

Dear Parents/Guardians and Students,

We have put together this packet of Math work for your child/you to work on pending any loss of school days. Please keep in mind, this should only be completed in the event that we are out of school for any reason.

In this packet you will find the following:

1. Math formula sheet (reference sheet)
2. 2D shapes description (reference sheet)
3. Regular Polygons examples (reference sheet)
4. Triangles and Quadrilateral information sheet (reference sheet)
5. Close Reading word problems
6. Math Review: Geometry
7. Math Review: Measurement
8. Math Review: Fractions (Mrs. Hammock's classes already have this)

Please complete the following per day: **one** Close Reading word problem and **one page** of **each** of the review packets.

The following pages should be completed in each packet:

Geometry	Measurement	Fractions
1-4	7-9	Any pages
14-19	14	
22 and 23	19	
	20	
	25	
	30	

Please keep in mind that we have assigned more for a "just in case" scenario. We **DO NOT** expect this all to be completed unless we have more than 10 days of absences.

Also in this folder is the "how to" for accessing the online learning of iReady. Please feel free to use this as a tool as well.

Thank you for your support and feel free to email us with any questions.

-Mrs. Hammock and Mrs. Swope
