day. Walk on the wild side and explore the nature of birds, beasts, and bugs.

**Mad Science: INTRODUCTION TO ROBOTICS!**  
Grade Level: 3-5  
Session Dates: June 10 - June 14  
9:00 a.m. - 12:00 p.m.  
Fee: $800  

Join us for a week of fun with a variety of robotics and automatons. Learn about the uses of robotics in our world. Spend time playing, building, and experimenting with different robot designs, as you learn what makes a robot work. Use your skills to build your very own working robot (automaton) to take home with you at the end of camp. *Due to the level of difficulty in our building project, campers must be at least 8 years old.*

**Mad Science: NASA SPACE ACADEMY**  
Grade Level: 3-5  
Session Dates: June 17 - June 21  
9:00 a.m. - 12:00 p.m.  
Fee: $800  

Join our Academy of Future Space Explorers and take to the Moon, Mars, Stars...and Beyond! We’ll study stunning space phenomena while we unlock the mysteries of meteors. Learn about living in space by working on a model space station just like a real astronaut! And how could we study space without learning the secrets of Space Travel and Rocket Science? This program is literally out of this world!

**Mad Science: SECRET AGENT LAB**  
Grade Level: 3-5  
Session Dates: June 17 - June 21  
9:00 a.m. - 12:00 p.m.  
Fee: $800  

James Bond? Sherlock Holmes? Austin Powers? Do you think you have what it takes to discover “Who done it?” If so, this camp is for you. Use the Secret Code Breaker to communicate in code like your favorite spy. Connect the dots to help solve a crime in a hands-on investigation. Learn how to decode messages and check out spy equipment and even create your own edible message! You’ll be an expert crime stopper by the time the week is through.

---

**Special Opportunities**

**AI Scholars: Interdisciplinary Artificial Intelligence Project-Building Program by MIT & Stanford Graduates**  
Grade Level: 9-12  
Session Dates: June 10-14  
9 a.m. - 12:00 p.m.  
Fee: $800  

Session Dates: June 17-June 21  
9 a.m.-12:00 p.m.  
Fee: $700  

What do self-driving cars, Alexa, and iPhone’s face recognition technology have in common? They are driven by modern advances in artificial intelligence. Whether you’re interested in law, healthcare, art, or economics, AI is poised to transform every discipline and industry in the future. AI is already all around us today, and by the end of the program, students will understand the underlying concepts and motivations behind technology such as computer vision, natural language processing, and neural networks.

In this course, we will inspect the foundations of machine learning and explore different applications of machine learning models. In the first half of the course, students learn AI’s core technologies including applications, foundational concepts, and programming tools through live online lectures and coding labs. Students will not only learn about different types of machine learning models, but also apply those models to real data sets. In the
second half of the course, students will complete an instructor-led group project applying AI to the discipline of their choice (e.g., music, healthcare, astrophysics, finance, etc.), utilizing the programming skills they developed in the first half. No computer science experience necessary!

**Design + Build for Impact**  
Grade Level: 5-6  
Session Dates: June 10 - June 14  
1:00 - 4:00 p.m.  
Fee: $800

Do you enjoy solving problems? Do you enjoy moving from ideas to action? Do you enjoy fabricating physical products? Then this is the workshop for you! In Design + Build for Impact, participants will learn valuable problem solving and fabricating skills, including techniques for interviewing target customers, brainstorming ideas, creating digital designs, operating laser cutters and 3D printers, public speaking, presentation building, and effective teamwork. Using the Design Thinking Framework, students will work with a partner to create a physical solution to a problem, fabricate their design, and ultimately share their ideas with the group. No prerequisites necessary; this course is well-suited for students who want to learn, experiment, and work with others.

**Hearts In Action**  
Grade Level: 6-9  
Session Dates: June 17 - June 21  
9:00 a.m. - 12:00 p.m.  
Fee: $700

Calling all budding activists! Do you have a passion for making a difference in the world? How about protecting the environment? Helping animals? Advocating for equal rights?

In this week-long course, students will discover and explore causes close to their hearts, as well as how to kindly and effectively utilize their voices to impact change. The class will encourage students to express their opinions in a safe and creative way, while also helping aspiring activists develop their leadership abilities and confidence. Whether you want to start a movement or just become the greatest ally you can be, students will learn how to call their hearts into action to make a difference.

---

**Marlborough SPARC Tank**  
Grade Level: 5-6  
Session Dates: June 10- June 14  
9:00 a.m. - 12:00 p.m.  
Fee: $800

Session Dates: June 17 - June 21  
9:00 a.m. - 12:00 p.m.  
Fee: $700

Have you ever wondered how today’s most innovative companies came to be? Or ever had a great business idea and wondered how to turn it into something more? Then this is the workshop for you! In Marlborough’s SPARC Tank, participants will learn valuable entrepreneurial skills, including techniques for brainstorming ideas, practical problem solving, market research, public speaking, presentation building, and effective teamwork. Students will work in groups to build their own startups, get hands-on experience prototyping their solutions, and pitch their ideas to a panel of judges. By the end of the five-day workshop, students will be ready to take their ideas to the next level and launch their own entrepreneurial journey!

No prerequisites necessary; this course is well-suited for students who want to learn, experiment, and work with others.

---

**Extended Care**

**Week One**  
Session Dates: June 10-14  
12:00 - 3:00 p.m.  
Fee: $400

**Week Two**  
Session Dates: June 17-21  
12:00 - 3:00 p.m.  
Fee: $320

Extended Care provides a safe environment for students who need to remain for the afternoon. There will be activities, including arts and crafts, fun games on the field and in the gym. Snacks will be provided.
5-WEEK SESSION

Kindergarten and First Grade

Camp Mustang in the Morning
Grade Level: K, 1
Session Dates: June 24 - July 26
Fee: $2,700

Camp Mustang in the Morning is a special 4-hour morning program for children entering Kindergarten or first grade in Fall 2024. Camp Mustang participants are arranged in groups with other children entering the same grade and enjoy a variety of activities throughout the day. Each group, led by two Camp Mustang counselors, rotates through the following activities during the five weeks of the program: Stories, Words, and Numbers; Drama; Movement; Art; Music; Science; and Sports Activities. The Stories, Words, and Numbers component of our program is a sneak peek of the coming school year. There is NO homework for Camp Mustang.

Children are placed in groups of no more than 13, with two counselors/teachers' aides per group. Each group stays together during the day and throughout the five-week program.

In order to offer individual instruction and attention, we can only accommodate a maximum of 80 children on a first-come, first-served basis.

Camp Mustang in the Morning concludes at 12:05 p.m. Parents who would like their children to participate in afternoon programs should sign up for Camp Mustang in the Afternoon and, if needed, Extended Care from 2:45 p.m. - 5:00 p.m.

Children participating in afternoon programs will have lunch with their group (included in the price). Students who are not enrolled in afternoon programs must be picked up at 12:10 p.m.

All parents are invited to attend the Camp Mustang Performance during the last week of Summer School. The performance will showcase the skills learned throughout the session.

Please note we do not accept requests to pair students in groups. Groups are created so that everyone has a chance to meet new friends. All students are encouraged to play together during recess. Groups will be assigned in June.

Camp Mustang in the Morning with Swim
Grade Level: K, 1
Session Dates: June 24 - July 26
Fee: $2,800

Camp Mustang with Swim Lessons participants enjoy all of the activities other Camp Mustang participants experience but their athletics rotation is replaced with semi-private swim lessons each day from 11:20 a.m. to 12:05 p.m.

There are 20 Camp Mustang Swim spots available. Registration is based on a first-come, first-served basis.

Camp Mustang in the Afternoon
Grade Level: K, 1
Session Dates: June 24 - July 26
Fee: $1,400

Students who remain for the Camp Mustang in the Afternoon program will take one class at 1:15 p.m and one at 2:00 p.m. This summer we are offering the following:

Camp Mustang: Chess Club
At Marlborough Summer Camp, we introduce the 2,000 year old game of chess to students in a fun and exciting way! With all skill levels welcome, we teach students to play this incredibly popular game while helping them succeed in school (and in life!) by stimulating their problem solving skills, analytical skills, and critical thinking - all through the lens of respectful competition and sportsmanship. Checkmate!
Camp Mustang: Colors, Colors & More Colors
Students will explore, learn about and experience the magic and wonder of color. They will learn how primary colors can be mixed to create secondary colors and have an understanding of how warm and cool colors influence how objects can recede and move forward to create depth and perspective. They will understand how important color is in our lives and how they can express feelings through color. We will be using a variety of materials such as paints, crayons, oil pastels, clay, and paper (origami, construction, and crepe). Fine motor skills will be enhanced by activities such as folding, cutting, tearing, gluing, drawing, and painting.

We will share our color-works with each other as we go along and invite families and friends to celebrate our colorful creations during the final week of Summer School.

Camp Mustang: Dance Camp!
Dance Camp is a fun and high-energy class that was created to inspire and cultivate a passion for the performing arts. Each week the class will focus on a specific style of dance: jazz, hip hop, ballet, and contemporary. No experience is necessary, and students of all levels of experience are welcome.

Camp Mustang: Fairy Tale Hour
Wings, wands, pirates, oh my! Fairytale hour brings some magic to the week with both familiar and unfamiliar tales. Students will focus on learning the skills of creating a character and stories. Each week we will read and perform fairytales. Students will learn to work as an ensemble while using props and wearing fairytale costumes! Improv games will be played to promote students' imagination and creativity.

