Re: Lead In Drinking Water Sampling
Early Childhood Center
November 22 and December 13, 2023

Dear Michael,

This letter will serve as our report concerning the water sampling conducted at Early Childhood Center on November 14, 2023, and resampling on December 13, 2023 for compliance with the State of Missouri Title XI, Chapter 160.077, "Get The Lead Out of School Drinking Water Act".

Potable water sources for drinking or food preparation such as sinks, faucets, water fountains, ice makers, etc., were identified and first drawn water samples were collected after a stagnation period of at least eight hours. Two hundred and fifty milliliter non-preservative plastic containers were utilized for the sample collection. The water samples were analyzed by EPA 200.8 methods at a laboratory accredited for analysis of drinking water by the National Environmental Laboratory Accreditation Program (NELAP) and the Illinois EPA (ILEPA). Results are reported in micrograms per liter ($\mu\text{g/L}$), which is the same as parts per billion (ppb). Water sample results must be less than ($<$) 5.0 $\mu\text{g/L}$ or ppb, per the regulation. Results above 5.0 $\mu\text{g/L}$ require corrective actions.

Fifty-five samples were originally collected with results ranging from less than the laboratory limit of detection of 1.0 (<1.0) $\mu\text{g/L}$ to 10.9 $\mu\text{g/L}$. One result was above the mandated threshold of <5.0 $\mu\text{g/L}$. The one location was re-flushed and resampled with a result of 3.24 $\mu\text{g/L}$, therefore no further corrective action was warranted. Sample locations and laboratory results are contained in the attached table.

Sincerely,

Gregory K. Young
Senior Project Manager

RE: RITENOUR DRINKING WATER

Dear Greg Young:

Please find enclosed the analytical results for the **55** sample(s) the laboratory received on **11/27/23 2:40 pm** and logged in under work order **GK04153**. All testing is performed according to our current TNI accreditations unless otherwise noted. This report cannot be reproduced, except in full, without the written permission of Pace Analytical Services, LLC.

If you have any questions regarding your report, please contact your project manager. Quality and timely data is of the utmost importance to us.

Pace Analytical Services appreciates the opportunity to provide you with analytical expertise. We are always trying to improve our customer service and we welcome you to contact the General Manager, Lisa Grant, with any feedback you have about your experience with our laboratory at 309-683-1764 or lisa.grant@pacelabs.com.
