

Third grade / S. Miller / March 2020

Specific directions for the remote learning packet:

MATH: Using the multiplication tricks we learned OR any of the other multiplication strategies, complete the multiplication fluency packet. You will soon be a multiplication rock star!

ELA: Time to read and solve a mystery!! As you read each chapter of the Jaguar's Jewel, complete the vocabulary for that chapter as well as the comprehension questions for the chapter. As you read, you will make predictions about who you think is a suspect. You may change your mind as you gather clues and read new chapters!!! At the end of the story, vote who you think is the criminal! I hope you can solve the mystery!!! After you are finished with the book, fill in the Mystery Story Frame. Good luck!

SCIENCE: Use the materials in the bag and create a leprechaun trap! You may use other materials. I hope you remember to set the trap and hopefully catch a pesky leprechaun!!! Use the STEM packet to guide your construction. Post a picture to SeeSaw if you are able! I would LOVE to see what you designed!

SOCIAL STUDIES: CANCEL THE PACKET! Instead work in SeeSaw to complete:
Lincoln Memorial, Ben Franklin, Compass Grid Map, and US symbols.

WRITING: You will be writing TWO different essays for this. First, select a topic from the persuasive writing prompt sheet. Next, fill out the graphic organizer to plan. Write your good copy and then use the writing checklist to "spaghetti and meatball" your work. When you are finished, have a grown up "grade" your work with the opinion checklist. THEN REPEAT THIS TO WRITE A SECOND ESSAY WITH A NEW TOPIC.

I hope this helps to clear up any questions about the remote learning packet sent home on Friday. I will be checking email and SeeSaw on a daily basis so if you need ANYTHING, let me know.

You may want to use Classlink to find other fun things to do while we are apart. Be in charge of your learning and stay safe!!!! Miss you already! Mrs. Miller