Camp Mustang: Lego Robot World
Lego Robot World provides children everything they love and need from a fun, stimulating activity. First, they are intellectually captivated and challenged by building motorized robots and machines out of Lego technic parts (yes, they really can build them!). Next, they imagine a world in which their walking robot, helicopter, motorboat, gear car, windmill or other robotic device exists and functions. Then, their creativity is ignited as they build the house, heliport or dock for their motorized creation. And finally, they experience joy as they play with their robotic machine in its environment and use it to interact with other children. And with thousands of Lego parts and a master Lego builder to help them build, children enjoy and learn from every visit to Lego Robot World (and rarely wish to leave). Lego Robot World promotes problem-solving skills, creativity, basic math concepts, self-reliance and self-confidence, all while children have tons of fun!
Grade 2

Mighty Mustangs in the Morning
Grade Level: 2
Session Dates: June 24 - July 26

This camp offers all of the cohesion, friendship, and guidance of Camp Mustang with the freedom a 2nd grader wants. Our Mighty Mustangs program supports our 2nd grade students as they become independent learners who navigate their classes, socialize, play, and make lasting friendships with their classmates and peers. Mighty Mustangs gives 2nd graders a home base to check-in, counselors to offer support throughout the day both in and out of the classroom, and an opportunity to choose classes that pique their interest while still collaborating within a program that strives to make every day the best day.

Period 1
Mighty Mustangs: Adventures in Storytelling 2
Period: P1
Fee: $685

The world of storytelling will come to life in this course where young writers will celebrate the many pleasures of language with our favorite children's authors. Students will learn the five parts of a story: the characters, the setting, the plot, the conflict, and the resolution. Students will listen to stories read aloud, they will practice reading with expression, and create a Writer's Notebook to record their own stories and illustrations. We will create a word wall, daily story writing, and writing activities.

Note: This course requires a lot of writing.

Mighty Mustangs: Beginning Chess
Period: P1
Fee: $685

At Marlborough Summer Camp, we introduce the 2,000 year old game of chess to students in a fun and exciting way! With all skill levels welcome, we teach students to play this incredibly popular game while helping them succeed in school (and in life!) by stimulating their problem solving skills, analytical skills, and critical thinking. All through the lens of respectful competition and sportsmanship. Checkmate!

Mighty Mustangs: Fun-damentals of Science!
Period: P1
Fee: $685

Kids discover the surprising world of science, gaining foundational knowledge that will help in their future scientific endeavors. Each class is a specialized area of science that will have kids exploring STEM topics including aerodynamics, circuit electricity, entomology, forensics, marine biology, mechanical engineering, physics, 3-D technology, and so much more! Mad Science’s inquiry-based, observational, and hands-on experimentation with dynamic instructors, sparks curiosity and fosters lifelong scientific thinking! Kids will ooze into the gooey SLIME Olympics, shake up solutions as they learn to use the tools of a chemist, collect fingerprints and clues to solve a crime, build cool devices to watch them work, and experience awesome FUN-DAMENTAL forces!

Mighty Mustangs: Soccer for Beginners
Period: P1
Fee: $685

Improve your performance on the soccer field and celebrate your passion for soccer in this class! Students will get on the field to learn and practice the skills and techniques that have made their favorite players, including Messi, Ronaldo, and Neymar, world-class athletes. Students will develop fundamental skills, learn to play in a team, and build confidence.

Mighty Mustangs: Swim
Period: P1
Fee: $700

The Mighty Mustangs Swim participants enjoy all of the activities other Mighty Mustang participants experience but they can opt to take semi-private swim lessons each day during Period 1.

There are 20 spots available. Registration is based on a first-come, first-served basis.
Period 2

Mighty Mustangs: Basketball Skills
Period: P2  
Fee: $685

Learn the five basic skills of basketball: dribbling, shooting, running, passing, and jumping. These fundamental skills are practiced by players of all levels. Students will receive individual as well as group instruction and have opportunities to put their skills to the test. They will learn the ins and outs of the game while having fun!

Mighty Mustangs: Drama Soup
Period: P2  
Fee: $685

Calling all creative chefs! Let’s make soup from our stories. A pinch of plot, boil a beginning, middle, and end, caramelize characters, and steam some silliness. Serve the audience a bowl of our delicious Drama Soup! We’ll combine all of our ideas into a play - prepare for a performance the last week of Summer School. Join us in a tasty class of yummy Drama Soup!

Mighty Mustangs: Mathletes 2
Period: P2  
Fee: $685

Mathletes 2 is a course designed for incoming second graders who need extra help or who want to get ahead. Students will focus on addition and subtraction facts, introduction to multiplication, money and geometry concepts, time, and problem-solving skills. Class time will be spent learning, playing games, and having fun with math! Optional homework emailed weekly.

Mighty Mustangs: Dance Around the World
Period: P2  
Fee: $685

This class explores music and dance from various countries around the world. Students will learn basic dance skills, self-expression through movement, and increased global awareness. Dance is a universal language that can be used to tell stories and share ideas. It can break language barriers and open the door for communication across cultures. When we dance together we build a community through having fun, and we are able to communicate nonverbally, no matter where we live in the world! In this class, students will learn choreographed dance routines to Salsa, Bollywood, West African and Chinese Dance. Dancers will use fun props like maracas, fans, and ribbons. A performance will be given on the last day of class!

Mighty Mustangs: Jurassic DinoWorld
Period 2  
Fee: $685

Learn all about dinosaurs in this engaging hands-on class! Join us as we explore the Triassic, Jurassic, and Cretaceous times with tons of super fun project-based activities! Excavating a baby dino from an egg, dissecting an owl pellet, and measuring the length of a dinosaur are just some of the Jurassic FUN in this epic adventure that you will not want to miss!

Mighty Mustangs: Making Art from Found and Recycled Materials
Period 2  
Fee: $685

Learn about a different way to create art. Instead of using traditional art supplies like paint and paper, students in this class will use materials that they find - things that we might normally consider waste or trash. This approach to art-making is not only fun and creative, but it’s also good for the environment because it helps to reduce waste. Students will learn about recycling and sustainability, and further their understanding of helping the planet!

Period 3

Mighty Mustangs: Adventures in Storytelling 2
Period: P3  
Fee: $685

The world of storytelling will come to life in this course where young writers will celebrate the many pleasures of language with our favorite children’s authors. Students will learn the five parts of a story: the characters, the setting, the plot, the conflict, and the resolution. Students will listen to stories read aloud, they will practice reading with expression, and create a Writer’s Notebook to record their own stories and illustrations. We will create a word wall, daily story writing, and writing activities. Note: This course requires a lot of writing.
Mighty Mustangs: Basketball Skills
Period: P3
Fee: $685
Learn the five basic skills of basketball: dribbling, shooting, running, passing, and jumping. These fundamental skills are practiced by players of all levels. Students will receive individual as well as group instruction and have opportunities to put their skills to the test. They will learn the ins and outs of the game while having fun!

Mighty Mustangs: Dance Camp!
Period: P3
Fee: $685
Dance incorporates so many kinds of movement. This course will introduce students to a variety of age-appropriate styles, techniques, and music that are all relevant and current in dance today. Students will explore musicality, the different qualities and textures of movement, and the importance of self-expression. Dance Camp is a fun and high-energy class that was created to inspire and cultivate a passion for the performing arts! Each week the class will focus on a specific style of dance: jazz, hip hop, ballet, and contemporary. No experience is necessary, and students of all levels of experience are welcome. Please note: Students who enroll in this class will be expected to participate in both the daytime and evening dance recitals during the last week of the summer school session.

Mighty Mustangs: Mad Science - ALL STARS!
Period: P3
Fee: $685
All-Star Scientists team up as engineers for problem-solving, communicating, designing, and testing, as they build race cars, technicolor blenders, and robot hands! Uncover the hidden components of light and wavelengths. Find out how refraction can make a rainbow! Discover sound waves and the way household items can be used to create amazing movie effects! Become a Climate Champion with imaginative solutions to reduce human impact on the environment. Explore the sensory nature of putty when altering the physical properties of polymer. See a reading and writing robot and move another through a maze! Experience elements of electricity that will tingle fingers and twinkle eyes! Eliminate the mystery in

Che-mystery! Investigate the powerful processes that shape the planet and form remarkable rocks, magnificent minerals, and glittering gems! This innovative class will inspire your All-Star to think like a scientist, create inventions, and better understand the world around them!

Mighty Mustangs: A Splash of Spanish!
Period: P3
Fee: $685
Put your toe in the water and splash around to learn some basics. Have fun with this energetic approach to learning a new language! A Splash of Spanish is filled with all sorts of activities so students can absorb the vocabulary through movement, music, storytelling, and plenty of games. Students will learn the alphabet, numbers, colors, clothing, animals, foods, places, family members, and more. Que bueno!

Period 4
Mighty Mustangs: Beginning Fencing
Period: P4
Fee: $685
Get in touch with your inner Musketeer! Fencing has a rich connection to history, conjuring images of swashbucklers, pirates, and heroes of old, as well as being one of the first sports for women in the Olympics. Fencing develops not only physical and technical skills, but encourages quick-thinking, creative problem solving, and concentration. Open to boys and girls, we provide all equipment in a safe and healthy environment where skills are developed through warm-ups, games, drills, challenges, and mini-tournaments. We develop the individual fencer as well as foster teamwork and esprit-de-corps. Fencers will need to bring sport shoes, long pants, and a water bottle. Students will demonstrate the skills developed over the summer in a performance during the last week of Summer School. En garde!

Mighty Mustangs: Creating Art
Period 4
Fee: $685
Mighty Mustangers will create different art projects while exploring their creativity. They will experiment with a variety of materials and techniques such as acrylic paints, watercolor paints, pastels, colored pencils, collaging, paper craft, found objects, patterns, and more.
Projects are designed to encourage students to explore a variety of materials and techniques.

**Mighty Mustangs: Lego Creativity Workshop**  
Period: P4  
Fee: $685  

It's time to knock your blocks off at the Lego Creativity Workshop! Learn basic building techniques as you work with Lego kits and more! Being LEGO Smart is more than building with LEGO bricks—it's having the ability to work in teams, solve problems, create solutions, and explore your creativity. Join us for the perfect combination of learning and fun!

