### Chromebook Bids 2024

The following companies bid on our RFP for the purchase of 458 Chromebooks. Within the RFP there were certain specifications that we were looking for, such as: particular model of chromebook, Google Licensing, length and coverage of warranty, white glove service (device set up), asset tagging.

1. Company Name: **Trafera** Bid: **\$210,222 \$459 per unit**
  
2. Company Name: **Howard Technology Solutions** Bid: **\$261,518 \$571 per unit**
  
3. Company Name: **Vivacity Tech** Bid: **\$194,879 \$425.50 per unit**
  - a. This bid included a tempered glass screen protector, hard shell cases, and chromebook/case assembly. These were not asked for in our RFP but were part of their bid.
  
4. Company Name: **Virtucom** Bid: **\$230,648 \$503.60 per unit**
  
5. Company Name: **MicroAge** Bid: **\$201,144 \$439.18 per unit**

Jacob Feaster, our onsite tech, and Annie Burns, our area supervisor, with Five-Star are looking over these bids to make sure they are giving us everything we have asked for. We may end up only ordering about 315-325 Chromebooks to keep it at what we can afford. If we order that amount we will put off taking our 1:1 program down to 8th grade until 2025-2026. This would enable us to do a refresh of 8th grade Chromebooks next year. This would also allow us to get on a one grade level per year refresh cycle.
