

GRADE FOUR ACTIVITIES

SCIENCE, SOCIAL STUDIES

MR. EYSTER- SEYSTER@NORTHERNYORK.ORG

MYSTERY SCIENCE: Requires internet access

Birth of Rocks- Earth and Space science- Mystery Science Lessons 1-4

- <https://mysteryscience.com/rocks/rock-cycle-earth-s-processes>

Directions: Click on the link above. Click on Mystery 1- Could a volcano pop up where you live? Follow the directions within the video and complete Mystery 1 worksheets as best as you can. Some of the lessons require some simple home supplies. If some of the necessary items are not available, please watch the videos and do what you are able.

- Follow the same process for Mystery Lessons 2 through 4.

LEARNING TO LEARN: 21st Century Skills Series- Red student folder

Directions: Read and complete the following pages 7, 8, 11, 17, 18, and 19

ONE SCHOOL ONE BOOK: Nim's Island

Students have this building-wide, #ReadToThem text. We plan to continue our celebration online!

Directions: Follow the Building Calendar provided, by reading one chapter each evening. Stay tuned for additional ways to engage in this text!

STUDY ISLAND - Pennsylvania Science Standards

Challenge: Read and complete six science lessons - 70% is marks completion of each lesson.

Directions: Log into Study Island on ClassLink. Set a goal and keep growing your science knowledge!