**Mighty Mustangs: Mathletes 2**  
Period: P4  
Fee: $685  

Mathletes 2 is a course designed for incoming second graders who need extra help or who want to get ahead. Students will focus on addition and subtraction facts, introduction to multiplication, money and geometry concepts, time, and problem-solving skills. Class time will be spent learning, playing games, and having fun with math! Optional homework emailed weekly.

**Mighty Mustangs: Weird & Wacky Science**  
Period: P4  
Fee: $685  

Come join us for some fun with Weird and Wacky Science! This class is filled with cool new hands-on experiments each week. We'll make awesome crystals, play with magnets, discover the power of static electricity, learn about gravity, and more amazing stuff!! Experience the scientific method in a whole new way, as we explore science in the most fun and exciting way ever!

**Mighty Mustangs: Afternoon Swim & Play**  
Period: P5 (1:15 - 2:45)  
Fee: $1,370  

Join us for an afternoon of fun and swimming! You will be free to use the pool and play with your friends while being supervised by trained lifeguards. This is your opportunity to enjoy the pool in a safe and unstructured environment. Please note: no swim lessons are available during this time. This is strictly a recreational swim period.

**Mighty Mustangs: Dance Camp!**  
Period P5-1 or P5-2  
Fee: $685  

Dance Camp is a fun and high-energy class that was created to inspire and cultivate a passion for the performing arts. Each week the class will focus on a specific style of dance: jazz, hip hop, ballet, and contemporary. No experience is necessary, and students of all levels of experience are welcome.

**Mighty Mustangs: Improv for Kids**  
Period P5-1 or P5-2  
Fee: $685  

In this course, students will have a fantastic time flexing their innate capacities for imagination and play. Improv is wonderful for youth development because it develops many different soft skills that are essential in their lives. Kids will learn to listen; how to collaborate; how to respond to new ideas and pivot on their feet; how to give themselves permission to use their imagination; how to hold space in front of an audience; how to be comfortable being seen and heard.

**Mighty Mustangs: Jedi Training**  
Period P5-1 or P5-2  
Fee: $685  

The Force will be with you as you learn the ways of the Jedi! Play Star Wars games, build Star Wars vehicles, and go from Padawan to Jedi Knight in one session! You will play characters, learn to draw the Clone Wars cartoon characters, have your face painted, create your own Jedi uniform, and even take home your very own Lightsaber! Padawans will learn from their Jedi Master and, once the Jedi Master thinks the Padawans are ready, the Padawans participate in a knighting ceremony and become Jedi Knights. Do you have what it takes to be a Jedi Knight?

---

**Mighty Mustangs in the Afternoon**

Students must be enrolled in classes for the entire afternoon in order to remain on campus.

Period 5 (P5-1 & P5-2)
Mighty Mustangs: Lego Robot World
Period: P5-1 or P5-2  
Fee: $685

Lego Robot World provides children everything they love and need from a fun, stimulating activity. First, they are intellectually captivated and challenged by building motorized robots and machines out of Lego technic parts (yes, they really can build them!). Next, they imagine a world in which their walking robot, helicopter, motorboat, gear car, windmill or other robotic device exists and functions. Then, their creativity is ignited as they build the house, heliport or dock for their motorized creation. And finally, they experience joy as they play with their robotic machine in its environment and use it to interact with other children. And with thousands of Lego parts and a master Lego builder to help them build, children enjoy and learn from every visit to Lego Robot World (and rarely wish to leave). Lego Robot World promotes problem-solving skills, creativity, basic math concepts, self-reliance and self-confidence, all while children have tons of fun!

Mighty Mustangs: Secret Agent Lab
Period P5-1 or P5-2  
Fee: $685

James Bond? Sherlock Holmes? Austin Powers? Do you think you have what it takes to discover “Who done it?” If so, this camp is for you. Use the Secret Code Breaker to communicate in code like your favorite spy. Connect the dots to help solve a crime in a hands-on investigation. Learn how to decode messages and check out spy equipment and even create your own edible message! You’ll be an expert crime stopper by the time the week is through!

Mighty Mustangs: Young Artists
Period: P5-1 or P5-2  
Fee: $685

Mighty Mustangers will produce different art projects while exploring their creativity. They will experiment with a variety of materials and techniques such as acrylic paints, watercolor paints, pastels, colored pencils, collaging, paper craft, found objects, patterns, and more. Projects are designed to encourage students to explore a variety of materials and techniques.
Grades 3 and above

Athletics/Sports

Advanced Swim
Grade Level: 3-9
Session Dates: June 24 - July 26
Period: P2, P3
Fee: $630

Come and join our class as we learn the four competitive swimming strokes. If you are contemplating participating on a middle school swim team this fall, or simply desire to learn more about competitive swimming skills, this class is for you! Students will increase their swimming ability by developing the proper techniques for each stroke as well as increasing their endurance. Students will also learn proper starts and turns for each stroke. This course is a must for anyone who wants to join a swim team or refine their swimming skills.

Advanced Tennis
Grade Level: 5-9
Session Dates: June 24 - July 26
Period: P3
Fee: $630

This class focuses on stroke production, stroke direction, conditioning, footwork, strategy, match toughness, and tournament preparation. We will also be playing games such as live ball and burn to further improve conditioning and skills.

Basketball Skills
Grade Level: 3-5
Session Dates: June 24 - July 26
Period: P3
Fee: $630

Learn the five basic skills of basketball: dribbling, shooting, running, passing, and jumping. These fundamental skills are practiced by players of all levels. Students will receive individual as well as group instruction and have opportunities to put their skills to the test. They will learn the ins and outs of the game while having fun!

Beginning Fencing – En Garde!
Grade Level: 3-6
Session Dates: June 24 - July 26
Period: P1
Fee: $630

Fencing has a rich connection to history conjuring images of swashbucklers, pirates and heroes of old – as well as being an Olympic sport for both men and women. Fencing develops not only physical and technical skills, but encourages quick thinking, creative problem-solving, and concentration. We provide all equipment in a safe and healthy environment where skills are developed through warm-ups, games, drills, challenges, and fun competitive tournaments. We focus on the individual fencer as well as fostering teamwork and creating esprit-de-corps. Fencers will need to bring sport shoes, long pants, and a water bottle. Students will demonstrate their skills in an evening exhibition held during the last week of summer school. En Garde!

Beginning Tennis
Grade Level: 3-6
Session Dates: June 24 - July 26
Period: P2
Fee: $630

This course is for students who have never held a racquet, never taken private lessons, or play only a few times a year. They will learn the rules of the game, basic hand and eye coordination skills, footwork, light conditioning, and basic strokes, and we will be playing fun games as well. Students should wear a hat or visor and bring water to class. They must also provide their own tennis racquets.
Competitive Fencing – Allez
Grade Level: 7-8
Session Dates: June 24 - July 26
Period: P4
Fee: $630

This class is for the older student who would like to learn the competitive side of fencing. Students in this class will learn the format used at middle and high school competition levels that will carry on to collegiate fencing teams. Designed for the curious student who wants to try a new sport - and the fencer who would like to move beyond the beginner’s level. Fencers will drill one-on-one with coaches, and fence competitively in pools and teams. We provide all the equipment for this class. Fencers just need to bring sport shoes, pants, a water bottle - and their enthusiasm for sport. This class culminates in a demonstration of all the skills learned this summer at an evening exhibition during the final week of summer school. Allez! – Let’s Go!

Intermediate /Advanced Volleyball
Grade Level: 6-9
Session Dates: June 24 - July 26
Period: P2
Fee: $630

Intermediate/Advanced Volleyball is designed for players who have received prior instruction in school volleyball and have some previous competitive club playing experience. Students will build on the fundamental skills in serving, setting, serve receive, defense, and hitting/attacking. Players who sign up for this class should have the following: experience playing in a previous summer school class, clinic, or club situation, knowledge of rotations, basic technique and approaches for hitting and serving. Please do not enroll your child in this course if they have little to no experience.

Intermediate Fencing – Touché!
Grade Level: 4-7
Session Dates: June 24 - July 26
Period: P2
Fee: $630

Intermediate fencing takes up where the beginners left off – training with a more complete variety of fencing skills, with a focus on refining technique and conditioning. We will begin by reviewing basic skills and quickly move on to more advanced actions and strategies to outsmart your opponents. Students will fence every day! We'll provide all the equipment necessary for a safe and healthy environment to hone your skills through warm-ups, games, drills, and challenging tournaments. Not only do we develop the individual fencer, but we also work hard to foster teamwork and nurture esprit-de-corps. Fencers will need to wear sports shoes, long pants, and bring a water bottle daily. Fencers will demonstrate their new skills in an evening exhibition held during the final week of summer school. Touché!

Intermediate Tennis
Grade Level: 5-9
Session Dates: June 24 - July 26
Period: P1
Fee: $630

This class is for students with some tennis experience looking to improve their skills. Students should be able to make consistent contact on their ground strokes (forehand/ backhand) and have a basic understanding of each stroke. This class focuses on stroke production, stroke direction, conditioning, footwork, basic strategy, and will include various games such as liveball.

Introduction to Boxing
Grade Level: 5-9
Session Dates: June 24 - July 26
Period: P1
Fee: $630

Boxing has many health benefits that include improved cardio, better overall body strength, increased muscle mass, better endurance, and increased stamina - but most importantly - reduced stress and increased confidence! For kids especially, boxing can increase motor skills, hand eye coordination, athletic training, and conditioning. Boxing also focuses on agility, speed, quickness, and balance which can help in building a child’s overall athletic abilities. Boxing classes can increase a sense of community, support and teamwork through various games, drills, and fun exercises.

