NORTHERN YORK COUNTY SCHOOL DISTRICT
COURSE

I. Philosophy

More than 60 education and library research studies have produced clear evidence that school library programs staffed by qualified school librarians have a positive impact on student academic achievement.

The library program does not exist in isolation. Our school's library program is managed by a certified librarian who performs both an instructional and an administrative role, and works in partnership with students, teachers, staff and administrators to develop the library program that best meets the needs of our school. Through collaboration with the classroom teacher, the library program incorporates the goals and objectives of the PA Core Standards (CC) and American Association of School Librarians (AASL).

In an age of information overload, acquiring information literacy skills and a commitment to lifelong reading and learning become even more crucial. In the school library, students gain an appreciation for literature and develop critical thinking, problem solving and communication skills as they use a variety of resources to meet the demands of today's curriculum and the future global economy.

The mission of the Northern York County School District Library Program is to produce learners who use information in an efficient and ethical manner as they develop a lifelong habit of reading and learning.

II. Core Concepts

A. Key feature of course (key understandings, assignments, reoccurring activities, projects)

Orientation
Effective Readers
Critical Thinkers do Effective Research
Responsible Citizens
Effective Speakers
Transition to College

B. Course of Study

Class periods are collaborative with the subject teachers.
Daily skills reinforcement with individual students

C. Texts and Resources

Destiny Online Catalog, NHS LibGuides, ebooks, databases, and the library's collection

D. Procedures for Evaluation

Informal assessment and observation.

Graded materials are a part of the collaborating teacher's grading system.
