ISB LEADERSHIP TALK SERIES II

The Future of AI

4:00 pm to 5:00 pm
Thursday, January 25, 2024

Speaker BIOS

Dr. Junjie (Julien) Lai is a 10-year veteran of NVIDIA, and the senior director of the engineering and solution team of NVIDIA China. His team supports the technical requirements of key Chinese customers and develops industry solutions and customized software products. He earned his bachelor's and master's degrees in Electronics Engineering from Tsinghua University, and his Ph.D. in Computer Science from Inria, France. His doctoral research focused on GPU architecture and performance analysis models. He has a keen interest in high-performance computing, parallel computing, artificial intelligence, and their real-world applications. He has extensive experience in performance analysis and optimization.

Billy Lau graduated from ISB in 2015 and is currently based in Beijing, as the CEO of ByeCode. Billy and his team have enabled thousands of users to build hundreds of marketing-related apps including websites, customer/member portals, event apps, and more via ByeCode. They raised US\$1 million in funding. ByeCode is the ecosystem partner of iClick (NASDAQ listed company). Billy got his BA at the University of British Columbia and the University of Southern California with the major of cognitive science.

Tina Huang graduated from ISB in 2013. She is now the founder & CTO of INGENIUS STUDIOS. INGENIUS STUDIOS raised US\$500,000 to build a CRM that supports the creator economy. Tina is an AI and tech content creator with an audience of more than 800,000. She also built a learning platform that teaches students AI skills to work on freelance projects from real companies. Previously, she was a data scientist at Meta. Tina got her master's degree in computer science from the University of Pennsylvania and a bachelor's degree from the University of Toronto.