Lightsaber Dueling
Grade Level: 3-6
Session Dates: June 24 - July 26
Period: P3
Fee: $630

Lightsaber Dueling is a new competitive sport! Fencers now can delve into this fantastic sport of the future! Fencers will start with foam noodles, then advance to a practice lightsaber.
We will practice thrusts, parries, counter attacks, blocks, and how to set up false attacks to trick your opponent - all while fencing on a round court! After training for three weeks - the last matches of every class going forward, will feature one pair of fencers dueling with actual light sabers LED lit, rigid, polycarbonate blades for 15 touches! In order to participate, fencers need to wear long sweatpants and sport shoes for every practice.

**Pickleball for Beginners**

*Grade Level: 4-9*

*Session Dates: June 24 - July 26*

*Period: P4*

*Fee: $630*

Pickleball is one of the most popular sports to have emerged in the last few years. Students will learn the foundations of the game including: proper grip, the beginning of good movement patterns, and balance. They will also learn stroke development, both forehand and backhand, introduction to the volley, service plus return, and the rules. Students will be placed in age appropriate groups to learn the game, and build their ability levels.

**Semi-Private Swim Lessons**

*Grade Level: 3-9*

*Session Dates: June 24 - July 26*

*Period: P1, P2, P3, P4*

*Fee: $780*

For students in grades 3-9, these semi-private lessons are 40 minutes in length including an orientation and wrap-up. Students will be paired with another student of similar ability and age. Once a skill is mastered, a new skill will be introduced so that the students will continue to progress and improve. Students will also learn basic water safety principles. There will be no make-up lessons or extra time if the student is absent or tardy to the lesson. When completing the registration form, be certain to indicate your child's current swim ability according to the following: Water Adjustment: fears the water, cannot float independently; Beginner Phase: comfortable in the water, can float independently, a little doggie paddle; Advanced Beginner 1: swims 10 yards freestyle, breathes with head up; Advanced Beginner 2: swims 25 yards freestyle with side breathing. If your child swims more than 25 yards freestyle with side breathing and can do other strokes, consider enrolling him/her in Advanced Swim.

**Soccer for Intermediate/Advanced Players**

*Grade Level: 4-9*

*Session Dates: June 24 - July 26*

*Period: P2*

*Fee: $630*

This class is designed for boys and girls ages 9-14. The class provides soccer training with an emphasis on developing fundamental skills, team play, improving athletic coordination, and building confidence.

**Volleyball for Beginners**

*Grade Level: 3-6*

*Session Dates: June 24 - July 26*

*Period: P1*

*Fee: $630*

Players will learn all of the fundamental techniques of how to play volleyball, including how to pass, set (overhand passing), serve, and attack. Learning how to play team volleyball with six players while using offensive and defensive techniques can be lots of fun! This course is for all beginning volleyball players, including anyone with fewer than six months of playing competitively.

**World Soccer Superstars**

*Grade Level: 3-6*

*Session Dates: June 24 - July 26*

*Period: P1*

*Fee: $630*

Improve your performance on the soccer field and celebrate your passion for soccer in World Soccer Superstars! Students in this class will get on the field to learn and practice the skills and techniques that have made their favorite players, including Messi, Ronaldo, and Neymar, world-class athletes. Students will also explore the rich history of soccer and its leagues around the world in order to get into the mind of the world's top players. At the end of the session, students will have all the tools to go on and become the best soccer player they can be!
Dance

Dance Around the World
Grade Level: 3-6
Session Dates: June 24 - July 26
Period: P1
Fee: $630

This class explores music and dance from various countries around the world. Students will learn basic dance skills, self-expression through movement, and increased global awareness. Dance is a universal language that can be used to tell stories and share ideas. It can break language barriers and open the door for communication across cultures. When we dance together we build community through having fun and communicating nonverbally, no matter where we live in the world! This session students will learn choreographed dance routines to Salsa, Bollywood, West African and Chinese Dance. Dancers will use fun props like maracas, fans, and ribbons. A performance will be given on the last day of class!

Dance Camp!
Grade Level: 3-4
Session Dates: June 24 - July 26
Period: P1
Fee: $630

Dance incorporates so many kinds of movement. This course will introduce students to a variety of age-appropriate styles, techniques, and music that are all relevant and current in dance today. Students will explore musicality, the different qualities and textures of movement, and the importance of self-expression.

Dance Camp is a fun and high-energy class that was created to inspire and cultivate a passion for the performing arts! Each week the class will focus on a specific style of dance: jazz, hip hop, ballet, and contemporary. No experience is necessary and students of all levels of experience are welcome. Please Note: Students who enroll in this class will be expected to participate in both the daytime and evening dance recitals during the last week of the summer school session.

Hip Hop Don't Stop
Grade Level: 3-6
Session Dates: June 24 - July 26
Period: P2
Fee: $630

Hip Hop Don't Stop, and we’re gonna keep goin'! This hip hop class is designed as an introduction to hip hop. Dancers visit and revisit fundamental techniques of dance class and how it applies specifically to hip hop music and choreography. By the end of our session together, the students will have a better understanding of how stretching, coordination work, isolation movement, musicality, patterns, and rhythm basics plays into hip hop. Students will also develop a sense of performance, grow their confidence, and become more comfortable in their own skin as they use performance-based skills to shine. Music and moves are age-appropriate. This class includes a final required performance at the end of summer school.

Hip Hop to the Top!
Grade Level: 5-9
Session Dates: June 24 - July 26
Period: P3
Fee: $630

Hip Hop to the TOP in this intermediate/advanced hip hop class! This hip hop class is designed to move at a faster pace, building upon concepts touched on in other hip hop classes the students may have taken before. We will focus on advanced techniques in stretching, coordination work, isolation movement, musicality, patterns, and rhythm. Students will also hone their performance abilities and grow their confidence. This class also includes a choreography component where students will be asked to create their own hip hop choreography pieces. Music and moves are age-appropriate. A final dance performance will occur at the end of summer school.

Make Your Feet Come Alive - Tap Dancing for Beginners
Grade Level: 3-5
Session Dates: June 24 - July 26
Period: P3
Fee: $630

Make music with your feet! Students work on basic and intermediate tap steps like the shuffle, flap, timesteps, and buffalo wings. Tap
focuses on timing and rhythm similar to learning how to play an instrument. There is a performance in costumes on the last day of class for friends and family. Are you ready to make some noise? (Tap shoes required).

**STOMP 101**  
Grade Level: 3-5  
Session Dates: June 24 - July 26  
Period: P2  
Fee: $630

This is a class for anyone who wants to come shake it out while learning how to keep tempo and create musical beats! Ever seen the live show STOMP? We are going to get creative - think trash cans, brooms, singing, AND dancing! We will create a show together and showcase our talents to our friends, families, and amazing Marlborough campers!

---

**Drama**

**Kids Comedy Workshop**  
Grade Level: 5-6  
Session Dates: June 24 - July 28  
Period: P1  
Fee: $630

Grade Level: 3-5  
Period: P2  
Fee: $630

This class will have students trying different styles of comedy, focusing on improv, stand-up, and sketch comedy. Together we will develop the confidence to perform comedy on stage in an end of summer variety show.

**History of Comedy**  
Grade Level: 6-9  
Session Dates: June 24 - July 26  
Period: P4  
Fee: $630

Travel back through time to learn the history of comedy. We'll watch classic comedy clips from vaudeville and silent movies, through the origin of stand up and sitcom, to the beginning of SNL. We’ll learn from the masters, then try out a few techniques along the way.

**Improv for Kids**  
Grade Level: 3-5  
Session Dates: June 24 - July 26  
Period: P4  
Fee: $630

In this course, students will have a fantastic time flexing their innate capacities for imagination and play. Improv is wonderful for youth development because it develops many different soft skills that are essential in their lives. Kids will learn to listen; how to collaborate; how to respond to new ideas and pivot on their feet; how to give themselves permission to use their imagination; how to hold space in front of an audience; how to be comfortable being seen and heard.

**Intro to Screenwriting**  
Grade Level: 5-7  
Session Dates: June 24 - July 26  
Period: P3  
Fee: $630

For students who love creative writing! Together we will write a story using the basic rules of screenwriting. At the end of the summer, parents are invited to attend our table read of the next big thing in Hollywood.

**Shel Silverstein’s Poetry**  
Grade Level: 4-5  
Session Dates: June 24 - July 26  
Period: P1  
Fee: $630

In this “Poetry” class, we will focus on presenting Shel Silverstein’s writings, “Where the Sidewalk Ends”, “A Light in the Attic”, “The Missing Piece”, and more. Choose your favorite poems for a final “Poetry Presentation”, where we will share words, movement, and song based on Shel Silverstein’s work. Celebrate the magic of his words with a final piece, the last week of Summer School.

**So You Wanna Be a Voiceover Actor**  
Grade Level: 6-9  
Session Dates: June 24 - July 26  
Period: P1  
Fee: $630

Have you ever wondered what it would be like to be on the radio? Or your favorite character from that cartoon show you just can’t get enough of? From commercials to audiobooks, accents, animation, video games, and more, the
voiceover industry is booming with fun and opportunity. This class offers a great way to get into the thick of it all and get a real taste of what it's like to be behind the booth. Taught by Courtney Lin (Voice of Draculaura on Nickelodeon's Monster High animated series, amongst others), students in this class will learn what it takes to tackle the different facets of the industry, build creative thinking skills, learn fundamental voice acting techniques, and create three-dimensional characters to bring to life... all with just their voice! Students who have taken this course before will build on their previously learned concepts and continue to hone their acting skills.

The Sound of Music
Grade Level: 3-6
Session Dates: June 24 - July 26
Period: P4
Fee: $630

The Sound of Music—an age-old classic. We will share an adaptation of this tuneful, heartwarming story, which is based on the true journey of Maria, governess for the Von Trapp Family Singers. Our musical will be a shorter, age-appropriate version. It will focus on characters and songs, which include: “My Favorite Things”, “The Lonely Goatherd”, “Do-Re-Mi”, “So Long, Farewell”, and more. Every actor will have an acting role, and, if desired, a featured singing opportunity. If musical theater is a passion for you, please join us in a fresh retelling of the timeless story: Rodgers and Hammerstein’s The Sound of Music!

Time Travel Tour
Grade Level: 3-4
Session Dates: June 24 - July 26
Period: P3
Fee: $630

Take a tour through time! Create a play that takes the audience on a journey through history. Perhaps we’ll travel to Prehistoric times, Ancient Egypt, Medieval times, the 1960’s, or even the future? Choose your favorite era, people, and places. This class will culminate with a “timely” performance in the “future”—the final week of Summer School!

Young Filmmakers Studio
Grade Level: 6-9
Session Dates: June 24 - July 26
Period: P4
Fee: $770

Have you ever wanted to see your great movie idea up on the silver screen? Well here’s your big break! In this 5 week summer camp, students will have the opportunity to develop, shoot, edit, and present their very own film at our end-of-summer film festival! We will learn the basics from pre-production and screenwriting, directing actors and camera operation, to editing it all together for an audience. Lights, camera... ACTION!

English

Adventures in Storytelling 3
Grade Level: 3
Session Dates: June 24 - July 26
Periods: P1 or P3
Fee: $630

In this course, students will take an exciting look into the process of writing. We will review the parts of speech. Students will learn the five parts of a story: the characters, the setting, the plot, the conflict, and the resolution. The writers in this class will practice writing their own stories using uncommon adjectives and lively characters. Students must be willing to write on a daily basis.
Creative Writing Workshop
Grade Level: 3-5
Session Dates: June 24 - July 26
Period: P4
Fee: $630

Learn to create fun and impactful pieces of writing in our Creative Writing Workshop! During our five weeks, students will express themselves using the written word through short stories, screenplays, Choose Your Own Adventure books, poetry, and more! Boost writing confidence with word games and exercises, plus opportunities to present pieces for constructive feedback. Write on!

Finding Your Poetic Voice
Grade Level: 5-9
Session Dates: June 24 - July 26
Period: P2
Fee: $630

This course will inspire students to channel their love of language into poetry that reflects their unique view on the world in unexpected and powerful ways. Whether through personal testimony or flights of imaginative fancy, poetry is a wonderful form of self-expression. In this course, we will look at different styles of poetry and explore various approaches to creating work. We will read great poetry for inspiration, write our own works, edit the drafts, and finally discuss and refine our poetry together. We will focus on clarity of thought and exploring the best ways to express what’s inside of us.

Independent Reading
Grade Level: 3-9
Periods: P2, P3, P4
Fee: $350

Independent Reading is a time for students to relax in the CEI with a book and read. The librarian will be available to help students find books and guide them. Summer reading helps students maintain important literacy skills and helps support reluctant readers. Students will participate in a summer reading challenge.

Strategies for Reading Success 4 - 5
Grade Level: 4-5
Session Dates: June 24 - July 26
Period: P2
Fee: $630

This course is designed to boost reading comprehension skills through the use of active note-taking strategies before and during reading nonfiction and fiction texts, which are grade-level appropriate. Students will focus on how to adapt the right tools and strategies for note-taking and annotating while reading in order to improve comprehension and recall and to improve their ability to write and/or speak about what they have read. At the end of this five-week course, students will have the tools with which to perform better in class discussions, book reports, summaries, and essays (even tests) on any kind of reading they have been assigned. The focus of the class will be to give all students (no matter their current skill level or particular learning style) a variety of methods with which to approach, annotate, and analyze any text they read in their regular class settings. Students will also engage in group presentations while utilizing hands-on reading tools. Yes, everyone can be a successful reader! Reading is a tool for academic growth in all subject areas.

Strategies for Reading Success 3
Grade Level: 3
Session Dates: June 24 - July 26
Period: P3
Fee: $630

This course is designed to boost reading comprehension skills through the use of active note-taking strategies before and during reading nonfiction and fiction texts, which are grade-level appropriate. Students will focus on how to adapt the right tools and strategies for note-taking and annotating while reading in order to improve comprehension and recall and to improve their ability to write and/or speak about what they have read. At the end of this five-week course, students will have the tools with which to perform better in class discussions, book reports, summaries, and essays (even tests) on any kind of reading they have been assigned. The focus of the class will be to give all students (no matter their current skill level or particular learning style) a variety of methods with which to approach, annotate, and analyze any text they read in their regular class settings. Students will also engage in group presentations while utilizing hands-on reading tools. Yes, everyone can be a successful reader! Reading is a tool for academic growth in all subject areas.
**Wonderful Ways of Writing 4 and 5**  
Grade Level: 4-5  
Session Dates: June 24 - July 26  
Period: P3  
Fee: $630

This course will teach the important modalities of critical thinking and creative expression through various types of writing, both fiction and nonfiction. Students will be introduced to the Six Traits of Writing—an effective and widely used set of writing tools—and will be guided through activities and exercises for each trait. Working with the Six Traits will help students learn how to develop clear and balanced pieces of writing. Exercises and activities will include brainstorming, writing prompts, free writing, outlining, attention-getting strategies, word choice enhancement, sentence fluency practice, and more.

**Wonderful Ways of Writing 6 & 7**  
Grade Level: 6-7  
Session Dates: June 24 - July 26  
Period: P4  
Fee: $630

This course will teach the important modalities of critical thinking and creative expression through various types of writing, both fiction and nonfiction. Students will be guided through activities for different writing genres. Students learn how to develop clear and balanced pieces of writing. Exercises and activities will include brainstorming, writing prompts, free writing, outlining, attention-getting strategies, word choice enhancement, sentence fluency practice, and more. We will also focus on middle school essay writing.

---

**Mathematics**

**Mathletes 3**  
Grade Level: 3  
Session Dates: June 24 - July 26  
Period: P2  
Fee: $630

Mathletes 3 is a course for students entering third grade who would like extra math practice and who want to get ahead. Topics covered include addition, subtraction, money, time, multiplication, and division. Students will be learning, playing games, and having fun with math! Optional homework emailed weekly.

**Mathletes 4**  
Grade Level: 4  
Session Dates: June 24 - July 26  
Period: P1  
Fee: $630

Mathletes 4 is a course for students entering fourth grade looking to reinforce what they already know and looking ahead to exciting math adventures. Offering an initial assessment that is geared toward providing a clear understanding of individual and class needs, students will study decimal place value, addition and subtraction of larger numbers and decimals, multiplication of large numbers, long division, geometry, and measurement. An accelerated approach to meeting fourth grade standards, Mathletes should be ready for some fast-paced mathematics!
Mathletes 5  
Grade Level: 5  
Session Dates: June 24 - July 26  
Period: P3  
Fee: $630

In Mathletes 5, students will review multiplication, division, fractions, decimals, ratios, proportions, and percents. Games will be utilized to help reinforce concepts. This class is ideal for students entering fifth grade, as well as students who have just finished fifth grade who need a skills review to help build a strong foundation in basic math.

Mathletes 6  
Grade Level: 6  
Session Dates: June 24 - July 26  
Period: P4  
Fee: $630

Students in this course should get ready to challenge themselves in a variety of mathematical ways! We tackle as many of the 6th grade math standards as possible and expect lots of participation. Issues with problem-solving skills will become a thing of the past. Activities may include, but are not limited to, comparing numbers (positive and negative integers and mixed numbers) and fractions; solving problems manually using the order of operations; estimating; identifying probability of future events; making conversions between fractions and percentages; and computing range, median, and mode. As Mathletes help guide the progress of this course, we address weaknesses that may interfere with taking it to the next level and help students grow stronger each week!

Sneak Peek at Algebra  
Grade Level: 7-8  
Session Dates: June 24 - July 26  
Period: P2  
Fee: $630

So, you have completed Pre-Algebra and you have heard all kinds of things about algebra. Why not experience them for yourself? While not a full algebra course, this course will introduce you to some of the most important topics of Algebra I. You will learn about more complex equations, word problems, simplifying rational numbers, and products of powers, factoring polynomials, and more. If you LOVE math and want to be prepared for the year ahead or would just like to get a jump start on learning algebra, this math class is for you!

Please note: This course is for students who will be enrolled in Algebra I next school year. Please note that there will be 15-30 minutes of homework each night.

Sneak Peek at Pre-Algebra  
Grade Level: 6-8  
Session Dates: June 24 - July 26  
Period: P3  
Fee: $630

Are you taking Pre-Algebra next year? Want to make sure you are ready for anything your math teacher throws at you? Then this course is for you! In this class, you will concentrate on building math skills through developing mental math skills and practicing study methods. You will learn Pre-Algebra concepts such as integers, like terms, and equations. This course is designed like a class in the regular school year, so there will be homework, quizzes, and tests. By the end of the summer, you will have experienced lots of new math and be ready for Pre-Algebra!

Special note for parents: This class is designed especially for students who will be entering Pre-Algebra this fall. If your child is entering sixth grade, please consult with your child’s current teacher to determine if this course is right for your child. This course has 15-30 minutes of homework each night.

Science

Fun with Chemistry "Mix it Up!"  
Grade Level: 3-4  
Session Dates: June 24 - July 26  
Period: P3  
Fee: $700

An early introduction to the study of chemistry, the scientific method, and how to conduct experiments. In this epic class, you’l be diving into the magical world of chemicals and experiments. Forget the boring stuff – we’re talking about creating grow beasts, crafting slimes, whipping up silly putties, building foam towers, and even making substances that glow in the dark! And guess what? Edible chemistry is on the menu too – we’ll learn how to make our very own delicious ice cream. Students will have the option of taking many of their
chemical creations home for further experimentation; so start building or setting aside a space in your house for chemical investigations. Each major topic will include a tie in with a well-known children’s book. Science and great literature intersect in this exciting course.

**Fun with Chemistry- Adventures Across the Periodic Table!**
Grade Level: 5-8  
Session Dates: June 24 - July 26  
Period: P4  
Fee: $700  

Discover and learn more about the Periodic Table of Elements, chemical reactions, and mixtures through daily, hands-on team project-based chemistry explorations that will elicit oohs and ahs and cause you to become a lifelong fan of chemistry. Uncover the secret structure of the "Black Box Atom," use flame tests on substances to find hidden elements and satisfy your “Inner Pyromaniac!” But wait, there’s more excitement! Watch the magic unfold as we mix Sulfuric Acid with sugar to create an amazing chemical reaction. Become an environmental superhero by cleaning up a simulated oil spill and even solve a crime using your newfound chemistry skills. And the grand finale? Team up to chemically engineer an all-new ice cream flavor! Yes, your very own ice cream creation to share with parents, siblings, friends, and staff. This is the summer school course you were always meant to experience, and you will join the exalted ranks of previous summer school students who fell in love with chemistry and were better prepared for both middle and high school chemistry. No chemistry background needed – just bring your curiosity and enthusiasm!

**Mad Science: ALL STARS!**
Grade Level: 3-4  
Session Dates: June 24 - July 26  
Period: P2  
Fee: $650  

All-Star Scientists team up as Engineers for problem-solving, communicating, designing, and testing, as they build race cars, technicolor blenders, and robot hands! Uncover the hidden components of light and wavelengths! Find out how refraction can make a rainbow! Discover sound waves and the way household items can be used to create amazing movie effects! Become a Climate Champion with imaginative solutions to reduce human impact on the environment! Explore the sensory nature of putty when altering the physical properties of polymer! See a reading and writing robot and move another through a maze! Experience elements of electricity that will tingle fingers and twinkle eyes! Eliminate the mystery in Che-mystery! Investigate the powerful processes that shape the planet and form remarkable rocks, magnificent minerals, and glittering gems! These innovative classes will inspire your All-Star to think like a scientist, create inventions, and better understand the world around them!

**Mad Science: NASA ACADEMY & MISSION BEYOND!**
Grade Level: 3-5  
Session Dates: June 24 - July 26  
Period: P4  
Fee: $650  

Future Space Explorers journey into outer space with 8 classes designed in collaboration with NASA, plus 15 Mad Science classes for a Mission Beyond! Unique hands-on activities and stellar demonstrations span the universe as your Junior Astronaut delves deep into our solar system, learning about supernovas and meteors, gaining insight with telescopes and satellites, racing rockets, steering laser beams, and so much more! Kids will also voyage to the center of the earth, become climate champions, learn to reuse-reduce-recycle, get an introduction to fungi and mushrooms, see up close how our favorite decomposer [the worm!] helps our environment, witness an underwater volcano, discover how hurricanes and tornadoes form, make a UV ray detector, surf sonic waves, learn what the nose knows, use a vortex generator, and more!
Marine Biology
Grade Level: 3-6
Session Dates: June 24 - July 26
Period: P1 or P3
Fee: $630

Observe dissections of a sea star, lamprey eel, a crayfish, and even a shark! Learn about ocean density and currents, and the roles in which they play in the largest environment on the planet. We will unravel the diversity of ocean life, like hot deep-sea vents, tropical fish paradises, and the chilly world of arctic marine life! We will also be detectives of the sea, investigating the effects of pollution on our underwater friends and the ecology. It's a mission to save the ocean!

Sculpting Safari: Exploring the Animal Kingdom
Grade Level: 3-5
Session Dates: June 24 - July 26
Period: P4
Fee: $650

Embark on a thrilling adventure that brings the animal kingdom to life right at your fingertips! We will journey into the heart of diverse habitats, encounter captivating vertebrates and invertebrates, all while channeling our inner sculptor using vibrant polymer clay to craft our very own lifelike animals – making them jump off the page and into your masterpieces. Join us while we seamlessly blend art and biology to make learning about the animal kingdom an immersive and joyful experience.

Special Opportunities

21st Century Keyboading
Grade Level: 3-9
Session Dates: June 24 - July 26
Period: P1
Fee: $630

Kids have access to all sorts of devices, they must know how to use the keyboard quickly and efficiently, right? This class is for students who want to learn keyboarding techniques (proper finger usage and body position) through hands-on touch typing. Children who learn touch typing are better able to use computers comfortably, which is a fundamental skill for academic and professional success. Learners are introduced to the QWERTY keyboard (alphabet, number, and symbol keys).

Learners will be expected to touch-type at a minimum of 27 wpm by the end of the course.

AI Adventures: Artificial Intelligence Primer
Grade Level: 4-6
Session Dates: June 24 - July 26
Period: P4
Fee: $1,000

In Inspirit AI’s elementary school primer - led by Stanford, MIT, and other top university graduates - bright minds come together to explore the foundational logic of artificial intelligence. Through a medley of affirming growth mindset exercises, fun block-based programming, and project-based team hackathons, we cultivate the algorithmic thinking skills necessary to learn to create confidently! Our AI Adventurers interact with the tools that designers, artists, engineers, and scientists use to build solutions for an increasingly complex world. Students will learn coding fundamentals, be able to explain how computers and people learn, explore cutting-edge AI applications in the world around them, and build and debug a collective project.

At Inspirit AI, we believe that computational thinking primes our youngest minds to learn to build solutions for an ever-more-complex world. Computational thinking doesn’t mean we’ll turn your kid into a calculator - quite the opposite! Our program encourages logic, creativity, pattern recognition, and abstraction along with an emphasis on mindfulness activities that promote social-emotional learning.

Beginning Chess
Grade Level: 3-6
Session Dates: June 24 - July 26
Period: P2
Fee: $630

At Marlborough Summer Camp, we introduce the 2,000 year old game of chess to students in a fun and exciting way! With all skill levels welcome, we teach students to play this incredibly popular game while helping them succeed in school (and in life!) by stimulating their problem solving skills, analytical skills, and critical thinking. All through the lens of
respectful competition and sportsmanship. Checkmate!

**Creative Changemakers: How Sharing Your Creative Voice Can Change the World.**
Grade Level: 5-9  
Session Dates: June 24 - July 26  
Period: P1  
Fee: $630

What are you passionate about? How can you move others to share your passion? In Creative Changemakers, we will look at issues that matter to you and create courageous theater and film that makes a difference. Discover a sense of confidence through creativity by tapping into something bigger than yourselves. The summer session will culminate with a presentation of creative work for the community.

**Drone Flight Academy**
Grade Level: 3-6  
Session Dates June 24 - July 26  
Period: P1  
Fee: $650

Take your knowledge of drones and robots to the stratosphere! Students will challenge each other by learning how to code and program their drones and robots. Students will learn how to build functional motors and sensors, and do programming for various levels of experience. Get ready for liftoff!

**eSports Minecraft**
Grade Level: 4-7  
Session Dates: June 24 - July 26  
Period: P3-P4 (this class is 2 periods-long)  
Fee: $1,300

Marlborough will be working with Valhallan Esports this summer to create a 5-week camp for students in grades 4-7. The camp teaches kids teamwork and leadership as well as in-game skills and strategies through group activities and coach-led curriculum. We will provide kids of all skill levels with a safe, social, and fun way to get better at the games they love!

The camp will focus on Minecraft. Players will learn new building tricks, design secrets, and compete in building competitions amongst their peers. Players will also learn communication, leadership, and how to work together to build something extraordinary with their teammates! At the end of the camp, players will be able to take their new skills with them and put them to use on their own gaming time. If you took one of the camps last summer, there will be an opportunity for you to continue to build your skills this summer!

**Fantasy Adventures**
Grade Level: 3-6  
Session Dates: June 24 - July 26  
Period: P2 or P3  
Fee: $660

Have you ever wanted to be a student at Hogwarts? Are you a secret Potions or Defense against the Dark Arts whiz? Think you’d ace the Triwizard Tournament? Do you love Percy Jackson, A Series of Unfortunate Events, or The Mysterious Benedict Society? If so, Fantasy Adventures is the class for you! Brew potions, get sorted, and learn spells, duel against your classmates and learn how to make a magical cup of butterbeer! Find out your Camp Half-Blood cabin, participate in an ancient Greek Toga party, and make nectar and ambrosia with your fellow campers! Learn how to solve problems like the Baudelaire siblings, and decipher secret codes like The Mysterious Benedict Society. If you love stories about kids going on adventures and are ready for an adventure of your own, this is the class for you!

**Hancock Park Explorers: A Poster Making Class**
Grade Level: 3-7  
Session Dates: June 24 - July 26  
Period: P2  
Fee: $665

A select group of intrepid explorers will venture out into the world... of Hancock Park!

Together we will discover the wonders of what surrounds us while working on projects that help us learn about our urban environment as well as graphic design basics such as form, pattern, scale, weight, space, etc. We will spend half the week traversing the streets of Hancock Park with our field guides in hand to gather data, and the other half of the week working on
our posters that interpret our data into really cool visuals. This class will be held both indoors and outdoors. Please be sure to bring water and sunscreen. We will be using various art making techniques including using Canva on the computer to create our poster designs. The class will culminate with a series of digital posters about Hancock Park made by the students.

**Intermediate / Advanced Chess**
Grade Level: 4-9
Session Dates: June 24 - July 26
Period: P3
Fee: $630

Intermediate to advanced chess is intended for students who have completed chess courses and are prepared to boost their abilities. Every student will be assessed, and then the class will be divided into groups to maximize learning. Different openings, middle game tactics, and endgame tactics will be taught to the students. The use of intricate chess puzzles is combined with the introduction of forced attacks, sacrifices, clearing, and various pawn configurations. Proficient learners will acquire the ability to identify weak squares and leverage them to their advantage. The course will cover a variety of topics, including tempo, counterplay prevention, static versus dynamic play, slow versus quick play, and much more! A chess tournament will be held during the last week of Summer School.

**Intro to Screenwriting**
Grade Level: 5-7
Session Dates: June 24 - July 26
Period: P3
Fee: $630

For students who love creative writing! Together we will write a story using the basic rules of screenwriting. At the end of the summer, parents are invited to attend our table read of the next big thing in Hollywood.

**Jedi Training**
Grade Level: 3-5
Session Dates: June 24 - July 26
Period: P4
Fee: $650

Courage! Spirit! Skill! The Force will be with you as you learn the ways of the Jedi, including valuable life lessons! Play Star Wars games, build Star Wars vehicles, and go from Padawan to Jedi Knight! Undertake five trials to become a Padawan, learn how to braid your hair like a Jedi, and take home your very own Lightsaber. The Jedi knighting ceremony at the end of the session is a rite of passage that parents can attend, and of which kids will be proud.

**Lego Architecture**
Grade Level: 3-5
Session Dates: June 24 - July 26
Period: P3
Fee: $650

Get ready to bring iconic landmarks to life, from towering skyscrapers to historic wonders, using the magical bricks that spark your imagination! Discover the secrets behind famous structures like the Eiffel Tower, the Taj Mahal, and the Great Wall of China. Build your own miniature masterpieces, gaining a deeper understanding of design and engineering principles. Learn science, technology, engineering, and math concepts in a fun and interactive way. Collaborate with fellow builders, share ideas, and tackle challenges together. Develop communication skills and teamwork while creating fantastic LEGO worlds.

**Lightsaber Dueling**
Grade Level: 3-6
Session Dates: June 24 - July 26
Period: P3
Fee: $630

Lightsaber Dueling is a new competitive sport! Fencers now can delve into this fantastic sport of the future! Fencers will start with foam noodles, then advance to a practice lightsaber. We will practice thrusts, parries, counter attacks, blocks, and how to set up false attacks to trick your opponent - all while fencing on a round court! After training for three weeks - the last matches of every class going forward, will feature one pair of fencers dueling with actual light sabers LED lit, rigid, polycarbonate blades for 15 touches! Fencers need to wear long sweatpants and sport shoes for each practice to participate.

**Magic Academy**
Grade Level: 3-6
Session Dates: June 24 - July 26
Period: P2
Fee: $650

Ever wonder how a Magician does a magic trick? This class unlocks some of the secrets to the techniques of magic. Students will gain skills in acting, comedy, and memorization that
are essential to a magician’s performance. Students will learn some cool simple tricks using a variety of normal household items such as cards, coins, cups, balls, and rope!

**Mock Trial and Debate**
Grade Level: 6-9  
Session Dates: June 24 - July 26  
Period: P3  
Fee: $650

Are you a person of passion and conviction, with a love for critical thinking and dialogue? In this class, students learn to use logic and other rhetorical tools to support their positions and to express themselves succinctly and skillfully. Students learn to walk and talk with assuredness and purpose, overcome jitters, and deliver speeches with confidence and animation!

**Spanish Culture Adventure**
Grade Level: 3-6  
Session Dates: June 24 - July 26  
Period: P2, P4  
Fee: $630

This engaging Spanish class is perfect for the summer. Join us for a fun-filled adventure through language and culture. Through projects, entertaining games, upbeat dances, rhythmic songs, and artistic crafts, students will discover insight into Hispanic culture while learning Spanish. Come along for a summer filled with fun, language learning, and cultural experiences, all at a relaxed summer pace!

---

**Visual Arts**

**Abstract Self Portraits**
Grade Level: 3-4  
Session Dates: June 24 - July 26  
Period: P1  
Fee: $660

Grade Level: 5-6  
Period: P3  
Fee: $660

This fun self-portrait lesson combines art exploration in abstract art and color theory. Abstract art is a form of art that encourages self-expression. The choice of colors and shapes can heavily influence the messages or emotions that the painting is attempting to convey.

**Advanced Woodworking**
Grade Level: 5-6  
Session Dates: June 24 - July 26  
Period: P4  
Fee: $660

In this class, students will learn the appropriate hand tools to use for various fasteners while refining their fine motor and problem-solving skills. Tools include screwdrivers, hammers, drills, and levels along with small hand saws. Additionally, kids will explore an assortment of hardware and their specific application through fun, exploratory, and creative projects in a safe environment. Time permitting, this class will become familiar with different hard and exotic wood types and finishes. Larger projects include a birdhouse, treasure chest, toolbox, and a functioning lamp.

**Beginning Photography**
Grade Level: 3-4  
Session Dates: June 24 - July 26  
Period: P1  
Fee: $660

Grade Level: 4-5  
Period: P2  
Fee: $660

Grade Level: 3-6  
Period: P3  
Fee: $660

You just got your first camera and can’t wait to learn to use it! This class is designed to help students learn the basics of digital photography and gain new insight and inspiration about digital photography through a series of specially designed exercises and fun assignments. Some of the projects will involve creating cyanotypes, glow stick fun, silly silhouettes, macro photography using miniature props, portraiture, and candid shots. You will create self-portraits that are fun, comical, and creative. Each student is required to provide their own camera (point and shoot with manual settings or SLR cameras if the student has a basic understanding of its functions) and USB flash drive.
**Drawing and Painting!**
Grade Level: 3-5  
Session Dates: June 24 - July 26  
Period: P2  
Fee: $660

This course begins by exploring the fundamentals of drawing through observational skills and practice. Students will become familiar with drawing techniques in graphite, charcoal, pastel, and ink. Using technical exercises in drawing from observation, students will develop their understanding of line, shape, proportion, value, and composition. During the second half of the course, students will explore color, and composition while having fun and producing quality work. Classes will include painting demos, student participation in setting up the composition, and one-on-one instruction. Students will have the opportunity to draw and paint as they learn to trust their visual instincts. This course is designed for students of all levels who wish to enhance their ability to draw and paint from their minds as well as from observation.

**Illustration and Beyond**
Grade Level: 3-5  
Session Dates: June 24 - July 26  
Period: P1  
Fee: $660

In this class, student artists will explore text and images inspired by the works of contemporary artists and illustrators. The student artists will create colorful graphic illustrations/drawings and design hand letters to produce playful works of art. We will explore vibrant palettes, geometric patterns, and uplifting messages. In this workshop we will use a variety of both traditional and nontraditional materials to create a series of inspirational word and image art.

**Intermediate/Advanced Photography**
Grade Level: 5-9  
Session Dates: June 24 - July 26  
Period: P4  
Fee: $660

In this class, we will continue expanding our knowledge of using digital cameras and various software tools such as Photoshop. A variety of projects and exercises are planned to help generate images and inspire students. Expect to take A LOT of photos. Students will learn how to take self-portraits and will create photo essays telling a story about themselves, their friends, or another subject. Students will learn neat Photoshop tricks on how to streamline their photo-manipulation processes. This class is for the students who have already taken Beginning Photography or already know the basics of composition, exposure using aperture and shutter speed, white balance, and ISO settings. Students must supply their own digital camera (point and shoot is fine with manual settings or SLR cameras if the student has a manual and a basic understanding of where the functions are located), a USB Flash drive, tripod, and headphones.

**Intro to Animation**
Grade Level: 6-9  
Session Dates: June 24 - July 26  
Period: P2  
Fee: $660

Grade Level: 4-6  
Period: P3  
Fee: $660

In this course, students will learn about a variety of animation techniques, stretching across traditional, digital, and hand drawn mediums. We will learn how to animate using apps like Procreate and Stop Motion Studio, as well as using tactile equipment like light pads and clay. Key fundamental animation concepts like squash and stretch, anticipation and follow through, and character design will guide students as they embark on their animations. Students will finish the course with a class animation demo reel, featuring all the exercises they learned! Although no prior animation experience is required, this class is best suited for students who have a passion for drawing/art making!

**Landscape Mixed Media**
Grade Level: 6-9  
Session Dates: June 24 - July 26  
Period: P2  
Fee: $660

The student artists will explore using up-cycled cardboard to craft their own canvases, honing their skills outdoors by observing the Marlborough landscape. Through sketching, drawing, and painting with attention to color, shapes, textures, and composition, each student artist will produce a series of one-of-a-kind landscapes inspired by contemporary landscape artists.
Making Art from Found and Recycled Materials
Grade Level: 3-5
Session Dates: June 24 - July 26
Period: P3
Fee: $660

Learn about a different way to create art. Instead of using traditional art supplies like paint and paper, students in this class will use materials that they find - things that we might normally consider waste or trash. This approach to art-making is not only fun and creative, but it's also good for the environment because it helps to reduce waste. Students will learn about recycling and sustainability, and further their understanding of helping the planet!

Portraits and Character Art
Grade Level: 4-6
Session Dates: June 24 - July 26
Period: P3
Fee: $660

Using both conventional and unconventional materials, the student artists will experiment with portraiture and self-portraiture to create a series of images. Students will investigate self-portraiture, drawing inspiration from contemporary artists. Through their self-portraits and portraits, the student artists will develop key skills including observation, proportion, textures, and color. Utilizing mirrors, they will learn to observe with their eyes, ears, and hearts. Their self-portraits and portraits will be created using a variety of art mediums, allowing them to explore the nuances of skin tone. Each student will produce a series of oversized one of a kind self portraits and portraits.

Sculpting Safari: Exploring the Animal Kingdom
Grade Level: 3-5
Session Dates: June 24 - July 26
Period: P4
Fee: $650

Embark on a thrilling adventure that brings the animal kingdom to life right at your fingertips! We will journey into the heart of diverse habitats, encounter captivating vertebrates and invertebrates, all while channeling our inner sculptor using vibrant polymer clay to craft our own lifelike animals – making them jump off the page and into your masterpieces. Join us while we seamlessly blend art and biology to make learning about the animal kingdom an immersive and joyful experience.

Sculpture Art
Grade Level: 4-6
Session Dates: June 24 - July 26
Period: P4
Fee: $660

The student artist will explore three-dimensional art and design techniques inspired by contemporary sculpture artists. We will be using up-cycled materials like cardboard to create unique sculptures. Weekly goals will be set and shared within the workshop collective, culminating in a final presentation where student artists will discuss their challenges and discoveries in crafting their one-of-a-kind pieces.

Young Woodworkers
Grade Level: 3-4
Session Dates: June 24 - July 26
Period: P3
Fee: $660

In this class, students will learn the appropriate hand tools to use for various fasteners while refining their fine motor and problem-solving skills. Tools include screwdrivers, hammers, drills, and small hand saws. Additionally, kids will explore a variety of hardware and their specific application through fun, exploratory, and creative projects in a safe environment. Larger projects include a corner shelf, toolbox, and treasure chest.
**Private Music Lessons**

Grade Level: 3-12  
Session Dates: June 24-July 26  
Fee: $1,000

Private lessons will take place during half the period, and students will spend the other half of the class in the music practice room.

**Private Drum Lessons with Art**  
**Private Drum Lessons with Josh**  
These are daily private drum lessons designed to meet you at whatever skill level you are at (beginner to experienced). You will work with an experienced professional to bring your drum playing to an exciting new level of expertise. By the end of the first week you’ll be able to play along to some of your favorite songs and learn to create your own original beats so you can WOW your friends and family! By the end of the summer, you will play the beats in Pop, Rock, and Jazz styles. You will also be able to play a solo piece in the final recital.

**Private Guitar Lessons with Chris**  
**Private Guitar Lessons with Cliff**  
Guitar lessons start with the basics: learning each and every student’s goals and aspirations. Who do you listen to? What are your favorite bands? What gets you amped about guitar? What made you want to play? Where do you want your musical journey to take you? Once we understand the student’s goals and passion points, we create a customized curriculum that has them looking forward to every lesson.

Guitar lessons start with the basics: learning each and every student’s goals and aspirations. Who do you listen to? What are your favorite bands? What gets you amped about guitar? What made you want to play? Where do you want your musical journey to take you? Once we understand the student’s goals and passion points, we create a customized curriculum that has them looking forward to every lesson.

**Private Piano or Voice Lessons with Christa**  
**Private Piano or Voice Lessons with Nomi**  
Piano Lessons: All levels welcome! We will learn and build on the basic fundamentals of playing the piano, including understanding rhythm, meter, notation, music appreciation, musicality, exploring different genres, and more.

Voice Lessons: All levels welcome! We will cover everything from song interpretation, music appreciation and exploring genres, to pitch, singing with healthy vocal technique, and support and performance prep.

**Private Piano Lessons with Isaac**  
Private piano lessons are open for students of all skill levels from beginners to advanced players. Piano lessons for beginners will include learning the basics of piano technique and reading music. For more advanced players piano lessons will include improving their piano technique as well as learning additional techniques to improve their playing. Piano lessons will culminate with a recital in week 5.

**Afternoon Session (Period 5)**

**Afternoon Athletics**  
Grade Level: 3-9  
Session Dates: June 24 - July 26  
Period: P5 (Afternoon)  
Fee: $1,400

Afternoon Athletics is a great transition from the classroom to the playing fields, the swimming pool, and the gym. Our goal is to provide students with activities that promote fun and healthy play, and our expectations are to have all kids participate. Students will be placed into groups according to the grade that they will be going into in the fall. Activities include volleyball, basketball, indoor and outdoor soccer, tennis, indoor floor hockey tournaments, Capture the Flag, outdoor softball, kickball, frisbee, swimming, Carnival Day, and the ever-popular Moon Bounces. In addition to all of the fun sports and activities that we offer, field trips in the past have
included roller skating, bowling, laser tag, and the Santa Monica Pier. Information on field trips for this summer will be provided prior to the start of camp.

Marlborough Summer School Earth Science Exhibition. Get ready to rock and roll by taking this class!

**Cheerleading**
Grade Level: 3-9
Session Dates: June 24 - July 26
Period: P5 (Afternoon)
Fee: $1,325

Do you have school spirit? Join the squad and work together on offense/defense cheers, chants, and even a halftime dance routine with pom poms! We'll make a megaphone craft and have a blast! Each squad member will get to keep a set of pom poms. Go team!

**Circus Fun!**
Grade Level: 4-9
Session Dates: June 24 - July 26
Period: P5 (Afternoon)
Fee: $1,325

Have you ever danced to your favorite song on stilts or walked on a ball while singing? How about juggling three oranges or three rolled up socks to make your friends laugh? Or hula hooping two or more hoops at the same time? How about jumping rope to the beat of a drum or performing a magic illusion so cool and smooth the audience is spellbound. Learn all these skills and more in Circus Fun! This class is a highly physical and playful exploration of teamwork, juggling, hooping, stilts, dancing, magic, and silliness. The skills learned in this course including: balance, rhythm, dexterity, concentration, and performance awareness will all benefit the student for other endeavors in theater, sports, or just having fun with friends and family.

The first week is a discovery of the disciplines, and the following weeks are about mastery of the curriculum. The performance at the end of the program is an opportunity to showcase the tremendous effort the students will have spent perfecting these circus skills. No one will be left behind and everyone will be encouraged to do their best.
Create an Original Musical
Grade Level: 5-9
Session Dates: June 24 - July 26
Period: P5 (Afternoon)
Fee: $1,325

“And the Tony Award goes to...YOU!” Do you love musicals? The idea of belting out songs for no apparent reason? Do you have epic story ideas that can be transformed into a Broadway Musical? Then “Create an Original Musical” is for you! We will brainstorm, as a team, to find our story; create original songs (music and lyrics); and finally - write and rehearse our new piece for a performance the last week of Summer School. Better get your acceptance speech ready! See you at the theater!

Drawing and Painting
Grade Level: 3-5
Session Dates: June 24 - July 26
Period: P5 (Afternoon)
Fee: $1,325

Explore the wonderful world of watercolor, acrylics, pastels, and other mixed media while furthering your ability to draw and paint. Students will learn the fundamental techniques of color mixing, washes, wet on wet, and subject placement. In addition, through observational drawing, the students will develop their understanding of visual art elements such as line, shape, proportion, texture, and composition through a variety of fun and exploratory projects.

eSports Minecraft
Grade Level: 4-7
Session Dates: June 24 - July 26
Period: P5 (Afternoon)
Fee: $1,300

Marlborough will be working with Valhallan Esports this summer to create a 5-week camp for students in grades 4-7. The camp teaches kids teamwork and leadership as well as in-game skills and strategies through group activities and coach-led curriculum. We will provide kids of all skill levels with a safe, social, and fun way to get better at the games they love!

The camp will focus on Minecraft. Players will learn new building tricks, design secrets, and compete in building competitions amongst their peers. Players will also learn communication, leadership, and how to work together to build something extraordinary with their teammates! At the end of the camp, players will be able to take their new skills with them and put them to use on their own gaming time. If you took one of the camps last summer, there will be an opportunity for you to continue to build your skills this summer!

Musical Theater: The Aristocats
Grade Level: 3-9
Session Dates: June 24 - July 26
Period: P5 (Afternoon)
Fee: $1,325

This exciting workshop combines the fun and excitement of working as a team to create and perform a full production of a musical with the joy and fulfillment of a dynamic, creative, arts-oriented environment. The unique hands-on method is structured so that each child can be successful, igniting students' passion for arts appreciation and self-expression. Together we will learn and perform the musical The Aristocats.

Rock Band
Grade Level: 3-9
Session Dates: June 24 - July 26
Period: P5 (Afternoon)
Fee: $1325

Want to learn how to really rock the stage? Rock Band puts professional musicians in the rehearsal with the band—mentoring, sharing inspiring stories, and taking the music to
another level. Band members will learn how to set up and break down their equipment, hear and play their parts in the context of a band, get the right sounds from their instruments, run a live show, be a unified front to succeed as a team, and of course...rock the stage.

**Trends in Threads and Beads**  
**Grade Level:** 4-9  
**Session Dates:** June 24 - July 26  
**Period:** P5 (Afternoon)  
**Fee:** $1325

Interested in creating your own fashion statement? Dive into a world of stitches, beads, and creativity. Unleash your inner fashionista as you learn the basics of sewing and embroidery, transforming plain T-shirts and jeans into personalized masterpieces. From chic fashion accessories to fragrant sachets, cozy pillows with unique patterns, to dazzling beaded jewelry, this class is a crafting carnival. Join us for a summer of sewing, beading, and endless fun, as you create unforgettable gifts and add a touch of glitz and glamor to your summer style!

**Young Doctors**  
**Grade Level:** 3-6  
**Period:** P5  
**Fee:** $1325

Interested in CPR, first aid techniques, how to check blood pressure, pulse, and respiration? Then this class is for you! We will learn about the dissection of a sheep's or cow's eyeball, heart, and brain to compare their anatomy and physiology. Kids will learn how to recognize symptoms, read x-rays, and apply first responder emergency treatments like splints, slings, and bandages. Experience hands-on activities using all sorts of medical instruments, including stethoscopes, thermometers, and dissection tools. Learn what CPR means, what compressions are, and much more!

---

**Extended Care**

**After School Care**  
**Grade Level:** K-9  
**Session Dates:** June 24 - July 26  
**Period:** 2:45 p.m. - 5:00 p.m.  
**Fee:** $700

This program includes supervised daycare under the guidance of a Camp Coordinator and our camp counselors. Activities include games, art, athletics, reading, videos, and quiet time. Other activities are based on the ages and interests of the students.

Daily rates are available, please contact the Summer School Office for more information.
